SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JANUARY 7, 1904.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 5th JANUARY 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Gram 28 seers. Bájra 27 seers. Bejhar 29 seers.	Condition of irrigated crops good. Rain wanted for unirrigated crops.	...
2	Delhi ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Barley 26 seers. Gram 22 seers.	Crops on irrigated land average and of unirrigated area below average.	...
3	Ambala ...	0·83 in Jagádhri ... 0·42 in Kharar. 0·28 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 18 to 18½ seers. Gram 22½ to 23½ seers. Maize 28 seers.	A good shower of rain is still necessary.	...
4	Jullundur ...	0·12 at Sadr ... 0·41 in Phillour. 1·00 in Nawashahr.	1. Dry fodder sufficient. 2. Good.	Wheat 19 seers ... Gram 24½ seers. Barley 22 seers. Maize 27½ seers.	Condition of standing crops good; more rain wanted.	Sugarcane pressing continues.
5	Ferozepore ...	0·01 in Fázilka ...	1. Sufficient ... 2. Generally good.	Average ...	Condition of standing crops good except on unirrigated lands in Muktsar and Fázilka Tahsíls. Rapeseed crop is being damaged by caterpillars in certain villages.	...
6	Lahore ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Gram 24 seers. Rice 11 seers.	Watering of spring crops is in progress. Condition of standing crops good.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·18 average ...	1. Sufficient ... 2. Generally good.	Wheat 18¾ seers. Gram 26 seers. Maize 25½ seers. Bájra 22 seers.	Standing crops in good condition, more rain wanted.	Pressing of [illegible]ar-cane in progress.
8	Siálkot ...	0·29 at Siálkot; more in Zafarwál; less in Raya.	1. Sufficient ... 2. Generally good, but thin and lean from overwork.	Normal ... Maize 24 seers.	Sowing of barley continues. Condition of standing crops generally good.	Pressing of sugarcane, picking of cotton, and harvesting of toria (*brassica campestris*) in progress. Outturn average. Sugarcane has been damaged to some extent by frost.
9	Shahpur ...	0·07 in Bhera ... 0·13 at Shahpur. 0·90 in Khusháb.	1. Sufficient ... 2. Good.	Wheat 16 to 19 seers. Barley 23 to 26 seers. Maize 20 to 21 seers. Bájra 22 to 23 seers. Gram 22 to 25 seers. Jowár 23 to 25 seers.	Sowings in progress ...	Average.
10	Ráwalpindi ...	0·36 at Ráwalpindi 0·01 in Murree.	1. Sufficient ... 2. Generally good.	Wheat 15½ seers... Bájra 18 seers. Maize 21½ seers. Gram 21¼ seers. Barley 21 seers.	Condition of standing crops good.	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 16 seers ... Gram 26 seers. Barley 29 seers. Bájra 23½ seers. Jowár 31 seers.	Condition of standing crops average.	...
12	Mooltan ...	0·10 at Mooltan ..	1. Sufficient ... 2. Good.	Wheat 15¾ seers Gram 21¼ seers. Maize 24 seers.	Condition of standing crops good.	Picking of cotton and harvesting of til (sesamum) in progress.

GENERAL REMARKS.

1. *Rainfall.*—Rain has fallen in Ambala, Jullundur, Amritsar, Siálkot, Shahpur, and in parts of Ráwalpindi and Mooltan. A slight shower is also reported from Ferozepore.

2. *Prices.*—The price of wheat is falling in Amritsar and rising in Shahpur and Ráwalpindi. The prices of other food-grains are fluctuating.

3. *Agricultural operations.*—Pressing of sugarcane, picking of cotton, and harvesting of other autumn crops are in progress in some districts. Sowing of spring crops continues in Siálkot and Shahpur.

4. *Crops and outturn.*—Condition of spring crops generally good, except in parts of Hissar, Delhi and Ferozepore Recent rain has benefited the standing crops, but more rain is required in most districts. Outturn of autumn crops average in Siálkot and Shahpur.

5. *Damage done to crops.*—Rapeseed is damaged by caterpillars in parts of Ferozepore.

6. *Agricultural stock.*—Cattle are generally in good condition except in Siálkot, where they are being overworked.

7. *Pasturage.*—Fodder sufficient in all districts.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th January 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 26th December 1903 there were 1,088 births registered in the 42 large municipal towns (536 males and 552 females), giving a birth-rate of 40 per *mille* of population, and 1,567 deaths were registered (788 males and 779 females), giving a death-rate of 57 per *mille* of population. The death-rates registered in the largest towns were as follows :—Delhi 49 against 58 in the corresponding week of the previous year, Lahore 41 against 42, Amritsar 81 against 56, and Mooltan 41 against [illegible]1. The great increase in the death-rates recorded in Ráekot, Bhiwáni, Gujránwála, Jagraon, Siálkot and Jhelum was due to plague, and in Ferozepore and Amritsar to fevers. Of the 85 deaths registered from small-pox, 30 were recorded in Amritsar, 28 in Rewári and 13 in Rohtak.

Deaths reported from plague during the week ending 2nd January 1904 *in the districts, including all municipal towns.*—Jullundur 91, Hoshiárpur 28, Gurdáspur 143, Siálkot 175, Ludhiána 131, Lahore 3 Ambala 158, Ferozepore 33, Amritsar 13, Gujrát 62, Jhang 11, Gujránwála 72, Ráwalpindi 1, Shahpur 19, Karnál 32, Gurgaon 64, Hissar 32, Rohtak 2, and Jhelum 13; Patiála State 41, Kapurthala State 31 Máler Kotla State 2, and Kalsia State 4. Total for the Province 1,161; total for the week ending 26th December 1,344, including 2 in Lahore, 281 in Ludhiána, 13 in Máler Kotla State and 2 in Kalsia State from which returns were not received last week.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

KASHI RAM, Supdt.,

for ***Sanitary Commissioner, Punjab.***

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-ONE THOUSAND FIVE HUNDRED AND FORTY-NINE births were registered in the Province during the month of November 1903, giving a birth-rate of 49 per *mille* of population. Of the total number of births, 42,781 were boys and 38,768 were girls.

The total number of deaths registered from all causes in the Province during the month of November 1903 was 105,114 against 87,177 in the previous month, and 73,960 in the corresponding month of the past year; giving an annual death-rate of 64, 51 and 45 per *mille* of population per annum, respectively. A very large increase in the mortality, due, as usual, to the prevalence of malarial fevers in this month, was recorded in the districts of Gurdáspur, Shahpur, Amritsar, Ambala, Siálkot, Mooltan, Muzaffargarh and Jhelum. The great increase in the death-rate in the Ludhiána District was due to fevers and plague.

There were 17 deaths registered under the head of cholera against 431 in the previous month.

From small-pox 667 deaths were registered against 376 in the previous month and 441 in the corresponding month of the past year; plague 4,190 against 2,016 and 3,897, fevers 75,580 against 59,768 and 47,887; dysentery and diarrhœa 2,033 against 2,116 and 1,404; respiratory diseases 6,403 against 5,991 and 5,318. During the month there were 20 deaths registered from suicide against 33 in the past month; wounding 24 against 35; accidents 226 against 293; snake-bite and killed by wild beasts 63 against 147; and from all other causes 15,891 against 15,971, and 14,693 in the corresponding month of the past year.

11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 16 seers ... Gram 26 seers. Jowár 31 seers. Bájra 23½ seers.	Rain wanted. Crops average.	...
12	Mooltan ...	0·05 at Mailsi ... 0·05 in Lodhrán. 0·03 in Shujábad. 0·05 in Kabírwála.	1. Sufficient ... 2. Good. ...	Wheat 15¼ seers Gram 21¼ seers. Maize 24 seers.	Wheat sowings completed. Standing crops average.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in all districts except Hissar, Delhi, Miánwáli and Jullundur.

Prices.—The price of wheat is falling in Hissar and Ráwalpindi and rising in Delhi, Lahore and Mooltan. The prices of other food-grains are unchanged, except in Ráwalpindi, where they are falling.

Agricultural operations.—Picking of cotton and pressing of sugarcane are in progress in some districts. Sowing of spring crops finished, except in Siálkot, where sowing of barley still continues.

Crops and outturn.—Condition of spring crops generally good, except in parts of Hissar, Delhi and Ferozepore. More rain is wanted in most districts and is very urgently required in Hissar and Delhi. Outturn of autumn crop average in Siálkot and Shahpur.

Damage done to crops.—Rapeseed crop is damaged by caterpillars is parts of Ferozepore.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts.

TULSI DAS, OFFG. SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th January 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd January 1904 there were 1,113 births registered in the 42 large municipal towns (590 males and 523 females), giving a birth-rate of 40 per *mille* of population, and 1,563 deaths were registered (818 males and 745 females), giving a death-rate of 57 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 56 against 65 in the corresponding week of the previous year, Lahore 40 against 40, Amritsar 73 against 51, and Mooltan 40 against 37. The great increase in the death-rates recorded in Ráekot, Sialkot, Jagraon, Gujránwála and Jhelum was due to plague, and in Tánda Urmar, Ferozepore and Pind Dádan Khan to fevers. Of the 93 deaths registered from small-pox, 32 were recorded in Rewári, 28 in Amritsar, 10 in Rohtak and 7 in Kasúr.

Deaths reported from plague during the week ending 9th January 1904 in the districts including all municipal towns.—Jullundur 119, Hoshiárpur 104, Gurdáspur 104, Siálkot 199, Ludhiána 188, Ambala 215, Ferozepore 67, Amritsar 15, Gujrát 21, Jhang 21, Gujránwála 80, Shahpur 37, Karnál 26, Gurgaon 52, Hissar 16, Rohtak 7, and Jhelum 5; Patiala State 49, Kapúrthala State 33, Máler Kotla State 39, and Kalsia State 6. Total for the Province 1,403; total for the previous week 1,161.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 19th JANUARY 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0 33 at Hissar. 0 45 in Hánsi. 0 06 in Bhiwáni 0 14 in Fatehabad. 0 12 in Sirsa. 0·44 in Budhláda. 0·25 in Tohána.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 25 seers. Gram 27 seers. Bejhar 28 seers.	Rainfall has benefited the standing crops to some extent. More rain wanted. Irrigated crops in good condition.	...
2	Delhi ...	Very slight rain ...	1. Sufficient ... 2. Good.	Wheat 15½ seers Barley 25 seers. Gram 21½ seers.	Prospects of out-turn still unfavourable.	...
3	Ambala ...	1·01 at Ambala ... 0·89 in Naraingarh. 0·91 in Kharar. 0·60 in Rúpar. 0·44 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 18 to 18½ seers. Gram 22½ to 23½ seers. Jowár 28 seers. Maize 28 seers.	Crops in good condition	...
4	Jullundur ...	Good rain throughout.	1. Sufficient ... 2. Good.	Wheat 18¾ seers Gram 24½ seers Barley 23 seers. Maize 28 seers.	Prospects of crops good	Sugarcane pressing continued.
5	Ferozepore ...	0·48 in Moga ... 0·57 in Zíra. 1·13 at Sadr. 1·14 in City. 0·97 in Muktsar. 0·43 in Fázilka. 0·30 in Nathána. 0·50 in Jalálabad.	1. Dry fodder sufficient. Green not available. 2. Good.	Average ...	Condition and prospects of standing crops good. Rapeseed crop is being damaged by caterpillars in iláqa Rohi of Tahsíl Fázilka.	...
6	Lahore ...	1·37 at Lahore ... 1·17 in Chunián. 1·57 in Kasúr. 1·15 in Sharakpur.	1. Abundant ... 2. Generally good.	Wheat 17½ seers Gram 25 seers. Rice 11 seers.	Condition of standing crops good.	Pressing of sugarcane is in progress.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	1·33 average ...	1. Sufficient ... 2. Good.	Wheat 18¾ seers .. Gram 26 seers. Maize 27 seers. Bájra 21 seers.	Rain has been beneficial to the standing crops which are in good condition.	Pressing of sugarcane in progress.
8	Siálkot ...	3·50 at Siálkot, less in Zafarwál, Pasrúr, Raya and Daska.	1. Sufficient ... 2. Good, but thin and lean from overwork.	Normal ... Maize 25 seers.	Standing crops generally in good condition.	Pressing of sugarcane in progress. Outturn of sugarcane and toria (Brassica Campestris) average. Sugarcane somewhat damaged by frost.
9	Shahpur ...	2·39 in Bhera ... 1·92 at Shahpur. 2·61 in Khusháb. 1·98 in Midh. 2·67 in Sáhiwál. 1·70 in Nurpur. 2·25 in Mitha Tiwána. 3·01 in Sukesar. 2·55 in Miáni.	1. Sufficient ... 2. Good.	Wheat 17 to 19 seers. Barley 22 to 26 seers. Maize 20 to 24 seers. Gram 22 to 25 seers. Bájra 22 to 23 seers.	Sowings completed ...	Yield of cotton average.
10	Ráwalpindi ...	2·98 in Pindigheb 5·80 in Fatahjang. 4·58 in Attock. 4·31 at Ráwalpindi. 3·95 in Gujar Khan. 5·68 in Kaháta. 4·55 in Murree.	1. Sufficient ...	Wheat 16 seers ... Bájra 19 seers. Maize 23 seers. Gram 22 seers. Barley 22 seers.	Prospects good ...	...
11	Miánwáli ...	2·41 at Miánwáli 1·45 in Isa Khel.	1. Procurable ... 2. Good.	Wheat 16$\frac{5}{16}$ seers Bájra 25 seers. Jowár 31 seers. Gram 26 seers. Barley 30 seers.	Condition of crops improved by recent rainfall.	...
12	Mooltan ...	0·46 in Mailsi ... 0·73 in Lodhrán. 0·94 in Shujábad. 1·03 at Mooltan. 0·79 in Kabírwála.	1. Sufficient ... 2. Good. ...	Wheat 15¾ seers Gram 21¼ seers. Maize 24 seers.	Condition of standing crops average.	...

GENERAL REMARKS.

Rainfall.—Good rain has fallen in all districts except Ambala, Delhi and Hissar. Hissar wants more rain. Delhi has received very little.

Prices.—The price of wheat is rising in Hissar and Jullundur and falling in Lahore, Miánwáli and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane is in progress in Jullundur, Lahore, Amritsar and Siálkot. Sowing of spring crops completed in Shahpur.

Crops and outturn.—Condition of standing crops is satisfactory, except in Delhi and Hissar. Outturn of sugarcane and toria (Brassica Campestris) in Siálkot and of cotton in Shahpur is said to be average.

Damage done to crops.—Rapeseed crop is being damaged by caterpillars in parts of Ferozepore and sugarcane has suffered somewhat from frost in Siálkot.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND FRONTIER PROVINCE DURING NOVEMBER 1903.

November is ordinarily the finest and quietest month of the year in north-west India, and November 1903 formed no exception to this rule. At the commencement of the month the weather was clear generally with a higher temperature than usual, but on the 4th the sky clouded over in the Punjab, the North-West Frontier Province and Kashmír, and conditions became feebly unsettled. On the 5th light showers of rain on the plains and on the outer ranges and of snow on the inner ranges of the Himáláyás were reported from Sonemarg, Pesháwar and Dera Ismail Khan; on the 6th from Siálkot, Murree, Srinagar, Sonemarg (2·04″), Drás, Montgomery and Mooltan; on the 7th from Simla, Murree, Srinagar and Sonemarg; and on the 8th from Murree, Srinagar and Sonemarg. On the 9th the weather cleared again and was fine with relatively low temperatures until the 14th, when the sky again clouded over in Kashmír and the submontane regions, and showers of snow fell at Sonemarg and Drás on the 15th and 16th. After the latter date the weather again cleared and remained fine till the close of the month.

Pressure and Winds.—The atmospheric pressure, on the mean of the month, was slightly lower than usual at all stations except Sirsa and Khusháb, where it was in trifling excess. The winds were north-westerly over the east of the Punjab, and generally varied between north-east and south-east in other places.

Temperature.—The mean temperature of the month was slightly lower than usual at Delhi, Montgomery, Simla, Srinagar and Cherát, and was in moderate defect at Murree and Leh. It was in excess at the remaining stations, the variation amounting to +1°·3 at Lahore, to +1°·8 at Siálkot, to +2°·0 at Ráwalpindi, and to +1°·7 at Pesháwar. The mean maximum or day temperature varied by only small amounts from the average generally, but at Sirsa and at the hill stations there was some defect and at Ráwalpindi some excess. The mean night temperature was generally above the average, more particularly at Siálkot, Ráwalpindi and Pesháwar, but at most of the hill stations the nights, on the mean of the month, were cooler than usual. The warmest place was Delhi with a mean temperature of 69°·4.

The following table shows the variations from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered with the name of the station recording it :—

Date	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 5th ...	+ 2·3	92·3	Sirsa.	" 20th ...	+ 2·5	84·4	Do.
" 6th ...	− 2·1	89·2	Delhi.	" 21st ...	+ 3·0	85·3	Mooltan.
" 7th ...	− 1·4	87·0	Umballa.	" 22nd ...	+ 4·1	85·3	Do.
" 8th ...	− 1·7	84·3	Mooltan.	" 23rd ...	+ 4·9	87·4	Khusháb.
" 9th ...	− 1·9	84·3	Do.	" 24th ...	+ 3·3	84·8	Montgomery.
" 10th ...	− 2·3	86·3	Do.	" 25th ...	+ 4·0	85·4	Khusháb.
" 11th ...	− 1·8	87·8	Do.	" 26th ...	+ 4·2	84·3	Mooltan.
" 12th ...	− 1·5	87·3	Do.	" 27th ...	+ 3·6	84·8	Sirsa.
" 13th ...	− 1·4	86·8	Do.	" 28th ...	+ 1·7	82·8	Do.
" 14th ...	− 1·2	84·8	Montgomery and Mooltan.	" 29th ...	− 0·6	81·3	Mooltan.
" 15th ...	− 1·6	83·9	Mooltan.	" 30th ...	− 1·9	78·3	Khusháb and Mooltan.

The above shows that the mean temperature of the whole area was higher than usual from the 1st to the 5th; lower than usual from the 6th to the 17th; higher than usual from the 18th to the 28th; and lower than usual on the two last days of the month. The variations were largest on the 4th (+2°·6), the 10th (−2°·3), the 23rd (+4°·9), and the 26th (+4°·2).

Maximum temperatures exceeding 90° were registered at the commencement of the month, but on the last day of the month the highest recorded temperature was 78°·3 at Khusháb and Mooltan.

Humidity and Cloud.—The air was drier than usual except at Ludhiána, Lahore, Siálkot, Murree and Srinagar, where the relative humidity was normal or in slight excess. The mean cloud amount of the month was in defect except at Lahore, Khusháb, Pesháwar, Dera Ismail Khan, Simla, Srinagar and Cherát.

Rain.—Light rain was received during the month at Mooltan, Dera Ismail Khan, Pesháwar, Murree, Srinagar, Siálkot, Montgomery and Simla, and snow at some of the Kashmír stations. The amount received was everywhere in defect of the normal, more especially on and near the hills.

The following table gives the rainfall data for the Punjab, Kashmír and the Frontier Province stations for November 1903:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 18th January 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 9th January 1904 there were 1,124 births registered in the 42 large municipal towns (550 males and 574 females), giving a birth-rate of 41 per *mille* of population, and 1,425 deaths were registered (729 males and 696 females), giving a death-rate of 52 per *mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 53 against 69 in the corresponding week of the previous year, Lahore 35 against 39, Amritsar 64 against 48, and Mooltan 36 against 35. The great increase in the death-rates recorded in Ráekot, Jagraon, Siálkot and Tánda [illegible] mar was due to plague, and in Ferozepore to fevers. Of the 55 deaths registered from small-pox, 25 were recorded in Amritsar, 11 in Rewári, and 8 in Rohtak.

Deaths reported from plague during the week ending 16th January 1904 in the districts, including all municipal towns.—Jullundur 93, Hoshiárpur 123, Gurdáspur 194, Siálkot 287, Ludhiána 1,561, Lahore 4, Ambala 186, Ferozepore 36, Amritsar 78, Gujrát 43, Jhang 8, Gujránwála 42, Ráwalpindi 38, Shahpur 13, Karnál 34, Gurgaon 60, Hissar 19, Rohtak 17, and Jhelum 13; Patiála State 100, Kapurthala State 49, Máler Kotla State 74, Jínd State 9, and Kalsia State 2. Total for the Province 3,080; total for the previous week 1,403.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUMMARY OF REMARKS ON THE KHARIF CROP OF THE PUNJAB FOR THE YEAR 1903.

The Season.—The spring rains were very favourable for sowings of cotton and sugarcane in the Central and North Punjab. In the central and submontanedistricts good rain fell in the fourth week of January. February was practically rainless (except in the hills), but there was an excellent fall in March. Over two inches were registered in fifteen districts and seven districts received about an inch. The only districts in which indifferent conditions prevailed were Delhi, Hissar, Rohtak and Gurgaon, none of which reported more than one-third of an inch. Good showers continued well into April.

Monsoon Rains.—Some scattered showers fell in June, but the monsoon did not reach the Punjab till the 15th of July, when copious rain fell throughout the Province The rains, though late, were in time for kharíf sowings, with the exception of cotton on unirrigated lands in the Delhi Division The rainfall was ample and well distributed throughout August. A short break in the middle of the month was welcomed in most districts; many reports actually showing that sowings were deferred. or that considerable areas remained unsown, owing to incessant showers Good rain fell between the 23rd and 27th. This was followed by a lengthy break which gave rise to some anxiety, particularly with regard to Hissar. where the rain in the end of August was very light. The 10th, 11th and 12th of September, however, brought abundant general rain, an unusually heavy fall being recorded. Some of the submontane districts returned quite abnormal figures There were a few scattered showers later on in the month, and also in the first week of October. The main features of the season were thus a rather late monsoon well sustained throughout August, followed by a seasonable downpour at a time when it was most beneficial for the kharíf harvest as well as for rabi sowings.

The Delhi and Ballabgarh Tahsíls in the Delhi District, the Muktsar and Fázilka Tahsíls in Ferozepore, and the Gurgaon and Ráwalpindi Districts were the only tracts in which the September rains were deficient. Hissar passed through a crisis, but the rain just came in time in September.

Calamities of season.—Floods caused injury to the crops in riverain tracts, especially in the Muzaffargarh and Miánwáli Districts. Low-lying tracts suffered in a similar manner A protective *band* burst at Mooltan, resulting in serious loss. Locusts were reported as causing damage in the Mooltan, Muzaffargarh and Dera Ghazi Khan Districts

Area.—The conditions were favourable for sowings, and 12,925,381 acres were sown against 12,508,591 acres in the Kharíf of last year, an increase of 416,790 acres. The failed area amounted to 2,315,850 acres, or almost 18 per cent. The failures of last year were 25 per cent.

The largest failed areas were as follows :—

	Acres.
Hissar	378,706
Rohtak	1 0 231
Gurgaon	133 735
Ferozepore	263,793
Lahore	104,477
Jhelum	119,742
Ráwalpindi	188 647
Mooltan	121,505
Dera Ghází Khan	102,292

The leading causes were floods and deficient rainfall in September in Ráwalpindi and the south-east corner of the Province.

The area of crops actually harvested amounted to 10 609 521 acres against 9 385 384 acres in the previous year. This is an increase of about 13 per cent. and is nearly equal to the harvest of 1900. The increase is entirely in the unirrigated area, the irrigated area being practically the same. Taking matured areas, the largest increases in the Delhi Division are in Hissar 1,003,371 acres, Rohtak 27 9 2 acres and Karnál 77,439 acres. This is very satisfactory, as all these districts were unfortunate in recent years. Hissar appears to have had a better harvest than in 1900. Gurgaon, Delhi and Ambala show decreases. In the Jullundur Division there is contraction in all districts, which is, however, slight except in Hoshiárpur, where it amounts to 63,065 acres. In the Lahore Division Lahore shows an advance of 64 380 acres. Other districts call for no remarks. In the Ráwalpindi Division Ráwalpindi alone need be noticed with a decrease of 107,543 acres. In the Mooltan Division all districts return large areas except Muzaffargarh. The most important increases are Jhang (including the Chenab Colony) 107,104 acres, Mooltan 88,142 acres, and Dera Ghází Khan 54,131 acres. Mooltan, like Hissar and Rohtak, had two bad harvests in 1902-03.

There is an increase under all the most important crops except maize, which does not thrive in a year of excessive rainfall. The cotton crop has been a record one in area and total yield in spite of the failure of the unirrigated crop owing to the lateness of the monsoon. The distribution of the area into the various crops compared with the past year is as follows :—

Name of crop.	1902.	1903.
Cereals	57·2	56 5
Pulses	10 6	11 8
Oil-seeds	2 9	2 5
Fodder	12·8	14 3
Cotton	11·1	9 9
Sugarcane	3 4	3·1
Others	2 2	1 9
	100	100

The variations do not call for remark.

Yield.—The outturn is reported average or above average. The only unfavourable reports are from the districts of Gurgaon, Delhi and Ráwalpindi Jhang reports a splendid crop.

Taking area and yield into consideration the kharíf crop of the Province may be estimated to have been a 18-anna crop all round.

W. RENOUF,

Director of Land Records and Agriculture, Punjab.

STATEMENT NO. II A.—*Crop return in acres for Kharif 1903.*

W. C. RENOUF,

Director of Land Records and Agriculture, Punjab.

NORTH-WESTERN RAILWAY.

Abstract of Principal Commodities carried over the North-Western Railway during the month of October 1903, as compared with the same month of the previous year.

No.	Staples.	1902.	1903.	Increase in 1903.	Decrease in 1903.	REMARKS.
		Tons.	Tons.	Tons.	Tons.	
1	Apparel, including drapery, haberdashery, millinery, uniforms, accoutrements, boots and shoes ...	398	393	...	5	
2	Coal and coke carried for the public and foreign Railways ...	2,116	3,623	1,507	...	
3	Cotton—					
	(1) Raw ...	581	942	361	...	
	(2) Manufactured—					
	(a) Twist and yarn, European ...	235	180	...	55	
	(b) Twist and yarn, Indian ...	672	614	...	58	
	(c) Piece-goods, European ...	1,876	2,234	358	...	
	(d) Piece-goods, Indian ...	2,4 4	2,831	420	...	
	(e) Others ...	84	164	80	...	
4	Chemicals, excepting saltpetre ...	222	217	...	5	
5	Drugs—					
	(1) Intoxicating other than opium ...	52	26	...	26	
	(2) Non-intoxicating—					
	(a) Medicinal preparations ...	32	20	...	12	
	(b) Others ...	653	729	86	...	
6	Dyes and Tans—					
	(1) *A'l (morinda citrifolia)* ...	...	...	...	...	
	(2) Alizarine and aniline dyes ...	39	31	...	8	
	(3) Cutch ...	3	3	...	...	
	(4) Indigo ...	255	191	...	64	
	(5) Myrabolams ...	21	18	...	3	
	(6) Tanning barks ...	13	31	18	...	
	(7) Turmeric ...	192	268	76	...	
	(8) Others ...	643	783	140	...	
7	Fodder—					
	(1) Oil-cake ...	2,147	461	...	1,686	
	(2) Hay, straw and grass ...	3,222	2,440	...	782	
8	Fruits and vegetables, fresh ...	2,015	1,652	...	363	
9	Grain and pulse—					
	(1) Gram and pulse ...	9,644	13,630	3,986	...	
	(2) Jowár and bájra ...	5,856	3,019	...	2,837	
	(3) Rice in the husk ...	2,650	2,567	...	83	
	(4) Rice not in the husk ...	4,493	6,800	2,307	...	
	(5) Wheat ...	55,320	86,324	31,004	...	
	(6) Wheat flour ...	4,136	4,106	...	30	
	(7) Others ...	1,863	2,738	875	...	
10	Hides and Skins—					
	(1) Hides of cattle—					
	(a) Dressed or tanned ...	31	13	...	18	
	(b) Raw ...	568	573	5	...	
	(2) Skins of sheep and other animals—					
	(a) Dressed or tanned ...	19	3	...	16	
	(b) Raw ...	736	591	...	145	
11	Horns ...	9	20	11	...	
12	Hemp (Indian) and other fibres, excluding jute	65	74	9	...	
13	Jute—					
	(1) Raw ...	28	2	...	26	
	(2) Gunny bags and cloth ...	9,794	2,875	...	6,919	

No.	Staples.	1902.	1903.	Increase in 1903.	Decrease in 1903.	Remarks.
		Tons.	Tons.	Tons.	Tons.	
14	Lac ...	137	39	...	98	
15	Leather—					
	(1) Unwrought ...	149	136	...	13	
	(2) Wrought, excepting boots and shoes ...	179	191	12	...	
16	Liquors—					
	(1) Ale and beer ...	907	707	...	200	
	(2) Spirits of all kinds, including country spirit ...	399	390	...	9	
	(3) Wine ...	...	...	...	...

LAHORE, THURSDAY, JANUARY 28, 1904.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 26th JANUARY 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 25 seers. Gram 27 seers. Bejhar 28 seers.	Prospects of irrigated crops good. More rain wanted for unirrigated crops.	...
2	Delhi ...	...	1. Sufficient ... 2. Good.	Wheat 15½ seers Barley 26 seers. Gram 22 seers.	Prospects of crops on irrigated lands fair, but those on unirrigated lands unfavourable.	...
3	Ambala ...	0·15 in Jagádhri ...	1. Sufficient ... 2. Good.	Wheat 18 to 18½ seers. Gram 22½ to 23½ seers. Jowár 28 seers. Maize 28 seers.	Condition of crops good	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 19 seers ... Gram 25 seers. Barley 23 seers. Maize 29 seers.	Prospects good ...	Sugarcane pressing continued.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Average ...	Condition and prospects of standing crops good. Rapeseed crops being damaged by caterpillars in ilάqa Rohi of Tahsíl Fázilka.	...
6	Lahore ...	...	1. Sufficient ...	Wheat 17 seers ... Gram 25 seers. Rice 11 seers.	Crops in good condition	Pressing of sugarcane is in progress.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF Spring.	PROSPECTS OF Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers .. Gram 27 seers. Maize 27½ seers. Bájra 22 seers.	Condition and prospects of standing crops good.	Pressing of sugar-cane is in progress.
8	Siálkot ...	...	1. Sufficient ... 2. Generally good, but thin and lean from overwork.	Normal ... Maize 25 seers.	Condition of standing crops generally good.	Pressing of sugar-cane is in progress. Outturn average.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 17 to 19 seers. Barley 22 to 26 seers. Gram 22 to 23 seers. Bájra 22 to 23 seers. Maize 20 to 24 seers.	...	Outturn of sugar-cane average.
10	Ráwalpindi ...	0·85 in Pindigheb 0·15 in Attock. 0·70 in Murree.	1. Sufficient except Gujar Khan and Attock Tahsíls. 2. Fair.	Wheat 16½ seers. Bájra 19½ seers. Maize 22¾ seers. Gram 23 seers. Barley 22¾ seers.	Prospects good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Fair.	Wheat 16½ seers... Gram 30 seers. Barley 26 seers. Bájra 25 seers. Jowár 41 seers.	Condition of crops good	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 15¾ seers Gram 21¾ seers. Maize 23 seers.	Prospects of standing crops average.	Til (sesamum crop) being threshed and cleaned. Outturn average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ambala and Ráwalpindi.

Prices.—The price of wheat is falling in Jullundur, Ráwalpindi and Miánwáli and rising in Lahore. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Jullundur, Lahore, Amritsar and Siálkot. Til (sesamum) crop is being threshed and cleaned in Mooltan.

Crops and outturn.—Condition of standing irrigated crops is reported good throughout the Province, but that of unirrigated unfavourable in Delhi and Hissar, where more rain is urgently wanted. Outturn of sugarcane in Siálkot and Shahpur and of Til (sesamum) in Mooltan is said to be average.

Damage done to crops.—Rapeseed crop is being damaged by caterpillars in parts of Ferozepore.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts except in parts of Ráwalpindi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th January 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Pun[illegible]*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 16th January 1904 there were 974 births registered in the 42 large municipal towns (501 males and 473 females), giving a birth-rate of 35 per *mil'e* of population, and 1 339 deaths were registered (691 males and 648 females), giving a death-rate of 49 per *mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 47 against 59 in the corresponding week of the previous year, Lahore 30 against 43, Amritsar 63 against 44, and Mooltan 32 against 38. The high death-rates of 209 in Ráekot and 174 in Jagraon were due to plague. Of the 88 deaths registered from small-pox, 36 were recorded in Amritsar, 17 in Rohtak, 14 in Rewári, and 13 in Kasúr.

Deaths reported from plague during the week ending 23rd January 1904 in the districts, including all municipal towns.—Jullundur 123, Hoshiarpur 105, Gurdáspur 230, Siálkot 373, Ludhiána 247, Lahore 2, Ambala 322, Ferozepore 69, Amritsar 85, Gujrát 54, Jhang 8, Gujránwála 52, Ráwalpindi 36, Shahpur 73, Karnál 46, Gurgaon 58, Hissar 29, Rohtak 53, and Jhelum 2; Patiála State 31, Kapurthala State 84, Máler Kotla State 129 and Jínd State 8. Total for the Province 2,279; total for the previous week 3,080.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

during the month of December 1903 was 3 feet 3 inches.

TULSI DAS, SUPDT.

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of December 1903.

1.—HISSAR DISTRICT.

Prospects of irrigated rabi crops good. Rain urgently wanted for unirrigated cultivation. Fodder sufficient. Cattle in good condition. Prices stationary.

2.—ROHTAK DISTRICT.

Barley only was sown on lands irrigated by well water. Crops sown on lands irrigated by canal water in good condition, while those sown on báráni lands have commenced withering in some places for want of winter rains. The outturn of the báráni crops will be small if there are no winter rains. Outturn of sugarcane is average. Cattle generally in good condition. Fodder sufficient. No complaints about supply of canal water.

3.—GURGAON DISTRICT.

There was no rainfall during the month. Crops on irrigated area were watered by canal and well water. Tobacco and zíra sown, and gur made from the sugarcane. Owing to there being no rain the condition of the standing crops on irrigated area is fair and on unirrigated bad. Should the winter rains fail the outturn will be poor. Condition of cattle fair. Health of people fair. Agra Canal being used. No river inundation or floods from hill torrents.

4.—DELHI DISTRICT.

The rabi prospects are favourable so far, but rain is urgently wanted. Condition of cattle good. Health of people fair. Fodder and stocks of food-grains are sufficient. No complaints about the irrigation by canal.

5.—KARNAL DISTRICT.

Crops in fair condition. Rain badly wanted. Yield expected to be average. Cattle in good condition. Health of people good. Water is being given from wells and canal to wheat, gram and poppy.

6.—AMBALA DISTRICT.

No sowings in progress. Rabi crops in need of more rain. The expected yield uncertain yet. The condition of cattle good. Fodder and water sufficient.

7.—SIMLA DISTRICT.

Good rain has fallen in both tahsíls. No sowings during the month. They will be commenced as soon as drier weather sets in. Standing crops in good condition. The outturn cannot yet be stated. Condition of cattle good. Fodder available everywhere. Health of people good. Water-supply sufficient and usual irrigation effected.

8.—KANGRA DISTRICT.

Almost all the area has been sown with wheat, barley and poppy. The condition of the crops is good. The yield is expected to be above the average. The condition of cattle is good. The state of public health generally good. There was sufficient water in the *kuhls* for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

The rainfall during the month has greatly benefited the standing crops. The late rabi sowings are in progress in parts of the district. The sugarcane is being cut. The yield is expected to be about the average. The cotton has been harvested. The yield was just below the average, or 94 per cent. The cattle are generally in good condition. The supply of fodder is ample. The health of the people has, on the whole, been good. The usual area was irrigated during the month from the Shah Nahr and other zamíndári canals and hill torrents.

10.—JULLUNDUR DISTRICT.

Rabi sowings completed. Rain needed. Standing crops good. Sugarcane crops attacked by *tela* in parts. Dry fodder sufficient. Cattle in good condition. Health good.

11.—LUDHIANA DISTRICT.

No sowing in progress. Condition of the crops good. White ants have caused slight damage to wheat crops in some places. Cotton picking in progress: outturn is good. Cattle are in good condition. Irrigation from canals ordinary.

12.—FEROZEPORE DISTRICT.

Sowings of rabi crops and harvesting of kharíf crops were finished in the beginning of the month. Condition of standing crops good except on bárani lands in Muktsar and Fázilka Tahsíls, where crops are withering for want of rain. In four or five villages of the Fazilka Tahsíl sarshaf crops are being damaged by *sundís*: yield expected to be good. Cattle generally in good condition. The Sirhind Canal has been flowing during the month, and normal area was irrigated from it. Stocks of food-grains and fodder sufficient.

13.—MONTGOMERY DISTRICT.

Sowings completed. Condition of crops average. Cattle in good condition. Fodder available. Health of people generally good. Canals dry. Scanty water in rivers.

14.—LAHORE DISTRICT.

Rabi sowings have been completed. The condition of crops is on the whole about average. Besides the rainfall shown in the statement a sharp shower fell on 4th January 1904, but it does not seem sufficient to improve the crops. Nothing can be said about expected yield at this stage. The condition of cattle is fairly good. Fodder is sufficient. The state of public health is generally good. The Bári Doáb Canal is working fairly well. Prices are stationary.

15.—AMRITSAR DISTRICT.

Average rain during the month, 0·12, has much benefited the rabi crops. Rain wanted. Pressing of sugarcane in progress. Standing crops in need of more rain. Prospects of rabi crops good. Condition of cattle and health of people generally good. Stocks and fodder sufficient. Canal water-supply sufficient.

16.—GURDASPUR DISTRICT.

Good rain during the month. Late sowings continued. Condition of crops good. Expected yield average. Condition of cattle generally good. Fodder sufficient. Public health generally good. No particular floods.

17.—SIALKOT DISTRICT.

Sowing of wheat, barley and Goji continued. Rain is badly wanted. Condition of standing crops generally good. Wheat and barley damaged to some extent by *toka* insect and sugarcane by frost. Outturn of cotton, sugarcane and toria average. Cattle generally in good condition, but thin and lean owing to overwork. Fodder sufficient. Sufficient water in Bajwat Canals.

18.—GUJRANWALA DISTRICT.

Sowings completed. Condition of standing crops good. Yield cannot be estimated at present. Condition of cattle good. Fodder sufficient. Canal water not sufficient. Complaints about short supply of water owing to the narrowness of the exits of minors. Prices of food-grains somewhat declining.

19.—GUJRAT DISTRICT.

There has been a little rainfall here and there, but more is urgently needed. Sowing on irrigated lands continues. Condition of crops is, on the whole, average. Sugarcane is being pressed: yield is average. Condition of cattle is good and fodder is sufficient. Public health is generally good. No floods, &c., from hill torrents occurred during the month. Prices are practically stationary.

20.—SHAHPUR DISTRICT.

Sowing of rabi crop is nearly finished. Condition of crops generally good. Rain needed. Yield of kharif crops was fair. Rabi yield expected to be good. Cattle in good condition. Fodder sufficient. Prices stationary.

Colony.—Sowing of wheat still continues in some of the lands recently given out. The toria crop is now matured. There has been slight rainfall, but not sufficient to have much effect on the crops. They are, however, everywhere good on irrigated lands. It is too early to say what the yield of wheat will be. The yield of toria should be above the average. Condition of cattle generally good.

21.—JHELUM DISTRICT.

The little rain during the month has done good. Condition of young crops good and will improve with the recent rain. Condition of cattle generally good. No floods. Prices stationary throughout the district.

22.—RAWALPINDI DISTRICT.

The little rain during the month has done some good to the crops and scanty sowings have been made. The rabi sowings are average. There is no cattle disease in the district. The health of people is generally good.

23.—MIANWALI DISTRICT.

The rainfall during the month under report was below the average, but was beneficial for the standing crops in Bhakkar and Leiah. It is badly wanted in Miánwáli and Isa Khel. Sowings of rabi crops finished in Bhakkar and Leiah. Condition of crops moderate in Miánwáli and Isa Khel. The condition of cattle fair and fodder sufficient in all tahsíls.

24.—JHANG DISTRICT.

Slight rainfall during the month. Rabi sowings nearly completed. Condition of standing crops generally good. Cotton and sesamum gathered: cotton 4 maunds and sesamum 4½ maunds per acre. Cattle generally in good condition, but fodder not sufficient. Canals flowing.

25.—MOOLTAN DISTRICT.

Wheat sowings completed. Outturn of cotton and til crops average having partially suffered from "*mula*" and "*sar*" respectively. Prospect of rabi crops good. Condition of cattle good. Canals all dried up.

26.—MUZAFFARGARH DISTRICT.

Sowings finished. Condition of crops good to average. Condition of cattle generally good. Canals are dry. Food stock and fodder generally sufficient.

27.—DERA GHAZI DISTRICT.

Rabi sowings completed. Condition of young crops good in Sanghar. Outturn of indigo and rice good, of bájra and jowár average, in Dera Gházi Khan. Outturn of cotton in some places in Sanghar less than was hoped for, and area cultivated increased owing to late flow of canals. The Shoria Canal still contains some water available at its tail. Prospects good. Slight rain has benefited crops in Jámpur and Rájanpur. Fodder sufficient and condition of cattle good in all tahsíls.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

The total number of deaths registered from all causes in the Province during the month of December 1903 was 90,313 against 105,114 in the previous month and 77,169 in the corresponding month of the past year, giving an annual death-rate of 53, 64 and 45 per *mille* of population per annum, respectively. A large increase in the death-rate, due, as usual, to the prevalence of malarial fevers in this month, was recorded in the districts of Shahpur, Muzaffargarh, Amritsar, Gurdáspur, Siálkot, Jhelum, Ráwalpindi, Jhang and Ambala. The great increase in the death-rate in the Ludhiána District was due chiefly to plague.

There were 2 deaths registered under the head of cholera against 17 in the previous month. From small-pox 1,297 deaths were registered against 667 in the previous month and 920 in the corresponding month of the past year; plague 6,821 against 4,190 and 7,839; fevers 60,477 against 75,580 and 46,728; dysentery and diarrhœa 1,496 against 2,033 and 1,338; respiratory diseases 6,465 against 6,403 and 6,181. During the month there were 13 deaths registered from suicide against 20 in the past month; wounding 23 against 24; accidents 269 against 226; snake-bite and killed by wild beasts 28 against 63; and from all other causes 13,422 against 15,891 in the previous month and 13,801 in the corresponding month of the past year.

Sanitary Commissioner's Office,
Lahore:
The 27th January 1904.

6	Lahore ...	...	1. Sufficient ... 2. Generally good.	Wheat 17 seers ... Gram 27 seers. Rice 11 seers.	Prospects of crops good; they are being watered.	Pressing of sugarcane going on.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Generally good.	Wheat 18¾ seers... Gram 27½ seers. Maize 27½ seers. Bájra 25 seers.	Condition and prospects of standing crops good.	Pressing of sugarcane in progress.
8	Siálkot ...	...	1. Sufficient ... 2. Generally good.	Normal ... Maize 24 seers.	Condition of standing crops generally good.	Pressing of sugarcane continues. Outturn average.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 22 to 28 seers. Gram 25 to 26 seers. Bájra 23 seers. Maize 20 to 25 seers.	Land is being prepared for extra spring crops.	Outturn of sugarcane average.
10	Ráwalpindi ...		1. Sufficient except in parts. 2. Generally good.	Wheat 17 seers. Bájra 21 seers. Maize 23½ seers. Gram 23 seers. Barley 24 seers.	Prospects good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 16½ seers... Gram 26 seers. Barley 30 seers. Jowár 31 seers. Bájra 25 seers.	Condition of crops good	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers... Gram 22¼ seers. Maize 25 seers.	Prospects of standing crops average.	Toria "Brassica Campestris" being threshed and cleaned. Outturn average.

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—The price of wheat is falling in Shahpur, Ráwalpindi and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Jullundur, Lahore, Amritsar and Siálkot. Toria (Brassica Campestris) is being threshed and cleaned in Mooltan. Land is being prepared for extra spring crops in Shahpur.

Crops and outturn.—Condition of standing irrigated crops is reported good in all districts except Mooltan where it is said to be average. Unirrigated crops are withering for want of rain in Delhi, Hissar and parts of Ferozepore. Outturn of sugarcane in Siálkot and Shahpur and of Toria (Brassica Campestris) in Mooltan is reported to be average.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Ráwalpindi.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 2nd February 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd January 1904 there were 998 births registered in the 42 large municipal towns (543 males and 455 females), giving a birth-rate of 36 per *mille* of population, and 1,261 deaths were registered (643 males and 618 females), giving a death-rate of 46 per *mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 47 against 56 in the corresponding week of the previous year, Lahore 31 against 41, Amritsar 57 against 40, and Mooltan 30 against 29 The high death-rates of 189 in Ráekot, 122 in Tánda Urmar, 113 in Sialkot and 109 in Jagraon were due chiefly to plague. Of the 60 deaths registered from small-pox, 12 were recorded in Rohtak, and the same number in Rewári, 11 in Amritsar, and 9 in Kasúr.

Deaths reported from plague during the week ending 30th January 1904 in the districts, including all municipal towns.—Jullundur 132, Hoshiarpur 222, Gurdáspur 425, Siálkot 359, Ludhiána 698, Lahore 2, Ambala 439, Ferozepore 93, Amritsar 94, Gujrát 109, Jhang 15, Gujránwála 67, Ráwalpindi 29, Shahpur 18, Karnál 35, Gurgaon 53, Hissar 43, Rohtak 47, and Jhelum 5; Patiála State 42, Kapurthala State 133, Máler Kotla State 105, Jínd State 25, and Kalsia State 33. Total for the Province 3,223; total for the week ending 23rd January 2,307, including 28 in Kalsia State from which returns were not received last week.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

LAHORE, THURSDAY, FEBRUARY 11, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 9th FEBRUARY 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Gram 26 seers. Bájra 26 seers. Bejhar 27 seers.	Unirrigated crops withering for want of rain. Rain urgently needed. Prospects of irrigated crops good.	...
2	Delhi ...	...	1. Procurable, but is getting scarce. 2. Good.	Wheat 16½ seers Barley 26 seers. Gram 22 seers.	Prospects of spring crops fair on irrigated lands and unfavourable on unirrigated lands in the villages near Delhi. Extra spring crops are being sown.	In the villages near Delhi sugarcane sowings have also commenced.
3	Ambala ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ to 20 seers. Gram 22 to 24 seers. Maize 32 seers. Jowár 35 seers.	Rain very much needed for spring crops especially for wheat.	...
4	Jullundur ...	0·25 at Sadr ... 0·60 in Nawashahr.	1. Sufficient ... 2. Good.	Wheat 19 seers ... Gram 26½ seers. Barley 24 seers. Maize 30 seers.	Condition and prospects of standing crops good. Sowings of extra spring crops commenced.	...
5	Ferozepore ...	0·02 in Fázilka ...	1. Sufficient except in parts.	Average ...	Sowing of extra spring crops commenced. Condition and prospects of standing crops good except on unirrigated lands in the Fázilka Tahsíl.	...
6	Lahore ...	0·11 in Chunián ...	1. Sufficient ...	Wheat 18 seers ... Gram 27 seers. Rice 11 seers.	Condition of standing crops good. They are being irrigated.	Pressing of sugarcane going on.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·12 Average ...	1. Sufficient ... 2. Generally good.	Wheat 18¾ seers... Gram 28 seers. Maize 28 seers. Bájra 25½ seers.	Condition and prospects of standing crops good.	Pressing of sugarcane in progress.
8	Siálkot ...	...	1. Sufficient ... 2. Generally good.	Normal ... Maize 24 seers.	Condition of standing crops generally good.	Pressing of sugarcane continues. Outturn average.
9	Shahpur ...	0·07 in Midh ...	1. Sufficient ... 2. Good.	Wheat 17 to 21 seers. Barley 23 to 28 seers. Gram 23 to 26 seers. Bájra 24 to 24½ seers. Maize 22 to 23 seers.	Land is being prepared for extra spring crops. Condition of standing spring crop good.	Pressing of sugarcane in progress.
10	Ráwalpindi ...	...	1. Sufficient except in Gujar Khan and Attock Tahsíls.	Wheat 17 seers ... Bájra 21 seers. Maize 23 seers. Gram 23 seers. Barley 24½ seers.	Prospects good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 17 seers ... Gram 32 seers. Barley 32 seers. Bájra 26 seers. Jowár 32 seers.	Condition of standing crops good.	...
12	Mooltan ...	...	1. Sufficient ... 2. Generally good.	Wheat 16 seers... Gram 22¼ seers. Maize 25 seers.	Prospects of standing crops average. Toria (Brassica Campestris) being threshed and cleaned. Outturn average.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Jullundur, Lahore, Amritsar, Ferozepore and Shahpur.

Prices.—The price of wheat is rising in Hissar and falling in Delhi, Ambala, Lahore, Shahpur and Miánwáli. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in some districts. Sowing of extra spring crops in certain districts and of sugarcane in parts of Delhi has commenced. Toria (Brassica Campestris) is being threshed and cleaned in Mooltan.

Crops and outturn.—Condition of standing irrigated crops is reported good in all districts except Mooltan where it is said to be average. Rain is urgently required for unirrigated crops in Hissar, Delhi, Ambala and parts of Ferozepore where they are withering for want of it. Outturn of sugarcane in Siálkot and of Toria (Brassica Campestris) in Mooltan is said to be average.

Agricultural stock.—Condition of cattle is generally good throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Ráwalpindi and Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

*Mean of 22 days.

The fine, quiet and settled weather which had prevailed over North-West India during the latter half of November held steadily during the first three weeks of December. During this period no rain fell over the plains and the weather was fine with a generally lower temperature than usual. On the 6th the sky clouded over slightly and a light snow shower was reported from Drás in Kashmír on the 8th. On the 10th the sky cleared and though light snow was received at Sonemarg and Drás on the 11th; at Sonemarg, Skardu and Drás on the 17th and at Drás on the 18th and 21st, the weather was generally fine and clear from the 10th to the 22nd. On the 23rd the sky clouded over generally and during the 24th or early on the 25th rain fell at Ludhiána, Siálkot, Ráwalpindi, Cherát, Peshávar, Khusháb, Dera Ismail Khan and Mooltan and snow on the hills. On the 26th and 27th unsettled showery weather continued over the hills and submontane districts and on the morning of the 28th a heavy local fall of snow was reported from the Simla hills. On the three last days of the month the weather was fine, but conditions were unsettled and light showers fell at Ludhiána.

Pressure and Winds.—Pressure, on the mean of the month, was lower than usual at all stations. The deficiency was greatest over the North-West Frontier Province and was generally greater on the plains than on the hills. The winds were exceedingly variable.

Temperature.—The mean temperature of the month was lower than usual at all stations except Simla (+2°·4), Leh (+0°·2) and Cherát (+0°·4). The deficiency was greatest in the south and east and amounted to nearly 2°·0 at Delhi, Sirsa, Ludhiána and Montgomery. The mean day or maximum temperature exceeded the normal at Umballa, (+1°·1), Ráwalpindi (+0°·6), Khusháb (+0°·9), Simla (+2°·3), Murree (+0°·5), Leh (+0°·9) and Cherát (+0°·6), but was lower than usual at the remaining stations, more particularly at Delhi, Sirsa and Ludhiána, where the deficiency varied between −1°·4 and −1°·9. The mean minimum or night temperature was lower than usual except at Simla and Cherát, and the deficiency was between 2° and 3° at several stations. The warmest place was Delhi with a mean temperature of 59°·6. At Simla the mean temperature was 46°·6 and at Murree 45°·4.

On several occasions during the month the minimum or night temperature was much lower at stations on the plains than at stations on the neighbouring hills: thus on the 2nd the lowest temperature recorded at Cherát was 49°·0 while the minimum at Pesháwar was 36°·9; at Murree the minimum was 42°·0 and at Ráwalpindi 34°·0 and at Simla 44°·3 and at Ludhiána 39°·6. This inversion of the usual temperature relations is not uncommon during the cold weather.

The following table shows the variations from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

				" 31st ...	−2·2	70·8	Do.

The mean temperature of the whole area was generally lower than usual from the 1st to the 8th ; higher than usual from the 9th to the 12th ; lower from the 13th to the 16th ; higher from the 17th to the 24th and lower from the 25th to the end of the month. The warmest day relatively to the normal was the 20th (+3°·2) and the coolest the 28th (−6°·6).

Humidity and Cloud.—The air was generally drier than usual and the mean cloud amount was below the normal except at Umballa, Ráwalpindi, Pesháwar, Dera Ismail Khan, S[illegible]a and Cherát.

Rain—Fell at all stations except Leh, Montgomery, Delhi and Sirsa during the month, the total fall on the plains ranging from 0·11" at Mooltan and 0·14" at Dera Ismail Khan to 1·03" at Pesháwar and 1·05" at Ráwalpindi. On the hills the amount was larger, reaching 2·33" at Srinagar and 1·99" at Simla. The month's rainfall exceeded the normal at Pesháwar, Srinagar, Cherát, Ráwalpindi and Simla.

The following table gives the rainfall data for the Punjab, Kashmír and the Frontier Province stations for December 1903 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

TARY COMMISSIONER'S OFFICE,
LAHORE :
The 8th February 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 30th January 1904 there were 1,021 births registered in the 42 large municipal towns (536 males and 485 females), giving a birth-rate of 37 per *mille* of population, and 1,207 deaths were registered (625 males and 582 females), giving a death-rate of 44 per *mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 44 against 51 in the corresponding week of the previous year, Lahore 37 against 42, Amritsar 52 against 39, and M[illegible] 20 against 38. The rate of mortality from plague was very high in the towns of Ráekot, Jagraon, Tánda Urmar, Batála and Siálkot. Of the 54 deaths registered from small-pox, 13 were recorded in Amritsar, 12 in Rewári and 7 each in Rohtak and Kasúr.

Deaths reported from plague during the week ending 6th *February* 1904 *in the districts, including all municipal towns.*—Jullundur 168, Hoshiarpur 197, Gurdáspur 554, Siálkot 374, Ludhiána 444, Lahore 5, Ferozepore 123, Amritsar 62, Gujrát 116, Jhang 2, Gujránwála 140, Ráwalpindi 20, Shahpur 78, Karnál 31, Gurgaon 43, Hissar 21, Rohtak 49, and Jhelum 6; Patiála State 51, Kapurthala State 110, Máler Kotla State 135, Jínd State 23, and Kalsia State 33. Total for the Province 2,785; total for the previous week 3,223.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 24 to 28 seers. Maize 22 to 26 seers. Gram 24 to 26 seers. Bájra 23 to 25 seers.	Standing crops good. Ploughings for extra spring crops commenced.	Yield of sugarcane average.
10	Ráwalpindi ...	...	1. Sufficient except Attock and Gujar Khan Tahsíls. 2. Generally good.	Wheat 17 seers ... Bájra 21 seers. Maize 23 seers. Gram 23 seers. Barley 23½ seers.	Prospects good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 17 seers ... Barley 32 seers. Gram 32 seers.	Crops fair ...	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers... Gram 22 seers. Maize 24½ seers.	Prospects of spring crops good.	...

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—The price of wheat is rising in Hissar and Shahpur and falling in Ambala. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Jullundur, Lahore and Amritsar. Sowing of extra spring crops in certain districts and of sugarcane in Ferozepore has commenced.

Crops and outturn.—Condition of standing irrigated crops is reported good to fair in all districts and that of unirrigated crops is unfavourable in Hissar, Delhi, Ambala and Ferozepore, where rain is urgently required. The unirrigated crops in Hissar are withering. Outturn of sugarcane is average in Shahpur.

Agricultural stock.—Condition of cattle is generally good in all districts.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Ráwalpindi and Delhi.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

ANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 16th February 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 6th February 1904 there were 952 births registered in the 42 large municipal towns (499 males and 453 females), giving a birth-rate of 35 per *mille* of population, and 1,182 deaths were registered (614 males and 568 females), giving a death-rate of 43 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 41 against 53 in the corresponding week of the previous year, Lahore 30 against 41, Amritsar 53 against 44, and Mooltan 22 against 34. There were 226 deaths reported from plague; the largest number were registered in the following towns:—Siálkot 50, Jagraon 37, Ráekot 33, Ludhiána 30, Jullundur 26 and Batála 19. Of the 42 deaths from small-pox, 17 were registered in Amritsar.

Deaths reported from plague during the week ending 13*th February* 1904 *in the districts, including all municipal towns.*—Jullundur 190, Hoshiárpur 150, Gurdáspur 573, Siálkot 200, Ludhiána 825, Lahore 109, Ferozepore 161, Amritsar 66, Gujrát 187, Jhang 12, Gujránwála 128, Ráwalpindi 42, Shahpur 221, Karnál 35, Gurgaon 15, Hissár 24, Rohtak 60, and Jhelum 4; Patiála State 176, Kapurthala State 199, Máler Kotla State 151, Jínd State 22, and Kalsia State 19. Total for the Province 3,569; total for the week ending 6th February 3,119 including 334 in the Ambala District from which returns were not received last week.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

6	Lahore ...	...	1. Sufficient ... 2. Generally good.	Wheat 19 seers ... Gram 27 seers. Rice 11 seers.	Standing crops good ...	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·02 average ...	1. Sufficient ... 2. Generally good.	Wheat 18½ seers... Gram 27¼ seers. Maize 28½ seers. Bájra 26 seers.	Standing crops good ...	Pressing of sugarcane continues. Ploughing for sowing of sugarcane and cotton commenced.
8	Siálkot ...	...	1. Sufficient ... 2. Good.	Normal ... Maize 26 seers.	Standing crops good. Sowing of extra spring crops commenced in some places.	Pressing of sugarcane continues: outturn average.
9	Shahpur ...	...	1. Sufficient ... 2. Generally good.	Wheat 18 to 20 seers. Barley 24 to 28 seers. Maize 22 to 26 seers. Gram 24 to 25 seers. Bájra 24 to 26 seers.	Ploughings for extra spring crops in progress. Standing crops in good condition.	Yield of sugarcane average.
10	Ráwalpindi ...	0·04 at Sadr ...	1. Sufficient except in Gujar Khan and Attock Tahsíls.	Wheat 17 seers ... Bájra 21 seers. Maize 25 seers. Gram 23½ seers. Barley 24½ seers.	Standing crops good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 17 seers ... Gram 29 seers. Maize 34 seers.	Condition of crops fair ...	...
12	Mooltan ...	0·02 at Mooltan ...	1. Sufficient ... 2. Generally good.	Wheat 16 seers... Gram 23¾ seers. Maize 26½ seers.	Standing crops good. Sowing of extra spring crops commenced.	Toria (Brassica campestris) being cleaned and gathered in parts: outturn average. Planting of sugarcane commenced.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ambala, Ferozepore, Amritsar, Ráwalpindi and Miánwáli.

Prices.—The price of wheat is rising in Ambala, Jullundur and Amritsar, and falling in Lahore. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Amritsar and Siálkot. Sowings of extra spring crops continue in Jullundur, Ferozepore and Shahpur, and have commenced in Siálkot and Mooltan. Sowings of sugarcane have commenced in certain districts.

Crops and outturn.—Condition of standing irrigated crops is reported good to fair in all districts and that of unirrigated crops is unfavourable in Hissar and Delhi. More rain is wanted in Ambala, and unirrigated crops are withering in Hissar. Outturn of sugarcane in Siálkot and Shahpur and of Toria (Brassica campestris) in parts of Mooltan is said to be average.

Agricultural stock.—Condition of cattle is generally good throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in Delhi and parts of Ráwalpindi.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 23rd February 1904.

KASHI RAI, SUPDT.,
for *Sanitary Commissioner, Punjab*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 13th February 1904 there were 949 births registered in the 42 large municipal towns (489 males and 460 females), giving a birth-rate of 35 per *mille* of population, and 1,095 deaths were registered (554 males and 541 females), giving a death-rate of 40 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 42 against 49 in the corresponding week of the previous year, Lahore 27 against 30, Amritsar 49 against 41, and Mooltan 32, against 36. There were 189 deaths reported from plague; the largest number were registered in the following towns:— Siálkot 39, Jagraon 35, Ludhiána 30, Ráekot, 25, Batála 17, and Jullundur 15. Of the 26 deaths from small-pox 6 were registered in Jhajjar and 5 in Amritsar.

Deaths reported from plague during the week ending 20th February 1904 in the districts including all municipal towns.—Jullundur 226, Hoshiárpur 237, Gurdáspur 616, Siálkot 365, Ludhiána 1,536, Lahore 73, Ferozepore 157, Amritsar 49, Gujrát 152, Jhang 19, Gujránwála 270, Ráwalpindi 15, Shahpur 69, Karnál 31, Gurgaon 19, Hissar 45, Rohtak 86, Jhelum 1, Montgomery 1, and Delhi 26; Patiála State 158, Kapurthala State 168, Máler Kotla State 141, Jind State 41, and Kalsia State 19. No returns were received from the Ambala District for the past two weeks. Total for the Province 4,520; total for the previous week 3,569.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

slight rain.
the month of January 1904 was 4 feet 11½ inches.
the month of January 1904 was 2 feet.

TULSI DAS, OFFG. SUPDT.,
Office of Director of Land Records and Agriculture, Punj

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of January 1904.

1.—HISSAR DISTRICT.

Rainfall of this month benefited the standing unirrigated crops to some extent, but more rain is urgently wanted. Prospects of irrigated crops good. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

No sowings. Condition of standing crops on irrigated lands good. Winter rains badly wanted for baráni crops. The outturn of baráni crops will be small if no rain falls now. Cattle generally in good condition. Fodder sufficient. No complaints about supply of canal water.

3.—GURGAON DISTRICT.

Sugarcane is being pressed in nahri villages, and the land prepared and seed sown for the extra rabi. The condition of the standing crops on irrigated lands is fair; on unirrigated bad. Rape-seed has suffered from excessive cold, and is being cut and given to the cattle in some places. Outturn average. Condition of cattle fair. Agra Canal being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Prospects of rabi outturn on nahri and cháhi lands fair and on baráni unfavourable Health of people and condition of cattle good. Fodder and stocks of food-grains are sufficient. Prices are almost the same as in the last month. No complaints about the irrigation by canal.

5.—KARNAL DISTRICT.

The rain was beneficial to crops. Tobacco and onion have been planted. The crops are in fair condition, and the yield is expected to be average. Cattle are in good condition. Health of people good. Water is being given to wheat, &c., from wells and canals.

6.—AMBALA DISTRICT.

No sowings in progress. Rain badly wanted for wheat. Expected yield uncertain. Condition of cattle good. Fodder and water sufficient.

7.—SIMLA DISTRICT.

Sufficient rain fell in both tahsíls, and the full amount of sowings have been made. The standing crops in the Simla Tahsíl are in good condition, also in Kot Khai, except on lands still under snow. Considering the present condition of the standing crops, the pro-

bable outturn is reckoned as good. Cattle in good condition. Fodder and grazing available everywhere. Water-supply sufficient.

8.—KANGRA DISTRICT.

All the area has been sown with wheat and poppy. The condition of the crops is good. The yield is expected to be above the average. The condition of cattle is good. The public health is good. Water was sufficient in the *kuhls* for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

A good deal of rain fell during the month which helped the late sowing, and a considerable additional area was broken up and sown during January. The standing rabi has been greatly benefited by the recent rains. The sugarcane has not yet been harvested. The yield is expected to be about the average. The supply of fodder is ample. Gaddís from the Kángra District have as usual brought large flocks of sheep and goat for grazing into the hilly portions of the Dasúya Tahsíl. The Shah Nahr and other zamíndári canals and hill torrents have been running full, but little water was taken for irrigating purposes during the month.

10.—JULLUNDUR DISTRICT.

Crop prospects good. Sugarcane attacked by "tela" in parts Dry fodder sufficient. Cattle in good condition. Health good.

11.—LUDHIANA DISTRICT.

No sowing in progress. Condition of crops good. Sugarcane crushing in progress. Outturn is good. Cattle are in good condition. Irrigation from canals ordinary. Prices stationary.

12.—FEROZEPORE DISTRICT.

Rainfall generally good for rabi harvest except in the Fázilka Tahsíl, where it is badly wanted. Condition and prospects of standing crops good except on baráni lands in Fázilka Tahsíl. In a few villages of the Fázilka Tahsíl rape-seed crops were damaged by caterpillars. Yield expected to be good The Sirhind Canal has been flowing during the month, and a normal area was irrigated from it. Stocks of food-grains and fodder are sufficient. Green fodder is available throughout the district.

13.—MONTGOMERY DISTRICT.

No sowings. There has been rain in all tahsíls,—a fact which has benefited the rabi cultivation. Condition of crops good up to the present. Outturn expected to be average. Fodder sufficient. All canals are dry, while there is little water in the rivers.

14.—LAHORE DISTRICT.

The rainfall was good all over the district and improved the crops well. The condition of the irrigated and unirrigated crops is up to this time excellent. The expected yield good. The Bári Doáb Canals are working fairly well. Prices are stationary.

15.—AMRITSAR DISTRICT.

Average rain during the month was 1·53 which is beneficial to the rabi crops. Sugarcane pressing and harvesting of toria in progress. Condition of standing crops good. Prospects of the expected yield of the rabi harvest good. There were no complaints of deficiency of canal water.

16.—GURDASPUR DISTRICT.

There was good rain during the month, and a little more land was sown in Pathánkot Tahsíl. Condition of crops good. Expected yield of sugarcane good. No disease among cattle. Fodder sufficient. The Bári Doáb Canal has been closed for repairs.

17.—SIALKOT DISTRICT.

Good rainfall has benefited the rabi crop. Sowing of barley continued to some extent. Condition of standing crops good. Sugarcane somewhat damaged by frost. Outturn of cotton, toria and sugarcane average. Sufficient water in Bajwat Canals. The River Chenab and hill streams were overflooded, which caused some damage to villages bordering on them.

18.—GUJRANWALA DISTRICT.

No sowings. Condition of crops good. The yield of rabi cannot be estimated at present, but the yield of gur per kanal of sugarcane is 3 maunds. Canal water sufficient. Prices of food-grains falling.

19.—GUJRAT DISTRICT.

There was good rain all over the district, and ploughings for extra rabi and kharíf crops are in progress. The condition of standing crops is generally good. Sugarcane is being pressed in some places. Condition of cattle is good and fodder is sufficient. Flood from hill torrents occurred once during the month. Prices slightly falling.

20.—SHAHPUR DISTRICT.

Ploughings for extra rabi and kharíf in progress. Condition of standing crops good. Expected yield above average. Fodder sufficient. Owing to recent rains private canals were running for a few days. All canals now closed for a few days. Prices generally stationary.

Colony.—Picking of cotton concluded about the middle of the month. The crop is a fair one in the Bhera Tahsíl and light in Shahpur. Sowings of wheat for rabi have now come to an end. Cutting of the *toria* crop is in progress. In most of the canal lands the crop is a heavy one. Good rain fell on the 13th and 14th January, enabling the Canal Department to close the canal for repairs on 16th January. Crops are everywhere in a good condition. Fodder plentiful. The canal will be closed until the 5th February.

21.—JHELUM DISTRICT.

The good and opportune rain received during the month has benefited standing crops considerably. New sowings of rabi crops were made during the month. The condition of the crops is excellent, and good yield is expected. No flood. Prices stationary.

22.—RAWALPINDI DISTRICT.

There was very good rain during the month and did good to rabi crops. Condition of rabi crops is good.

23.—MIANWALI DISTRICT.

The rainfall this month has been above the average and beneficial to the standing rabi crops. Condition of cattle good. Fodder sufficient.

24.—JHANG DISTRICT.

No sowings. Slight rain fell during the month which proved beneficial to the rabi crops. Standing crops generally good. Yield average. Sugarcane 13 maunds per acre, to 15 maunds per acre. Condition of cattle good. Fodder sufficient. No disease. Health of people generally good. Canals following.

25.—MOOLTAN DISTRICT.

Outturn of sathri and til average. Prospects of rabi crops good. Condition of cattle good. Health of people good. Two Rájbahás of the Sidhnai Canal flowing for a few days past.

26.—MUZAFFARGARH DISTRICT.

Condition of crops good. Condition of cattle and health of people good in Alípur. Fodder sufficient in Alípur and Sinánwán Tahsíls, and average in Muzaffargarh. Canals dry. Ordinary floods reported in the Indus River.

27.—DERA GHAZI DISTRICT.

Crops in all tahsíls have benefited much by excellent rain and promise well. The rain damaged jowár grain, still on the threshing floors, somewhat. Fodder sufficient everywhere, except in river circle of Dera Tahsíl. Public health good. The Shoria Canal is the only one which has worked at all. Zaid rabi being sown in Jámpur.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

THE total number of deaths registered from all causes in the Province during the month of January 1,904 was 74,935 against 90,313 in the previous month and 7?,544 in the corresponding month of the past year, giving an annual death-rate of 44, 53 and 42 per *mille* of population per annum, respectively.

The total mortality from plague amounted to 12,027 against 6,821 in the previous month and 9,533 in the corresponding month of the past year. The largest number of deaths from plague during the month were reported in the following district :—Ludhiána 4,786, Siálkot 1,353, Ambala 1,331 and Gurdáspur 1,147.

There were 2 deaths registered under the head of cholera. From small-pox 1,412 deaths were registered against 1,297 in the previous month and 1,414 in the corresponding month of the past year; fevers 43,927 against 60,477 and 41,223; dysentery and diarrhœa 895 against 1,496 and 968; respiratory diseases 5,913 against 6,465 and 6,898. During the month there were 15 deaths registered from suicide against 13 in the past month; wounding 26 against 23; accidents 265 against 269; snake-bite and killed by wild beasts 19 against 28; and from all other causes 11,403 against 13,432 in the previous month and 12,115 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, MARCH 3, 1904.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 1st MARCH 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Bájra 26 seers. Gram 25 seers. Bejhar 26 seers.	Unirrigated crops withering for want of rain. Irrigated crops in good condition.	...
2	Delhi ...	...	1. Getting scarce ... 2 Good.	Wheat 15½ seers Barley 27 seers. Gram 23 seers.	Crops on irrigated lands fair and those on unirrigated lands unfavourable. Sowings of extra spring crops commenced.	...
3	Ambala ...	0·06 in Naráingarh.	1. Sufficient ... 2. Good.	Wheat 19½ to 20 seers. Gram 24½ to 25 seers. Barley 21 seers. Maize 34 seers. Jowár 35 seers.	Condition of standing crops good, but need rain.	...
4	Jullundur ...	Slight rain ...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Gram 26 seers. Barley 24 seers. Maize 30 seers.	Crops on irrigated lands good and those on unirrigated lands average.	...
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Normal ...	Rain badly wanted. Sowing of extra spring crops continues. Standing crops on irrigated lands good. Rats are damaging crops in Tahsíl Fázilka.	Sowing of sugarcane continues.
6	Lahore ...	0·16 at Lahore ...	1. Sufficient ... 2. Generally good.	Wheat 19 seers ... Gram 27 seers. Rice 11 seers.	Standing crops in good condition.	Pressing of sugarcane continues.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
7	Amritsar ...	0·22 average ...	1. Sufficient ... 2. Generally good.	Wheat 18 seers ... Gram 27¾ seers. Maize 29½ seers. Bájra 26 seers.	Standing crops good. Improved by recent rain.	Ploughing for sugar-cane and cotton in progress.
8	Siálkot ...	...	1. Sufficient ... 2. Good.	Normal ... Bájra 26 seers.	Standing crops good. Sowing of extra spring crops continues.	Pressing of sugar-cane continues. Outturn average.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 17½ to 19½ seers. Barley 24 to 27 seers. Maize 23 seers. Gram 25 to 26 seers. Bájra 20 to 23 seers.	Ploughing for extra crops in progress. Standing crops in good condition.	...
10	Ráwalpindi ...	0·07 in Gujar Khan 0·02 in Murree.	1. Sufficient except in Attock Tahsíl. 2. Generally good.	Wheat 16¾ seers Bájra 21 seers. Maize 24 seers. Gram 23 seers. Barley 24 seers.	Condition of standing crops good.	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 18 seers ... Barley 34 seers. Gram 29 seers.	Condition of standing crops fair.	...
12	Mooltan ...	...	1. Sufficient ... 2. Generally good.	Wheat 16 seers... Gram 23¾ seers. Maize 26½ seers.	Condition of standing crops good. Wheat crop damaged in 2 villages of Tahsíl Shujabad by an insect called "rati."	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Amritsar and in parts of Ambala, Jullundur, Lahore and Ráwalpindi.

Prices.—The price of wheat is rising in Jullundur, Amritsar and Ráwalpindi, and falling in Miánwáli. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Lahore, Amritsar and Siálkot. Sowings of extra spring crops have commenced in Delhi and continue in Ferozepore, Siálkot and Shahpur. Ploughing for and sowing of sugarcane and cotton continues in some districts.

Crops and outturn.—Condition of standing irrigated crops is reported good to fair in all districts and that of unirrigated crops is unfavourable in Hissar and Delhi and average in Jullundur. Rain is wanted in Ambala and Ferozepore Unirrigated crops are withering in Hissar. Outturn of sugarcane average in Siálkot. Recent rain has benefited the standing crops in Amritsar.

Damage done to crops.—Rats and an insect called "rati" are damaging crops in parts of Ferozepore and Mooltan.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in Delhi and parts of Ráwalpindi.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st March 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 20th February 1904, there were 930 births registered in the 42 large municipal towns (499 males and 431 females), giving a birth-rate of 34 per *mille* of population, and 1,090 deaths were registered (554 males and 536 females), giving a death-rate of 40 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 38 against 50 in the corresponding week of the previous year, Lahore 20 against 31, Amritsar 56 against 38, and Multan 29 against 29. There were 178 deaths reported from plague; the largest number were registered in the following towns:— Ludhiána 57, Jagraon 32, Ráekot 26, Jullundur 18, Siálkot 16 and Batála 13. Of the 39 deaths from small-pox, 9 were registered in Jhajjar, 8 in Amritsar and 6 in Delhi.

Deaths reported from plague during the week ending 27th February 1904 *in the districts, including all municipal towns.*—Jullundur 255, Hoshiárpur 326, Gurdáspur 819, Siálkot 275, Ludhiána 1,903, Lahore 35, Ferozepore 125, Amritsar 60, Gujrát 149, Jhang 10, Gujránwála 234, Ráwalpindi 4, Shahpur 290, Karnál 42, Gurgaon 6, Hissar 56, Rohtak 125, Jhelum 10, and Delhi 23; Patiála State 159, Kapurthala State 164, Máler Kotla State 117, Jínd State 59, and Kalsia State 10. No returns were received from the Ambala District. Total for the Province 5,256; total for the previous week 4,520.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8th MARCH 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	2·27 at Hissar ... 1·38 in Hánsi. 0·47 in Bhiwáni. 1·34 in Sirsa. 1·41 in Fatahabad. 1·20 in Budhláda. 2·24 in Tohána.	1. Sufficient ... 2. Good.	Wheat 16 seers ... Bájra 26 seers. Gram 25 seers. Bejhar 26 seers.	Standing crops much benefited by recent rains except rapeseed which has been slightly damaged. Irrigated crops in good condition.	...
2	Delhi ...	Rain has fallen throughout the district and hail in parts.	1. Getting scarce ... 2 Good.	Wheat 15¼ seers Barley 27 seers. Gram 23½ seers.	Prospects of spring crops below average. Sowings of extra spring crops in progress.	...
3	Ambala ...	2·48 at Ambala ... 2·32 in Jagádhri. 1·88 in Nar'ingarh 1·51 in Kharar. 1·61 in Rúpar 1·67 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 17½ to 18½ seers. Gram 23 to 24 seers. Barley 22 seers. Jowár 35 seers. Maize 32 seers. Bájra 25 seers.	Standing crops in fair condition and benefited by recent rains. Sowing of extra spring crops commenced.	Sowing of sugar-cane commenced.
4	Jullundur ...	4·80 at Sadr .. Similar elsewhere.	1. Sufficient ... 2. Good.	Wheat 18½ seers Gram 26 seers. Barley 23 seers. Maize 31 seers.	Standing crops in good condition. Sowings of extra spring crops commenced.	...
5	Ferozepore ...	3·01 at Sadr .. 2·43 in City. 2·0· in Moga. 2·15 in Z ra. 0·78 in Muktsar. 1 30 in Jal·labad. 1·04 in Nathána.	1. Sufficient ... 2. Generally good.	Slightly falling ...	Standing crops in good condition. Recent rain very beneficial to unirrigated crops. Sowings of extra spring crops in progress.	Sowing of sugar-cane in progress and that of cotton commenced.
6	Lahore ...	3·05 at Lahore ... 3·27 in Sharakpur. 3·33 in Kasúr. 1·49 in Chunián.	1. Sufficient ... 2. Generally good.	Wheat 17 seers ... Gram 26 seers. Rice 11 seers.	Standing crops good. Some damage is said to have been done to the crops on low lands by excessive rainfall in the Lahore and Sharakpur Tahsíls. Sowing of extra spring crops going on.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
7	Amritsar ...	2·82 average. Hail fell in Tahsíl Amritsar.	1. Sufficient ... 2. Good.	Wheat 18½ seers... Gram 27¾ seers. Maize 29½ seers. Bájra 26 seers.	Standing crops good. Hail fell in Tahsíl Amritsar, but no damage was done. Gram on low land slightly damaged by recent rain in Tahsíl Tarn Táran.	Pressing of sugarcane continues. Ploughings for sugarcane and cotton in progress.
8	Siálkot ...	Good rainfall throughout.	1. Sufficient ... 2. Good.	Normal ... Bájra 26 seers.	Standing crops good. Recent rain has benefited the standing crops.	Pressing of sugarcane continues outturn average.
9	Shahpur ...	2·43 at Shahpur ... 1·80 in Bhera. 0·08 in Midh. 0·57 in Sáhiwál. 0·30 in Núrpur. 0·42 in Mitha Tiwána 2·21 in Sakesar. 1·27 in Naushahra. 1·46 in Khusháb. 1·06 in Mi ni.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 24 to 28 seers. Maize 25 to 29 seers. Gram 25 to 26 seers. Bájra 25 to 29 seers.	Standing crops good. Sowings of extra spring crops in progress.	...
10	Ráwalpindi ...	0·93 in Pindigheb... 2·49 in Fatahjang. 2·24 in Attock. 2·62 in Ráwalpindi. 1·97 in Gujar Khan. 1·72 in Kahúta. 2·36 in Murree.	1. Sufficiet except in Attock Tahsíl. 2. Good.	Wheat 17 seers ... Bájra 21 seers. Maize 25 seers. Gram 23 seers. Barley 24 seers.	Standing crops good ...	...
11	Miánwáli ...	1·27 at Miánwáli ... 0·82 in Isa Khel.	1. Procurable ... 2. Generally good.	Wheat 17 seers ... Barley 32 seers. Gram 29 seers.	Crops much benefited by recent rain.	...
12	Mooltan ...	1·18 at Sadr ... 0·90 in Mailsi. 0·81 in Lodhrán. 0·77 in Shujabad. 0·85 in Kabírwála.	1. Sufficient ... 2. Generally good.	Wheat 16½ seers Gram 22¾ seers. Maize 26½ seers.	Standing crops good. Sowings of extra spring crops in progress.	...

GENERAL REMARKS.

Rainfall.—Good rain all over the Province.

Prices.—The price of wheat is rising in Ambala and Miánwáli and falling in Jullundur, Amritsar, Shahpur, Ráwalpindi and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Pressing of sugarcane continues in Amritsar and Siálkot. Sowings of extra spring crops going on in Delhi, Ambala, Ferozepore, Shahpur, Jullundur, Lahore and Mooltan. Ploughings and sowings of sugarcane and cotton are in progress in some districts.

Crops and outturn.—Condition of standing crops is reported good to fair in all districts except Delhi, where the crops are said to be below average. Recent rain has much benefited the standing crops. Outturn of sugarcane is reported average in Siálkot.

Damage done to crops.—Crops have been slightly damaged by excessive rain in low-lying lands in parts of Hissar, Lahore and Amritsar Districts. Hail fell in Delhi and Amritsar, but did no damage.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in Delhi and parts of Ráwalpindi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND FRONTIER PROVINCE DURING JANUARY 1904.

The unsettled conditions which set in over North-west India in the last week of December 1903 continued uninterruptedly during the first three weeks of January 1904. Snow showers fell over Kashmír and the Simla and Murree Hills on the 1st and 2nd, and a storm gave rain to Ráwalpindi, Cherát, Pesháwar, Khusháb, Dera Ismail Khan, Montgomery, Mooltan, Siálkot, Lahore and Ambala, and snow to the hills on the 4th and 5th. Fine weather prevailed over the plains though snow continued in Kashmír between the 6th and the 9th, but on the 10th and 11th another storm gave rain to Pesháwar, Cherát, Ráwalpindi, Siálkot, Lahore and Montgomery, and snow to Kashmír and Murree. The weather was moderately fine on the 12th, but between the 13th and 19th the worst storm of the month occurred during which general and in places heavy rain fell all over the plains and heavy snow on the hills. The precipitation equalled or exceeded one inch at Ráwalpindi (1·31″), Cherát (1·00″), Murree (1·00″) on the 13th; Ráwalpindi (1·06″) Cherát (1·16″), Pesháwar (1·10″), Dera Ismail Khan (1·12″) on the 14th; Siálkot (1·54″), Ráwalpindi (1·51″), Cherát (1·02″) and Murree (1·99″) on the 15th. Between the 16th and the 19th the weather gradually improved, but scattered showers of rain were reported at the plains and of snow at the hill stations. From the 20th on to the end of the month the weather was generally fine, though between the 22nd and the 26th there occurred some snow showers over the Kashmír and Murree hills.

Pressure and Winds.—Pressure on the mean of the month exceeded the normal at all places except Murree and Leh, where it was in slight defect. During the first half of the month when the weather was unsettled the daily changes of the barometer were frequently large. The wind directions varied irregularly from the normal, but the mean velocity was generally above the average.

Temperature.—The mean temperature of the month was normal at Simla and Leh, but was lower than usual at all other stations. The deficiency was greatest at Murree (−5°·5), Cherát (−2°·8), Montgomery (−2°·6) Ludhiána (−2°·3) and Sirsa (−2°·0). The mean day or maximum temperature was normal at Ambala, Simla and Leh, but was low elsewhere especially so at Pesháwar (−6°·2), Murree (−5°·9) and Ráwalpindi (−5°·1). Owing to the unsettled weather the mean minimum temperature varied irregularly from the normal. It was generally lower than usual in the south-east and south of the area, where the cloud amount was less than usual, and in excess in the north, where the cloud amount exceeded the average. The warmest place was Delhi with a mean temperature of 56°·2 and the coolest on the plains Ráwalpindi with a mean of 46°·8.

The following table shows the variations from the normal of the mean temperature of the Province on each day of the month and the lowest minimum temperature registered, with the name of the station recording it :—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

				" 31st ...	−1·6	33·5	Ráwalpindi.

The mean temperature of the whole area was about normal on the 3rd, 4th and 14th, but with these temporary exceptions was lower than usual from the 3rd to the 23rd. The coldest days were the 19th to the 21st, when the mean temperature was between 6½° and 7½° lower than usual. On these days the maximum temperature was from 10° to 15° below the average and the minimum temperature fell to between 32° and 34° on the plains.

Humidity and Cloud.—The air was damper than usual on the mean of the month at all stations except Delhi, Sirsa and Simla. The cloud amount was in excess at most of the more western stations, but was in defect in the south-east and east.

Rain—Was received at all stations during the month, though at Delhi and Sirsa the amount was insignificant and considerably below the normal. The rainfall was also lighter than usual at Simla, Ludhiána and Ambala and over Further Kashmír. Elsewhere the month's rainfall was heavier than usual, the excess amounting to over 1·00″ at Khusháb (+1·90″), Pesháwar (+1·70″), Murree (+2·38″), Cherát (+1·38″) and Ráwalpindi (+1·96″).

The following table gives the rainfall data for the Punjab, Kashmír and the Frontier Province stations for January 1904:—

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th March 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 27th February 1904 there were 925 births registered in the 41 large municipal towns (463 males and 462 females), giving a birth-rate of 34 per *mille* of population, and 1,053 deaths were registered (503 males and 550 females), giving a death-rate of 39 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 43 against 49 in the corresponding week of the previous year, Lahore 23 against 26, Amritsar 46 against 35, and Mooltan 28 against 25. There were 204 deaths reported from plague; the largest number were registered in the following towns:— Ludhiána 58, Jullundur 41, Siálkot 25, Batála 19, Jagráon 16, and Ráekot 15. Of the 28 deaths from small-pox, 6 were registered in Amritsar and 4 each in Hánsi, Bhiwáni and Rewári.

Deaths reported from plague during the week ending 5th March 1904 *in the districts including all municipal towns.*—Jullundur 344, Gurdáspur 799, Siálkot 461, Ludhiána 1,872, Lahore 333, Ferozepore 171, Amritsar 44, Gujrát 183, Jhang 18, Gujránwála 221, Ráwalpindi 7, Shahpur 311, Karnál 41, Gurgaon 12, Hissar 44, Rohtak 133, Jhelum 20, and Delhi 39; Patiála State 142, Kapúrthala State 125, Máler Kotla State 112, Jínd State 86, Kalsia State 25, and Farídkot State 7. No returns were received from the Hoshiárpur and Ambala Districts. Total for the Province 5,550.

10	Ráwalpindi ...	0·50 in Pindigheb... 1·39 in Fatahjang. 5·70 in Attock. 1·06 in Gujar Khan. 1·52 in Kahúta. 1·30 in Murree.	1. Sufficiet except in Attock Tahsíl.	Wheat 17 seers ... Bájra 21 seers. Maize 25 seers. Gram 23½ seers. Barley 24½ seers.	Standing crops good ...	...
11	Miánwáli ...	3·10 at Miánwáli ... 2·53 in Isa Khel.	1. Procurable ... 2. Generally good.	Wheat 17 seers ... Gram 29 seers. Barley 32 seers.	Condition of crops fair ...	...
12	Mooltan ...	1·04 in Mailsi ... 0·56 in Lodhrán. 0·53 in Shujabad. 2·05 in Kabírwála. 0·37 at Mooltan.	1. Sufficient ... 2. Generally good.	Wheat 16 seers Gram 22¼ seers. Maize 26½ seers.	Standing crops good. Sowings of extra spring crops in progress.	...

GENERAL REMARKS.

Rainfall.—Good rainfall in all districts except Delhi and Jullundur, where it is slight.

Prices.—The price of wheat is rising slightly in Amritsar and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of extra spring crops in progress in most districts. Ploughings and sowings of sugarcane and cotton crops going on in certain districts. Land is being prepared for autumn sowing in the Lahore District.

Crops and outturn.—Condition of standing crops is reported good to fair in all districts except Delhi, where the crops are said to be below average. Recent rain has greatly benefited the standing crops.

Damage done to crops.—Crops have been slightly damaged by hail and also by excessive rain in low-lying lands in parts of Hissar and Siálkot. They have also been damaged by excessive rain in low-lying lands in Amritsar. Hail fell in Ferozepore, but did no damage.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except Delhi and parts of Ráwalpindi.

LAHORE, THURSDAY, MARCH 24, 1904.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 22nd MARCH 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Bájra 26 seers. Gram 25 seers. Bejhar 26 seers.	Unirrigated crops revived by the recent rainfall and they are generally in fair condition. Irrigated crops are in good condition. Rapeseed being reaped.	...
2	Delhi ...	...	1. Scarce ... 2 Good.	Wheat 15½ seers Barley 26 seers. Gram 23 seers.	Standing crops below average. Extra spring crops in good condition.	Sowings of sugarcane and cotton continue.
3	Ambala ...	0·13 in Naráingarh 0·10 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 17½ to 18½ seers. Gram 23 to 24 seers. Maize 32 seers. Barley 22 seers. Jowár 35 seers. Bájra 25 seers.	Standing crops good. Melon sowings nearly finished.	Sowing of sugarcane nearly finished, but cotton is being sown.
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers Gram 27 seers. Barley 23 seers. Maize 31 seers.	Standing crops good. Sowings of extra spring crops in progress.	Sowing of sugarcane in progress.
5	Ferozepore ...	...	1. Sufficient ...	Normal ...	Standing crops good. Sowing of extra spring crops continues.	Sowing of sugarcane and cotton continues.
6	Lahore ...	0·07 in Kasúr ...	1. Sufficient ... 2. No report received.	Wheat 16½ seers... Barley 29½ seers. Gram 25 seers. Rice 11 seers.	Standing crops good. Sowing of extra spring crop going on. It hailed in certain villages of Kasúr and Lahore Tahsíls, but did no damage. Locusts appeared in parts, but did no damage.	Land is being prepared for autumn sowings.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·01 average ...	1. Sufficient ... 2. Generally good.	Wheat 18½ seers... Gram 28¼ seers. Maize 28½ seers. Bájra 25½ seers.	Standing crops good. Sowings of extra spring crops in progress.	Pressing of sugar-cane nearly finished.
8	Siálkot ...	Slight rainfall in Raya, Daska and Zafarwál.	1. Sufficient ... 2. Good.	Normal ...	Standing crops good. Sowing of extra spring crops continues.	Sowing of cotton continues.
9	Shahpur ...	0·19 in Midh ... 0·62 in Sáhiwál. 0·81 in Núrpur. 0·59 in Khusháb. 0·61 at Shahpur. 0·57 in Bhera. 0·50 in Miáni.	1. Sufficient ... 2. Generally good.	Wheat 17½ to 20 seers. Barley 25 to 28 seers. Maize 22 to 28 seers. Gram 24 to 26 seers. Bájra 25 to 28 seers.	Standing crops good. Sowings of extra spring crops in progress.	...
10	Ráwalpindi ...	1·13 in Pindigheb... 0·70 in Fatahjang. 0·66 in Attock. 0·44 at Ráwalpindi. 0·92 in Gujar Khan. 0·54 in Kahúta. 1·23 in Murree.	1. Sufficient except in Attock Tahsíl. 2. Good.	Wheat 17¼ seers Bájra 22 seers. Maize 25 seers. Gram 22½ seers. Barley 25 seers.	Standing crops good ...	...
11	Miánwáli ...	0·92 at Miánwáli ... 1·12 in Isa Khel.	1. Procurable ... 2. Generally good.	Wheat 17½ seers... Gram 30 seers. Barley 34 seers.	Condition of crops good. The rain has caused the gram to blossom afresh. Wheat crop is in fair condition Sowing of extra spring crops in progress.	...
12	Mooltan ...	0·03 in Mailsi ... 0·06 in Lodhrán. 0·03 in Shujabad.	1. Sufficient ... 2. Generally good.	Wheat 16 seers ... Gram 22¾ seers. Maize 26 seers.	Standing crops good. Sowing of extra spring crops in progress.	...

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Shahpur, Ráwalpindi and Miánwáli. Insignificant showers are reported from Ambala, Lahore, Amritsar, Siálkot and Mooltan

Prices.—The price of wheat is falling slightly in Jullundur, Amritsar, Ráwalpindi and Miánwáli, and rising in Lahore. The prices of other food-grains are fluctuating.

Agricultural operations.—Ploughings and sowings of extra spring crops and of sugarcane and cotton are in progress in most districts. Rapeseed is being harvested in Hissar.

Crops and outturn.—Condition of standing crops is reported good in all districts except Delhi and Hissar. Unirrigated crops in Hissar were revived by the recent rainfall.

Damage done to crops.—Locusts appeared in the Lahore District, but did no damage.

Agricultural stocks.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except Delhi and parts of Ráwalpindi.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd March 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 12th March 1904 there were 943 births registered in the 42 large municipal towns (480 males and 463 females), giving a birth-rate of 34 per *mille* of population, and 1,219 deaths were registered (634 males and 585 females), giving a death-rate of 44 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 43 against 49 in the corresponding week of the previous year, Lahore 30 against 38, Amritsar 46 against 36, and Mooltan 24 against 19. There were 274 deaths reported from plague; the largest number were registered in the following towns:— Ludhiána 101, Jullundur 58, Siálkot 20, Batála 19, and Palwal 12. Of the 48 deaths from small-pox, 12 were registered in Jhajjar, 9 in Bhiwáni, 6 in Rewári, 5 in Hánsi, and 4 each in Kasúr and Amritsar.

Deaths reported from plague during the week ending 19th March 1904 in the districts, including all municipal towns.—Jullundur 634, Hoshiárpur 585, Gurdáspur 1,189, Siálkot 1,066, Lahore 379, Ferozepore 438, Amritsar 105, Gujránwála 555, Ráwalpindi 14, Shahpur 821, Karnál 24, Gurgaon 41, Hissar 93, Rohtak 194, Jhelum 147, and Delhi 79; Patiála State 293, Kapurthala State 167, Máler Kotla State 396, Jínd State 148, Kalsia State 71, and Farídkot State 2. No returns were received from the districts of Ludhiána, Ambala, Gujrát, Jhang and Nábha State. Total for the Province 7,441. The returns received from the districts of Ludhiána and Ambala for the previous week show 1,816 and 917 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

slight rain.

Memo. of errors in the Monthly Rainfall Return for the month of January 1904.

Against Ferozepore Sadr (Ferozepore District) in column 16 *for* "1·03" *read* "0·03".
Against Montgomery (Montgomery District in column 7 *for* "0·27" *read* "0·17".
Against Amritsar Jail Hospital (Amritsar District) in column 36 *for* "·3" *read* "3·3".
Against Dharmsala (Kangra District) in column 27 *for* "0" *read* "0·06".
Against Tarkhani C (Jhang District) in column 35 *for* "3" *read* "2".

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of February 1904.

1.—HISSAR DISTRICT.

No rain fell during the month. Unirrigated crops withering for want of rain. Prospects of irrigated crops good. Cattle in good condition. Fodder sufficient.

2.—ROHTAK DISTRICT.

No sowings. Condition of standing crops on irrigated lands good. Sarsaf crops have suffered to some extent in Tahsíl Sámpla from frost. Bárani crops have generally failed. The outturn is expected as follows:—

Irrigated crops	...	Good.
Bárání crops	...	Small.

Cattle are generally in good condition. Fodder sufficient. No complaints about supply of canal water.

3.—GURGAON DISTRICT.

Crops on irrigated areas were watered by wells and canals according to requirements. Ploughings and sowings for extra rabi and sugarcane started. Gur was made in nahri villages. Cutting of rapeseed has been started. The condition of the standing crops on irrigated lands is fair and on unirrigated lands bad. Some damage has been caused to rapeseed by excessive cold. Outturn average on irrigated areas and bad on unirrigated areas Condition of cattle fair. Agra Canal being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Prospects of rabi outturn on irrigated area fair and on unirrigated area below average. Condition of cattle good. Fodder getting dearer. Stocks of food-grains sufficient. Prices falling except that of wheat.

5.—KARNAL DISTRICT.

Crops in good condition. Sugarcane being sown. Expected yield average. Cattle in good condition. Wheat and barley being watered from wells and canals. Health of people good.

6.—AMBALA DISTRICT.

Melon sowings in progress. Condition of crops good, but need rain. Expected yield average. Condition of cattle good.

7.—SIMLA DISTRICT.

Slight rainfall in both tahsíls, which has benefited the standing crops to some extent. Standing crops in average condition in Simla Tahsíl; good in Kot Khái. Cattle in good condition. Fodder sufficient. Water sufficient from hill terrents in Kot Khái; not sufficient for irrigating purposes in Simla.

8.—Kangra District.

Nothing sown during the month under report. The condition of the crops is good. The yield is expected to be above the average The condition of cattle is good. The public health is good. Water was sufficient in the *kuhls* for irrigation purposes.

9.—Hoshiarpur District.

There has been no sowings worth noticing during the month, the rainfall registered during the month being insufficient to help them. The condition of the standing crop is good all round, except in a small portion of the hilly tract of the Una Tahsíl, where the sowings were rather late and consequently our expectations regarding the above late sown area are at present unfavourable, but the recent rains which have fallen in the first week of March will, I hope, help the late sown crop very considerably. The yield of the other standing crop is expected to be good The stock of fodder is sufficient. Gaddís from Kángra District are still grazing their flocks of goat and sheep in the hilly portions of the Dasúya Tahsíl. The supply of water in the Shah Nahr and other zamíndári canals has been sufficient to irrigate the usual area under the command of these streams.

10.—Jullundur District.

Extra rabi sowings in progress. Crop prospects good. Fodder sufficient. Health of people and condition of cattle good.

11.—Ludhiana District.

No sowing in progress. Condition of irrigated crops good, and that of unirrigated moderate. Sugarcane crushing in progress: outturn good. Irrigation from canals ordinary. Prices stationary.

12.—Ferozepore District.

Sowings of vegetables and sugarcane have been in progress during the month. Condition and prospects of standing crops on irrigated lands good. Unirrigated crops have suffered from want of rain. In Fázilka Tahsíl rapeseed and gram were damaged by caterpillars and rats, and other rabi crops by rats only. Yield on irrigated lands expected to be good. On báráni lands it depends on future rain. Cattle generally in good condition. The Sirhind Canal has been flowing during the month. Green fodder available. Stocks of food-grains and fodder sufficient. Prices normal.

13.—Montgomery District.

Small sowings of onions and tobacco took place. There were slight showers at the beginning of the month which did not much benefit the crops. There was a little hail here and there which, however, did no harm. Condition of crops good up to the present. Expected yield near average. Condition of cattle good. Fodder sufficient. No disease affecting the health of the public. Canals private as well as Government all remained dry, while the rivers have little water.

14.—Lahore District.

Land for extra rabi sowings is being prepared. The condition of the standing crops is good. Kungi (rust) made its appearance in late sown fields. The rains during the last few days have wiped it off, but if the clouds do not dispense within next few days, its re-appearance is apprehended. Nothing can be said about yield at this stage The condition of cattle is better than average. Fodder sufficient. The Bári Doáb Canal is working fairly well. Prices are stationary.

15.—Amritsar District.

Average rain during the month, which has benefited the rabi crop. Pressing of sugarcane continues. Sowings of extra rabi crops and ploughings for cotton and sugarcane in progress. Condition and prospects of standing crops good. No complaints of deficiency of canal water.

16.—GURDASPUR DISTRICT.

No sowings during the month. Condition of crops good. Yield of cane average. Condition of cattle good. No floods. No canal irrigation in this district during the month.

17.—SIALKOT DISTRICT.

Sowing of extra rabi crops commenced. Standing crops in good condition. Out-turn of sugarcane average. Fodder sufficient. Water sufficient in Bajwat Canal.

18.—GUJRANWALA DISTRICT.

There was scanty rainfall in Tahsíls Háfizabad and Wazirabad. No sowings. Condition of standing crops good. Yield of gur average. Canal water not sufficient. Prices of food-grains slightly falling.

19.—GUJRAT DISTRICT.

No rain was recorded at the three rain-gauge stations in the district, but a fair rainfall is reported in some villages of the Khárián Tahsil. Ploughings for kharif and extra rabi crops are in progress. Sowing of the latter has commenced in some places. Condition and prospects of standing crops good. Condition of cattle generally good. Fodder sufficient. There were no floods. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Extra rabi sowings in progress. Condition of crops good in all three tahsíls: expected yield above average. The fairly good fall of rain on the 3rd and 4th March 1904 will undoubtedly benefit the crops. Cattle in good condition. No cattle disease. Fodder sufficient. Inundation canals dry. Sulki Branch of the Jhelum Canal running satisfactorily. Prices stationary.

Colony.—Land is being broken up for cotton sowing. A large extension of the area under cotton may be expected owing to recent high prices. Crops satisfactory, except in one or two cases, where water courses are running badly. Yield of wheat should be above average owing to large areas now broken up for the first time.

21.—JHELUM DISTRICT.

No rain was registered at any of the rain-gauge stations during the month. General condition of standing crops good. Some damage has been done to crops by hail in some villages in the Jhelum and Chakwal Tahsils. No floods. Prices falling.

22.—RAWALPINDI DISTRICT.

No sowings made during the month. The rabi prospects are good.

23.—MIANWALI DISTRICT.

Rainfall *nil* during the month Condition of crop is good, but rain is needed for wheat in Miánwáli and Isa Khel Tahsíls. Condition of cattle fair. Fodder sufficient.

24.—JHANG DISTRICT.

No sowings during the month. Nahri and cháhi crops fair; báráni below average. No crop gathered. No cattle disease. Fodder sufficient. Canals flowing. No river inundation.

25.—MOOLTAN DISTRICT.

Prospects of rabi crops good. Standing wheat crop suffered in two villages of the Shujabad Tahsil from diseases known as Kali Rati and Dasa. Canals dry, except Sidhnai, which flowed for a few days early in February 1904.

26.—MUZAFFARGARH DISTRICT.

Condition of spring crops good in all tahsíls. It is said to be average in the sailáb lands in the Muzaffargarh Tahsil Sowings of sugarcane in the Alipur Tahsil and of extra spring crops in the Muzaffargarh Tahsíl have commenced. Condition of cattle good. Food and fodder sufficient. Canals dry.

27.—DERA GHAZI DISTRICT.

Prospects of rabi crops are good. Health of cattle is good. Fodder is plentiful in the Pachádh and sufficient in Sind, except in Dera Ghází Khan Tahsíl. No hill torrent has flowed during the month, though there has been a little rain in places which did good to standing crops in Déra Ghází Khan, Jámpur and Rájanpur. Zaid rabi sowings are in progress, and are said to be finished in Jámpur. No canals flowed during the month except the Shoria, which had some water available for villages in the lower reaches up to the 15th February.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

8	Siálkot ...	Slight rainfall throughout.	1. Sufficient ... 2. Good.	Normal ...	Standing crops good. Sowing of extra spring crops continues.	Pressing of sugarcane continues. Sowing of cotton continues.
9	Shahpur ...	0·40 in Midh ... 0·82 in Sáhiwál. 1·43 in Núrpur. 0·35 in Mitha Tiwána. 0·25 in Sakesar. 0·70 in Naushera 0·42 in Miáni. 0·54 in Bhera. 0·70 at Shahpur. 0·58 in Khusháb.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 25 to 27 seers. Gram 24 to 26 seers. Bájra 25 to 28 seers. Maize 22 to 28 seers.	Standing crops good ...	Ploughings in progress.
10	Ráwalpindi ...	1·50 in Pindigheb... 1·00 in Fatahjang. 0·88 in Attock. 1·81 at Ráwalpindi. 0·56 in Gujar Khan. 0·91 in Kahúta.	1. Sufficient except in Attock Tahsíl. 2. Good.	Wheat 17½ seers Bájra 22 seers. Maize 25 seers. Gram 22¾ seers. Barley 25 seers.	Standing crops good Melons being sown.	Cotton being sown.
11	Miánwáli ...	0·41 at Miánwáli ... 0·43 in Isa Khel.	...	Wheat 17½ seers... Gram 30 seers. Barley 34 seers.	Standing crops are generally in good condition. Wheat crop has been slightly damaged on lands under fluctuating assessment owing to heavy rains.	...
12	Mooltan ...	0·01 in Mailsi ... 0·06 in Shujabad. 0·08 at Mooltan. 0·06 in Kabirwala	1. Sufficient ... 2. Good.	Wheat 16 seers ... Gram 23 seers. Maize 25 seers.	Standing crops good. Sowings of extra spring crops in progress.	Sowings of sugarcane and cotton in progress.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Shahpur, Ráwalpindi, Miánwáli, Amritsar and Lahore. Insignificant showers are also reported from Ambala, Jullundur, Ferozepore, Siálkot and Mooltan Districts.

Prices.—The prices of food-grains show a general downward tendency.

Agricultural operations.—Ploughings and sowings of extra spring crops, sugarcane and cotton are in progress in most districts. Sowings of melons and sugarcane finished in Ambala. Rapeseed is being harvested in Hissar and Ferozepore.

Crops and outturn.—The condition of the standing spring crops is good in all districts, except in Delhi, where all crops, except the extra spring crops, are below average, and in Hissar, where the unirrigated crops are fair. The yield of rapeseed crop is good in Ferozepore.

Damage done to crops.—The wheat crop has been slightly damaged by heavy rains in parts of Miánwáli District.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except Delhi and parts of Ráwalpindi.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-FOUR THOUSAND SEVEN HUNDRED AND FIFTY-NINE births were registered in the Province during the month of February 1904, giving a birth-rate of 41 per *mille* of population. Of the total number of births, 33,757 were boys and 31,002 were girls.

The total number of deaths registered from all causes in the Province during the month of February 1904 was 71,068 against 74,935 in the previous month and 68,640 in the corresponding month of the past year, giving an annual death-rate of 44·5, 43·9 and 44·5 per *mille* of population per annum, respectively.

The total mortality from plague was 22,070 against 12,027 in the previous month and 15,490 in the corresponding month of the past year. The largest number of deaths from plague during the month was reported in the district of Ludhiána, *viz.*, 6,375. The mortality was also very high in the districts of Gurdáspur, Siálkot and Ambala, in which it amounted to 2,934, 2,818 and 2,349. The deaths registered in the districts of Hoshiárpur and Jullundur were 1,279 and 1,088. In the districts of Lahore, Ferozepore, Gujrát, Amritsar, Gujránwála and Shahpur the number ranged from 546 to 970.

There were 3 deaths registered under the head of cholera. From small-pox 995 deaths were registered against 1,412 in the previous month and 1,303 in the corresponding month of the past year; fevers 32,213 against 42,927 and 33,783; dysentery and diarrhœa 702 against 896 and 741; respiratory diseases 5,188 against 5,943 and 6,352. During the month there were 18 deaths registered from suicide against 15 in the past month; wounding 34 against 26; accidents 266 against 265; snake-bite and killed by wild beasts 25 against 19; and from all other causes 9,554 against 11,403 in the previous month and 10,659 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th March 1904.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th March 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 19th March 1904 there were 848 births registered in the 37 large Municipal towns (443 males and 405 females), giving a birth-rate of 33 per *mille* of population, and 1,297 deaths were registered (666 males and 631 females), giving a death-rate of 50 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 38 against 55 in the corresponding week of the previous year, Lahore 31 against 43, Amritsar 56 against 38, and Mooltan 24 against 22. There were 461 deaths reported from plague; the largest number were registered in the following towns:— Ludhiána 125, Jullundur 82 and Amritsar 75; the deaths reported in the towns of Ambala, Wazirabad, Siálkot, Batála and Palwal varied between 18 and 28. Of the 43 deaths from small-pox, 14 were registered in Bhiwáni, 11 in Hánsi, and 5 in Amritsar.

Deaths reported from plague during the week ending 26th March 1904 *in the districts, including all municipal towns.*—Jullundur 868, Hoshiárpur 645, Gurdáspur 2,742, Siálkot 714, Lahore 134, Ferozepore 526, Amritsar 162, Jhang 126, Gujránwála 536, Ráwalpindi 5, Shahpur 1,099, Karnál 42, Gurgaon 92, Hissar 135, Rohtak 212, Jhelum 232, Delhi 77 and Mooltan 4; Patiála State 264, Kapurthala State 407, Máler Kotla State 520, Jínd State 172, Kalsia State 176, Farídkot State 14 and Nábha State 9. No returns were received from the districts of Ludhiána, Amb ala and Gujrát. Total for the Province 9,913. The returns received from the districts of Ludhiána, Ambala, Gujrat and Jhang for the previous week show 1,069, 1,068, 445 and 93 deaths from plague.

A. WARREN JONES,
Acting Chief Auditor and Accountant.

Punjab Government Press, Lahore—31-3-04—758.

No. 14 of 1904.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, APRIL 7, 1904.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 5TH APRIL 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Bájra 26 seers. Gram 25 seers. Bejhar 26 seers.	Unirrigated and irrigated crops being reaped; produce of former below average, and that of latter good.	...
2	Delhi ...	...	1. Scarce ... 2. Good.	Wheat 15 seers ... Barley 26 seers. Gram 23 seers.	Reapings have begun. Outturn below average.	...
3	Ambala ...	...	1. Sufficient ... 2. Generally good.	Wheat 18 to 19 seers. Barley 22 seers. Maize 38 seers. Jowár 40 seers. Gram 24 to 25 seers. Bájra 25 seers.	Standing crops good. High winds prevailing, but did no damage.	Sugarcane is being sown in Jagádhri Tahsíl.
4	Jullundur ...	0·15 in Nawashahr	1. Sufficient ... 2. Good.	Wheat 19 seers Gram 27½ seers. Barley 24 seers. Maize 34 seers.	Standing crops good. Sowings of melons in progress.	Sowings of sugarcane and cotton in progress.
5	Ferozepore ...	0·03 in Moga ...	1. Available ... 2. Good.	Normal ...	Standing crops good. Sowings of extra spring crops in progress. Rapeseed is being harvested.	Sowings continue.
6	Lahore ...	0·08 in Chunián ... 0·03 in Kasúr. 0·08 in Sharakpur.	1. Sufficient ... 2. Generally good.	Wheat 16½ seers... Barley 30½ seers. Gram 25½ seers. Rice 11 seers.	Standing crops good. Sowing of extra spring crops going on.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18½ seers... Gram 28 seers. Maize 33 seers. Bájra 27 seers.	Standing crops good. Harvesting of rapeseed crop in progress. Sowings of extra spring crops in progress.	Sowings of sugar-cane and cotton in progress.
8	Siálkot ...	Slight rainfall throughout.	1. Sufficient ... 2. Good.	Normal ...	Standing crops good. Sowings of extra spring crops in progress.	Sowing of sugar-cane and cotton continues.
9	Shahpur ...	0·31 in Midh ... 0·20 in Sahiwál. 0·11 at Shahpur. 0·52 in Bhera.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 25 to 28 seers. Gram 25 to 26 seers. Bájra 25 to 28 seers. Maize 23 to 28 seers.	Standing crops good. Sowings of extra spring crops in progress.	Ploughings in progress.
10	Ráwalpindi ...	0·35 in Gujar Khan 0·82 in Kahúta. 0·13 in Fatahjang. 0·09 in Attock.	1. Sufficient, except in Attock Tahsíl. 2. Good.	Wheat 17¾ seers Bájra 22 seers. Maize 25 seers. Gram 23¼ seers. Barley 25 seers.	Standing crops good. Melon sowings completed.	Sowing of cotton finished.
11	Miánwáli ...	0·13 in Isa Khel ...	1. Procurable ... 2. Good.	Wheat 18 seers ... Gram 30 seers. Barley 34 seers.	Condition of standing crops generally fair. Hail-stones fell in a few villages and did slight damage to wheat and gram crops.	Sowings in progress.
12	Mooltan ...	0·13 in Shujabad ..	1. Sufficient ... 2. Good.	Wheat 16 seers ... Gram 23¾ seers. Maize 25 seers.	Standing crops good. Sowings of extra spring crops in progress. Locusts were observed in two villages of Tahsíl Kabírwála, but did no damage.	Sowings of cotton and sugarcane in progress.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Shahpur and Ráwalpindi. Insignificant showers are also reported from Jullundur, Ferozepore, Lahore, Siálkot, Miánwáli and Mooltan.

Prices.—The price of wheat is rising in Delhi and Lahore and falling in Ambala, Jullundur, Ráwalpindi and Miánwáli. The prices of other food-grains are generally falling.

Agricultural operations.—Ploughings and sowings of extra spring and autumn crops are in progress in most districts. Rapeseed is being harvested in Ferozepore and Amritsar. Reapings of spring crops have commenced in Hissar and Delhi.

Crops and outturn.—Condition of standing spring crops is reported good in all districts except in Delhi. The outturn of all spring crops in Delhi and unirrigated crops in Hissar is below average.

Damage done to crops.—The wheat and gram crops have been slightly damaged by hail-stones in three villages of Miánwáli. Locusts appeared in parts of Mooltan, but did no damage.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 20 days.
† " 28 "

The weather was generally fine and quiet over north-west India during February, but several slight storms of the cold weather type crossed Persia and Afghánistán and entered North-west India during the month, occasioning feebly unsettled weather. The first occurred on the 3rd and 4th, when the sky clouded over, some snow fell on the hills and light rain at Peshâwar and Montgomery. Fine weather prevailed during the 5th, 6th and 7th; then on the 8th another feeble depression appeared and snow again fell in Kashmir. Between the 10th and the 17th the weather was quiet and settled, but from the 18th to the 23rd conditions were disturbed, snow fell in Kashmir and rain at Mooltan, Umballa, Ráwalpindi, Cherát, Khusháb, and snow at Simla and Murree. Four days of fine weather succeeded this showery period, but on the 28th another depression appeared, and the last two days were cloudy, though no precipitation occurred except some snow in Kashmir. The preceding summary shows that during the greater part of the month and over the greater part of the area the weather was fine, but that occasionally feeble disturbances appeared which gave some rain and snow in the north.

Pressure and Winds.—The pressure on the mean of the month exceeded the normal practically everywhere. The excess was, however, very slight on the plains, though it was moderate to considerable on the hills. The winds were somewhat more easterly than the average both over the south of the Punjab and at the hill stations.

Temperature.—The mean temperature of the month exceeded the normal everywhere. The excess was slight and unimportant at Sirsa, but amounted to between 3° and 4° at Ráwalpindi, Pesháwar, Mooltan, Murree and Leh, to between 4° and 5° at Siálkot and Khusháb, and was as much as 5° at Simla and Cherát. The principal excess occurred in the day temperature, which on the mean of the month was more than 5° above the normal at Umballa, Siálkot, Ráwalpindi, Khusháb, Pesháwar, Mooltan, Simla, Murree, Cherát and Leh. The night temperature exceeded the average at the majority of stations, but the excess was less than in the case of the day temperature, and at Sirsa, Ludhiána, Montgomery and Dera Ismial Khan the mean minimum was in slight defect. The warmest place was Delhi with a mean temperature of 64°·6, and the coolest on the plains Ráwalpindi with a mean temperature of 56°·9.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the lowest minimum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

The mean temperature of the whole area was slightly lower than usual at the commencement of the month, but a rapid rise occurred between the 2nd and 3rd, and from the latter date till the close of the month the heat was greater than usual. The greatest excess (more than 4°) was recorded on the 9th, 13th and 19th. The lowest temperature recorded was 34° at Sirsa on the 1st.

Humidity and Cloud.—The air was slightly damper than usual at Srinagar, but was considerably drier than the normal eslewhere. The sky was abnormally clear of cloud, more especially on and near the hills.

Rain.—No rain whatever was received during the month at Dera Ismail Khan, Siálkot, Lahore, Ludhiána, Delhi, Sirsa and Leh, and only a few cents at Mooltan, Khusháb, Pesháwar, Cherát, Ráwalpindi, and Montgomery. Elsewhere the total rainfall of the month varied from 0·19 inch at Umballa, and 0·18 inch at Skardu to 3·00 inches at Minimarg (Kashmir). The rainfall was everywhere considerably short of the normal.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for February 1904 :—

Station.	Actual rainfall in February 1904.	Normal average rainfall in February.	Difference from the average in February 1904.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 5th April 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 26th March 1904 there were 805 births registered in the 38 large Municipal towns (408 males and 397 females), giving a birth-rate of 31 per *mille* of population, and 1,509 deaths were registered (748 males and 761 females), giving a death-rate of 58 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 34 against 39 in the corresponding week of the previous year, Lahore 34 against 45, Amritsar 53 against 40, and Mooltan 24 against 20. There were 718 deaths reported from plague as against 461 in the previous week; the largest number were registered in the following towns:—Ludhiána 205, Jullundur 128, Amritsar 64, Palwal 49, and Batála 43; the deaths reported in the towns of Kasúr, Bhera, Jagráon, Siálkot, Lahore, Wazirabad and Ambala varied between 14 to 35. Of the 38 deaths from small-pox 7 were registered in Hánsi, 6 in Bhiwáni, 5 in Jhajjar and 4 each in Rewári and Amritsar.

Deaths reported from plague during the week ending 2nd April 1904 *in the districts, including all municipal towns.*—Jullundur 1,258, Hoshiárpur 1,108, Gurdáspur 2,139, Siálkot 1,829, Ludhiána 2,318, Lahore 453, Ferozepore 632, Amritsar 117, Jhang 157, Gujránwála 754, Ráwalpindi 4, Shahpur 1,553, Karnál 58, Gurgaon 96, Hissar 143, Rohtak 292, Jhelum 339, Delhi 44, Kángra 2 and Montgomery 2; Patiála State 252, Kapurthala State 309, Máler Kotla State 522, Jínd State 139, Kalsia State 184, Farídkot State 35 and Nábha State 177. No returns were received from the districts of Ambala and Gujrát. Total for the Province 14,916. The returns received from the districts of Ludhiána, Ambala and Gujrát for the previous week show 2,122, 1,332, and 932 deaths from plague.

KASHI RAM, SUPDT.,

or *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 12TH APRIL 1904

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Gram 28 seers. Bájra 26 seers. Bejhar 29 seers.	Unirrigated and irrigated crops being reaped. Outturn of former below average and that of latter good.	...
2	Delhi ...	...	1. Becoming available 2. Good.	Wheat 16 seers ... Barley 28 seers. Gram 24½ seers.	Reapings in progress. Expected yield below average.	...
3	Ambala ...	0·06 at Ambala ... 0·05 in Naráingarh	1. Sufficient ... 2. Good.	Wheat 18¼ to 19 seers. Gram 24 to 25 seers. Barley 22 seers. Maize 38 seers. Jowár 40 seers. Bájra 25 seers.	Crops being cut. Condition of crops good.	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 19 seers Gram 27½ seers. Barley 24 seers. Maize 34 seers.	Standing crops good ...	Sowings of sugar-cane and cotton in progress.
5	Ferozepore ...	...	1. Sufficient ...	Slightly falling ...	Standing crops good. Sowings of extra spring crops continue. Reaping of rape-seed crops finished and of other crops being reaped. Expected yield good.	Sowings of sugar-cane and cotton in progress.
6	Lahore ...	...	1. Sufficient ... 2. Generally good.	Wheat 16½ seers... Barley 31½ seers. Gram 27½ seers. Rice 11 seers.	Standing crops good. Sowings of extra spring crops in progress.	Sowings of cotton and sugarcane going on.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18 ½ seers... Gram 28 seers. Maize 35 seers. Bájra 27 seers.	Standing crops good Harvesting of rapeseed and barley in progress.	Sowings of sugarcane and cotton in pr[illegible]ss.
8	Siálkot ...	...	1. Sufficient ... 2. Good.	Normal ...	Standing crops good. Reaping of spring crops commenced Sowing of extra spring crops continues.	Sowings of sugarcane and cotton in progress,
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 17 to 20 seers. Barley 24 to 29 seers. Gram 25 to 26 seers. Bájra 25 to 30 seers. Maize 23 to 26 seers.	Standing crops good. Expected yield good. Sowing of extra spring crops in progress.	Ploughings for sowings of autumn crops in progress.
10	Ráwalpindi ...	0·06 in Gujar Khan 0·17 in Murree.	1. Sufficient ... 2. Good.	Wheat 17¾ seers Bájra 22 seers. Maize 25 seers. Gram 23¼ seers. Barley 25 seers.	Good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 18 seers ... Barley 34 seers. Gram 30 seers.	Crops are generally in good condition.	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers ... Gram 23¼ seers. Maize 27½ seers.	Standing crops good. Sowings of extra spring crops in progress.	Sowings of autumn crops in progress.

GENERAL REMARKS.

Rainfall.—Very light showers have been reported from parts of Ambala and Ráwalpindi.

Prices.—The prices of food-grains show a downward tendency in the districts of Hissar, Delhi and Ferozepore; elsewhere they are unchanged.

Agricultural operations.—Sowings of extra spring crops and of sugarcane and cotton are in progress in most districts. Reapings of spring crops continue in Hissar and Delhi and have commenced in some other districts. Reaping of rapeseed crop is finished in Ferozepore.

Crops and outturn.—Condition of standing crops is reported good in all districts except in Delhi. The outturn of all spring crops in Delhi and of unirrigated crops in Hissar is below average.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts.

TULSI DAS, Offg. Supdt.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 5th April 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd April 1904, there were 828 births registered in the 40 large Municipal towns (448 males and 380 females), giving a birth-rate of 31 per *mille* of population, and 1,702 deaths were registered (863 males and 839 females), giving a death-rate of 64 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 38 against 39 in the corresponding week of the previous year, Lahore 44 against 45, Amritsar 65 against 38, and Mooltan 26 against 23. There were 789 deaths reported from plague, the largest number were registered in the following towns:— Ludhiána 216, Jullundur 178, Palwal 62, Amritsar 52, and Batála 50; the deaths reported in the towns of Jagraon, Kasúr, Ráikot, Maghiána, Siálkot, Wazírabad, Lahore and Bhera varied between 13 to 38. Of the 42 deaths from small-pox 10 were registered in Jhajjar, 8 in Rewári, 7 in Hánsi, and 4 each in Palwal and Delhi.

Deaths reported from plague during the week ending 9th April 1904 *in the districts, including all Municipal towns.*—Jullundur 1,772, Hoshiárpur 1,068, Gurdáspur 3,107, Siálkot 2,330, Ludhiána 2,098, Lahore 1,397, Ferozepore 981, Amritsar 147, Gujrát 1,351, Jhang 161, Gujránwála 1,055, Ráwalpindi 27, Attock 1, Shahpur 2,249, Karnál 109, Gurgaon 91, Hissar 51, Rohtak 314, Jhelum 491, Delhi 31, and Montgomery 11; Patiála State 294, Kapurthala State 515, Nábha State 126, Máler Kotla State 520, Jínd State 167, Kalsia State 171 and Farídkot State 23. No returns were received from the districts of Ambala, Kángra and Mooltan. Total for the Province 20,662. The returns received from the districts of Ambala and Gujrát for the previous week show 1,262 and 1,851 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 19TH APRIL 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Gram 28 seers. Bájra 26 seers. Bejhar 29 seers.	Crops being reaped and threshed, outturn of irrigated crops good and that of unirrigated below average.	...
2	Delhi ...	...	1. Scarce in parts ... 2. Good.	Wheat 16 seers ... Barley 28 seers. Gram 23 seers.	Reapings almost over. Expected yield below average.	...
3	Ambala ...	0·39 at Ambala ... 0·04 in Naráingarh 0·12 in Kasauli ...	1. Sufficient ... 2. Good.	Wheat 18¼ to 19 seers. Gram 27 to 28 seers. Barley 22 to 23 seers. Maize 38 seers. Jowár 40 seers. Bájra 25 seers.	Crops being cut. Sowing of extra spring crops finished.	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 20½ seers Gram 28 seers. Barley 26 seers. Maize 36 seers.	Reapings in progress. Prospects good.	Sowings of cotton and sugarcane in progress.
5	Ferozepore ...	...	1. Sufficient 2. Good.	Slightly falling ...	Crops are being reaped. Sowings of extra spring crops in progress. Locusts appeared in parts but passed over and did no damage.	Sowings of autumn crops in progress.
6	Lahore ...	...	1. Sufficient ... 2. Generally good.	Wheat 17 seers ... Gram 27 seers. Barley 30½ seers. Rice 11 seers.	Prospects good. Reaping of spring crops and sowings of extra spring crops going on.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18½ seers... Gram 28½ seers. Maize 35 seers. Bájra 27 seers.	Harvesting of spring crops in progress. Good outturn expected. Standing crops good.	Sowings of cotton and sugacane in progress.
8	Siálkot ...	...	1. Sufficient ... 2. Good.	Normal ...	Harvesting of spring crops and sowings of extra spring crops going on. Outturn average. Crops slightly damaged by hail in Tahsíl Siálkot.	Sowings of sugarcane and cotton in progress,
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 20½ seers. Gram 26 to 29 seers. Bájra 26 to 30 seers. Maize 24 to 25 seers. Barley 26 to 30 seers.	Yield of spring crops good. Sowings of extra spring crops completed.	Ploughings in progress.
10	Ráwalpindi ...	0·04 at Ráwalpindi 0·09 in Gujar Khan 0·18 in Murree.	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 22 seers. Maize 25 seers. Gram 23¾ seers. Barley 25¼ seers.	Good ...	...
11	Miánwáli ...	...	1. Procurable ... 2. Not reported.	Not reported ...	Spring crops being harvested. Extra spring crops being sown. Barley and gram in good condition. Wheat crops slightly damaged in secure area by wind while in the kacha area it has been much damaged by excessive rains.	...
12	Mooltan ...	...	1. Sufficient ... 2. Generally good.	Wheat 16¾ seers. Gram 24½ seers. Maize 27½ seers.	Reaping of spring crops commenced. Sowing of extra crops going on. Gram damaged in parts of Tahsíl Kabírwála by insects known as "Kuti."	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ambala and Ráwalpindi.

Prices.—The price of wheat is falling in Jullundur, Ferozepore, Lahore, Shahpur, Ráwalpindi and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of extra spring and autumn crops continue in most districts. Harvesting and threshing of spring crops are in progress. Reaping almost over in Delhi. Sowing of extra spring crops finished in Shahpur.

Crops and outturn.—Condition and prospects of spring crops are reported good in all districts except Delhi. The outturn of all spring crops in Delhi and of unirrigated crops in Hissar is reported below average.

Damage done to crops.—Crops have been somewhat damaged by hailstorms in part of Sialkot. Wheat crop has been slightly damaged by wind and excessive rains in parts of Miánwáli. Gram crop has also been damaged by insects in parts of Mooltan. Locusts appeared in parts of Ferozepore, but passed over without damaging the standing crops.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder sufficient in all districts except in parts of Delhi.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 19th April 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 9th April 1904 there were 940 births registered in the 42 large Municipal towns (479 males and 461 females), giving a birth-rate of 34 per *mille* of population, and 2,234 deaths were registered (1,072 males and 1,162 females), giving a death-rate of 81 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 45 against 49 in the corresponding week of the previous year, Lahore 59 against 45, Amritsar 73 against 44, and Mooltan 28 against 22. There were 1,217 deaths reported from plague: the largest number were registered in the following towns:—Jullundur 250, Ambala 167, Ludhiána 161, Lahore 80, Amritsar 71, Batála 67, Bhera 66, Wazírabad 65, Palwal 62, Kasúr 51, and Siálkot 50; the deaths reported in the towns of Gujránwála, Hoshiárpur, Maghiána and Tánda Urmar varied between 10 and 21. Of the 43 deaths from small-pox 11 were registered in Bhiwáni, 8 in Hánsi, 6 each in Jhajjar and Rewári, and 5 in Hissar.

Deaths reported from plague during the week ending 16th April 1904 in the districts, including all Municipal towns.—Jullundur 2,539, Hoshiárpur 1,886, Gurdáspur 2,924, Siálkot 2,535, Ludhiána 1,510, Lahore 1,649, Ferozepore 993, Amritsar 320, Gujrát 2,176, Jhang 348, Gujránwála 1,379, Ráwalpindi 26, Shahpur 3,263, Karnál 92, Gurgaon 136, Hissar 185, Rohtak 433, Jhelum 876, Delhi 41, and Montgomery 19; Patiála State 499, Kapurthala State 413, Máler Kotla State 426, Jínd State 208, Kalsia State 162, Farídkot State 21, and Nábha State 364. No returns were received from the districts of Ambala, Mooltan and Kángra. Total for the Province 25,423. The returns received from the district of Ambala for the previous week show 1,538 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ráwalpindi.

Prices.—The price of wheat is falling in Hissar, Ferozepore and Amritsar, and rising in Ambala, Jullundur, Shahpur and Ráwalpindi. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of extra spring crops continue in Siálkot. Ploughings and sowings of autumn crops are in progress in most districts. Harvesting and threshing of spring crops continue throughout the Province. Cotton sowings completed in Hissar.

Crops and outturn.—The outturn is below the average in Delhi, and also on unirrigated land in Hissar. Otherwise the outturn is good in all the districts dealt with

Damage done to crops.—Gram has been damaged by an insect known as "kuti" in parts of Mooltan.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 26th April 1904.

KASHI RAM, Su[illegible],
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 16th April 1904 there were 848 births registered in the 42 large Municipal towns (452 males and 396 females), giving a birth-rate of 31 per *mille* of population, and 2,613 deaths were registered (1,307 males and 1,306 females), giving a death-rate of 95 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 51 against 47 in the corresponding week of the previous year, Lahore 64 against 50, Amritsar 85 against 51, and Mooltan 29 against 25. There were 1,492 deaths reported from plague: the largest number were registered in the following towns:—Jullundur 232, Ambala 172, Ludhiána 170, Bhera 167, Batála 106, Lahore 104, Palwal 97, Kasúr 84, Amritsar 66, Wazírabad 54, and Maghiána 48; the deaths reported in the towns of Hánsi, Tánda Urmar, Siálkot, Jagádhri and Hoshiárpur ranged from 14 to 28. Of the 63 deaths from small-pox, 20 were registered in Bhiwáni, 12 in Rewári, 7 in Delhi, 6 in Jhajjar, and 5 in Hánsi.

Deaths reported from plague during the week ending 23rd April 1904 *in the districts, including all Municipal towns.*—Jullundur 3,329, Siálkot 2,298, Ludhiána 928, Lahore 998, Ambala 1,230, Ferozepore 785, Amritsar 876, Gujrát 2,917, Jhang 460, Gujránwála 1,955, Ráwalpindi 42, Shahpur 3,789, Karnál 128, Gurgaon 123, Hissar 130, Rohtak 286, Jhelum 1,361, Delhi 48, Montgomery 61, and Mooltan 4; Patiála State 733, Kapurthala State 607, Máler Kotla State 292, Jínd State 158, Kalsia State 169, Farídkot State 11, and Nábha State 326. No returns were received from the districts of Hoshiárpur and Gurdáspur. Total for the Province 24,044. The returns received from the districts of Ambala and Mooltan for the previous week show 1,516 and 5 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Reports.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of March 1904.

1.—HISSAR DISTRICT.

Rainfall of the month greatly benefited the unirrigated crops excepting rapeseed crop, which was slightly damaged. They are being reaped and the outturn is estimated to be below the average. Outturn of irrigated crops good and reaping commenced. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Cotton and sugarcane are being sown on lands irrigated by canal water. No crops sown on báráni lands. Lands are being ploughed up in villages where there has been good showers of rain. Condition of standing crops on irrigated lands good. Rain has benefited the standing crops. Gram, wheat and barley are being harvested. The báráni crops were in a bad state, but the rains have improved them to a small extent. Báráni crops have nearly been harvested. The outturn is expected as follows :—

Irrigated crops	Good
Báráni crops	Small.

No complaints about supply of canal water.

3.—GURGAON DISTRICT.

Sugarcane, gram and the extra rabi benefited by the rain. Rapeseed suffered a little in lowlying tracts. Wheat and gram are in good condition. Zira, tobacco and onions are being watered. Carrots and turnips are being gathered in and the rabi cut down. The standing crops are being harvested. Those on irrigated area are average and on unirrigated bad. Some slight damage was done in Palwal and Núh Tahsils by hail. As the rabi is now being cut, the Tahsildárs have not been able to give an estimate of the outturn of the different crops. This will be given in the next month's return. Condition of cattle good. Fodder sufficient. Agra Canal being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Sugarcane, cotton and extra rabi cultivation was in progress during the month under report. Rabi reaping has begun. Extra rabi in good condition. Rabi outturn expected to be below average. Condition of cattle good. Fodder is becoming available. No complaints regarding irrigation by canal. Stocks of food-grains sufficient.

5.—KARNAL DISTRICT.

Sugarcane is being sown and ploughings made for cotton. The crops are in fair condition. The yield is expected to be average. Hailstones caused some damage to crops in a few villages The cattle are in good condition. Fodder is becoming scarce in the Karnál Tahsil. Water is being given where necessary from wells and canals.

6.—AMBALA DISTRICT.

Melon sowings finished. Sugarcane is being sown in some villages of Tahsíl Jagadhri. Crops in good condition. Expected yield average.

7.—SIMLA DISTRICT.

Sufficient rain was received in both tahsíls and has benefited the standing crops. Rice sowings were made on rain lands in the Kot Khái Tahsíl to the extent of $\frac{3}{4}$ths of the usual sowings. In cold tracts in Kot Khái the crops suffered to some extent from the snow not having melted, but in warm tracts the crops are in good condition. In Simla the standing crops are in good condition. No estimate can yet be made as the crops are still young. Cattle in good condition. Fodder sufficient and available in all tracts. Health of people good. Water from hill torrents sufficient in Kot Khái, somewhat deficient in Simla

8.—KANGRA DISTRICT.

A small area was sown with cotton in Tahsíl Hamírpur. The condition of the crops is good. The yield is expected to be above the average. The condition of the cattle is good. The public health is good. Water in the Kúhls was sufficient.

9.—HOSHIARPUR DISTRICT.

The sowings of marsh and water-melons and vegetables have been completed. The sugarcane, cotton and tobacco have been sown to the extent of about half the estimated sowings. Further sowings in progress. The condition of the standing crops throughout the district is good except in parts of the Una Tahsíl, where it is only fair. The yield of the standing crops is expected to be above the average in Tahsíls Hoshiárpur, Garhshankar and Dasúya and only about average in Tahsíl Una The cattle are reported to be generally in good condition and there is ample grazing to be had. Stock of Bhúsa sufficient Owing to plentiful rain during the month little water was taken from the Shah Nahr and Zamíndári Canals and hill torrents for irrigation purposes.

10.—JULLUNDUR DISTRICT.

Sugarcane, cotton and extra rabi sowings were in progress The rain during the month was plentiful and has insured a good rabi crop. Condition of cattle good. Fodder sufficient.

11.—LUDHIANA DISTRICT.

Sowings of sugarcane, melons and vegetables in progress. Condition of rabi crops, irrigated and unirrigated, good. Sugarcane crushing is still in progress, owing to the prevalance of plague. Outturn is good. Cattle are in good condition. Irrigation from canals ordinary. Prices stationery.

12.—FEROZEPORE DISTRICT.

Sowings of extra rabi crops, sugarcane, cotton and chari continued during the month. Condition of standing crops is good. Rapeseed is being reaped Yield expected to be good. The Sirhind Canal has been flowing during the month. Condition of cultivators is generally good. Green fodder is available. Prices are normal. Stocks of food-grains and fodder are sufficient.

13.—MONTGOMERY DISTRICT.

There has been rain in all the tahsíls of the district which has benefited rabi harvest. There has also been záid rabi cultivation in the tahsíls. Condition of crops generally good. Expected yield average. Public health good. All canals, Government and private, except Deg Nala, are dry. There is more water in the rivers as compared with last year. There was hail here and there during the month, but it did no harm.

14.—LAHORE DISTRICT.

Greater part of the extra rabi has been sown and the land is being prepared for kharif. Sugarcane and cotton is being sown. The condition of the rabi crops is very good, more especially of wheat and gram. The rainfall in this month has greatly benefited the crops and the outturn will be above the average. The Bari Doab Canals worked well during the month and the Inundation Canals were closed. There was water in the Deg, Chitrang and Nagwali in the beginning of the month, but were dried up at the close of the month. The prices are stationary. A bumper harvest is expected and the prices of food-grains are sure to fall unless there is an extra demand for export to Europe or other Foreign countries.

15.—AMRITSAR DISTRICT.

Average rainfall during the month 3·84 which was beneficial to the standing crops. Sugarcane pressing and sowing of extra rabi crops, cotton and sugarcane in progress. Condition and prospects of standing crops good. There were no complaints of canal water-supply.

16.—GURDASPUR DISTRICT.

Good rain during the month. Condition of crops generally good. Too early to estimate yield yet. Condition of cattle good. Fodder sufficient. No floods.

17.—SIALKOT DISTRICT.

Good rainfall throughout has benefited the rabi crop. Sowings of cotton, sugarcane and extra rabi crops continue. Standing crops generally in good condition, but damaged in some villages by hail and by excessive rain in lowlying lands. Pressing of sugracane continued. Outturn average. Condition of cattle generally good. Fodder sufficient. Water sufficient in Bajwat Canals.

18.—GUJRANWALA DISTRICT.

Sowings of tobacco, vegetables, cotton and sugarcane in progress. Condition of crops good. Yield of gur average. Canal water not sufficient, but no complaints owing to sufficient rainfall. Prices of food-grains stationary.

19.—GUJRAT DISTRICT.

Sowings of cotton, sugarcane and extra rabi crops in progress and land being prepared for other kharif crops. Standing crops generally good. Expected yield good. Cattle in good condition. Fodder sufficient. No floods from hill torrents. Prices stationary.

20.—SHAHPUR DISTRICT.

Extra rabi sowing nearly completed and cultivation for kharíf sowing in progress. Condition of crops generally good. The expected yield is above average. but poppy and gram have been partly damaged on account of excess of rain. The condition of cattle is good. Fodder sufficient. The plague is raging in Tahsíls Bhera and Shahpur and the former is being deserted. Inundation canals were current for 3 or 4 days on account of heavy rains. Prices falling slightly.

Colony.—Heavy rain has fallen during the month and crops are everywhere in an excellent condition. In some part of the Ara slight rust has appeared in the wheat owing to the continuous rainfall and in some places gram and barley have been damaged owing to the absence of sunshine, but both crops are unimportant in the colony. The toria crop (which was very late) has now been finally harvested and early sowings of cotton have begun. Condition of cattle is good. Plague has made rapid progress and in the Chak Chenab and Bhera Bár agricultural operations are at a standstill in a number of villages. Some of the new Colony Chaks have also been deserted.

21.—JHELUM DISTRICT.

Sowings of melons and cotton completed. Condition of standing crops generally good. Yield above average Some of the Maidan area of the Pind Dadan Khan Tahsil received irrigation from hill torrents in the Salt Range. Prices falling.

22.—RAWALPINDI DISTRICT.

There have been good rains during the month. Sowings of cotton, sugarcane and melons made. Rabi prospects are good. No complaint of cattle disease. No disease among mankind.

23.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Condition of rabi crops is good, but the crops, sarshaf and táramira, have suffered from excessive fall of rain. Extra rabi and kharif crops are being sown Fodder sufficient. No disease among cattle Hail did some damage in some villages of Miánwali Tahsíl. Hill torrents have commenced running and irrigating the lands.

Bhakkar and Leiah Tahsíls.—There has been good rainfall during the month under report. Land is being prepared for sowing of extra spring crops. Condition of cattle fair. Fodder procurable.

24.—JHANG DISTRICT.

Good rainfall during the month which proved beneficial to the standing and extra rabi and kharif crops Hailstones fell in some parts of the district, but caused little damage to the crops. Condition of crops generally good. Condition of cattle fair. Fodder sufficient. Canals flowing. No river inundation.

25.—MOOLTAN DISTRICT.

Prospects of rabi crops good. Záid rabi cultivation in progress. Land being ploughed for kharif crops. Wheat crop suffered in some villages of Kabírwála from a disease known as "*kungni.*" Sidhnai Canal flowing. Guranga and Abdul Hakim Canals flowed for a few days and Fázil Shah only for two days at the end of the month.

26.—MUZAFFARGARH DISTRICT.

Sugarcane and jowár are being sown. Condition of crops good. Yield expected good. No disease among cattle. State of public health good. Canals dry. Food and water sufficient.

27.—DERA GHAZI KHAN DISTRICT.

Záid rabi sowings completed. Condition of spring crops is good. They have been generally benefited by rain, especially where they were poor. Some of the heavier crops, however, were somewhat injured by excessive rain. Yield promises to be above average. Condition of cattle is good and fodder is sufficient. The only canal which has had any water to speak of is the Shoria. It has benefited crops at the tail. Hill torrents came down in Tahsíls Sángarh, Dera Gházi Khan and Jámpur. Though this is not the season at which they are most required, a certain amount of use was made of them for irrigating the standing wheat crops and sowing of zaid rabi while existing cotton plants were irrigated.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 23rd April 1904.

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-SEVEN THOUSAND ONE HUNDRED AND SEVENTY-SEVEN births were registered in the Province during the month of March 1904, giving a birth-rate of 39 per *mille* of population. Of the total number of births, 35,169 were boys and 32,008 were girls.

The total number of deaths registered from all causes in the Province during the month of March 1904 was 112,828 against 71,068 in the previous month and 91,294 in the corresponding month of the past year, giving an annual death-rate of 66, 44 and 53 per *mille* of population per annum, respectively.

The total mortality from plague amounted to 62,843 against 22,070 in the previous month, and 37,228 in the corresponding month of the past year. The largest number of deaths reported from plague during the month were 11,301 in Ludhiána, 9,410 in Siálkot and 7,256 in Gurdáspur. The mortality was also very high in the following districts:— Shahpur 5,607, Ambala 4,782, Jullundur 4,023 and Hoshiárpur 4,007. In the districts of Amritsar, Lahore, Gujránwála and Gujrát the deaths ranged from 2,429 to 3,268.

There were 2 deaths registered under the head of cholera. From small-pox 1,251 deaths were registered against 995 in the previous month and 1,631 in the corresponding month of the past year; fevers 32,272 against 32,213 and 34,444; dysentery and diarrhœa 675 against 702 and 797; respiratory diseases 5,026 against 5,188 and 5,905. During the month there were 19 deaths registered from suicide against 18 in the past month; wounding 39 against 34; accidents 265 against 266; snake-bite and killed by wild beasts 37 against 25; and from all other causes 10,399 against 9,554 in the previous month and 10,967 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 23rd April 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, MAY 5, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 3RD MAY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 26 seers. Gram 28½ seers.	Unirrigated crops harvested and housed. Irrigated crops being reaped.	...
2	Delhi ...	...	1. Scarce in parts ... 2. Good.	Wheat 16½ seers Barley 27 seers. Gram 24½ seers.	Condition of extra spring crops fair.	...
3	Ambala ...	...	1. Sufficient ... 2. Good.	Wheat 17½ to 18¼ seers. Gram 28 seers. Jowár 40 seers. Maize 38 seers. Bájra 25 seers. Barley 22 seers.	Harvesting of spring crops in progress. Condition of extra spring crops good.	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 19¾ seers Gram 28½ seers. Barley 27 seers. Maize 35¾ seers.	Crops being reaped and threshed. Prospects good.	...
5	Ferozepore ...	0·02 in Muktsar ...	1. Sufficient ... 2. Generally good.	Slightly falling ...	Wheat is being reaped. Threshing of barley commenced. Condition and prospects of extra spring crops good.	Sowings in progress.
6	Lahore ...	0·18 in Chunián ... 0·07 in Kasúr. 0·17 in Lahore.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Barley 29 seers. Gram 27 seers. Rice 11 seers.	Reaping of spring crops and sowing of extra spring going on. Prospects good.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ..	...	1. Sufficient ... 2. Good.	Wheat 19 seers ... Maize 37 seers. Gram 28 seers. Bájra 27 seers.	Harvesting of spring crops and sowings of extra spring nearly finished. Good outturn is expected Prospect of extra spring crops good.	Condition of standing autumn crops good.
8	Siálkot ...	Slight rainfall in Raya.	1. Sufficient ... 2. Generally good.	Normal ...	Sowings of extra spring crops continue Harvesting of spring crops in progress. Outturn good.	Sowing of cotton in progress.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 19 to 20 seers. Barley 26 to 32 seers. Gram 26 to 32 seers. Jowár 27 to 30 seers. Maize 24 to 25 seers.	Being harvested. In some villages of the Bhera and Shahpur Tahsils crops will remain uncut, owing to the severity of the plague epidemic.	Sowings commenced.
10	Ráwalpindi ...	0·22 at Ráwalpindi 0·27 in Murree.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Barley 25 seers. Bájra 21½ seers. Maize 24¾ seers. Gram 22¾ seers.	Crops being cut.	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 20 seers ... Barley 34 seers. Gram 33 seers.	Harvesting of spring crops in progress. Extra sowing of spring crops in progress.	...
12	Mooltan ...	0·09 in Mailsi ...	1. Sufficient ... 2. Generally good.	Wheat 17¼ seers... Gram 24¼ seers. Maize 28½ seers.	Reapings of spring crops in progress. Sowings of extra spring crops going on.	Sowings of autumn crops in progress.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ferozepore, Lahore, Siálkot, Ráwalpindi and Mooltan.

Prices.—The price of wheat is rising in Hissar, Lahore and Ráwalpindi, and falling in Delhi, Jullundur, Ferozepore, Miánwáli and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting and threshing of spring crops are in progress in all districts. Sowings of extra spring and autumn crops continue in some districts.

Crops and outturn.—The outturn is below the average in Delhi, and also on unirrigated lands in Hissar. Otherwise the outturn is good. Condition of extra spring crops is generally good.

Agricultural stock.—Cattle are in good condition throughout the Province.

Pasturage.—Fodder sufficient in all districts except in parts of Delhi.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

The mean temperature of the whole area was higher than usual for the first three days of the month. It then fell very rapidly and a very cold period set in and lasted till the 19th. The coldest day was the 9th, when the mean temperature was 7°·5 below the normal. On the 20th the heat was exactly normal, and during the next three days was slightly greater than usual. On the 24th there occurred another sudden and large fall, and very cold weather prevailed from the 24th to the 28th. On the three last days the mean temperature was normal or in slight excess. The highest maximum temperature reported was 98°·3 at Sirsa on the 30th.

Humidity and Cloud.—The air was much damper than usual everywhere, and the cloud amount was in excess of the average except at Delhi, Sirsa and Ludhiána.

Rain.—The snow fall in further Kashmir was lighter than usual, but the rainfall on the plains and on the outer hills was much heavier than the average. Rain was received at all stations, the amount ranging from 1·34″ at Delhi to 7·46″ at Dera Ismail Khan, to 7·27″ at Pesháwar and to 7·17″ at Murree. The fall was extraordinarily heavy everywhere, but particularly so at Dera Ismail Khan, where the total for the month was more than six times the average. At this station the total rainfall between the 1st of January and the 31st of March amounted to 8·74″, the normal total fall for the whole year being 8·51″, and of this amount of 8·74″ no less than 7·46″ fell during March.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for March 1904:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 2nd May 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd April 1904 there were 805 births registered in the 42 large Municipal towns (420 males and 385 females), giving a birth-rate of 29 per *mille* of population, and 2,752 deaths were registered (1,306 males and 1,446 females), giving a death-rate of 100 per *mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 36 against 49 in the corresponding week of the previous year, Lahore 80 against 63, Amritsar 90 against 70, and Mooltan 34 against 20. There were 1,719 deaths reported from plague: the largest number were registered in the following towns:—Jullundur 256, Maghiána 184, Ambala 175, Lahore 159, Bhera 152, Amritsar 120, Kasúr 114, Batála 109, Ludhiána 98, Palwal 83, and Wazírabad 65; the deaths reported in the towns of Jhajjar, Pind Dádan Khan, Gujránwála, Jagádhri, Hoshiárpur and Hánsi ranged from 15 to 28. Of the 57 deaths from small-pox, 16 were registered in Bhiwáni, 10 in Rewári, 9 in Jhajjar, and 8 in Hánsi.

Deaths reported from plague during the week ending 30th April 1904 in the districts, including all Municipal towns.—Jullundur 4,073, Hoshiárpur 1,766, Siálkot 2,456, Ludhiána 1,474, Lahore 1,935, Ferozepore 1,121, Amritsar 368, Gujrát 2,882, Jhang 432, Gujránwála 2,274, Ráwalpindi 43, Shahpur 4,874, Karnál 172, Gurgaon 138, Hissar 122, Rohtak 262, Jhelum 1,363, Delhi 71, Montgomery 53, and Mooltan 22; Kapúrthala State 475, Máler Kotla State 159, Jínd State 205, Kalsia State 138, Farídkot State 6 and Nábha State 426. No returns were received from the districts of Gurdáspur and Ambala and Patiála State. Total for the Province 27,310. The returns received from the district of Gurdáspur for the previous week show 6,644 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Hissar, Delhi, Jullundur, Ferozepore, Lahore, Amritsar, Siálkot and Ráwalpindi.

Prices.—The price of wheat shows a downward tendency. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting and threshing of spring crops are in progress in all districts. Sowings of extra spring and autumn crops continue in some districts.

Crops and outturn.—Condition of extra spring and autumn crops is generally good. The outturn is below the average in Delhi and also on unirrigated lands in Hissar. Otherwise the outturn is good.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is sufficient in all districts except in parts of Delhi.

12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 17¾ seers... Gram 24¼ seers. Maize 28½ seers.	Wheat being threshed. Extra spring crops being sown.	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Hissar, Delhi, Ambala, Amritsar, Siálkot and Ráwalpindi. Slight falls have also been reported from Jullundur, Ferozepore, Lahore and Miánwáli Districts.

Prices.—The price of wheat is falling in Jullundur, Amritsar and Shahpur. The prices of other food-grains are fluctuating.

Agricultural operations.—Cutting of spring crops finished in several districts. Threshing of wheat is in progress in most districts. Sowings of extra spring and outumn crops continue in certain districts. Plague is seriously interfering with agricultural operations in Shahpur.

Crops and outturn.—Condition of extra spring and autumn crops is generally good. Outturn of spring crops is reported good in most districts.

Damage done to crops.—Wheat has been slightly damaged on the threshing floor in parts of Amritsar and Siálkot by untimely rainfall. Hail stones fell in parts of Lahore and Amritsar, but did slight damage to extra spring crops in parts of Amritsar.

Agricultural stocks.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is sufficient in all districts except in parts of Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th May 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 7th May 1904, there were 796 births registered in the 42 large Municipal towns (422 males and 374 females), giving a birth-rate of 29 *per mille* of population, and 2,828 deaths were registered (1,355 males and 1,473 females), giving a death-rate of 103 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 41 against 52 in the corresponding week of the previous year, Lahore 132 against 65, Amritsar 92 against 45, and Mooltan 35 against [illegible]0. There were 1,688 deaths reported from plague: the largest number were registered in the following towns:—Lahore 320, Pind Dádan Khan 185, Jullundur 144, Maghiána 132, Bhera 118, Ambala 106, Palwal 92, Batála 91, Kasúr 78, Amritsar 62, Wazirabad 52, and Hoshiárpur 48; the deaths reported in the towns of Jhelum, Hánsi, Siálkot, Gujránwála, Shahabad, Karnál, Kartárpur, Jagádhri and Ludhiána ranged from 13 to 35. Of the 48 deaths from small-pox, 23 were registered in Bhiwáni, 6 in Rewári and 4 each in Hánsi and Delhi.

Deaths reported from plague during the week ending 14th May 1904 *in the districts, including all Municipal towns.*—Jullundur 3,643, Ludhiána 612, Lahore 3,395, Ferozepore 555, Amritsar 705, Jhang 480, Gujrát 2,920, Gujránwála 3,781, Ráwalpindi 19, Shahpur 3,684, Karnál 158, Gurgaon 90, Hissar 31, Rohtak 93, Jhelum 1,454, Delhi 8, Montgomery 35, Mooltan 23 and Attock 10; Patiála State 442, Kapurthala State 381, Jínd State 96, Kalsia State 43, and Nábha State 187. No returns were received from the districts of Hoshiárpur, Gurdáspur, Siálkot, Ambala and Kángra. Total for the Province 22,845. The returns received from the districts of Gurdáspur, Siálkot, Ambala and Kángra for the previous week show 4,717, 2,294, 886 and 1 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE, THURSDAY, MAY 26, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 24TH MAY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·06 in Hánsi ... 1·00 in Bhiwáni. 0·24 in Fatahabad. 0·14 in Sirsa. 0·50 in Budhláda. 0·22 in Tohána.	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Bájra 26 seers. Gram 28 seers.	Irrigated crops harvested and being housed. Extra spring crops are in good condition.	Condition of standing cotton crop on canal land good.
2	Delhi ...	0·52 at Sadr ... 0·12 in Sonepat. 0·29 in Mahrauli.	1. Scarce in parts ... 2. Good.	Wheat 17 seers ... Barley 27 seers. Gram 25 seers.	Condition of extra spring crops good.	...
3	Ambala ...	0·06 at Sadr ... 0·18 in Ambala. 0·50 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 20 to 20½ seers. Barley 24 seers. Gram 28 to 28½ seers. Maize 37 seers. Jowár 40 seers.	Condition of extra spring crops good.	Standing crops in good condition.
4	Jullundur ...	Slight rain ...	1. Sufficient ... 2. Good.	Wheat 20½ seers Gram 30 seers. Barley 30 seers. Maize 40 seers.	Crops being threshed and winnowed: prospects good.	...
5	Ferozepore ...	0·04 in Moga ... 0·41 in Muktsar. 0·28 in Fázilka.	1. Sufficient ... 2. Generally good.	Slightly falling ...	Threshing of wheat continues: prospects good.	Sowings continue: Condition of standing crop good.
6	Lahore ...	0·23 in Chunián ... 0·06 in Kasúr.	1. Sufficient ... 2. Generally good.	Wheat 19 seers ... Barley 32 seers. Gram 30 seers. Rice 11 seers.	Collection of spring and sowing of extra spring crops in progress: prospects good Hail fell in parts, but no damage was done.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 21 seers ... Maize 36 seers. Bájra 29 seers. Gram 30 seers.	Extra spring crops slightly damaged by storms. Prospects good. Outturn of spring crops good.	Standing crops in good condition.
8	Siálkot ...	1·00 in Pasrúr; less in other tahsíls.	1. Abundant ... 2. Generally good.	Wheat 18½ to 20 seers. Gram 28 seers. Barley 40 seers. Maize 32 seers.	Harvested crops somewhat damaged on threshing floor by rain and extra spring crops by hail. Threshing of wheat continues: outturn good.	Condition of standing crops good.
9	Shahpur ...	Slight rainfall in parts.	1. Not reported ... 2. Good.	Wheat 20 to 21 seers. Barley 31 seers. Gram 30 seers. Jowár 27 seers. Bájra 28 seers. Maize 24 seers.	Crops being harvested, but progress slow for want of labourers. Slight hail in a few villages, but did no damage. Insects damaging melon crop.	Sowings continue.
10	Ráwalpindi ...	0·81 in Kahúta ... 1·15 in Murree.	1. Sufficient ... 2. Good.	Wheat 17¼ seers. Gram 26 seers. Bájra 25 seers. Maize 25 seers. Barley 32 seers.	Being harvested ...	...
11	Miánwáli ...	...	1. Abundant ... 2. Generally good	Wheat 20½ seers. Barley 36 seers. Gram 35 seers.	Being harvested. Condition of extra spring crops average.	...
12	Mooltan ...	0·29 in Mailsi ... 0·55 in Lodhrán. 0·25 in Shujabad.	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 25¾ seers. Maize 31 seers.	Wheat being gathered. Hailstones have slightly damaged crops in certain villages of Tahsíls Mailsi and Lodhrán.	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Rain has fallen in parts of Hissar, Delhi, Siálkot and Ráwalpindi. Slight showers have also been reported from Ambala, Jullundur, Ferozepore, Lahore, Shahpur and Mooltan.

Prices.—The prices of all food-grains show a general downward tendency.

Agricultural operations.—Harvesting of spring crops in progress in some districts. Threshing of wheat continues in several districts. Sowing of extra spring and autumn crops going on in a few districts. Progress with the harvesting of spring crops rather slow for want of labour in Shahpur.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are generally good. Outturn of spring crops is reported good in most districts.

Damage done to crops.—Wheat has been slightly damaged on threshing floor in parts of Siálkot by untimely rain. Extra spring crops have been slightly damaged by hailstones in parts of Siálkot and Mooltan, by storms in Amritsar, and by insects in Shahpur.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is sufficient in all districts except in parts of Delhi.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th May 1904.

KASHI RA[illegible] SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 14th May 1904, there were 892 births registered in the 42 large Municipal towns (480 males and 412 females), giving a birth-rate of 32 *per mille* of population, and 2,282 deaths were registered (1,105 males and 1,177 females), giving a death-rate of 83 *per mille* of population. The death-rates registered in four largest towns were as follows:—Delhi 43 against 48 in the corresponding week of the previous year, Lahore 140 against 65, Amritsar 75 against 45, and Mooltan 37 against 38. There were 1,139 deaths reported from plague; the largest number were registered in the following towns:—Lahore 306, Pind Dádan Khan 108, Jullundur 89, Amritsar 77, Palwal 55, Batála 54, Wazírabad 51, Bhera 50, and Hoshiárpur 42; the deaths reported in the towns of Gujránwála, Karnál, Ludhiána, Jagádhri, Kasúr, Ambala, Maghiána, Kartárpur and Shahabad ranged from 18 to 39 Of the 61 deaths from small-pox, 21 were registered in Bhíwáni, 5 each in Rewári, Delhi and Siálkot and 4 each in Palwal and Mooltan.

Deaths reported from plague during the week ending 21*st May* 1904 *in the districts, including all Municipal towns.*—Jullundur 2,610, Siálkot 1,324, Ludhiána 269, Lahore 2,227, Ferozepore 421, Amritsar 662, Gujrát 2,682, Jhang 160, Gujránwála 2,714, Ráwalpindi 68, Shahpur 2,598, Karnál 139; Gurgaon 36, Hissar 58, Rohtak 45, Jhelum 1,327, Delhi 3, Mooltan 17, Montgomery 14 and Attock 1; Patiála State 122, Kapúrthala State 190, Máler Kotla State 2, Jínd State 48, Kalsia State 32 and Nábha State 182. No returns were received from the districts of Hoshiárpur, Gurdáspur, Ambala and Kángra. Total for the Province 17,951. The returns received from the districts of Hoshiárpur, Gurdáspur, Siálkot, Ambala, Máler Kotla State and Farídkot State for the previous week show 2,782, 2,854, 1,857, 664, 68 and 1 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

TULSI DAS, *Offg.* Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of April 1904.

1.—HISSAR DISTRICT.

Unirrigated crops harvested and housed. Outturn below the average. Irrigated crops being reaped. Outturn good. Cotton-sowings nearly finished. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Cotton, indigo and sugarcane are still being sown on lands irrigated by canal water. No crops sown on bárání lands. Crops on baráni, cháhi and nahri lands have all been cut. Condition of standing crops on irrigated lands good. Outturn of crops is as follows :—

Irrigated crops	Average.
Báráni crops	Bad.

Fodder sufficient. No complaints about supply of canal water.

3.—GURGAON DISTRICT.

No benefit was derived nor damage done by the scanty rainfall during the month. Wheat, barley, gram, &c., have been cut and sifted, and the extra rabi watered where necessary. A little ploughing has been done on spare ground. Cotton and chari has been sown on land irrigated by canal water. Sugarcane has been cleared off weeds. The standing crops on irrigated lands are average, and those on unirrigated lands bad. The extra rabi is good. The outturn of Gurgaon and Palwal Tahsils is estimated as under :—

	Cháhi.	*Abi.*	*Dahri.*	*Báráni.*	*Nahri.*
	Mds.	Mds.	Mds.	Mds.	Mds.
Wheat ...	10 to 20	8	7	6	20
Barley ...	15 to 25	10	9	8	25
Gram ...	10	12	11	5 to 10	15
Rapeseed ...	2	1	1	1	...

Condition of cattle good. Fodder insufficient in the Fírozpur Tahsíl. Agra Canal being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Rabi over. Condition of extra rabi good. Yield below average. Condition of cattle good. Fodder scarce in parts of the district. No complaints regarding irrigation by canal.

5.—KARNAL DISTRICT.

Sugarcane, maize and chari are being sown, and ploughings for cotton cultivation are in progress. Crops are in fair condition. The yield is expected to be an average one. Fodder is sufficient. Water is being given where necessary from wells and canals.

6.—AMBALA DISTRICT.

Standing crops in good condition. Expected yield average. Condition of cattle good.

7.—SIMLA DISTRICT.

Slight rain was received in both tahsíls. No sowings in Simla, but rice was sown up to the usual quantity in Kot Khái on rain lands. Standing crops in average condition in Simla Tahsíl, and harvesting going on In Kot Khái Tahsíl the rain was insufficient and the standing crops have suffered to some extent. The late-sown barley has especially suffered and the yield is expected to be below the average; in wheat also a similar result is anticipated if rain does not fall very soon. Rain is also much needed for the poppy crops The crops so far harvested in the Simla Tahsíl have given the following outturn :—

	Wheat.	*Barley.*	*Masúr.*
	Seers per acre.	Seers per acre.	Seers per acre.
Irrigated	457	360	244
Unirrigated	320	284	183

Condition of cattle good. Fodder sufficient. Health of people good. Water from hill torrents slightly deficient in the Simla Tahsíl; sufficient in Kot Khái.

8.—KANGRA DISTRICT.

A small area was sown with rice, kangni, sugarcane and cotton. The condition of the crops is good. The yield of the rabi crop is expected to be above the average. The public health is good Water in the kúhls was sufficient for irrigation purposes Hailstorms occurred in one village of Tahsíl Kulu and three villages of Tahsíl Núrpur.

9.—HOSHIARPUR DISTRICT.

The sowings of sugarcane, cotton and tobacco were completed during the month. The rabi has been cut and is being harvested The extra rabi promises well The yield of the rabi which is now being harvested is expected to be above the average or an 18-anna crop. The condition of cattle is generally good. The stock of fodder is ample, and there is ample grazing to be had. The Shah Nahr was closed during the month of silt clearance.

10.—JULLUNDUR DISTRICT.

The rabi crop was reaped and stacked towards the latter part of the month. Good outturn expected. Extra rabi, sugarcane and cotton-sowings were in progress. Prospects good. Condition of cattle good. Fodder sufficient.

11.—LUDHIANA DISTRICT.

Sowings of sugarcane, melons and vegetables in progress. Rabi is being harvested, and the condition of extra rabi is good Yield is good, and especially sarshaf (rapeseed), which is excellent. Cattle are in good condition. Irrigation from canals ordinary. Prices stationary.

12.—FEROZEPORE DISTRICT.

Sowings of sugarcane, cotton, onions, tobacco, melons, chari and moth continued during the month. Wheat and gram are being reaped. Condition and prospects of standing crops are good Yield expected to be good The Sirhind Canal has been flowing during the month, and a normal area was irrigated from it. Green fodder was available till about 20th of the month, but not after that date. Prices are slightly falling. Stocks of food-grains and fodder are sufficient for local requirements.

13.—MONTGOMERY DISTRICT.

The rain on the 27th April so far as is known did not do any damage to the crops which are being harvested. Condition of crops generally good. Yield good. Condition of cattle generally good. Fodder sufficient. All the canals are dry, but there is more water in the rivers as compared with the last month. Along the Ravi the crops were so abundant compared with ordinary years that there was a difficulty in obtaining labourers to cut them. Wheat-stalks have been left as high as one-and-a-half feet in many places, thus causing a loss in *bhúsa*.

14.—LAHORE DISTRICT.

All the crops of extra rabi have been sown, and some cotton and sugarcane are being sown. The condition of extra rabi is good, except that in a few villages some hail has caused a little damage. The rabi crop is being harvested, and the expected yield is above the average, more especially of wheat and gram. The Bari Doab Canal worked well during the month, but there was no water in the Inundation Canals and the Deg which were dried up. The prices of food-grains are generally falling. As there has been a good rabi harvest they are sure to fall further, when the grain is on the threshing floor, unless there is an extra demand for export to Europe and other foreign countries.

15.—AMRITSAR DISTRICT.

Sowing of cotton, sugarcane and extra rabi crop finished. Condition and prospects of standing crops good. Harvesting of rabi crops continues. Outturn of rabi crops on irrigated areas average, and that of on unirrigated areas good. No complaints of canal water-supply.

16.—GURDASPUR DISTRICT.

Slight rain during the month. Kharif sowings commenced. Condition of crops good. The yield is expected to be good. Condition of cattle good. Fodder sufficient.

17.—SIALKOT DISTRICT.

Practically no rain within the month. Sowing of cotton, sugarcane and extra rabi crops continued. Standing crops generally in good condition, but slightly damaged in a few villages by hail. Cutting of crops continued. Outturn of gram, massar, barley, linseed, tárámíra and rapeseed good. Fodder sufficient. Plague throughout the district, which has much affected the cutting of crops. Water sufficient in Bajwat Canals.

18.—GUJRANWALA DISTRICT.

Sowings of extra rabi crops, cotton and sugarcane nearly completed. Condition of crops good. The estimate of yield will be submitted next month. Condition of cattle good. Canal water sufficient. Prices of food-grains falling slightly.

19.—GUJRAT DISTRICT.

Sowings of extra rabi and cotton and sugarcane crops completed. Condition of crops good. Harvesting and threshing operations in progress. Expected yield good. Cattle in good condition. Fodder sufficient. No floods. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Remarks returned for corrections.

21.—JHELUM DISTRICT.

Sowings of extra rabi crops completed. Condition of rabi crops good. Those sown in January suffered somewhat from the high dry winds in April. Crops being reaped and threshed. Expected yield above the average. No floods. Prices falling.

22.—RAWALPINDI DISTRICT.

No sowings made during the month. Rabi prospects are good. Reaping has begun. Damage to standing crops was done by high winds. No disease among cattle.

23.—ATTOCK DISTRICT.

Sowings for zaid rabi have begun. Rabi prospects are good. Reaping of rabi harvest have commenced. No disease among cattle and mankind.

24.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Gram and barley crops are being gathered, and wheat crop is being cut. Greater part of the extra rabi has been sown. No disease among cattle. Fodder sufficient.

Bhakkar and Leiah Tahsíls.—Lands are being prepared for extra rabi and kharíf sowings. Cutting of rabi crops commenced. Outturn average. Condition of standing crops fair. Fodder procurable. Condition of cattle fair.

25.—JHANG DISTRICT.

Extra rabi and cotton sowings in progress. No rain during the month except a slight one in the Jhang Tahsíl. Condition of nahri crops good, chahi fair, and báráni below the average. Barley and gram have been gathered, and wheat is being gathered. Outturn of barley 11 maunds per acre, and of gram 8 maunds per acre. Fodder sufficient. Canals flowing. No river inundations.

26.—MOOLTAN DISTRICT.

Wheat and barley reapings in progress. Kharíf crops being cultivated. Prospects and yield of crops good. A few canals in the Sutlej Division running. Sidhnai Canal has been flowing throughout the month.

27.—MUZAFFARGARH DISTRICT.

Sowing of kharíf crops commenced in Sinánwán Tahsíl. No sowings in other tahsíls. Condition of crops good. The expected yield also good. No disease among cattle. State of public health generally good. Canals dry. No floods. Food and fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

This is not the season for sowing, except that cotton has been sown in Sanghar-Pachád owing to hill torrent irrigation. Zaid rabi promises average. The rabi outturn has been good in all tahsils. A little damage has been done to it and zaid rabi by hail in the north of Dera Ghάzi Khan Tahsíl. Cattle are in good condition. The public health is good. The hill torrents came down to a small extent in Sanghar and Dera Ghάzi Khan Tahsíls, and zamíndárs have sown some cotton and jowár. The only canal working is the Sardárwah, a small zamíndári water-course taking off from a creek.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 31ST MAY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·02 at Sadr ... 0·09 in Hánsi 0·11 in Bhiwáni. 0·09 in Tohána.	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 26 seers. Gram 28½ seers.	Irrigated crops harvested and housed. Prospects of extra spring crop good.	Condition of standing cotton crop on canal lands good.
2	Delhi ...	0·25 at Sadr ... 0·40 in Sonepat. 0·33 in Ballabgarh.	1. Scarce in parts ... 2. Good.	Wheat 16 seers ... Barley 26 seers. Gram 24 seers.	Extra spring crop is being reaped.	...
3	Ambala ...	0·03 at Sadr ... 0·32 in Jagádhri. 0·44 in Naraingarh. 0·20 in Kharar. 0·36 in Rúpar.	1. Sufficient ... 2. Good.	Wheat 20 to 20½ seers. Barley 24 seers. Gram 28 to 28¾ seers. Maize 37 seers. Jowár 40 seers. Bájra 25 seers.	Condition of extra spring crops good.	Condition of standing crops good.
4	Jullundur ...	Slight rain ...	1. Sufficient ... 2. Good.	Wheat 20¼ seers Gram 29 seers. Barley 28 seers. Maize 40 seers.	Crop being threshed and winnowed: yield good. Bhúsa straw) damaged slightly by high winds Condition of extra spring crops fair.	...
5	Ferozepore ...	...	1. Sufficient ... 2. Generally good.	Wheat 20 seers ... Barley 33 seers. Gram 32 seers. Jowár 27 seers. Bájra 23 seers.	Threshing of wheat continues. Dust storm slightly damaged wheat stacks in parts.	Condition and prospects of standing crops good. Chari was sown on canal lands in parts.
6	Lahore ...	0·34 in Sharakpur	1. Sufficient ... 2. Generally good.	Wheat 18 to 21 seers. Barley 28 to 34 seers. Gram 27 to 31 seers. Rice 12 seers.	Collecting of spring and sowing of extra spring crops going on.	...

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 21½ seers... Gram 29 seers. Maize 33 seers. Bájra 28 seers.	Collecting of spring crops in progress. Extra spring crops being matured. Outturn on unirrigated lands good and that on irrigated lands average Future prospects good.	...
8	Siálkot ...	Slight rainfall in Zafarwál, Pasrúr and Siálkot.	1. Abundant ... 2. Generally good.	Wheat 18 to 20 seers. Gram 28 seers. Barley 30 seers. Maize 32 seers.	Threshing of wheat in progress: outturn good. Extra spring crops slightly damaged by hail.	Standing crops generally in good condition. Cotton plants damaged by "toka" insects in parts.
9	Shahpur ...	Slight rain in Tahsíls Bhera and Khusháb.	1. Sufficient ... 2. Good.	Wheat 20 to 21 seers. Bájra 28 seers. Barley 32 seers. Gram 31 seers. Jowár 27 seers. Maize 24 seers.	Crops being harvested: outturn good. Crops damaged in Bhera and Shahpur from want of labourers. Plague much declined.	Crops being sown. Prospects good.
10	Ráwalpindi ...	0·52 in Kahúta ... 0·22 in Murree.	1. Sufficient ... 2. Good.	Wheat 19 seers ... Barley 32 seers. Gram 32 seers. Maize 26 seers. Bájra 23 seers.	Crops being harvested: outturn moderate.	...
11	Miánwáli ...	0·17 in Isa Khel...	1. Procurable ... 2. Good.	Wheat 20⅝ seers Gram 35 seers. Barley 36 seers.	Crops being harvested. Condition of extra spring crops average.	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers... Gram 25¾ seers. Maize 31 seers.	Crops being removed from the threshing ground.	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Delhi, Ambala, Lahore and Ráwalpindi. Insignificant showers have also been reported from Hissar, Jullundur, Siálkot, Shahpur and Miánwáli.

Prices.—The price of wheat is rising in Hissar and Delhi, and falling in Jullundur, Lahore, Amritsar and Ráwalpindi. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting of spring crops in progreas in Shahpur, Miánwáli and Ráwalpindi. Threshing and winnowing of wheat continue in several districts. Sowings of autumn crops going on in a few districts.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are generally good. Outturn of spring crops is reported good in most districts.

Damage done to crops.—Spring crops have been damaged from want of labour (due to plague) in parts of Shahpur. Extra spring crops have been slightly damaged by hailstones and cotton by an insect called "toka" in parts of Siálkot.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 31st May 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 21st May 1904 there were 670 births registered in the 42 large Municipal towns (348 males and 322 females), giving a birth-rate of 24 *per mille* of population, and 1,627 deaths were registered (763 males and 864 females), giving a death-rate of 59 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 37 against 50 in the corresponding week of the previous year, Lahore 91 against 52, Amritsar 59 against 35 and Mooltan 35 against 19. There were 648 deaths reported from plague; the largest number were registered in the following towns :—Lahore 177, Pind Dádan Khan 53, Jullundur 48, Amritsar 45 and Hoshiárpur 44; the deaths reported in the towns of Gujránwála, Wazírabad, Palwal, Hánsi, Maghiána, Bhera, Ambala, Batála, Jagádhri, Shahabad and Kartárpur ranged from 11 to 35. Of the 55 deaths from small-pox, 17 were registered in Bhiwáni, 7 in Hánsi, 4 each in Siálkot and Mooltan, and 3 each in Hissar and Shahabad.

Deaths reported from plague during the week ending 28th May 1904 *in the districts, including all Municipal towns.*—Jullundur 1,609, Hoshiárpur 920, Siálkot 395, Ludhiána 252, Lahore 1,576, Ferozepore 178, Amritsar 678, Gujrát 1,638, Jhang 118, Gujránwála 2,616, Ráwalpindi 7, Shahpur 2,246, Karnál 121, Gurgaon 40, Hissar 50, Rohtak 39, Jhelum 480, Delhi 3, Montgomery 34 and Mooltan 2; Patiála State 132, Kapúrthala State 110, Máler Kotla State 4, Jínd State 37, Kalsia State 15 and Nábha State 118. No returns were received from the districts of Gurdáspur, Ambala and Kángra. Total for the Province 13,418. The returns received from the districts of Hoshiárpur, Gurdáspur, and Ambala for the previous week show 1,351, 1,570 and 423 deaths from plague.

KASHI RAM, SUPDT.,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-SIX THOUSAND NINE HUNDRED AND FIFTY births were registered in the Province during the month of April 1904, giving a birth-rate of 34 per *mille* of population. Of the total number of births, 29,731 were boys and 27,219 were girls.

The total number of deaths registered from all causes in the Province during the month of April 1904 was 195,544 against 112,828 in the previous month and 128,106 in the corresponding month of the past year, giving an annual death-rate of 118, 66 and 78 per *mille* of population per annum respectively.

The total mortality from plague amounted to 147,654 against 62,843 in the previous month, and 73,414 in the corresponding month of the past year. The largest number of deaths reported from plague during the month were 22,358 in the district of Siálkot, 17,752 in Gurdáspur, 15,941 in Shahpur, 14,854 in Jullundur, 10,873 in Hoshiárpur, 10,172 in Lahore and 10,031 in Gujrát. The mortality was also very high in the following districts:—Ludhiána 8,711, Gujránwála 8,221, Amritsar 6,854 and Ambala 6,347. In the districts of Jhang, Jhelum and Ferozepore, the deaths ranged from 2,107 to 5,680.

There were 4 deaths registered under the head of cholera. From small-pox 1,285 deaths were registered against 1,251 in the previous month and 1,653 in the corresponding month of the past year; fevers 30,602 against 32,272 and 34,864; dysentery and diarrhœa 967 against 675 and 1,029; respiratory diseases 4,667 against 5,026 and 5,801. During the month there were 31 deaths registered from suicide against 19 in the past month; wounding 38 against 39; accidents 350 against 265; snake-bite and killed by wild beasts 54 against 37; and from all other causes 9,892 against 10,399 in the previous month and 10,674 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 31st May 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS.

Rainfall.—Rain has fallen in Hissar, Ferozepore and Lahore. Slight showers have also been reported from Ambala, Jullundur, Amritsar and parts of Shahpur and Ráwalpindi.

Prices.—The price of wheat is rising in Hissar and Ráwalpindi, and falling in Ambala, Jullundur, Siálkot and Miánwáli. The prices of other food-grains are fluctuating.

Agricultural operations.—Spring crops are still being harvested in Shahpur and Miánwáli. Threshing and winnowing of wheat in progress in most districts. Extra spring crops being reaped in Hissar. Sowings of autumn crops continue in some districts.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are generally good. Outturn of spring crops is reported to be good in several districts. In Shahpur the outturn is said to be average except in the plague-stricken villages in Bhera Tahsil, where it is below the average.

Damage done to crops.—Wheat crop has been slightly damaged by rain in parts of Lahore. Extra spring crops, cotton and sugarcane have been slightly damaged by an insect called "toka" in parts of Siálkot.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 29 days.
† " " 25 "

The unsettled weather which prevailed over north-west India in March ceased during April 1904. During April the weather was generally fine and any unsettled conditions were confined to the hill and submontane districts, where however the rainfall was also lighter than usual. The first seven days of the month were fine and clear, but between the 8th and the 21st a series of small storms formed apparently over the western desert and moving eastward and north-eastward towards the hills occasioned slightly unsettled, showery weather over and near the hills. The first unsettled period lasted from the 8th to the 12th, during which snow was received in Further Kashmir and rain at the hill and submontane stations; the second lasted from the 14th to 16th and the third from the 19th to the 21st, the rainfall and snowfall occurring over the same districts. From the 22nd to the 26th the weather was clear and settled, but on the 27th and 28th another brief period of disturbance occurred, when snow again fell in Kashmir and showers occurred on the north-west Himálayás, and at Pesháwar, Rawalpindi, Lahore and Montgomery. The weather on the two last days was fine.

Pressure and Winds.—The low pressures which prevailed during March continued and intensified during April, when the barometer on the mean of the month was between ·056" and ·057" below the normal on the plains and between ·041" and ·057" below on the hills. The winds were generally southerly on the hills and between north east and north-west on the plains, the velocity having been generally higher than usual.

Temperature.—The mean temperature varied irregularly from the average. It was more or less higher than usual at Delhi, Ludhiána, Siálkot, Ráwalpindi, Khushab, Pesháwar, Mooltan, Simla, Srinagar and Cherat, and below at the remaining stations, but the departures from the normal were generally moderate or small.

Both the mean day and night temperatures were fairly normal, the largest excess in the mean day temperature having been 2°·5 at Mooltan and the largest defect in the mean night temperature having been 1°·2 at Murree. The mean day temperature exceeded 100° at Delhi (100°·1), Sirsa (100°·5) and Mooltan (101°·5), and the hotest place was Delhi with a mean temperature of 87°·4.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 13th ...	− 0·8	103·0	Umballa.	" 28th ...	− 2·6	101·5	Umballa.
" 14th ...	+ 0·6	102·3	Sirsa.	" 29th ...	− 2·3	102·2	Delhi.
" 15th ...	− 0·7	101·3	Do.	" 30th ...	+ 1·0	105·4	Mooltan.

The mean temperature of the whole area was below the normal on the 1st and 2nd. It then went above the normal and so remained till the 12th, the greatest mean excess having been 6°·0 on the 8th. From the 13th to the 15th the mean temperature was about normal, but on the following day a rapid fall occurred and the mean temperature was about 7°·0 below the average on the 16th and 17th. From the 19th to the close of the month the temperature was unsteady, ranging above the average from the 19th to the 22nd, below from the 23rd to the 25th, above on the 26th and 27th, below on the next two days, and above on the 30th.

The highest maximum temperature recorded during the month was 107°·9 at Mooltan on the 26th.

Humidity and Cloud.—The air was drier than usual except at Dera Ismail Khan, Siálkot, Lahore and Sirsa. The sky was clearer than usual of cloud.

Rain.—There was a slight excess of rain at Umballa and of snow at Drás (Kashmir), but in all other places the rainfall and snowfall was lighter than usual. At Mooltan, Dera Ismail Khan, Khusháb, Leh, Siálkot, Ludhiána, Delhi and Sirsa actually or practically no rain fell during the month, and away from the hills the month's fall was light and insignificant.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for April 1904 :—

NOTE.—The birth and death-rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th June 1904.

KANSHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 28th May 1904 there were 719 births registered in the 42 large Municipal towns (363 males and 356 females), giving a birth-rate of 26 *per mille* of population, and 1,391 deaths were registered (671 males and 720 females), giving a death-rate of 51 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 40 against 54 in the corresponding week of the previous year, Lahore 71 against 59, Amritsar 50 against 42 and Mooltan 35 against 29. There were 463 deaths reported from plague; the largest number were registered in the following towns :—Lahore 112, Amritsar 45, Hoshiárpur 40, Shahpur 35; the deaths reported in the towns of Jalálpur, Batála, Karnál, Hánsi, Ambala, Wazírabad, Kartárpur, Jagádhri, Palwal, Jullundur and Pind Dádan Khan ranged from 8 to 30. Of the 46 deaths from small-pox, 12 were registered in Bhiwáni, 6 in Mooltan, 4 each in Delhi and Amritsar, and 3 each in Hánsi and Kaithal.

Deaths reported from plague during the week ending 4th June 1904 in the districts, including all Municipal towns.—Jullundur 928, Hoshiárpur 2,234, Gurdáspur 404, Ludhiána 59, Lahore 974, Ferozepore 199, Amritsar 1,060, Gujrát 1,547, Jhang 56, Gujránwála 1,558, Ráwalpindi 36, Shahpur 1,103, Karnál 83, Gurgaon 20, Hissar 19, Rohtak 20, Jhelum 477, Delhi 2, Montgomery 17 and Mooltan 1; Patiála State 47, Kapúrthala State 64, Jínd State 26, Kalsia State 7, and Nábha State 38. No returns were received from the districts of Siálkot, Ambala, Kángra and Máler Kotla State. Total for the province 10,979. The returns received from the districts of Gurdáspur and Ambala for the previous week show 931 and 308 deaths from plague.

KANSHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JUNE 16, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 14TH JUNE 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 25 seers. Gram 28 seers.	Extra spring crops harvested.	Ploughing for autumn sowing commenced in parts.
2	Delhi ...	...	1. Scarce in parts ... 2. Good.	Wheat 16 seers ... Barley 26 seers. Gram 24 seers.	...	Sowing commenced on canal lands.
3	Ambala ...	0·21 in Kasauli ...	1. Sufficient ... 2. Generally good.	Wheat 20½ to 21 seers. Gram 27½ to 28 seers. Barley 24 seers. Jowár 40 seers. Maize 37½ seers. Bájra 25 seers.	Extra spring crops in good condition.	Condition of standing crops good.
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 20¾ seers Barley 29 seers. Gram 28½ seers. Maize 40 seers.	Spring crops being threshed and winnowed. Outturn good. Condition of extra spring crops fair.	Condition of cotton and sugarcane crops fair.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat 20½ seers .. Gram 33 seers. Barley 33 seers. Jowár 26 seers. Bájra 22 seers.	Threshing finished ...	Condition and prospects of standing crops good. Sowings of chari (great millet) on irrigated lands continue.
6	Lahore ...	...	1. Sufficient ... 2. Good.	Wheat 19 to 22 seers. Barley 30 to 32 seers. Gram 28 to 34 seers. Rice 5 to 12 seers.	Spring crop is being winnowed and the extra spring crops are being removed from the threshing floor. The probable outturn of spring and extra spring crops good.	Sugarcane and cotton crops are being irrigated.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 21 seers ... Gram 30 seers. Maize 34 seers. Bájra 29 seers.	Threshing of spring crops in progress.	Sowings of cotton and rice still in progress in parts. Standing crops in good condition.
8	Siálkot ...	0.60 in Zafarwál ...	1. Abundant ... 2. Good.	Wheat 18 to 21 seers. Barley 32 seers. Gram 29 seers. Maize 32 seers.	Threshing of wheat in progress. Outturn good.	Standing crops generally in good condition. Sowing of rice commenced in parts.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 20 to 22 seers. Barley 28 to 32 seers. Gram 30 to 32 seers. Bájra 26 to 32 seers. Jowár 27 to 30 seers. Maize 22 to 30 seers.	Crops being harvested. Outturn good.	Crops being sown.
10	Ráwalpindi ...	0.02 in Gujar Khan	2. Generally good.	Wheat 18½ seers... Barley 33½ seers. Gram 27 seers. Bájra 25 seers. Maize 27 seers.	Condition of extra spring crops moderate. Out turn of spring crops is said to be average.	...
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 21½ seers... Gram 36 seers. Barley 34 seers.	Spring crops have nearly been harvested. Condition of extra spring crops average. Rain wanted.	...
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 25¾ seers. Maize 31 seers.	Wheat being removed from the threshing floor. Outturn is above the average.	Sowings continue.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ambala, Siálkot and Ráwalpindi.

Prices.—The price of wheat is falling in Hissar, Ferozepore, Lahore and Shahpur and rising in Jullundur and Amritsar. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting of spring crops continued in most districts. Extra spring crops have been harvested in the Hissar and Lahore Districts. Sowings of autumn crops in progress.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are said to be good. Outturn of spring crops is generally good. Outturn of wheat is said to be above average in Mooltan.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

Remarks on the Condition and Prospects of Crops, &c., in the Shahpur District of the Punjab during the month of April 1904, received too late for insertion in the Supplement to the *Punjab Gazette* of 26th May 1904.

SHAHPUR DISTRICT.

Cotton sowing commenced, but in Tahsíls Bhera and part of Shahpur the plague is interrupting cultivation. Cutting of gram and wheat is about to commence. Condition of crops generally satisfactory. Labourers can scarcely be had in plague-stricken area, and the expected yield mostly depends on their supply. Cattle are in good condition. Fodder plentiful. Jhelum Canal was irrigating sufficient area. Prices stationary.

TULSI DAS, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 14th June 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 4th June 1904 there were 719 births registered in the 42 large Municipal towns (372 males and 347 females), giving a birth-rate of 26 *per mille* of population, and 1,162 deaths were registered (590 males and 572 females), giving a death-rate of 42 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 33 against 67 in the corresponding week of the previous year, Lahore 58 against 55, Amritsar 39 against 40, and Mooltan 29 against 27. There were 268 deaths reported from plague; the largest number were registered in the following towns:—Lahore 68, Amritsar 31, Hoshiárpur 28, and Shahabad 24; the deaths reported in the towns of Kartárpur, Ambala, Batála, Jullundur, Jagádhri, Palwal and Pind Dádan Khan ranged from 9 to 19. Of the 33 deaths from small-pox, 7 each were registered in Bhiwáni and Siálkot, 6 in Shahahad, and 4 in Amritsar.

Deaths reported from plague during the week ending 11th June 1904 in the districts, including all Municipal towns.—Jullundur 547, Hoshiárpur 510, Gurdáspur 445, Ludhiána 24, Lahore 562, Ferozepore 162, Amritsar 649, Gujrát 1,334, Jhang 19, Gujránwála 1,012, Ráwalpindi 12, Shahpur 481, Gurgaon 4, Hissar 6, Rohtak 3, Jhelum 232, Montgomery 22, and Mooltan 1; Patiála State 53, Kapurthala State 33, Jínd State 21, Kalsia State 2, and Nábha State 13. No returns were received from the districts of Siálkot, Ambala and Karnál. Total for the Province 6,147. The returns received from the districts of Siálkot and Ambala for the previous week show 176 and 168 deaths from plague.

KASHI RAM, SUPDT.,

for Sanitary Commissioner, Punjab.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 21ST JUNE 1904.

[Twelve out of 28 districts are dealt with.]

Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
				Spring.	Autumn.
Hissar ...	0·61 at Hissar ... 0·95 in Hánsi. 0·68 in Sirsa. 0·50 in Budhlada. 0·06 in Tohána.	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 25 seers. Gram 28 seers.	...	Sowing on baráni lands commenced where sufficient rain fell. Elsewhere ploughings in progress. Cotton crop on canal lands in good condition.
Delhi ...	...	1. Scarce in parts ... 2. Fair.	Wheat 15½ seers Barley 25 seers. Gram 23½ seers.	...	Ploughing for autumn on unirrigated lands not commenced for want of rain.
Ambala ...	0·05 at Sadr ... 0·03 in Naráingarh. 0·07 in Kharar.	1. Sufficient ... 2. Generally good.	Wheat 20½ to 21 seers. Barley 24 seers. Gram 27½ to 28 seers. Jowár 40 seers. Bájra 25 seers. Maize 37½ seers.	...	Sowing of rice commenced. Condition of cotton and sugarcane crops good.
Jullundur ...	Slight rain ...	1. Sufficient ... 2. Good.	Wheat 20¼ seers Barley 24 seers. Gram 28½ seers. Maize 40 seers.	Extra spring crops in fair condition.	Condition of standing crops fair.
Ferozepore ...	0·12 at Sadr ... 0·31 in Moga. 0·32 in Zíra. 0·04 in Fázilka. 0·13 in Nathana.	1. Sufficient ... 2. Generally good.	Wheat 20 seers ... Gram 32 seers. Barley 33 seers. Bájra 22 seers. Maize 26 seers. Jowár 26 seers.	...	Condition and prospects of standing cotton and sugarcane crops good. Sowings of other autumn crops going on.
Lahore ...	0·15 at Sadr ... 0·05 in Chunián. 0·64 in Sharakpur.	1. Sufficient ... 2. Good.	Wheat 19 to 22 seers. Barley 31 to 36 seers. Gram 29 to 34 seers. Rice 5 to 11 seers.	Grain is being winnowed, and extra spring crops are being removed from threshing floor. Outturn good. Extra spring crops have been slightly damaged by hailstones in a few villages of the Sharakpur Tahsíl.	Sugarcane and cotton crops are being irrigated. Sowings of other autumn crops commenced.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·52 average ...	1. Sufficient ... 2. Good.	Wheat 22 seers .. Gram 30½ seers. Maize 32 seers. Bájra 29 seers.	Harvesting of spring crops nearly finished. Outturn on unirrigated lands good, and on irrigated lands average.	Sowings of rice in progress. Condition of standing crops good.
8	Siálkot ...	...	1. Abundant ... 2. Good.	Wheat 17½ to 20 seers. Gram 27 seers. Barley 29 to 31 seers. Rice 11½ seers.	Threshing of wheat completed. Outturn good.	Standing crops generally in good condition. Sowings of rice continue.
9	Shahpur ...	0·65 in Khusháb ...	1. Sufficient ... 2. Good.	Wheat 21 to 24 seers. Bájra 28 to 32 seers. Barley 28 to 34 seers. Jowár 24 to 28 seers. Maize 24 seers.	Harvesting of spring crops nearly finished. Yield good.	Crops being sown. Cotton has been damaged by an insect called "Toka" in Shahpur Tahsil.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Generally good ...	Wheat 18½ seers... Barley 32 seers. Gram 26 seers. Bájra 25 seers. Maize 27 seers.	Condition of extra spring crops moderate.	Condition of cotton crop moderate.
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 21 seers ... Gram 36 seers. Barley 34 seers.	Crops nearly harvested. Tobacco harvested altogether. Condition of melons and water-melons average.	Rain wanted for autumn sowings.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 25¾ seers. Maize 31 seers.	Wheat threshed and being removed from threshing floors. Yield is above the average.	Sowings continue.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Hissar, Amritsar and in parts of Lahore and Shahpur. Slight showers have been reported from parts of Ambala, Jullundur and Ferozepore.

Prices.—The price of wheat is rising in Delhi, Ferozepore, Siálkot and Miánwáli, and falling in Amritsar and Shahpur. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting and threshing of spring crops nearly over in most districts. Ploughings for and sowings of autumn crops continue in several districts

Crops and outturn.—Condition and prospects of extra spring and autumn crops are said to be good. Outturn of spring crops good in Lahore, Siálkot, Shahpur and Mooltan.

Damage done to crops.—Extra spring crops have been slightly damaged by hailstones in a few villages in the Lahore District. Slight damage is said to have been caused to "cotton" by an insect called "Toka" in Shahpur.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 21st June 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 11th June 1904 there were 716 births registered in the 42 large Municipal towns (375 males and 341 females), giving a birth-rate of 26 *per mille* of population, and 1,103 deaths were registered (537 males and 566 females), giving a death-rate of 40 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 43 against 62 in the corresponding week of the previous year, Lahore 49 against 47, Amritsar 47 against 32, and Mooltan 29 against 32. There were 139 deaths reported from plague; the largest number were registered in the following towns:—Lahore 35, Amritsar 22, Hoshiárpur 13, Shahabad 11, Gujrát 10, and Jullundur, Batála and Pind Dádan Khan 8 each. Of the 28 deaths from small-pox, 6 were registered in Mooltan, 5 in Bhiwáni, and 3 each in Shahahad, Amritsar and Siálkot.

Deaths reported from plague during the week ending 18th June 1904 in the districts, including all Municipal towns.—Jullundur 243, Hoshiárpur 376, Gurdáspur 296, Siálkot 42, Ludhiána 16, Lahore 321, Ambala 35, Ferozepore 30, Amritsar 699, Gujrát 565, Jhang 17, Gujránwála 662, Ráwalpindi 9, Shahpur 649, Gurgaon 24, Hissar 13, Rohtak 4, Jhelum 136, and Montgomery 12; Patiála State 5, Kapurthala State 19, Jínd State 9, Kalsia State 5, and Nábha State 2. No return was received from the district of Karnál. Total for the Province 4,189. The returns received from the districts of Siálkot, Ambala, Karnál and Kángra for the previous week show 417, 103, 36 and 1 deaths from plague.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of May 1904.

1.—HISSAR DISTRICT.

Irrigated rabi crops harvested and housed. Cotton sowings finished. Fodder sufficient. Cattle generally in good condition.

2.—ROHTAK DISTRICT.

Cotton and chari were sown to a small extent. Bájra has also been sown to a large extent on irrigated lands. Sowings of indigo and sugarcane finished. No crops were sown in báráni villages owing to insufficient rain. Standing crops on irrigated lands good. Some damage has been done to cotton crop and to mangoes and peaches by hailstones in Tahsíl Gohána; cotton was re-sown in places where it had been destroyed. The prospects of standing crops are good on irrigated lands. Cattle generally in good condition. Fodder sufficient. Cattle are being watered from wells owing to tanks having dried up. Canal water was given freely and there were no complaints.

3.—GURGAON DISTRICT.

Ploughing has begun for the kharíf crop and here and there seeds sown. Melons, cucumbers, tobacco and zíra are being gathered in and onions watered; outturn average. Condition of cattle good. Fodder insufficient in the Gurgaon and Fírozpur Tahsíls. Agra Canal being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Kharíf sowing has not commenced yet. Extra rabi is being reaped. Extra rabi yield is fair. Condition of cattle good. Fodder is scarce in parts of the district. Health of people fair. No complaints regarding irrigation by canal. Prices rising.

5.—KARNAL DISTRICT.

Sugarcane and maize are being sown, and sowing of cotton is in progress. Crops are in fair condition. The yield is expected to be an average one. Water is being given where necessary from wells and canals. Cattle are generally in good condition. Fodder is sufficient.

6.—AMBALA DISTRICT.

Standing crops in good condition. Expected yield average. Condition of cattle good.

7.—SIMLA DISTRICT.

Sufficient rain was received in both tahsíls. In Simla maize, koda and ginger have been sown to the extent of $\frac{1}{8}$th of expected sowings. In Kot Khái sowings were made of koda, chína to the extent of $\frac{1}{2}$, báthu $\frac{1}{4}$th, and kangni to the full extent. The standing crops in Simla are in good condition, but rain will be very necessary in June. In Kot Khái the crops are also in good condition. In Kot Khái the outturn of wheat (abi) was 645 seers per acre and báráni 536 seers; barley 362 seers (báráni). Cattle in good condition. Fodder and grazing sufficient. Health good. Water-supply sufficient.

8.—KANGRA DISTRICT.

Some area was sown with maize and rice, &c. The condition of the rabi crops is good. The outturn of the rabi crops is above the average. No cattle disease. The public health is good. Water in kúhls was sufficient for irrigation purposes. Hailstorms occurred in a few villages: extent of damage not yet fully ascertained.

9.—HOSHIARPUR DISTRICT.

The early paddy sowings were completed during the month. The condition of the standing crops, including the extra rabi, is so far good. The yield of the extra rabi is expected to be above the average. Stock of fodder ample. The plague still continues in a more or less severe form in all four tahsíls of the district, in consequence of which agricultural operations have somewhat snffered. There has been sufficient water in the Shah Nahr and other zamíndári canals, and the average area was irrigated during the month.

10.—JULLUNDUR DISTRICT.

There were no sowings during the month. The rabi harvest was reaped and winnowed: yield good. The extra rabi was slightly injured through high winds. Condition of cattle good. Fodder sufficient.

11.—LUDHIANA DISTRICT.

No sowing in progress. The condition of sugarçane and extra rabi crops is good, but in some villages hailstones caused a slight damage. Yield of rabi is good. Cattle are in good condition. Irrigation from canals not sufficient. Prices are moderate.

12.—FEROZEPORE DISTRICT.

Sugarcane, cotton, onions and melons were sown in the first fortnight of the month. Chari is still being sown. Harvesting of spring crops finished. Threshing of wheat continues. Condition of standing crops is good. Yield is expected to be average. The Sirhind Canal and the District Inundation Canals commenced flowing towards the end of the month. Green fodder was not available during the month. Stocks of food-grains and fodder are sufficient. Condition of agriculturists was generally good. Prices of wheat, barley and gram were cheaper than those in the previous month.

13.—MONTGOMERY DISTRICT.

Except in Gugera there has been rain in all the tahsíls, but was not required. Cotton and chína are being sown. Extra rabi crops are average. Rabi crop outturn good. Condition of cattle generally good. The Khánwah Canal commenced flowing well in the beginning of May, but the Lower Soh́ág Canal has only had a small supply so far, and towards the end of May the supply in both canals was so low that sowings of cotton have been interrupted. In Tahsíl Dipálpur there was a certain amount of hail, which, however, did no damage.

14.—LAHORE DISTRICT.

The sowing of sugarcane, cotton, chari and moth has been completed. The condition of extra rabi crops is good. Some rain fell during the month, but did not do any damage to the crops on the threshing floor, though in some places some *bhúsa* had been damped. The yield of wheat and other rabi crops has been good and above the average. The Bári Doáb Canals worked well during the month, and there was also water in Sutlej Inundation Canals for irrigation, but the Deg and other natural streams were all dried up. The prices of food-grains have generally fallen and will still fall when the whole of the grain is out of the threshing floors unless there is an exceptional demand for export to Europe and other foreign countries.

15.—AMRITSAR DISTRICT.

Average rainfall during the month was 0·58. Condition of crops good. Threshing of rabi crops in progress. Yield of crops on irrigated area average and on unirrigated area good. There were no complaints of insufficiency of canal water-supply. Slight damage to crops was caused by hail in the Ajnála Tahsíl.

16.—GURDASPUR DISTRICT.

Slight rain with some hail in parts, but no damage. Kharíf sowings commenced. Condition of rabi crops good. The expected yield of rabi is average to a little above average, but all not threshed out yet. Condition of cattle good. Fodder available. Canals working satisfactorily. Prices have gone down slightly.

17.—SIALKOT DISTRICT.

Harvested crops were somewhat damaged by rainfall. No sowing within the month. Standing crops generally good. Extra rabi crops damaged to some extent by hail, and cotton and sugarcane by *toka* insect. Cutting and threshing of wheat in progress: outturn good. Fodder abundant. Sufficient water in Bajwát Canals and rivers. No inundation. Wind and storms caused considerable loss to fruits and vegetables.

18.—GUJRANWALA DISTRICT.

Sowings of extra rabi and of cotton and sugarcane completed during the month under report. Condition of crops good. The expected yield is a little more than average. Condition of cattle good on the whole. No complaint about supply of canal water. Prices of food-grains falling.

19.—GUJRAT DISTRICT.

Sowings of sugarcane and cotton concluded. Condition of extra rabi crops generally good. Harvesting and threshing operations still in progress. The hailstorm of the 7th May in Tahsíl Phália is said to have done some damage to the standing crops. Expected yield good. Cattle in good condition. Fodder sufficient. No floods. Prices falling slightly.

20.—SHAHPUR DISTRICT.

Sowing of cotton, maize, jowár, sawák, mandwa and chína in progress. Sov[illegible] of cotton is less than previous year owing to plague. The condition of rabi crops was generally good. The yield was not so favourable as expected, because in Tahsíl Bhera and the part of Tahsíl Shahpur the labourers were not found in time to collect the crop owing to severe plague raging there. Condition of cattle good. Fodder sufficient. Inundation canal cuts were current and working of canals was fair. The prices are falling.

Colony.—Sowing of cotton has been continued in Shahpur Tahsíl and partly in Bhera Tahsíl, where absconders from plague commenced to return on its subsidence about the middle of the month. Standing crops which were damaged by insufficient waterings by remaining uncut for a long time after maturity and by storms have been nearly cut (except in a few villages of Bhera Tahsíl affected severely by plague, where they were partly still standing even at the end of the month) and are being harvested.

21.—JHELUM DISTRICT.

Extra rabi sowings completed. Condition of crops generally good. Slight damage by hail in a few villages in the Jhelum Tahsíl. Young cotton crops have been slightly damaged by an insect called *toka*. Expected yield good, an average 18-anna crop. Prices falling.

22.—RAWALPINDI DISTRICT.

No sowings have been made during the month. The grain has been threshed. Yield is average. No disease prevails among cattle.

23.—ATTOCK DISTRICT.

No sowings have been made during the month except a little cotton and maize. The grain is being threshed. Yield is average. No disease prevails among cattle.

24.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Wheat crop is being gathered. Barley and gram crops have been gathered. Condition of zaid rabi crops is moderate, but rain is needed. No disease among men or cattle. Fodder sufficient.

Bhakkar and Leiah Tahsíls.—There has been no rain during the month under report. Sowings of extra rabi finished. Cutting of rabi crops finished. Grain is being housed. Outturn has been average. Condition of standing crops fair. Condition of cattle fair. River is rising.

25.—JHANG DISTRICT.

Very slight rainfall in some tahsíls of the district during the month. No effect on the sown crop. Extra rabi crop sowings nearly completed. Standing crops are fair at present. Wheat and gram are gathered. Wheat outturn is average and its estimated outturn is about 8 or 9 maunds per acre. No cattle disease. Fodder and grazing available. Canals flowing. No inundation. It hailed in some Chaks of Tahsíl Samundri, but no severe damage done.

26.—MOOLTAN DISTRICT.

Wheat being removed from the threshing ground. Kharíf crops being cultivated. [illegible]d of crops little above the average. Condition of cattle good. A slight damage was caused by hail in a few villages of Tahsíl Mailsi and Shujabad. Inundation canals running by turns.

27.—MUZAFFARGARH DISTRICT.

Sowing of indigo and jowár not sufficient in this month for want of canal water. Condition of kharíf crops not good for want of water. It cannot be said what yield is to be expected from the kharíf crops. No disease among cattle. Health of people good. Water not sufficient in canals. No flood in this month. Food and fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sowings of cotton, jowár, bájra and indigo begun and a little rice has been sown. Rabi has been garnered and division of produce is going on. Outturn is good except in some villages of Jámpur and Dera Tahsíls, where the amount and size of grain has been adversely affected by winds. The prospects of extra rabi are good. Cattle are in good condition. Fodder is sufficient. The public health is good. Canals are mostly working, but the supply is low as the river is unusually low for the time of year. There are complaints as to the Dhári and Manka, Dhingána, Núr, owing to lateness or deficiency of water-supply. On the other hand the banks of the Dhundi have given way in three places. There have been no hill torrents, and there has been no extra flood in the river, which has kept uniformly low for the time of year. It has begun to rise since the end of the month. There has been no rain to speak of.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JUNE 30, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 28TH JUNE 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·03 at Sadr ... 0·25 in Hánsi. 1·51 in Bhiwáni. 1·50 in Fatahabad. 0·68 in Tohána.	1. Sufficient ... 2. Good.	Wheat 17½ seers... Bájra 25 seers. Gram 28 seers.	...	Ploughings continue. Cotton crop flourishing.
2	Delhi ...	1·75 at Sadr ...	1. Scarce in parts ... 2. Fair.	Wheat 15½ seers Barley 25 seers. Gram 23½ seers.	...	Ploughing and sowing commenced in parts.
3	Ambala ...	1·06 at Sadr ... 1·39 in Jagádhri. 0·98 in Rúpar. 2·11 in Naráingarh. 0·82 in Kharar. 2·38 in Kasauli.	1. Sufficient ... 2. Generally good.	Wheat 20½ to 21 seers. Barley 24 seers. Gram 27½ to 28 seers. Maize 37½ seers. Jowár 40 seers. Bájra 25 seers.	...	Condition of cotton and sugar cane crops good. Ploughing for and sowing of other autumn crop continue.
4	Jullundur ...	Slight rain ...	1. Sufficient ... 2. Good.	Wheat 21 seers ... Barley 29 seers. Gram 28½ seers. Maize 40 seers.	Extra spring crops in fair condition.	Cotton and sugarcane crops in fair condition.
5	Ferozepore ...	0·16 in Moga ... 0·21 in Sadr. 0·38 in City 0·06 in Fázilka. 0·35 in Nathána 0·79 in Muktsar.	1. Sufficient ... 2. Generally good.	Wheat 20 seers ... Barley 33 seers. Gram 32 seers. Bájra 22 seers. Jowár 26 seers.	...	Condition and prospects of sugarcane and cotton crops good. Sowings of other autumn crops in progress.
6	Lahore ...	0·30 in Chunián ... 0·61 in Kasúr. 0·26 in Lahore 1·58 in Sharakpur.	1. Sufficient ... 2. Good.	Wheat 20 to 22 seers. Gram 29 to 34 seers. Barley 31 to 38 seers. Rice 4 to 12 seers.	Spring crops have all been removed. Extra spring crops in good condition.	Condition of standing crops good. Sowings of other autumn crop going on.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	Not received.				
8	Siálkot ...	0·40 average rainfall throughout.	1. Abundant ... 2. Good.	Wheat 18 to 20½ seers. Barley 30 seers. Gram 28 seers. Rice 11½ seers.	...	Standing crops in good condition. Sowing of rice in progress.
9	Shahpur ...	0·11 in Bhera ... 0·10 in Khusháb.	1. Sufficient ... 2. Good.	Wheat 21 to 24 seers. Barley 28 to 34 seers. Gram 32 to 34 seers. Bájra 26 to 32 seers. Jowár 24 to 28 seers. Maize 23 to 26 seers.	Harvesting finished ...	Crops being sown. Melon crop has been damaged by insects in Shahpur Tahsíl.
10	Ráwalpindi ...	0·14 in Gujar Khan 0·51 in Murree.	1. Sufficient ... 2. Generally good ...	Wheat 18½ seers... Barley 32 seers. Gram 26 seers. Maize 27 seers. Bájra 26 seers.	Condition of extra spring crops moderate.	Condition of standing crops moderate.
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 21 seers ... Barley 34 seers. Gram 36 seers.	Harvesting of spring crops finished. Melons and water-melons are being harvested.	Bájra (Bulrush millet), jowár (great millet) cultivated in April have been damaged for want of rain. Rain is badly wanted for autumn sowings.
12	Mooltan ...	0·12 in Lodhrán ...	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 25¾ seers. Maize 31 seers.	Wheat being threshed and removed: outturn above the average.	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Hissar, Ambala, Ferozepore, Lahore and in parts of Delhi. Slight showers have also been reported from Jullundur, Siálkot, and parts of Shahpur, Ráwalpindi and Mooltan.

Prices.—The price of wheat is rising in Hissar and falling in Jullundur and Siálkot. The prices of other food-grains are fluctuating.

Agricultural operations.—Harvesting and threshing of spring crops over in all districts except in Mooltan, where wheat is being threshed and removed. Ploughings for and sowings of autumn crops in progress. Rain is badly wanted for autumn sowings in Miánwáli.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are said to be good. Outturn of wheat is above the average in Mooltan.

Damage done to crops.—Melon crop has been damaged by insects in Shahpur Tahsíl. Bájra (Bulrush millet), jowár (great millet) have suffered for want of rain in Miánwáli.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 28th June 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 18th June 1904 there were 773 births registered in the 42 large Municipal towns (398 males and 375 females), giving a birth-rate of 28 *per mille* of population, and 1,037 deaths were registered (511 males and 526 females), giving a death-rate of 38 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 43 against 70 in the corresponding week of the previous year, Lahore 46 against 48, Amritsar 41 against 36, and Mooltan 34 against 39. There were 76 deaths reported from plague; the largest number were registered in the following towns:—Amritsar 33, Lahore 12, Hoshiárpur 6, and Gujrát 5. Of the 38 deaths from small-pox, 11 were registered in Shahahad, 7 in Bhiwáni, and 6 each in Siálkot and Mooltan.

Deaths reported from plague during the week ending 25th June 1904 in the districts, including all Municipal towns:—Jullundur 111, Hoshiárpur 121, Gurdáspur 149, Ludhiána 4, Lahore 165, Ambala 3, Amritsar 345, Jhang 7, Gujránwála 363, Shahpur 396, Karnál 8, Gurgaon 6, Hissar 3, Rohtak 1, Jhelum 46, and Montgomery 6; Patiála State 51 and Kapurthala State 13. No returns were received from the districts of Siálkot, Ferozepore and Gujrát. Total for the Province 1,798. The returns received from the district of Karnál for the previous week show 27 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JULY 7, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 5TH JULY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·15 at Sadr ...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Gram 27 seers. Bájra 24 seers.	...	Ploughings continue. Rain urgently wanted. Cotton crop on canal land flourishing.
2	Delhi ...	...	1. Scarce in parts ... 2. Good.	Wheat 15½ seers Gram 23½ seers. Barley 25 seers.	...	Sowings in parts continue. Rain urgently wanted. Locusts appeared and flew from east to west, doing slight damage to cotton crop.
3	Ambala ...	0·40 at Sadr ... 0·11 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 20¾ to 21 seers. Gram 26½ to 27 seers. Barley 24½ seers. Maize 36 seers. Jowár 40 seers. Bájra 23 seers.	...	Sowings in progress. Standing crops in good condition.
4	Jullundur ...	Slight rainfall ...	1. Sufficient ... 2. Good.	Wheat 20¼ seers Gram 28½ seers. Barley 29 seers. Maize 38 seers.	Extra spring crop in fair condition.	Standing crops in fair condition.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat 20 seers ... Barley 32 seers. Gram 31 seers. Jowár 24 seers. Bájra 21 seers. Maize 25 seers.	...	Sowings continue on canal lands. Condition of standing crops good, but need rain.
6	Lahore ...	...	1. Sufficient ... 2. Good.	Wheat 19 to 22 seers. Barley 31 to 38 seers. Gram 28 to 34 seers. Rice 4 to 12 seers.	Extra spring crops are being removed.	Sowing in progress. Condition of crops good.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·32 Average ...	1. Sufficient ... 2. Good.	Wheat 21 seers ... Maize 29 seers. Gram 30 seers. Bájra 30 seers.	Tobacco being reaped ...	Standing crops in good condition. Recent rain is beneficial to the standing crops. Further sowings in progress.
8	Siálkot ...	0·13 at Sadr ...	1. Sufficient ... 2. Good.	Wheat 18 to 20½ seers. Barley 30 seers. Gram 28 seers. Rice 11½ seers.	...	Sowing of rice in progress. Standing crops in good condition.
9	Shahpur ...	0·58 in Sakesar ... 0·30 at Shahpur. 0·22 in Bhera.	1. Sufficient ... 2. Generally good.	Wheat 21 to 25 seers. Barley 32 to 36 seers. Gram 32 to 33 seers. Maize 23 to 25 seers. Bájra 24 to 31 seers.	Outturn of spring crops good.	Sowings in progress.
10	Ráwalpindi ...	0·33 at Sadr ... 1·04 in Kahúta. 0·08 in Murree.	1. Sufficient ...	Wheat 18½ seers... Barley 32 seers. Gram 26 seers. Bájra 25¾ seers.	Condition of extra spring crops moderate.	Condition of standing crops moderate.
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat 22 seers ... Barley 36 seers. Gram 33 seers.	Extra spring crops being harvested.	Rain badly wanted for autumn crops.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 25¾ seers. Maize 31 seers.	Wheat being threshed and removed.	...

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Amritsar and parts of Hissar, Ambala, Jullundur, Siálkot, Shahpur and Ráwalpindi.

Prices.—The price of wheat is rising in Hissar, Jullundur and Mooltan and falling in Shahpur and Miánwáli. The prices of other food-grains are fluctuating.

Agricultural operations.—Extra spring crops are being harvested in some districts. Wheat is being threshed and removed in Mooltan. Ploughings for and sowings of autumn crops in progress. Rain is badly wanted in most districts.

Crops and outturn.—Condition and prospects of standing crops are said to be good. Recent rain has benefited the crops in Amritsar.

Damage done to crops.—Locusts have appeared in parts of Delhi and have slightly damaged the cotton crop.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Delhi.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 5th July 1904.

KASHI [illegible]M, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

During the week ending 25th June 1904 there were 779 births registered in the 42 large Municipal towns (411 males and 368 females), giving a birth-rate of 28 *per mille* of population, and 840 deaths were registered (418 males and 422 females), giving a death-rate of 31 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 32 against 77 in the corresponding week of the previous year, Lahore 37 against 46, Amritsar 39 against 35, and Mooltan 26 against [illegible]. There were 47 deaths reported from plague; the largest number were registered in the towns of Amritsar and Lahore, *viz.*, 31 and 9 respectively. Of the 28 deaths from small-pox, 7 each were registered in Bhiwáni and Shahabad, and 6 in Mooltan.

Deaths reported from plague during the week ending 2nd July 1904 *in the districts, including all Municipal towns*:—Jullundur 26, Hoshiárpur 27, Gurdáspur 99, Siálkot 24, Ludhiána 3, Lahore 79, Ambala 3, Ferozepore 3, Amritsar 146, Gujrát 135, Jhang 5, Gujránwála 167, Ráwalpindi 8, Shahpur 107, Karnál 20, Hissar 1, Jhelum 22, and Montgomery 1; Patiála State 21 and Kapurthala State 4. Total for the Province 901. The returns received from the districts of Siálkot, Ferozepore and Gujrát for the previous week show 66, 18 and 329 deaths from plague.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Punjab Government Press, Lahore—7-7-04—766.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JULY 14, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 12TH JULY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·58 in Hánsi ... 0·44 in Bhiwáni. 0·66 in Fatahabad. 1·10 in Budhláda. 2·42 in Tohána.	1. Sufficient ... 2. Good.	Wheat 16½ seers... Bájra 24 seers. Gram 25 seers.	...	Sowings commenced in parts. More rain urgently wanted. Cotton crop flourishing on canal lands.
2	Delhi ...	4·01 at Sadr ... 2·78 in Sonepat. 1·05 in Ballabgarh. 1·05 in Mahrauli.	1. Sufficient ... 2. Fair.	Wheat 15½ seers Barley 25 seers. Gram 23½ seers.	...	Sowings in progress.
3	Ambala ...	4·19 at Sadr ... 13·88 in Jagádhri. 4·84 in Naráingarh. 2·87 in Kharar. 1·85 in Rúpar. 6·28 in Kasauli.	1. Sufficient ... 2. Good.	Wheat 20¼ to 21 seers. Barley 24½ seers. Gram 26½ to 27 seers. Maize 35 seers. Jowár 40 seers. Bájra 25 seers.	...	Sowings in progress. Condition of standing crops good.
4	Jullundur ...	Slight rain in Tahsíl Nawashahr.	1. Sufficient ... 2. Good.	Wheat 20¼ seers Gram 28½ seers. Barley 29 seers. Maize 40 seers.	...	Condition of cotton and sugarcane fair. Sowings commenced in parts and other parts waiting for rain.
5	Ferozepore ...	1·22 at Moga ... 0·54 in Zíra. 0·12 in Sadr. 0·35 in Muktsar 0·04 in Jalálabad.	1. Sufficient ... 2. Good.	Wheat 19½ seers Barley 32 seers. Gram 30 seers. Maize 25 seers. Jowár 22 seers. Bájra 21 seers.	...	Sowings in progress. Condition of standing crops normal, but rain wanted.
6	Lahore ...	...	1. Sufficient ... 2. Good.	Wheat 19 to 22 seers. Barley 29 to 38 seers. Gram 28 to 34 seers Rice 4 to 12 seers.	Extra spring crops being removed.	Condition of standing sugarcane and cotton crops good. Sowings in progress. Rain is needed for unirrigated crops.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
7	Amritsar ...	0·10 average ...	1. Sufficient ... 2. Good.	Wheat 20¼ seers. Maize 28 seers. Bájra 29 seers. Gram 30 seers.	Extra spring crops nearly harvested.	Condition of standing crops good. Sowings of rice and ploughings for further autumn sowings in progress.
8	Siálkot ...	Rainfall throughout	1. Sufficient ... 2. Good.	Wheat 18 to 20½ seers. Gram 28 seers. Barley 30 seers.	...	Sowings in progress. Standing crops in good condition.
9	Shahpur ...	1·80 in Khusháb ... 0·27 in Bhera. 0·80 in Sakesar. 0·27 in Núrpur. 0·03 at Shahpur. 0·75 in Sargodha.	1. Sufficient ... 2. Generally good.	Wheat 20 to 22 seers. Gram 30 to 34 seers. Barley 28 to 34 seers. Maize 23 to 25 seers. Bájra 24 to 32 seers.	Yield of extra spring crops good.	Sowings in progress on irrigated lands in Bhera and Shahpur Tahsíls.
10	Ráwalpindi ...	0·54 at Sadr ... 0·66 in Gujar Khan. 0·09 in Kahúta. 0·19 in Murree.	1. Sufficient ... 2. Good.	Wheat 17¼ seers... Bájra 25 seers. Maize 25 seers. Gram 26 seers. Barley 32 seers.	...	Sowings commenced.
11	Miánwáli ...	0·20 at Miánwáli... 0·11 in Isa Khel.	1. Procurable ... 2. Good.	Wheat 22 seers ... Gram 33 seers. Barley 35 seers. Jowár 32 seers. Bájra 32 seers.	Extra spring crops being harvested.	Rain badly wanted for autumn crops.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers... Gram 23¼ seers. Maize 31 seers.	Wheat being threshed and removed in parts.	Crops being sown.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Delhi, Ambala and in parts of Hissar, Ferozepore and Shahpur. Slight falls have also been reported from all other districts except Lahore and Mooltan.

Prices.—The price of wheat is rising in Hissar, Jullundur, Ferozepore, Amritsar, Shahpur, Ráwalpindi and Mooltan. The prices of other food-grains are fluctuating.

Agricultural operations.—Wheat is being threshed and removed in parts of Mooltan. Extra spring crops are being harvested in a few districts. Ploughings for and sowings of autumn crops in progress. More rain wanted for unirrigated crops in several districts.

Crops and outturn.—Condition and prospects of extra spring and autumn crops are said to be good. Outtnrn of extra spring crops good in Shahpur.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 22 days.

The first three days of the month of May were fine over the whole area, but on the 4th the sky became overcast in Kashmir and during the succeeding four days thunderstorms occurred over the hill and submontane regions, the heaviest rainfall reported having been 1·00″ at Ambala on the 8th. On the 9th the weather was again fine generally, but on the 10th another unsettled period commenced during which thunderstorms gave rain to the hill and submontane stations, and duststorms occasioned showers at Khusháb, Delhi, Lahore, and Montgomery. These unsettled conditions lasted till the 17th after which the weather cleared, and with the exception of showers in Kashmir was fine till the 24th. On the following day the 25th thunderstorms recommenced and lasted till the 28th during which period rain was received at Siálkot, Murree, Khusháb, Montgomery, Ambala, Ludhiána, Simla, Delhi and Sirsa. The last three days of the month were fine except for occasional thunder showers on the hills.

Pressure and Winds.—The barometric pressure on the mean of the month was normal at the hill stations and at Ambala but was lower than usual elsewhere—most so at Mooltan (— ·041″). The winds varied between south-east and north-east in practically all parts of the area. The normal wind over the east of the Punjab is north-westerly, while during the month under review the mean direction was south-easterly. The velocity varied irregularly from the average.

Temperature.—The temperature on the mean of the month was lower than usual at Delhi, Montgomery, Khusháb and at all the hill stations, while it was in excess at Sirsa, Ludhiána, Lahore, Siálkot, Ráwalpindi, Peshámar, Dera Ismail Khan and Mooltan. The largest opposite departures on the plains were $-1^\circ{\cdot}3$ at Delhi and $+2^\circ{\cdot}9$ at Mooltan.

Both the day and night temperatures were lower than usual at the hill stations, and the day temperatures were generally lower than usual on the plains with the exception of the stations of Siálkot, Ráwalpindi and Mooltan. On the other hand the night temperatures were generally excessive over the plains, the departures from the normal amounting to $+4^\circ{\cdot}2$ at Lahore, and $+3^\circ{\cdot}7$ at Siálkot and Mooltan. The mean day temperature exceeded 100° at all the plains stations except Pesháwar and Ráwalpindi, and was as high as $108^\circ{\cdot}7$ at Mooltan, $107^\circ{\cdot}5$ at Sirsa and $107^\circ{\cdot}4$ at Montgomery. The hottest place was Mooltan with a mean temperature of 95°.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	− 9·1	104·4	Mooltan.				

The mean temperature of the whole area was above the normal from the 1st to the 13th. It then fell quickly and was much below the average on the 16th, 17th and 18th. A recovery took place on the 20th, and the mean temperature ranged above the average till the 24th, after which the heat decreased, and from the 25th to the end of the month was lower than usual.

The highest maximum temperature recorded during the month was 116°·8 at Montgomery on the 22nd.

Humidity and Cloud.—Humidity varied irregularly from the average, while the cloud amount was generally less than usual except at the hill stations and over the east of the Punjab where on the mean of the month the sky was more cloudy than usual.

Rainfall.—The month's rainfall was in excess of the normal over Kashmir as well as at Siálkot, Montgomery and over the east of the Punjab. At Mooltan, Dera Ismail Khan and Sirsa the month's rainfall was actually or practically *nil.*

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for May 1904:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th July 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

During the week ending 2nd July 1904, there were 918 births registered in the 42 large Municipal towns (513 males and 405 females), giving a birth-rate of 33 *per mille* of population, and 867 deaths were registered (442 males and 425 females), giving a death-rate of 32 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 33 against 52 in the corresponding week of the previous year, Lahore 36 against 57, Amritsar 37 against 31, and Mooltan 27 against 31. There were 21 deaths reported from plague. They occurred in the following towns:—Amritsar 8, Lahore 6, Jagádhri 3, Ambala 2, and Shahabad and Gujrát 1 each. Of the 19 deaths from small-pox, 4 each were registered in Siálkot and Mooltan, 3 each in Bhiwáni and Shahabad, 2 in Hissar, and 1 each in Jagráon, Lahore and Kasúr. There were 4 deaths registered from cholera in Lahore, 2 in Amritsar and 1 in Delhi.

Deaths reported from plague during the week ending 9th July 1904 in the districts, including all Municipal towns:—Jullundur 10, Hoshiárpur 20, Gurdáspur 25, Siálkot 16, Lahore 57, Ambala 3, Ferozepore 350, Amritsar 57, Gujrát 10, Jhang 1, Gujránwála 91, Ráwalpindi 1, Shahpur 29, Karnál 3 and Jhelum 8. Total for the Province 681.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab*.

11	Miánwáli ...	...	1. Procurable ... 2. Generally good.	Wheat 22 seers ... Barley 36 seers. Gram 33 seers.	Extra spring crops stand in need of rain.	Ploughings for autumn crops in progress River inundation insufficient for want of rain in Miánwáli Tahsíl though the water has commenced flowing into irrigation dams.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers... Gram 25¾ seers. Maize 31 seers.	...	Sowings in progress Locusts appeared in parts of Tahsíls Kabírwála and Mooltan but caused no damage.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Ambala, Jullundur, Lahore, Ráwalpindi and in parts of Siálkot and Shahpur. Slight showers have also been reported from parts of Hissar, Delhi, Ferozepore and Amritsar.

Prices.—The price of wheat is falling in Hissar and Ráwalpindi, and rising in Delhi, Jullundur, Ferozepore and Siálkot The prices of other food-grains are fluctuating.

Agricultural operations.—Extra spring crops are being removed in Lahore and have nearly been harvested in Amritsar. Ploughings for and sowings of autumn crops continue. Sugarcane and cotton crops are being irrigated in Lahore. More rain is wanted for further sowings of autumn crops on unirrigated lands.

Crops and outturn.—Condition and prospects of standing crops are generally good. Outturn of extra spring crops is good in Shahpur.

Damage done to crops.—Cotton crop has been damaged by an insect called "toka" in Siálkot and Shahpur. Locusts appeared in parts of Mooltan but did no damage.

Agricultural stock.—Cattle are generally in good condition throughout the Province.

Pasturage.—Fodder is said to be sufficient in all districts.

TULSI DAS, Offg. Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 19th July 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

During the week ending 9th July 1904, there were 870 births registered in the 42 large Municipal towns (487 males and 383 females), giving a birth-rate of 32 *per mille* of population, and 711 deaths were registered (350 males and 361 females), giving a death-rate of 26 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 29 against 55 in the corresponding week of the previous year, Lahore 28 against 56, Amritsar 31 against 29, and Mooltan 25 against 25. There were 6 deaths reported from plague in Amritsar and 4 in Lahore. Of the 32 deaths from small-pox, 7 were registered in Siálkot, 6 in Mooltan, 4 each in Shahabad and Amritsar, 2 each in Hissar, Delhi and Ambala, and 1 each in Hansi, Sirsa, Rewári, Jagráon, and Lahore. There were 2 deaths registered from cholera in Jullundur.

Deaths reported from plague during the week ending 16th July 1904 in the districts, including all Municipal towns:—Jullundur 10, Hoshiárpur 3, Gurdáspur 12, Siálkot 4, Lahore 12, Ambala 4, Amritsar 19, Gujrát 13, Gujránwála 23, Shahpur 14, and Karnál 1. No return was received from the Kapurthala State. Total for the Province 115.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

R denotes slight rain.

TULSI DAS, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of June 1904.

1.—HISSAR DISTRICT.

Rainfall of the month was not sufficient for sowing except in certain villages. This rainfall, however, benefitted the standing crop of cotton. Rain urgently wanted. Fodder sufficient. Cattle in good condition. General health of the district fairly good.

2.—ROHTAK DISTRICT.

Cotton and bájra sown to some extent in those baráni villages where there had been sufficient rain. The rain has not been general throughout the district, but scattered showers in certain villages of all the four tahsíls. Cotton is being sown in the villages irrigated by canal water. Standing crops on irrigated lands good. Rain has benefitted the crops. A good outturn of the crops sown on irrigated lands is still expected. Cattle are in good condition. Fodder sufficient. Health of people generally good. Canal water was given by turns; there were no complaints.

3.—GURGAON DISTRICT.

Owing to slight rainfall, cotton, bájra, jowár, etc., have been sown and the ground ploughed and kept ready for further sowings. The standing crops on irrigated lands have been cleared of weeds. The kharíf sowings on irrigated area are promising well; those on unirrigated area are indifferent. Slight damage was done in the Rewári and Palwal Tahsíls by locusts. The Tahsíldárs have not been able to give an estimate of the outturn of the different crops owing to the uncertainty of the rains. The condition of cattle good. Fodder insufficint in the Gurgaon, Rewári and Ferozepore Tahsíls. The state of public health fair. Agra Canal is being used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Cotton and jowár sowing has begun on the canal area and also on the area on which rain fell on 22nd June. More rain is wanted for kharíf sowing. Extra rabi is almost over. The condition of cattle good. Fodder is scarce in parts of the district. The state of public health generally fair. No complaints regarding irrigation by canal. Prices rising.

5.—KARNAL DISTRICT.

Ploughings are being made for kharíf sowing. Bájra, maize and cotton are being sown. Sugarcane is in good condition. The expected yield average. The condition of cattle good. The state of public health fair. Water is being given to crops from wells and canals.

6.—AMBALA DISTRICT.

Sowings of cotton and chína commenced in Jagádhri and Naráingarh Tahsíls. Standing crops in good condition. The expected yield average. The condition of the cattle good.

7.—SIMLA DISTRICT.

Rainfall was sufficient in both tahsíls. In the Simla Tahsíl sowings of maize, koda, másh and kulth have been made to the extent of ⅗ths of the expected sowings. In the Kot Khái Tahsíl the full extent of expected sowings of chína and koda have been made. One-fourth of the sowings of báthu remain. The condition of crops good in both tahsíls. No forecast can yet be made as the crops are very young. Wheat was cropped in Kot Khái. The outturn was as follows—

Unirrigated high lands.	*Unirrigated low lands.*
134 seers per acre.	53 seers per acre.

Opium in the same tahsil is being extracted from the poppy-heads. The outturn will be given next month. Cattle in good condition. Fodder and grazing sufficient. The state of public health good. Water-supply somewhat low in the khuds of both tahsíls, owing to the recent warm days, and it was not drawn upon for irrigation purposes.

8.—Kangra District.

Irrigated lands have in general been sown. Land dependent on rainfall has not yet been sown except lowlying land. Irrigated crops are good so far. On the small area of unirrigated land which has been sown, the crops are withering. Health of people is generally good. There was sufficient water in the kúhls for irrigation proposes.

9.—Hoshiarpur District.

There was very little rain during the month under report which though benefitted th standing crop a little was quite insufficient for autumn sowings. The standing crops rice, sugarcane and cotton, continued to be hopeful till about the end of the month, when want of rain seemed to be invariably felt and had some effect upon it. The mango crop this year was on the whole good. Condition of cattle is generally good. Stock of fodder continued to be ample. Scarcity of water in the hilly portion of this district has led some villages to remove their cattle to the vicinity of the beds of the Beás, Sutlej and Sohan. The health of the people has on the whole been good. The Shah Nahr and its subsidiary zamíndári branches had sufficient water and irrigated usual area.

10.—Jullundur District.

Melons and tobacco attacked by worms. Sugarcane and cotton crops in fair condition. The rabi harvest operations were completed; yield good. Condition of cattle good. Fodder sufficient. Health of people good.

11.—Ludhiana District.

Sowing of cotton and fodder in progress in some of the irrigated area and that of rice in progress near the river bank. The condition of sugarcane and extra spring crops is good. Condition of cattle good and the health of people is fair. Irrigation from canals ordinary. The Sutlej is rising. Prices are moderate.

12.—Ferozepore District.

Fodder, jowár, chari and moth were sown during the month. Condition of standing crops is good, but rain is needed. Yield depends on future rain. Cattle are in good condition. The public health was generally good. The Sirhind Canal and district inundation canals have been flowing during the month and a normal area was irrigated from them. Agriculturists generally were well off. Green fodder was not available during the month, but it can now be had in some parts of the district. Stocks of food-grains and fodder were sufficient. Prices of wheat, barley and gram were cheaper.

13.—Montgomery District.

There have been slight showers in all but Montgomery Tahsíl, but they have done no good to the crop. Sowings of chari and bájra have been carried on to a small extent only. Sowing of rice delayed. The condition and prospect of extra spring crops average. The condition of cattle good. Health of people good. Canals are all working but the supply is small. The Rávi and Sutlej are both low for the time of the year. Insect called "toka" and "gora" have to some extent damaged the young cotton plants in Pákpattan Tahsíl. The gora insects first ate up all the *ak* they could find before beginning their ravages on the cotton.

14.—Lahore District.

The sowing of chari, moth and rice in progress and of cotton completed. Condition of extra rabi and autumn crops good. The yield of rabi crops has been good and so has been that of extra rabi crops. Some grain on the threshing flour in some villages in Chunián is said to have become wet, but not much damage was done. The condition of cattle good. The Upper Sutlej Inundation and the Bari Doab Perennial Canals worked well during the month. There were no floods in the rivers Sutlej and Rávi in this month and the Deg ran for one day, but was dried up the next day. The prices of food grains have remained stationary, though the export to Europe *viá* Karáchi has begun.

15.—Amritsar District.

Average rainfall during the month was 0·58; more rain wanted. Rice and other kharíf crops are being sown. Standing crops in good condition. Condition of cattle and health of people good. No complaints of deficiency of canal water.

16.—Gurdaspur District.

Slight rain during the month. Kharíf sowings in progress. The autumn crops in fair condition. Condition of cattle fair. Fodder sufficient. Canal working satisfactory.

25.—JHANG DISTRICT.

Slight rainfall during the month. No effect whatever on the sown crops. Chari, fodder and cotton sowings in progress State of the standing crops looks average at present. Extra rabi crop (tobacco) is going to be gathered. No cattle disease. Fodder available. Health of people generally good. Canals flowing. Sufficient water in the rivers but no floods.

26.—MOOLTAN DISTRICT.

Wheat being removed from the threshing floor. Kharíf crops being sown. Yield of spring crops above the average. Condition of cattle good. A slight damage to cotton crop from "tiddi" reported from Tahsíl Mooltan. Sidhnai and Inundation Canals running.

27.—MUZAFFARGARH DISTRICT.

Alipur Tahsíl.—Kharíf crop sowings finished except rice which is still going on. Condition of crops average. Condition of cattle and health of people good. Canals are flowing. Food and fodder sufficient.

Muzaffargarh and Sinanwán Tahsíls.—Indigo, rice, cotton and jowár have been sown. Cotton plant is damaged by "tiddi." Other crops fair. Canals are running, but water therein insufficient. Food and fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sanghar Tahsíl.—No sowings owing to absence of hill torrents. Rain has improved cotton. Present condition of crops good. Melons are being gathered and outturn is good. Massowali Canal working. Only two small hill torrents came down irrigating a few Saroba villages.

Dera Ghází Khan Tahsíl.—A little sown of cotton, jowár and bájra. Hopes good. Condition of cotton and standing crops not very good owing to insufficiency of water in Dhingána and Kastúri Canals. Jhalars are being used. Hoppers (tiddi) have done injury to jowár and cotton. Fresh sowings being made. Tobacco being cut. Outturn good. Canals working well except Kastúri and Dhingána.

Jámpur Tahsíl.—Sowings of indigo, cotton, rice completed and $\frac{3}{4}$ths of jowár sown. Bájra sowings begun. Rain badly wanted. Outturn of tobacco and záid rabi good. No hill torrents except small torrents in Kalia. Canals working all right except Dhingána which is below standard.

Rájanpur Tahsíl.—Sowing $\frac{3}{4}$ths completed. Condition of extra spring crops good. Outturn of spring crop good. Canals working well. No hill torrents. Condition of cattle and health of people good. Fodder sufficient everywhere except in parts.

TULSI DAS, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

25.—JHANG DISTRICT.

Slight rainfall during the month. No effect whatever on the sown crops. Chari, fodder and cotton sowings in progress. State of the standing crops looks average at present. Extra rabi crop (tobacco) is going to be gathered. No cattle disease. Fodder available. Health of people generally good. Canals flowing. Sufficient water in the rivers but no floods.

26.—MOOLTAN DISTRICT.

Wheat being removed from the threshing floor. Kharíf crops being sown. Yield of spring crops above the average. Condition of cattle good. A slight damage to cotton crop from "tiddi" reported from Tahsíl Mooltan. Sidhnai and Inundation Canals running.

27.—MUZAFFARGARH DISTRICT.

Alipur Tahsíl.—Kharíf crop sowings finished except rice which is still going on. Condition of crops average. Condition of cattle and health of people good. Canals are flowing. Food and fodder sufficient.

Muzaffargarh and Sinanwán Tahsíls.—Indigo, rice, cotton and jowár have been sown. Cotton plant is damaged by "tiddi." Other crops fair. Canals are running, but water therein insufficient. Food and fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sanghar Tahsíl.—No sowings owing to absence of hill torrents. Rain has improved cotton. Present condition of crops good. Melons are being gathered and outturn is good. Massowali Canal working. Only two small hill torrents came down irrigating a few Saroba villages.

Dera Ghází Khan Tahsíl.—A little sown of cotton, jowár and bájra. Hopes good. Condition of cotton and standing crops not very good owing to insufficiency of water in Dhingána and Kastúri Canals. Jhalars are being used. Hoppers (tiddi) have done injury to jowár and cotton. Fresh sowings being made. Tobacco being cut. Outturn good. Canals working well except Kastúri and Dhingána.

Jámpur Tahsíl.—Sowings of indigo, cotton, rice completed and ¾ths of jowár sown. Bájra sowings begun. Rain badly wanted. Outturn of tobacco and záid rabi good. No hill torrents except small torrents in Kalia. Canals working all right except Dhingána which is below standard.

Rájanpur Tahsíl.—Sowing ¾ths completed. Condition of extra spring crops good. Outturn of spring crop good. Canals working well. No hill torrents. Condition of cattle and health of people good. Fodder sufficient everywhere except in parts.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 26TH JULY 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·69 at Hissar ... 0·1 in Hánsi 0·61 in Bhiwani. 0·27 in Sirsa. 0·63 in Tohana.	1. Sufficient ... 2. Good.	Wheat 16½ seers... Gram 25 seers. Bájra 24 seers.	...	Crops not sown on unirrigated lands excepting Tohána tract and some villages of Bhiwáni Tahsíl for want of rain. Rain urgently wanted. Cotton crop flourishing on canal-irrigated lands. Locusts appeared in parts, but did no damage.
2	Delhi ...	1·23 in Ballabgarh 1·28 in Mahrauli 0·15 in Sonepat. 1·94 at Sadr.	1. Scarce in parts, but grass is becoming available. 2. Fair.	Wheat 15 seers .. Barley 24 seers. Gram 22½ seers.	...	Sowings in progress. Prospects favourable so far.
3	Ambala ...	0·38 in Jagádhri .. 0·38 at Sadr. 0·71 in Naráingarh 1·22 in Kharar. 0·43 in Rúpar 1·58 in Kasauli	1. Sufficient ... 2. Generally good.	Wheat 20¼ to 21 seers. Barley 24½ seers. Gram 26½ to 27 seers. Maize 35 seers. Jowár 40 seers. Bájra 25 seers.	...	Sowings in progress. Standing crops in good condition.
4	Jullundur ...	3·21 at Sadr ... 2·33 in Nawashahr. 0·21 in Phillour.	1. Sufficient ... 2. Good.	Wheat 20 seers Barley 28 seers. Gram 28½ seers. Maize 36 seers.	...	Sugarcane and cotton crops in fair condition. Sowings continue, but more rain wanted.
5	Ferozepore ...	1·12 in Moga ... 0·04 at Sadr. 0·47 in Muktsar 0·15 in Fázilka 0·55 in Nathána.	1. Sufficient ... 2. Generally good.	Wheat 18¾ seers Gram 28 seers. Barley 30 seers. Jowár 20 seers. Bájra 20 seers.	...	Sowings in progress on canal-irrigated and sandy lands where rain fell. Condition of standing crops average, but need rain badly.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
6	Lahore ...	1·12 in Chunián ... 0·21 in Sharakpur.	1. Sufficient ... 2. Good.	Wheat 19 to 22 seers. Barley 30 to 38 seers. Gram 28 to 34 seers. Rice 4½ to 12 seers.	Extra spring crops are being removed. Outturn of tobacco crop good.	Sowings in progress. Condition of standing crops good. Crops are being irrigated by wells and canals.
7	Amritsar ...	0·30 average ...	1. Sufficient ... 2. Good.	Wheat 20½ seers... Gram 30¾ seers. Maize 29 seers. Bájra 29 seers.	...	Standing crops in good condition. Rain badly wanted. Sowings of rice, maize, (sesamum) and til retarted for want of rain.
8	Siálkot ...	4·10 in Zafarwál... 2·52 in Pasrúr. 0·43 at Siálkot. 1·85 in Raya. 1·40 in Daska.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 30 seers. Gram 29 seers.	...	Sowings in progress. Standing crops in good condition. Cotton crop somewhat damaged by "toka" insect.
9	Shahpur ...	1·80 in Sáhiwál ... 1·28 in Midh. 2·25 in Sakesar. 1·22 in Naushera. 0·80 in Khushab. 0·37 at Sadr. 0·24 in Bhera.	1. Ample ... 2. Generally good.	Wheat 19 to 21 seers. Barley 28 to 32 seers. Gram 30 to 32 seers. Maize 24 to 26 seers. Bájra 24 to 30 seers	...	Sowings in progress on irrigated lands. Cotton damaged by "toka" insect.
10	Ráwalpindi ...	0·01 at Sadr .. 1·22 in Gujar Khan 0·60 in Kahúta. 2·50 in Murree.	1. Sufficient ... 2. Good	Wheat 17¼ seers... Barley 32 seers. Gram 25½ seers. Bájra 25 seers. Maize 24¼ seers	...	Sowings in progress.
11	Miánwáli ...	0·62 at Sadr ... 0·11 in Isa Khel. 0·11 in Bhakkar. 0·05 in Leiah.	1. Procurable ... 2. Generally good.	Wheat 20 seers .. Gram 33 seers. Barley 36 seers. Bájra 30 seers. Jowár 32 seers.	...	Crops being sown to some extent. Rain insufficient.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers... Gram 25¾ seers. Maize 31 seers.	...	Crops are being sown.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Delhi, Siálkot Shahpur and in parts of Ambala, Jullundur, Ferozepore, Lahore and Ráwalpindi Districts. Slight falls have also been reported from other districts except Mooltan. More rain is urgently wanted in Hissar, Jullundur, Ferozepore, Amritsar and Miánwáli.

Prices.—The price of wheat is rising in Hissar, Ferozepore, Amritsar, Shahpur, Ráwalpindi and Miánwáli. The prices of other food-grains are generally unchanged

Agricultural operations.—Extra spring crops are still being removed in Lahore. Sowings of autumn crops in progress in all districts except on unirrigated lands in parts of Hissar, Ferozepore and Shahpur.

Crops and outturn.—Standing crops are reported good in Delhi, Ambala, Lahore, Amritsar and Siálkot, and fair in Jullundur and Ferozepore. Outturn of tobacco (Nicotiana Tobacum) is reported to be good in Lahore.

Damage done to crops.—Cotton crop damaged to some extent by an insect called "toka" in Siálkot and Shahpur Districts. Locusts appeared in parts of Hissar, but did no damage.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts except in parts of Delhi.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

During the week ending 16th July 1904, there were 855 births registered in the 42 large Municipal towns (451 males and 404 females), giving a birth-rate of 31 *per mille* of population, and 725 deaths were registered (381 males and 344 females), giving a death-rate of 26 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 31 against 48 in the corresponding week of the previous year, Lahore 27 against 54, Amritsar 35 against 47, and Mooltan 23 against 20. There were 7 deaths reported from plague in Amritsar and 1 each in Shahabad and Lahore. Of the 17 deaths from small-pox, 3 each were registered in Shahabad, Siálkot and Mooltan, 2 each in Hissar and Sirsa, and 1 each in Bhiwáni, Delhi, Lahore and Amritsar. There were 2 deaths registered from cholera in Hoshiárpur.

Deaths reported from plague during the week ending 23rd July 1904 in the districts, including all Municipal towns.—Jullundur 6, Hoshiárpur 2, Gurdáspur 3, Siálkot 4, Lahore 2, Ambala 1, Amritsar 8, Gujrât 5, Gujránwála 2, Shahpur 6, Karnál 3 and Jhelum 1. Total for the Province 43.

KASHI RAM, SUPDT.,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

FIFTY THOUSAND EIGHT HUNDRED AND SIXTY-SIX births were registered in the Province during the month of June 1904, giving a birth-rate of 31 per *mille* of population. Of the total number of births, 26,573 were boys and 24,293 were girls.

The total number of deaths registered from all causes in the Province during the month of June 1904 was 59,779 against 162,220 in the previous month and 69,891 in the corresponding month of the past year, giving an annual death-rate of 36, 95, and 42 per *mille* of population per annum, respectively.

The total mortality from plague amounted to 14,261 against 109,595 in the previous month, and 8,066 in the corresponding month of the past year. The largest number of deaths reported from plague during the month were 2,879 in the district of Gujrát, 2,312 in Gujránwála, 1,506 in Shahpur, 1,251 in Gurdáspur, 1,163 in Amritsar and 1,085 in Lahore. In the districts of Jhelum, Jullundur, Siálkot and Hoshiárpur the deaths ranged from 582 to 883.

There were 202 deaths registered under the head of cholera against 108 in the previous month, and 3,054 in the corresponding month of the past year. From small-pox 1,199 deaths were registered against 1,493 in the previous month and 2,141 in the corresponding month of the past year; fevers 29,522 against 33,614 and 37,432; dysentery and diarrhœa 1,084 against 1,246 and 1,437; respiratory diseases 3,984 against 4,857 and 5,181. During the month there were 34 deaths registered from suicide against 32 in the past month; wounding 34 against 38; accidents 480 against 448; snake-bite and killed by wild beasts 109 against 69; and from all other causes 8,870 against 10,720 in the previous month, and 11,934 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th July 1904.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 2ND AUGUST 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·08 at Sadr ... 0·11 in Hánsi. 1·10 in Bhiwáni. 0·34 in Fatehabad. 0·42 in Sirsa.	1. Sufficient ... 2. Good.	Wheat 16½ seers... Bájra 23 seers. Gram 24 seers.	...	More rain wanted for autumn sowings on unirrigated lands. Sowings nearly completed on canal-irrigated lands. Cotton crop flourishing.
2	Delhi ...	0·44 at Sadr ... 1·36 in Ballabgarh 0·21 in Sonepat.	1. Available ... 2. Fair.	Wheat 15 seers ... Barley 24 seers. Gram 22½ seers.	...	Sowings finished. Prospects favourable so far. Locusts appeared in Sonepat Tahsíl, but did no damage.
3	Ambala ...	1·51 in Jagádhri ... 2·09 at Sadr. 2·67 in Naráingarh. 0·38 in Kharar. 1·70 in Rúpar 4·19 in Kasauli	1. Sufficient ... 2. Generally good.	Wheat 19¼ to 20 seers. Gram 26 to 27 seers. Barley 24½ seers. Maize 35 seers. Jowár 40 seers. Bájra 25 seers.	...	Sowings nearly finished. Condition of standing crops good. Locusts appeared in parts with a little damage.
4	Jullundur ...	2·90 at Sadr and believed good rain elsewhere in the district this morning. Very good rain today at Sadr	2. Good ...	Wheat 19¼ seers Barley 26 seers. Gram 27 seers. Maize 32 seers.	...	Condition of sugarcane and cotton crops below average. Sowings continue.
5	Ferozepore ...	0·30 in Zíra ...	1. Sufficient ... 2. Generally good.	Wheat 19 seers ... Gram 28½ seers. Barley 30 seers. Jowár 20 seers. Bájra 20 seers.	...	Sowings of maize, jowár (Great millet), bájra (Bulrush millet), Til (sesamum, hemp and cotton in progress on canal-irrigated lands. Condition of crops where rain fell is average and in other places crops are withering.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
6	Lahore ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 28 to 38 seers. Gram 28 to 32 seers. Rice 4½ to 12 seers.	...	Crops are being sown on irrigated la[illegible]. Condition of stan[illegible] crops is falling below average on account of want of rain. Large areas are kept uncultivated for want of rain which is badly wanted Locusts appeared in parts, but did slight damage in one village in Kasúr Tahsíl.
7	Amritsar ...	1·33 average ...	1. Sufficient ... 2. Good.	Wheat 20¼ seers... Gram 30 seers. Maize 30½ seers. Bájra 29 seers.	...	Sowings in progress, but retarded for want of rain. Standing crops in good condition. Locusts appeared in parts, but did no damage.
8	Siálkot ...	2·13 in Zafarwál... 3·04 in Pasrúr. 2·50 in Siálkot. 0·19 in Daska. 0·57 in Raya.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 32 seers. Gram 29 seers. Rice 5 to 11 seers.	...	Sowings in progress. Standing crops in good condition. Recent rain advantageous to standing crops.
9	Shahpur ...	1·23 in Sakesar ... 1·25 in Naushera. 0·75 in Khusháb. 0·63 in Shahpur. 0·42 in Bhera.	2. Generally good.	Wheat 19 to 21 seers. Barley 27 to 32 seers. Gram 30 to 32 seers. Bájra 24 to 28 seers. Jowár 24 to 26 seers. Maize 24 to 25 seers.	...	Jowár (Great millet), Bájra (Bulrush millet), maize and rice being sown on irrigated areas. Sowings very scanty for want of rain. "Toka" insect damaging cotton in parts.
10	Ráwalpindi ...	4·33 at Ráwalpindi 5·69 in Gujar Khan. 5·62 in Kahúta. 8·53 in Murree.	1. Sufficient ... 2. Good	Wheat 17½ seers... Gram 26 seers. Barley 30 seers. Bájra 25 seers. Maize 25 seers.	...	Sowings in progress.
11	Miánwáli ...	0·70 at Miánwáli... 0·13 in Isa Khel.	1. Procurable ... 2. Generally good.	Wheat 19 seers ... Barley 31 seers. Gram 32 seers. Bájra 30 seers. Jowár 32 seers.	...	Crops in precarious condition owing to want of sufficient rain, and further sowings stopped. Great portion of Miánwáli Tahsíl irrigrted by dams.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers... Gram 25¾ seers. Maize 31 seers.	...	Sowings in progress.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Ambala, Jullundur, Amritsar, Siálkot and Ráwalpindi Districts and in parts of Hissar, Delhi and Shahpur. Slight showers have also been reported from other districts except Lahore and Mooltan. More rain wanted in Hissar, Ferozepore, Lahore, Amritsar, Shahpur and Miánwáli.

Prices.—The price of wheat is rising in Ambala, Jullundur, Lahore, Amritsar, and Miánwáli and falling in Ferozepore and Ráwalpindi; unchanged elsewhere. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of autumn crops stopped at Miánwáli and retarded at Amritsar and Lahore for want of rain, but in progress in other districts, especially on irrigated land. Sowing is finished in Delhi and nearly finished in Ambala and on irrigated land in Hissar.

Crops and outturn.—Standing crops are reported good in Delhi, Ambala, Amritsar, Siálkot; below average [illegible] Jullundur and Lahore and in precarious condition in Miánwáli for want of rain; and withering in parts of Ferozepore.

Damage done to crops.—Locusts appeared in parts of Delhi, Ambala, Lahore, Amritsar, with a little damage in parts of Ambala and one village of Lahore. Cotton crop damaged to some extent in parts of Shahpur by an insect called "Toka."

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 2nd August 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd July 1904, there were 945 births registered in the 42 large Municipal towns (499 males and 446 females), giving a birth-rate of 34 *per mille* of population, and 640 deaths were registered (321 males and 319 females), giving a death-rate of 23 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 32 against 36 in the corresponding week of the previous year, Lahore 28 against 28, Amritsar 28 against 38, and Mooltan 24 against 37. There were 4 deaths reported from plague in Amritsar and 1 in Shahabad. Of the [illegible] deaths from small-pox, 5 each were registered in Bhiwáni and Amritsar, and 1 each in Hissar, Pánipat, Shahabad Siálkot and Mooltan. There was 1 death each registered from cholera in Lahore and Bhera.

Deaths reported from plague during the week ending 30th July 1904 in the districts, including all Municipal towns.—Jullundur 5, Gurdáspur 6, Siálkot 4, Ludhiána 1, Lahore 21, Ambala 10, Amritsar 5, Gujránwála 4 and Karnál 2. Total for the Province 58.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th August 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 30th July 1904, there were 895 births registered in the 42 large Municipal towns (480 males and 415 females), giving a birth-rate of 33 *per mille* of population, and 626 deaths were registered (293 males and 333 females), giving a death-rate of 23 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 28 against 30 in the corresponding week of the previous year, Lahore 24 against 31, Amritsar 27 against 29, and Mooltan 17 against 32. There were 3 deaths reported from plague in Amritsar and 1 in Shahabad. Of the 6 deaths from small-pox, 2 were registered in Siálkot and 1 each in Jhajjar, Karnál, Amritsar and Mooltan. There was 1 death registered from cholera in Jullundur.

Deaths reported from plague during the week ending 6th August 1904 in the districts, including all Municipal towns.—Jullundur 1, Gurdáspur 1, Lahore 1, Ambala 6, Karnál 1, and Jhelum 1; Patiála State 13. Total for the Province 24.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, AUGUST 18, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 16TH AUGUST 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	2·36 at Sadr ... 5·90 in Hánsi. 1·66 in Bhiwáni. 2·10 in Fatahabad. 0·37 in Sirsa. 0·70 in Budhláda. 0·42 in Tohána. Rainfall general over district, except Sirsa Tahsíl.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Gram 25 seers. Bájra 23 seers.	...	About ⅔rds of normal area sown Further sowings going on rapidly Irrigated crops flourishing.
2	Delhi ...	4·17 at Sadr ... 3·13 in Ballabgarh 5·27 in Mahrauli. 1·74 in Sonepat. Rain was good and general throughout the district.	1. Available ... 2. Fair.	Wheat 16¼ seers... Barley 24½ seers. Gram 22½ seers.	...	Unirrigated area has been sown completely in all tahsíls. The present rain has given promise of good crops.
3	Ambala ...	4·89 in Jagádhri ... 1·47 at Sadr. 5·17 in Naráingarh. 1·41 in Kharar. 1·75 in Rúpar 6·15 in Kasauli.	1. Sufficient ... 2. Generally good.	Wheat 19 to 20 seers. Gram 27 to 27½ seers. Jowár 40 seers. Barley 24 seers. Maize 35 seers. Bájra 25 seers.	...	Standing crops in good condition. Rainfall well distributed and beneficial.
4	Jullundur ...	1·50 at Sadr ... About same elsewhere.	1. Sufficient ... 2. Good.	Wheat 10 seers ... Gram 28¼ seers. Maize 33 seers. Barley 25 seers.	Ploughings commenced.	Sowings finished. Condition of maize, cotton and sugarcane average; moth and chari half average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·71 in Moga ... 0·92 in Zíra. 0·86 at Sadr. 0·78 in City. 0·45 in Muktsar. 0·22 in Fázilka. 2·20 in Nathána. 0·17 in Jalálabad. Rainfall has not been general and more rain needed	1. Sufficient ... 2. Generally good.	Wheat 19 seers ... Barley 30 seers. Gram 29 seers. Bájra 20 seers. Jowár 20 seers.	...	Autumn crops were sown on irrigated and on unirrigated lands where rain fell but to small extent only. Recent rain has been beneficial to standing crops which are now in good condition.
6	Lahore ...	0·98 in Chunián ... 0·48 in Kasúr 0·11 in Sharakpur. 0·36 in Lahore.	1. Sufficient except Tahsíl Sharakpur. The people of the places where fodder is insufficient have removed with cattle to other places where fodder is abundantly available. 2. Good.	Wheat 18 to 21 seers. Barley 29 to 38 seers. Gram 27½ to 32 seers. Rice 4½ to 12 seers.	...	Moth, chari and rice are being sown and lands are being cultivated for autumn crops. Crops are falling below average for want of rain.
7	Amritsar ...	0·21 average, which is very small, and it was not general.	1. Sufficient ... 2. Good.	Wheat 18½ seers... Gram 28½ seers. Maize 30 seers. Bájra 28 seers.	...	Sowings on unirrigated lands much retarded for want of rain. Chari only sown on unirrigated lands in some places. Condition of standing crops average. Prospects of the crops much depend on rain.
8	Siálkot ...	3·50 at Sadr ... 5·85 in Zafarwál. 3·99 in Pasrúr. 5·36 in Raya. 2·73 in Daska.	1. Sufficient ... 2. Generally good.	Wheat 18 to 20 seers. Gram 30 seers. Barley 32 seers. Rice 10 to 12 seers.	...	Rainfall good and well distributed throughout the district, most beneficial to the standing crops. Sowings of rice, maize, jowar and bájra in progress. On baráni lands ⅔rd of the whole crops in good condition.
9	Shahpur ...	Rainfall copious and general in Tahsíl Bhera, but not copious in Tahsíl Shahpur. Good rain around Sakesar in Khushâb Tahsíl, but more rain wanted in the tahsíl generally.	1. Sufficient ... 2. Good.	Wheat 18 to 20 seers. Barley 28 to 32 seers. Jowár 26 to 30 seers. Bájra 24 to 27 seers. Gram 27 to 32 seers. Maize 22 to 26 seers.	...	Sowings of jowár (great millet), maize, &c., continued. Báj[illegible] (bulrush millet) being sown by transplantation on well-irrigated lands only. Sowing rare on unirrigated lands for insufficiency of rain. Prospects of outturn below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·95 at Ráwalpindi 3·84 in Gujar Khan. 4·05 in Kahúta. 8·06 in Murree.	1. Sufficient ... 2. Good.	Wheat 17¼ seers Bájra 23 seers. Maize 25 seers. Gram 25 seers. Barley 30 seers.	...	Condition of autumn crops fair. Rain has been general in the district.
11	Miánwáli ...	0·75 at Sadr ... 2·00 in Isa Khel. 1·19 in Bhakkar. Rain badly wanted, as it has not been general.	1. Procurable ... 2. Good.	Wheat 18 seers ... Gram 29 seers. Barley 31 seers. Bájra 27 seers. Jowár 32 seers.	...	Condition of standing crops not satisfactory. Sowings on baráni lands small owing to want of rain. River in flood, and greater portion of lower tracts has been irrigated.
12	Mooltan ...	0·85 in Kabírwála	1. Sufficient ... 2. Good.	Wheat 17¼ seers... Gram 25¼ seers. Maize 30 seers.	...	Sowings in progress on irrigated land. Sowings not commenced on unirrigated lands yet.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Hissar, Delhi, Ambala, Jullundur, Siálkot, Ráwalpindi and in parts of Ferozepore, Shahpur and Miánwáli Districts. Some rain has also been reported from other districts. It has been insufficient in Ferozepore, Lahore, Amritsar, Khusháb Tahsíl of Shahpur, Miánwáli, and in Sirsa Tahsíl of Hissar District, where more is wanted.

Prices.—The price of wheat is falling in Hissar, Delhi and Ferozepore, and rising in Jullundur, Amritsar, Ráwalpindi and Miánwáli; unchanged elsewhere. The prices of all other food-grains are fluctuating.

Agricultural operations.—Sowings of autumn crops in progress in Hissar, Ferozepore Lahore, Shahpur and Mooltan; finished in Jullundur; but retarded in Amritsar, and insufficient in Miánwáli for want of rain. Ploughings for spring crops commenced in Jullundur.

Crops and outturn.—Condition of standing crops is now reported good in Delhi, Ambala, Ferozepore, Siálkot and on irrigated land in Hissar; fair in Ráwalpindi; average in Jullundur and Amritsar; but below average in Lahore and Shahpur, and unsatisfactory in Miánwáli. Recent rain has done much good to the standing crops.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts, except in Sharakpur Tahsíl of Lahore District.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

There were no advances of monsoon winds over the Punjab during the month under review, and the scanty rainfall which occurred during the month was recorded during dust and thunderstorms. In the intervals between the disturbed, thundery periods the weather was hot with thick dust haze. During the first four days of the montht he weather was feebly disturbed and thunder showers were received in Kashmir and at Simla, Murree, Ambala, Lahore and Sirsa, but the rainfall amounts were inconsiderable except at Sirsa on the 3rd, when 1·03″ was reported. From the 4th to the 9th the weather was fine and very hot throughout the whole area, but on the 10th the sky clouded over on the hills, and between the 10th and the 13th thunder showers occurred at Simla and in Kashmir while a duststorm gave light rain to Delhi on the 13th. On the 14th the weather was fine and no rain fell, but on the 15th duststorms gave some rain to Ludhiána, Lahore and Khusháb. From the 16th to the 20th the weather was fine and very hot with thick dust haze throughout the area, but between the 21st and the 23rd there occurred another disturbed period, during which thunder showers were received at Delhi, Ambala, Ludhiána, Siálkot, Lahore, Khusháb and in the Simla and Kashmir Hills. The falls of rain were not heavy, but Ambala received 1·00″ on the 21st and Delhi 1·75″ on the 22nd. From the 24th onward to the close of the month fine and very hot weather prevailed throughout the whole area.

Pressure and Winds.—With the exception of Simla where the pressure was in trifling excess the mean pressure of the month of June was below the normal at all stations. The amount of the deficiency increased westward and was greatest at Pesháwar and Dera Ismail Khan. Over a considerable part of the area the wind was more southerly than usual.

Temperature.—The mean temperature of the month exceeded the normal at all stations except Simla and Leh, where it was in trifling defect. The excess was greatest at the foot of the hills and amounted to ower 4° at Ráwalpindi and Siálkot. In nearly all cases the temperature was in excess of the average both by day and night, but at Delhi the day temperature was normal on the mean of the month and at Sirsa, Simla and Leh below the normal, while the night temperature was below the normal at Simla, Srinagar and Leh. The hottest places were Montgomery and Mooltan, where the mean temperature of the month was 98°3.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 14th ...	+ 3·3	112·9	Siálkot.				
" 15th ...	+ 3·6	114·9	Do.				
" 16th ...	+ 0·3	108·8	Do.				
" 17th ...	+ 1·1	110·9	Mooltan.				

The mean temperature of the whole area was below the normal on the 3rd and 4th and again between the 22nd and the 25th, when showery and unsettled conditions prevailed, but at all other times the weather was hotter than usual. The excess of temperature was considerable to large between the 7th and 11th, on the 19th and 20th and between the 26th and the end of the month. During these hot periods mean temperatures more than 10° above the normal were recorded on some days at Ráwalpindi, Delhi and Siálkot. The highest maximum temperature recorded was 110·°3 registered at Montgomery on the 21st and at Khusháb on the 28th.

Humidity and Cloud.—The air was drier than usual at nearly all stations and the cloud amount was everywhere below the normal, though dust haze prevailed almost continuously throughout the month.

Rain.—Owing to the absence of monsoon winds, the rainfall of the month was everywhere lighter than usual. At Mooltan, Dera Ismail Khan, Pesháwar, Murree, Skardu, Cherát, Ráwalpindi and Montgomery actually or practically no rain fell throughout the month, and at all the remaining stations the deficiency was large. At Ambala it amounted to 5·22″, at Murree to 3·49″ and at Ráwalpindi, Siálkot, Ludhiána and Simla to over 2·00″.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for June 1904:—

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·24 at Sadr ... 0·45 in Budhláda. 0·26 in Tohána. More rain wanted in Sirsa Tahsíl.	1. Sufficient .. 2. Generally good.	Wheat 17 seers ... Bájra 23 seers. Gram 25 seers.	...	About ¾ths of normal unirrigated area already sown Further sowings going on. Crops flourishing.
2	Delhi ...	...	1. Available ... 2. Fair.	Wheat 16¼ seers... Barley 25 seers. Gram 23 seers.	...	Crops in good condition. Prospects favourable.
3	Ambala ...	2·19 in Jagádhri ... 0·02 in Naráingarh. 0·01 in Kharar. 0·10 in Rúpar 2·19 in Kasauli Rainfall good in Jagádhri and surrounding villages.	1. Sufficient ... 2. Generally good.	Wheat 18 to 18½ seers. Gram 27 to 27½ seers. Maize 35 seers. Jowár 40 seers. Bájra 25 seers. Barley 24 seers.	...	Owing to good rain last week about 200 acres have been sown with autumn crops in Naráingarh Tahsíl. Standing crops are suffering from want of rain.
4	Jullundur ...	1·62 in Nawashahr and slight in other 3 tahsíls More rain needed	1. Sufficient ... 2. Good.	Wheat 18½ seers .. Gram 29 seers. Maize 32 seers. Barley 27 seers.	Ploughings continued.	Condition of standing crops average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	1·65 in Moga ... 2·16 in Zíra. 0·20 in Muktsar. 0·55 in Nathána. 0·17 in Jalálabad. Rain is not general, and more is needed.	1. Sufficient ... 2. Generally good.	Wheat 17 seers ... Gram 28 seers. Barley 28 seers. Jowár 20 seers. Bájra 20 seers.	...	Crops were sown on unirrigated lands, but to small extent only, recent rain was beneficial to standing crops, which are in good condition.
6	Lahore ...	0·25 in Chunián ... 0·90 in Kasúr. 0·08 at Lahore.	1. Sufficient, except in Tahsíl Sharakpur. 2. Good.	Wheat 16 to 20 seers. Barley 27 to 31 seers. Gram 26 to 30 seers. Rice 4 to 12 seers.	In certain villages where rain has fallen to some extent lands are being ploughed for the next spring.	The condition of crops is falling below average for want of rain. Unirrigated lands have not generally been sown at all. Crops are being sown on well and canal lands.
7	Amritsar ...	0·06 average ... Rain is badly wanted.	1. Sufficient ... 2. Good.	Wheat 18 seers ... Gram 28 seers. Maize 30 seers. Bájra 26 seers.	Ploughings for spring crops in progress.	Standing crops in average condition. Sowings of chari and maize in progress in some places. Crops are drying for want of rain. Prospects depend on future rain.
8	Siálkot ...	1·00 at Sadr ... None in other tahsíls.	1. Sufficient ... 2. Generally good.	Wheat 17 to 19 seers. Gram 29 seers. Barley 30 seers. Rice 10 to 12 seers.	...	Sowings of rice, maize, jowár and bájra continued. Crops are in good condition. Sowings on unirrigated lands nearly completed.
9	Shahpur ...	3·80 at Sadr ... Similar amount in Bhera and less in the Khusháb Tahsíl.	1. Sufficient ... 2. Generally good.	Wheat 18 to 19 seers. Barley 26 to 31 seers. Maize 20 to 26 seers. Gram 28 to 31 seers.	...	Sowings nearly completed. Moth and rice are being sown. Probably outturn below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	2·29 at Sadr .. 1·90 in Gujar Khan. 1·64 in Kahúta. 2·55 in Murree. Rainfall good and well distributed throughout.	1. Sufficient ... 2. Good.	Wheat 17¾ seers Bájra 23¼ seers. Maize 25 seers. Gram 25 seers. Barley 31 seers.	...	Condition of standing crops fair.
11	Miánwáli ...	0·35 in Leiah ...	1. Procurable ... 2. Good.	Wheat 17¼ seers Barley 30 seers. Gram 29 seers. Bájra 30 seers. Jowár 32 seers.	...	Autumn sowings commenced in lower tracts where másh and jowár are being sown mostly. Rain wanted for unirrigated lands. The crops standing cannot progress without rain.
12	Mooltan ...	0·32 at Sadr ...	1. Sufficient ... 2. Good.	Wheat 16¾ seers... Gram 24 seers. Maize 28 seers.	...	Sowings in progress on irrigated lands.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Ráwalpindi and in parts of Ambala, Jullundur, Ferozepore, Lahore, Siálkot and Shahpur. Insignificant showers have also been reported from parts of other districts except Delhi. More rain is wanted in Sirsa Tahsíl of Hissar, Ambala, Jullundur, Ferozepore, Lahore, Amritsar and Miánwáli.

Prices.—The price of wheat is rising in Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Siálkot, Shahpur and Miánwáli, and falling in Ráwalpindi and Mooltan. The prices of other food grains are fluctuating.

Agricultural operations.—Sowings of autumn crops in progress in parts of Hissar, Ferozepore, Amritsar, Siálkot, Shahpur, Miánwáli and Mooltan. Unirrigated lands have not generally been sown in Lahore and Ferozepore for want of rain. Ploughings for spring crops continue in Jullundur and have commenced in Lahore and Amritsar.

Crops and outturn.—Condition of standing crops is reported good in Hissar, Delhi, Ferozepore, Siálkot; fair in Ráwalpindi; average in Jullundur and Amritsar; but below average in Lahore and Shahpur. Crops are suffering for want of rain in Ambala and Amritsar. Recent rain has benefited the standing crops.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in Sharakpur Tahsíl of Lahore District.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th August 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 13th August 1904, there were 963 births registered in the 40 large Municipal towns (506 males and 457 females), giving a birth-rate of 36 *per mille* of population, and 665 deaths were registered (367 males and 298 females), giving a death-rate of 25 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 35 against 35 in the corresponding week of the previous year; Lahore 23 against 39; Amritsar 27 against 39, and Mooltan 24 against 36. Of the 5 deaths from small-pox, 2 were registered in Mooltan, and 1 each in Batála, Siálkot and Dera Ghházi Khan. There were 7 deaths registered from cholera in Hoshiárpur and 1 each in Kartárpur, Lahore and Amritsar.

Deaths reported from plague during the week ending 20th August 1904, *in the districts, including all Municipal towns.*—Ambala 12, Delhi 8, Gurdáspur 4, Karnál and Hissar 3 each; Siálkot 2 and Jullundur 1. Total for the Province 33.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 30TH AUGUST 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·17 at Sadr ... 0·[illegible]2 in Hánsi 1·95 in Bhiwáni. 0·54 in Fatahabad 0·51 in Sirsa 0·81 in Tohána.	1. Sufficient .. 2. Generally good.	Wheat 18 seers ... Bájra 24 seers. Gram 25 seers.	...	Unirrigated sowings completed. Rain wanted for late sowings. Irrigated crops flourishing.
2	Delhi ...	4·65 in Ballabgarh 2·20 in Mahrauli. 1·24 at Sadr. 2·37 in Sonepat.	1. Sufficient ... 2. Fair.	Wheat 16 seers .. Barley 25 seers. Gram 23 seers.	...	Good rain throughout the district, except in Sonepat Tahsíl. Prospects are favourable.
3	Ambala ...	0·[illegible]5 at Sadr ... 0·61 in Naráingarh 3·81 in Kharar. 4·70 in Rúpar. 1·42 in Kasauli Rain badly wanted in parts of Ambala Tahsíl; in other parts of the district sufficient.	1. Sufficient ... 2. Generally good.	Wheat 18 to 18¾ seers. Gram 27 to 27½ seers. Barley 24 seers. Jowár 40 seers. Maize 35 seers. Bájra 25 seers.	...	Condition of standing crops good, except in Ambala Tahsíl.
4	Jullundur ...	Slight rain; more urgently needed.	1. Sufficient ... 2. Good.	Wheat 19 seers ... Gram 29 seers. Maize 32 seers. Barley 27 seers.	Ploughings continue.	Condition of standing crops average. Sugar-cane damaged in parts of the district.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·17 in Zíra. ... 0·57 in Sadr. 0·47 in City. 0·63 in Muktsar. 0·03 in Fázilka. 0·50 in Nathána. 0·09 in Jalálabad. Rainfall was not general, and more is needed.	1. Sufficient ... 2. Generally good.	Wheat 16½ seers Gram 27 seers. Barley 27 seers. Bájra 21 seers. Jowár 20 seers.	...	Maize and urd sown on sailab lands. No sowings on unirrigated lands. Condition of irrigated crops good and of unirrigated average.
6	Lahore ...	0·04 in Chunián ... 0·69 in Sharakpur.	1. Sufficient, except in parts of Sharakpur Tahsíl. 2. Generally good.	Wheat 16 to 19 seers. Barley 28 to 32 seers. Gram 23½ to 25 seers. Rice 4½ to 12½ seers.	...	Only a small area of unirrigated lands have been cultivated. Turnips and maize being sown. The condition of unirrigated crops bad and the general condition of the crops falling below average for want of rain.
7	Amritsar ...	0·04 average ... Rain is badly wanted, especially for unirrigated lands.	1. Sufficient ... 2. Good.	Wheat 18½ seers Maize 30 seers. Bájra 26 seers. Gram 27¾ seers.	Ploughings in progress.	Condition of crops below average.
8	Siálkot ...	2·81 in Zafarwál 0·14 in Daska. 0·15 at Siálkot.	1. Sufficient ... 2. Good.	Wheat 16 to 18 seers. Gram 27 seers. Barley 30 seers. Rice 10 to 11 seers.	Ploughings commenced.	Sowings finished. Condition of standing crops good in Zafarwál. In other tahsíls average for want of rain.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 19 seers. Barley 25 to 31 seers. Bájra 24 to 28 seers. Gram 28 to 29 seers. Jowár 26 to 30 seers. Maize 20 to 26 seers.	...	Bájra (bulrush millet) and rice still being sown on irrigated lands. Condition and prospects of standing crops below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·92 at Sadr ... 1·22 in Gujar Khan. 0·83 in Murree. 1·66 in Kahúta. Rainfall good and well distributed.	1. Sufficient ... 2. Good.	Wheat 16¾ seers... Bájra 22¾ seers. Maize 25 seers. Gram 25 seers. Barley 30 seers.	...	Condition of standing crops fair.
11	Miánwáli ...	0·15 at Sadr ... 0·06 in Isa Khel ... 0·08 in Bhakkar. Rain urgently wanted.	1. Procurable ... 2. Good.	Wheat 17½ seers Barley 30 seers. Gram 29 seers. Jowár 32 seers. Bájra 27 seers.	...	Unirrigated crops withering for want of rain. Condition of crops in insecure area average.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 16¾ seers... Gram 29 seers. Maize 28½ seers.	...	Condition and prospects of standing crop average. No sowings on unirrigated lands.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in Delhi, Ráwalpindi and in parts of Hissar, Ambala and Siálkot. Slight showers have also been reported from parts of other districts except Shahpur and Mooltan. More rain is urgently wanted in Hissar, Jullundur, Ferozepore, Lahore, Amritsar, Siálkot, Shahpur, Miánwáli and in the Sadr Tahsíl of Ambala.

Prices.—The price of wheat is falling in Hissar, Ambala, Jullundur and Amritsar, and rising in Delhi, Ferozepore, Lahore, Siálkot, stationary elsewhere. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of autumn crops are in progress in parts of Ferozepore, Lahore and Shahpur and finished in Hissar and Siálkot. Unirrigated lands have not generally been sown in Lahore, Ferozepore and Mooltan for want of rain. Ploughings for spring crops continue in Jullundur and Amritsar and have commenced in Siálkot.

Crops and outturn.—Condition of standing crops is said to be good in Hissar, Delhi and in parts of Ambala, Ferozepore and Siálkot; average in Jullundur, Mooltan and in parts of Miánwáli and below average in Lahore, Amritsar and Shahpur. Crops are suffering for want of rain in most districts.

Damage done to crops.—Sugarcane crop has been damaged in parts of Jullundur.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Lahore.

R denotes slight rain.

TULSI DAS, SUPDT.,

Office of Director of Land Records and Agriculture, Punja

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of July 1904.

1.—HISSAR DISTRICT.

Rainfall during the month was sufficient to admit of kharíf sowings excepting Tohána tract and some villages of Bhiwáni Tahsíl. Rain is urgently wanted. Cotton crop in canal land is in flourishing condition. Fodder sufficient. Cattle in good condition. General health of the district is far good.

2.—ROHTAK DISTRICT.

The rain was not general throughout the district. Cotton, bájra, moth, gwár and jowár was sown in those villages only where there had been rain. In a few villages of Tahsíl Sámpla and Jhajjar flights of locusts came, but did no damage worth montioning. Condition of standing crops on irrigated lands and also of the báráni crops where there has been rain is good, but rain is badly wanted. No estimate can at present be framed of the outturn of the crops sown ; average outturn expected, provided there is sufficient rain. Health of people generally good. Canal water was given by turns, and there were no complaints. Prices as follows :—

Wheat	...	17	seers per rupee.
Gram	...	23	
Jowar	...	26	
Bájra	...	22	

3.—GURGAON DISTRICT.

Owing to the rain mung, moth, bájra, jowár, gwár, chari, choula and cotton have been sown. The ground is being ploughed for the rabi sowings. The condition of the standing crops is fair. The slight damage done by locusts in Rewári, Palwal and Gurgaon has been remedied by fresh sowings which have taken favourably. The outturn if the rains continue will be good. Condition of cattle is good As the rains were late in breaking, the price of fodder and grass has risen. The state of public health fair. Agra Canal is closed. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Kharíf sowings in the Delhi and Sonepat Tahsíls have been completed. In Ballabgarh about ⅘ths of the sowings have been completed, and ⅕th is still being sown. The condition of crops good. The condition of cattle is good; fodder is available now. The state of public health generally fair. No complaints regarding irrigation by canal. River has been high for some days past in the month. The distribution of rain was not well spread over the district. In some places it is badly wanted. The prices had a tendency to increase during the month.

5.—KARNAL DISTRICT.

Ploughings are going on for kharíf sowings. Bájra, maize, jowár, urd and rice are being sown. Sugarcane, cotton and maize are in good condition The expected yield average. The condition of cattle is good. The state of public health fair. Water is being given to crops from wells and canals.

6.—AMBALA DISTRICT.

Sowing of kharíf crops nearly finished. Standing crops in good condition. The expected yield good. The condition of cattle generally good The state of public health generally good.

7.—SIMLA DISTRICT.

Excellent rain has fallen throughout the district. In fact in certain tracts there has been too much. In Simla the sowings of maize, másh, kulth and rice have been completed, so that the normal area has now been sown. Similarly in Kot Khái the sowings of *bather* which remained have been completed. The standing crops are in good condition in both tahsíls. The crops are too young to form a forecast. The outturn of opium which in the past month was being extracted from the poppy-heads has not yet been reported. Cattle generally in good condition. Fodder and grazing plentiful everywhere. Water from hill torrents sufficient. The full area has been sown where this water is used.

8.—KANGRA DISTRICT.

Kharíf sowings have been completed. The condition of crops is good. If the rainfall continues to be plentiful a good harvest may be expected. The water in kuhls has been abundant.

9.—HOSHIARPUR DISTRICT.

The rainfall during the month proved sufficient for the kharíf sowings, and the usual area was sown. The standing crops promise well. Nothing can be said with certainty as to the yield at this stage as everything depends upon the continuance of the rains. The stock of fodder is sufficient, and there is now plenty of grazing to be had. Cattle-owners from the hilly tracts of the district who had driven their cattle to the neighbourhood of the Sutlej and Sawan for pasture have now returned to their homes. A flight of locusts passed through the Una and Garhshankar Tahsíls, and settled here and there in two villages of the latter tahsíl, but did little damage. The health of the people has been generally good. There was sufficient water in Shah Nahr and other zamíndári canals.

10.—JULLUNDUR DISTRICT.

The rainfall in the tahsíls of Jullundur, Nakodar and Phillour was insufficient for sowings in land dependent on rain where only 5 per cent. of such land had been sown. Maize has been sown in well lands. The rainfall in Nawashahr Tahsíl was sufficient for sowings, and sowings were in progress wherever practicable, but the rain was partial, the Banga-Phagwara tract receiving no rain. The sowings in this tahsíl were in progress in something less than $\frac{3}{4}$ths of the usual area. The cotton and sugarcane crops are below average in some parts; the sugarcane has been attacked by garhua. If good rain falls during the August and September, the yield probably be good; otherwise bad. The cattle have been overworked in connection with the irrigation of well land, and having no green fodder their condition is poor. The state of public health is good. Good rain has fallen at Jullundur since the close of the month, and prospects have improved and maize sowings are in progress.

11.—LUDHIANA DISTRICT.

Sowings of kharíf crops not completed yet on account of insufficient rainfall. The condition of sugarcane, cotton and fodder sown in irrigated area is average, and that of the crops sown in unirrigated area is poor, chiefly owing to scarcity of rain. There was no supply of green grass for the cattle, and they lived mostly on dry fodder and were in good condition. The state of public health is good. Irrigation from canal and wells going on. The river has not risen high. Rain is urgently wanted, and the prices are going up.

12.—FEROZEPORE DISTRICT.

Maize, jowár, bájra, moth, til, hemp and cotton were sown on irrigated lands. Jowár, moth, bájra and til were also sown on báráni lands, but to a small extent. Condition of standing crops generally average. Báráni crops sufferred slightly for want of rain. Yield expected to be average. Cattle generally were in good condition. Public health was good. The Sirhind Canal and the district inundation canals have been flowing, and a normal area was irrigated from them. Agriculturists generally were well off. They have been engaged in ploughing lands. Green fodder was available on irrigated lands. Stocks of food-grains and fodder were sufficient. Prices were slighly falling.

13.—MONTGOMERY DISTRICT.

Chari, bájra, til and kangni sowings were made during the month. The condition of crops less than average. Slight damage was done by locusts to chari and cotton in Dipálpur and Gugera Tahsíls, while the grey grass-hopper (*toka*) and the green and red insect like a locust, named tirád or *gora*, did a certain amount of damage to cotton, hemp and fodder crops. The expected yield less than average unless more rain falls. The condition of cattle generally good; sufficient grazing is available. The state of public health is good. Towards the end of the month both the Ravi and Sutlej were flowing well, the latter particularly, and the canals during the last ten days were all flowing. The Kitchen Bund is doing well.

There was little rain in the Sutlej Tahsíl. On the 31st there was another slight rainfall which will appear recorded on the 1st of August. More rain is wanted. The bank of the Lower Soh
ág Canal broke in the Pákpathan Tahsíl on 19th July in one place, and some damage was done by floods in Bunga Hayát and four other villages.

14.—LAHORE DISTRICT.

The sowing of chari, rice and moth in progress and land is being prepared for maize. Extra rabi crops have been harvested. Condition of kharíf crops good on nahri lands, but on bárání lands the kharíf crops are in bad condition owing to want of sufficient rain in tracts where there are no canals. The yield of extra rabi crops have been good, and better than the average. Condition of cattle good throughout the district with the exception of part of Sharakpur Tahsíl, where there had not been sufficient rain in the Muridki Iláka, and there is some difficulty about grazing. The health of the district is generally good. There were some floods in Ravi in the middle of July and afterwards, and some water has passed into the Annhi Nullah which irrigates south-eastern part of the Sharkpur Tahsíl as well as some villages of the Chunián Tahsíl. The prices of food-grains have risen to a small extent owing to the fact that export to Europe had commenced in the month.

15.—AMRITSAR DISTRICT.

Average rainfall during month 1·20 inches, which, considering the season, is much too small. Rice, maize and chari were sown on irrigated lands, but sowings were much retarded on unirrigated areas owing to scanty rainfall. Standing crops in good condition The expected yield of kharíf crops depends on the monsoon rain and cannot be estimated just yet. Cattle in good condition and health of people good There were no complaints of insufficiency of canal water. There were floods in the Beas and the Ravi Rivers. Prices were—wheat 20 seers, gram 30¾ seers, maize 31 seers, and bájra 29 seers. Locusts appeared in parts of Tahsíls Amritsar, Tarn Táran and Ajnála, but no damage was done.

16.—GURDASPUR DISTRICT.

Less rain than usual, and kharíf sowings in consequence slightly below average. Up to the present the crops sown are in good condition, but more rain is wanted. Too early yet to form an estimated expected yield. Condition of cattle good. Fodder at present sufficient. Canals working satisfactorily.

7.—SIALKOT DISTRICT.

Rainfall greatly benefited the cotton and sugarcane crops. Kharíf sowings in progress. Half of the kharif crops have already been sown. Condition of sugarcane and cotton crops on irrigated area is good, but on unirrigated areas is not good owing to the lateness of the monsoon and to damage done by the (toka) insect. Rice crop is good throughout. Cattle in good condition. Fodder abundant. The state of public health is good. Water sufficient in Bajwat canals and river. Inundations in the Dek and Aik Nullahs benefited the villages on their banks.

18.—GUJRANWALA DISTRICT.

Small sowings of maize and jowár in cháhi-sailáb lands, and of rice in canal-irrigated lands. Condition of crops average. Sugarcane in Tahsíl Khangah Dográn infected with insects. Cotton is drying up for want of rainfall. The expected yield cannot be estimated at present. Condition of cattle good. Green fodder is insufficient. State of public health is good. No complaint about supply of canal water. Prices stationary.

19.—GUJRAT DISTRICT.

There has been little rain during the month, and that unevenly distributed. Kharíf sowings in progress in certain tracts favoured by the rain. More rain is badly wanted. Condition of sugarcane and cotton crops good, except in certain tracts where they are reported to have suffered for want of rain. Tobacco and other extra rabi crops harvested; yield fair. Expected yield of standing crops good, provided good rain is received. Cattle in good condition. Fodder sufficient. The state of public health generally good. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Cotton sowings have been completed. Jowár, bájra, múng, másh, sesamum, moth, maize, &c., also sown on irrigated lands. No kharíf sowings on unirrigated lands for want of sufficient rain. Condition of crops below average Cotton plants damaged by toka insect. Condition of cattle good. Green fodder scanty. Cattle are fed on bhúsa. Public health good. There was less water in the inundation canals during the first half of the month owing to the ebb of the river. The river is now in floods, and water in all the canals is plenty. The prevalence of plague interfered in kharíf operations, and some of the wells were not worked. Wheat and gram are being purchased in bulk by firms, and prices are consequently rising.

21.—JHELUM COLONY.

Land is being broken up for the kharíf crops, but the harvest is likely to be a very small one owing to the late harvesting of the rabi crop and the want of labour. Condition of cattle good. Public health remained good.

22.—JHELUM DISTICT.

The rain received during the month allowed sowings for the kharíf with the exception of Thal iláka in Pind Dádan Khan, where the rainfall was scanty. The condition of kharíf crops is well on the unirrigated lands, but that on the unirrigated is bad owing to an inadequacy of the rain. In the Chakwál Tahsíl the crops were slighly damaged by an insect locally called "toka," but owing to the rainfall in this month they are reported to regerminate. The kharíf crops are too young to estimate the expected yield. The condition of cattle is good, and fodder sufficient The state of public health is good. The Pind Dádan Khan Canal continued to work during the month under report. There were floods in the Jhelum River, which were generally beneficial for the crops, but slightly damaged the standing crops on low lands. Prices falling. Rain is badly wanted in Pind Dádan Khan Tahsíl.

23.—RAWALPINDI DISTRICT.

Good rain has been received during the month and further kharíf sowings are in progress. Condition of kharíf crops is average. No complaints of cattle disease. Public health good. No canal in the district.

24.—ATTOCK DISTRICT.

Good rain has been received during the month and sowings of kharíf crops made. The condition of kharíf crop is average. No complaints of cattle disease. Public health good. There is no canal in the district.

25.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Slight rain, which is insufficient. Kharíf crops are suffering for want of rain. Fodder sufficient. The Indus River was in flood, and the low lands have been flooded by means of Ghandis and otherwise, although the floods have come somewhat late.

Bhakkar and Leiah Tahsíls.—The rainfall was beneficial to the standing crops. Land is being prepared for autumn sowings. Condition of standing crops average. Cattle in fair condition. Fodder procurable. Public health good. The Indus is rising.

26.—JHANG DISTRICT.

Lyallpur has had good rain; the rest of the district scanty. Effect on crops moderate. The condition of standing crops average Condition of cattle good. Fodder sufficient, but likely to fail if rain holds off. Canals flowing; sufficient water in the river. Locusts appeared at Gojra in Toba Tek Singh Tahsíl, but did no damage.

27.—MOOLTAN DISTRICT.

Kháríf crops being cultivated. Prospect of crops average. Condition of cattle and health of people good. Fodder sufficient. Inundation and Sidhnái Canals running.

28.—MUZAFFARGARH DISTRICT.

Bájra and sesamum are being sown. Condition of crops average in Sinánwan and Alípur Tahsíls, and bad in Muzaffargarh. Condition of cattle and health of people good. Fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Sanghar Tahsíl—One-eighth jowár and bájra sown. Condition of crops good. Condition of cattle good. Fodder sufficient. Health of people good. Nullah Massowa is working. Sanghar torrent has come sown and irrigated land. Vehoa stream running.

Dera Ghází Khan Tahsíl—Sowing progressing. Condition of crops good in Sind; poor in the Pachád. The state of public health good. Water deficient in Mánka, Kasturi and Dhingana Canals, especially in upper reaches. Hill torrents of Sori, Vidore and Sakhi Sarwar came down, but not strongly. Irrigation deficient in Pachád. Little land has had any sailáb, which fact is not promising for the rabi.

Jámpur Tahsíl.—All sowings complete in Sind Circle in Sároba Pachád villages. Condition of cattle good. Fodder very deficient in Pachád. State of public health good. Kuria, Gumu and Dhingana Canals low; others working well. No bill torrents except in Foroba villages of Gurchani and Lund tracts. A flood has burst Rana Bund below Jámpur, flooding a tract of country and damaging crops of Kotla Mughlán and Adamgarh. Rain badly wanted

Rájanpur Tahsíl.—Three-fourths of sowings done. The condition of cattle and health of people good. Rain is badly needed. Canals working well. No hill torrents have come down. A certain amount of land has received sailáb water.

TULSI DAS, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 30th August 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Pu[njab]

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 20th August 1904 there were 952 births registered in the 42 large Municipal towns (494 males and 458 females), giving a birth-rate of 35 *per mille* of population, and 775 deaths were registered (381 males and 394 females), giving a death-rate of 28 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 40 against 34 in the corresponding week of the previous year, Lahore 25 against 41, Amritsar 28 against 40, and Mooltan 28 against 22. There were 4 deaths reported from plague in Delhi. Of the 5 deaths from small-pox, 3 were registered in Siálkot and 1 each in Bhiwáni and Amritsar. There were 5 deaths registered from cholera in Hoshiárpur.

Deaths reported from plague during the week ending 27th August 1904 *in the districts, including all Municipal towns.*—Ambala 18, Hissar 10, Hoshiárpur 8, Gurdáspur 7, Rahtak and Delhi 2 each, and Jullundur, Siálkot, Shahpur, Karnál 1 each; Patiála State 39. Total for the Province 90.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-FIVE THOUSAND SEVEN HUNDRED AND THIRTY-EIGHT births were registered in the Province during the month of July 1904, giving a birth-rate of 33 per *mille* of population. Of the total number of births, 29,369 were boys and 26,369 were girls.

The total number of deaths registered from all causes in the Province during the month of July 1904 was 37,389 against 59,779 in the previous month, and 55,393 in the corresponding month of the past year; giving an annual death-rate of 22, 36 and 32 per *mille* of population per annum, respectively.

There were 116 deaths registered under the head of cholera against 205 in the previous month, and 6,184 in the corresponding month of the past year.

The total mortality from plague amounted to 629 against 14,261 in the previous month, and 215 in the corresponding month of the past year. From small-pox 730 deaths were registered against 1,199 in the previous month and 1,575 in the corresponding month of the past year; fevers 22,896 against 29,522 and 30,385; dysentery and diarrhœa 899 against 1,081 and 1,150; respiratory diseases 3,365 against 3,984 and 4,283. During the month there were 36 deaths registered from suicide against 34 in the past month; wounding 40 against 34; accidents 561 against 480; snake-bite and killed by wild beasts 214 against 109; and from all other causes 7,903 against 8,870 in the previous month, and 10,712 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE, LAHORE:
The 29th August 1904.

LAHORE, THURSDAY, SEPTEMBER 8, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 6TH SEPTEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·31 at Sadr ... 0·32 in Hánsi. 0·10 in Fatahabad. 0·05 in Sirsa 0·09 in Tohána.	1. Sufficient .. 2. Generally good.	Wheat 16 seers ... Bájra 23 seers. Gram 25 seers.	...	Rain urgently wanted for unirrigated crops on hard land Irrigated crops flourishing.
2	Delhi ...	0·50 at Sadr ... Rain urgently wanted through out the district.	1. Availably ... 2. Fair.	Wheat 16 seers ... Barley 25 seers. Gram 23½ seers.	...	Autumn crops promise well for the present.
3	Ambala ...	0·31 at Sadr ... 0·27 in Kharar. 0·40 in Rúpar. 0·67 in Kasauli Rain badly wanted in all the tahsíls except Rúpar and a part of Kharar.	1. Sufficient ... 2. Generally good.	Wheat 18 to 18½ seers. Gram 27½ to 28 seers. Barley 22 seers. Jowár 40 seers. Maize 35 seers. Bájra 25 seers.	...	Standing crops withering in Ambala.
4	Jullundur ...	Rain urgently needed.	1. Dry fodder sufficient. 2. Poor.	Wheat 19 seers ... Gram 28½ seers. Maize 32 seers. Barley 27 seers.	Ploughings continued.	Sugarcane, cotton and maize average; chari poor.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	Rain is badly needed.	1. Sufficient ... 2. Generally good.	Wheat 16 seers ... Barley 27 seers. Gram 27 seers. Jowár 22 seers. Bájra 22 seers. Maize 34 seers.	...	Sowings finished. Condition of irrigated crops good. Unirrigated crops withering for want of rain.
6	Lahore ...	0·31 at Sadr ... Rain is badly wanted.	1. Sufficient, except in Sharakpur Tahsíl. 2. Generally good.	Wheat 16 to 18 seers. Barley 26 to 31 seers. Gram 25 to 29 seers. Rice 4 to 12 seers.	Ploughings commenced where rain has fallen.	Land is being cultivated for maize by means of rohni. Crops are being irrigated by wells, canals and jhallárs. Condition of existing crops is falling below average. Unirrigated crops are in a very bad condition.
7	Amritsar ...	0·17 average ... Rain is badly wanted.	1. Sufficient ... 2. Good.	Wheat 18¾ seers Maize 29 seers. Bájra 26¼ seers. Gram 28½ seers.	Ploughings in progress. Sowings of toria in progress in some places.	Condition of standing crops on irrigated lands good and on unirrigated lands below average. The future prospects depend upon the rain.
8	Siálkot ...	0·92 in Zafarwál ... 0·59 in Pasrúr. 0·10 in Raya. 0·17 in Daska. 0·82 at Sadr. Rainfall not well distributed. Rain badly wanted.	1. Sufficient ... 2. Good.	Wheat 16 to 18 seers. Gram 26 seers. Barley 30 seers. Rice 11 to 12 seers.	Sowings of toria and gram commenced in some places. Ploughings in progress.	Condition of crops generally good in Zafarwál, and average in other tahsíls. Crops on unirrigated lands are withering for want of sufficient rain.
9	Shahpur ...	Slight rain in northern part of the tahsíl Khusháb. Rain badly wanted in other parts of the district.	1. Sufficient ... 2. Good.	Wheat 18 to 19 seers. Barley 25 to 31 seers. Jowár 24 to 30 seers. Bájra 24 to 27 seers. Gram 28 to 29 seers. Maize 20 to 26 seers.	Toria and turnips being sown on irrigated lands.	Bájra and rice still being sown by tranplantation. Prospect of o[illegible]rn below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
10	Ráwalpindi ...	0·02 at Sadr ... 1·12 in Gujar Khan. 0·35 in Kahúta. 2·76 in Murree. Rainfall good and well distributed in Gujar Khan and Murree. More required in Ráwalpindi and Kahúta	1. Sufficient ... 2. Good	Wheat 16 seers ... Barley 28 seers. Gram 22½ seers. Maize 24 seers.	...	Crops are in fair condition.
11	Miánwáli ...	0·18 in Isa Khel ...	1. Scarce in Thal ...	Wheat 17 seers ... Barley 30 seers. Gram 26 seers. Bájra 25 seers. Jowár 32 seers.	Ploughings commenced.	Unirrigated crops withering for want of rain in Kuchi. Condition of crops average.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 15¾ seers... Gram 22¼ seers. Maize 26 seers.	...	Condition of crops average. No sowings on unirrigated lands.

GENERAL REMARKS.

Rainfall.—Good rain has fallen in parts of Siálkot and Ráwalpindi. Slight showers have also been reported from parts of other districts except Jullundur, Ferozepore and Mooltan. All districts except parts of Ambala and Ráwalpindi want more rain.

Prices.—The price of wheat is rising in Hissar, Ambala, Ferozepore, Lahore, Ráwalpindi and Miánwáli, and falling in Amritsar; stationary elsewhere. The prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of autumn crops are in progress in parts of Lahore and Shahpur; finished in Ferozepore. Ploughings for spring crops continue in Jullundur, Amritsar and Siálkot, and have commenced in Lahore and Miánwáli. Sowing of some spring crops commenced in Siálkot, Amritsar and Shahpur.

Crops and outturn.—The standing crops are good in Delhi and Zafarwál Tahsíl of Siálkot District and on irrigated soils in Hissar, Ferozepore and Amritsar; average in Mooltan, Jullundur, other four tahsíls of Siálkot, Ráwalpindi and Miánwáli; below average in Lahore, Shahpur and on unirrigated land in Amritsar. Crops on unirrigated soils are withering for want of rain in Ambala, Ferozepore, Siálkot and in parts of Miánwáli. The crops on such lands are reported to be in a very bad condition in Lahore.

Agricultural stock.—Cattle are generally in good condition throughout the Province except Jullundur where they are in poor condition.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Lahore and Miánwáli.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 6th September 1904

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 27th August 1904 there were 1,087 births registered in the 42 large Municipal towns (549 males and 538 females), giving a birth-rate of 40 *per mille* of population, and 761 deaths were registered (409 males and 352 females), giving a death-rate of 28 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 37 against 37 in the corresponding week of the previous year, Lahore 23 against 50, Amritsar 30 against 46, and Mooltan 23 against 34. There were 2 deaths reported from plague in Delhi. Of the 6 deaths from small-pox 2 were registered in Amritsar and 1 each in Karnál, Pánipat, Lahore and Siálkot. There were 13 deaths registered from cholera in Hoshiárpur.

Deaths reported from plague during the week ending 3rd September 1904 *in the districts, including all Municipal towns.*—Lahore 13, Hissar 8, Rohták and Delhi 7 each, Ambala 6, Hoshiárpur and Jhelum 4 each, Gurdáspur, Karnál and Gurgáon 2 each, Amritsar and Shahpur 1 each, Patiála State 16. Total for the Province 73.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, SEPTEMBER 15, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 13TH SEPTEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·55 at Sadr ... 0·08 in Hánsi. 2·14 in Bhiwáni. 2·59 in Sirsa.	1. Sufficient 2. Good.	Wheat 16 seers ... Bájra 23 seers. Gram 25 seers.	...	Present rainfall benefited standing crops. Crops withering for want of rain in tracts where there was no rain in September Irrigated crops flourishing.
2	Delhi ...	Rain badly wanted	1. Sufficient ... 2. Fair.	Wheat 16 seers .. Barley 25 seers. Gram 23½ seers.	...	Crops are withering for want of rain.
3	Ambala ...	0·03 at Sadr ...	1. Sufficient ... 2. Good.	Wheat 17 to 17½ seers. Gram 23½ to 24 seers. Barley 20 seers. Bájra 24 seers. Jowár 32 seers. Maize 32 seers.	...	Crops suffering from want of rain.
4	Jullundur ...	3·05 at Sadr ... 1·95 in Phillour.	1. Insufficient in 2 tahsils. Sugarcane being used as fodder. Prospects improved where it rained. 2. Poor.	Wheat 19 seers ... Gram 27 seers. Maize 32 seers. Barley 27 seers.	Ploughings continue.	Crops average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat 16 seers Barley 26 seers. Gram 24 seers. Jowár 5 seers. Bájra 19 seers.	...	Condition of standing crops on irrigated lands good Báráni crops suffered for want of rain. Rats damaged crops in certain villages of Muktsar Tahsíl.
6	Lahore ...	Rain is badly needed.	1. Sufficient, except in Tahsíls Lahore and Sharakpur. The people of Sharakpur have removed their cattle to the banks of the Ravi, where grass is available.	Wheat 16 to 18 seers. Gram 24 to 30 seers Rice 4 to 12 seers.	Toria is being sown.	Existing crops are being watered. The condition of crops is falling below average all round. The condition of báráni crops is utterly bad and that of irrigated is an average one. Picking of cotton commenced. Rats are damaging the crops in one village of Tahsíl Kasúr.
7	Amritsar ...	1·34 average ...	1. Sufficient ... 2. Good.	Wheat 18¼ seers Maize 28 seers Bájra 26 seers. Gram 28½ seers.	Ploughings for rabi crops and sowings of toria (Brassic compastris) in progress.	Rice crops coming in some places. Condition of standing crops on irrigated lands good and on unirrigated average.
8	Sialkot ...	1·07 at Sadr ... 0·22 in Pasrúr.	1. Sufficient ... 2. Good.	Wheat 16 to 18 seers. Rice 10 to 12 seers. Gram 25 seers. Barley 30 seers.	Sowings of toria and gram and ploughings for other rabi crops continued.	Condition of standing crops average on irrigated and below average on unirrigated areas. Crops on unirrigated areas are withering for want of rain. More rain badly wanted.
9	Shahpur ..	Rain badly wanted in parts.	1. Sufficient ... 2. Good.	Wheat 18 to 19 seers. Bájra 22 to 27 seers. Gram 27 to 30 seers. Maize 22 to 26 seers. Barley 26 to 32 seers.	Toria and turnip sowings commenced. Rain badly wanted.	Prospects below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·11 at Sadr ... 0·03 in Gujar Khan. 0·87 in Kahúta. 0·20 in Murree.	1. Sufficient ... 2. Good.	Wheat 16¼ seers .. Bajra 22 seers Maize 21½ seers Gram 22½ seers. Barley 28 seers.	More rain wanted	Condition of kharif crops fair.
11	Miánwáli ...	Rain badly wanted.	1. Procurable ... 2. Fair.	Wheat 17 seers ... Barley 30 seers. Gram 26 seers. Bájra 25 seers. Jowár 32 seers.	Sowings commenced Rain badly wanted in Thal	Condition of crops in Thal is getting worse and in Kachi average.
12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 15¾ seers... Gram 22¼ seers. Maize 26 seers.	Ploughings commenced.	Prospects average.

GENERAL REMARKS.

Rainfall.—Rain has fallen in parts of Hissar, Jullundur, Amritsar, Siálkot and Ráwalpindi. A slight fall is also reported from Ambala. More rain is badly wanted nearly all over the Province.

Prices.—Price of wheat is rising in Ambala, falling in Ráwalpindi and stationary elsewhere. The prices of other food-grains are mostly fluctuating.

Agricultural operations.—Ploughings for spring crops in progress in Jullundur, Siálkot, Amritsar and Mooltan. Certain spring crops are being sown in Lahore, Amritsar, Siálkot, Shahpur and Miánwáli. Cotton picking has also commenced in Lahore.

Crops and outturn.—The condition and prospects of standing crops are generally below average. It is said to be average or fair on irrigated lands in Hissar, Jullundur, Ferozepore, Lahore, Amritsar, Siálkot, Ráwalpindi and Mooltan. The unirrigated crops are withering for want of rain in Hissar, Delhi, Ambala, Ferozepore and Siálkot. They are in a very bad condition in Lahore.

Damage done to crops—Rats are damaging the standing crops in parts of Ferozepore and Lahore.

Agricultural stock.—Cattle are generally in good condition except in Jullundur.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Jullundur and Lahore. Sugarcane is being used as fodder in Jullundur; and cattle have been removed from parts of Lahore where fodder is scarce to the banks of the river where it is available.

TULSI DAS, OFFG. SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND FRONTIER PROVINCE DURING JULY 1904.

* Mean of 17 days.

The weather has been cloudy and showery over the hills and submontane districts of the Punjab and over the south-east of the Province, but the rainfall has not extended freely into the North-West Frontier Province or into the south and west of the Punjab. On the 1st the weather was fine, but on the 2nd the sky clouded over, and a showery period commenced which continued till the 7th. During this period the rainfall was mainly confined to the hills and their neighbourhood, and the principal falls were 1·05″ at Khusháb on the 3rd, 1·92″ at Umballa on the 5th, 1·24″ at Umballa, 1·30″ at Simla and 2·24″ at Delhi on the 6th, and 1·18″ at Umballa and 1·25″ at Delhi on the 7th. Light showers extended to Cherát and Dera Ismáil Khan on the 4th. Between the 7th and the 16th the weather was generally fine, though showers continued to be received on and near the hills. The principal falls of rain were 1·74″ at Simla on the 9th, 1·53″ at Simla on the 10th and 2·67″ at Simla on the 14th. From the 17th to the 20th showers again became more general, but as before they were mainly confined to the south-east, submontane, and montane districts, though on the 18th Lahore, Khusháb and Dera Ismail Khan, on the 19th Cherát, Lahore and Pesháwar and on the 20th Montgomery and Sirsa reported rain. The heaviest amounts registered during this period were 1·11″ at Ráwalplndi, 2·38″ at Simla and 1·48″ at Murree on the 17th; 1·02″ at Simla on the 18th; and 1·00″ at Delhi and 1·60″ at Cherát on the 19th.

From the 21st to the 25th the weather was again generally fine, but between the 26th and the 30th showers set in over the same areas as before, the principal rainfall amounts reported having been 1·18″ at Simla and 2·58″ at Murree on the 26th; 1·69″ at Ráwalpindi, 1·99″ at Simla and 2·77″ at Murree on the 27th; 2·17″ at Ráwalpindi, 1·64″ at Simla, and 2·06″ at Murree on the 28th and 2·53″ at Siálkot, 3·05″ at Simla and 1·12″ at Murree on the 29th. The weather on the 31st was fine, and the only rainfall reported was a shower at Siálkot.

Pressure and Winds.—As was the case in June the mean pressure of the month under review was below the normal at all stations. The wind on the mean of the month was more northerly than usual at Simla, Pesháwar and Dera Ismail Khan, but blew from about the normal directions elsewhere.

Temperature.—The mean temperature of the month was below the average at Delhi and at the hill stations (with the exception of Cherát), but was higher than usual elsewhere. The excess was 3° or more at Lahore (+ 3°·0) and Siálkot (+ 3°·2). At the majority of stations the temperature was in excess both by day and night, but at Delhi, Simla, Murree and Leh, both the day and night temperatures were lower than usual, and at Umballa and Ludhiána the day temperature only and at Srinagar the night temperature only was below the normal. The hottest place was Mooltan, with a mean temperature of 96°·5.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	+ 2·7	109·0	Do.				
" 17th ...	+ 1·9	109·4	Ludhiána.				

The mean temperature of the whole area exceeded the average between the 1st and the 3rd, the 9th and the 17th, the 21st and the 26th and on the 31st, but was below the normal at other times. The hottest day was the 14th, when the mean temperature was 6° above the normal and a maximum temperature of 114° was recorded at Pesháwar.

Humidity and Cloud.—The mean relative humidity exceeded the average at Delhi, Umballa, Dera Ismail Khan, Simla, Murree and Leh, but was less than usual elsewhere, while the cloud amount on the mean of the month was greater than usual at Delhi; Umballa, Ráwalpindi, Khusháb, Pesháwar, Murree, Srinagar, Leh and Cherát.

Rain.—The rainfall of the month was very excessive at Simla and slightly excessive at Murree, Drás and Leh, but was less than usual elsewhere At Mooltan no rain whatever fell during the month and at Dera Ismail Khan, Lahore, Ludhiána and Sirsa, the deficiency was large and important.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for July 1904 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 13th September 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 3rd September 1904 there were 1,148 births registered in the 42 large Municipal towns (599 males and 549 females), giving a birth-rate of 42 *per mille* of population, and 828 deaths were registered (414 males and 414 females), giving a death-rate of 30 *per mille* of population The death-rates registered in the four largest towns were as follows:—Delhi 40 against 36 in the corresponding week of the previous year, Lahore 22 against 50, Amritsar 29 against 48, and Mooltan 31 against 36. There were 4 deaths reported from plague in Delhi and 2 in Bhiwáni. Of the 4 deaths from small-pox, 1 each was registered in the towns of Sonepat, Kasúr, Amritsar and Mooltan. There were 14 deaths registered from cholera in Hoshiárpur.

Deaths reported from plague during the week ending 10*th September* 1904 *in the districts, including all Municipal towns.*—Hissar 13, Ambala 12, Gurdáspur 11, Delhi 9, Gujránwála 7, Jullundur 4, Rohtak 3, and Karnál 1; Patiála State 42. No return was received from the district of Amritsar. Total for the Province 102.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

12	Mooltan ...	...	1. Sufficient ... 2. Good.	Wheat 15¾ seers... Gram 22¼ seers. Maize 24 seers.	Ploughings continue	Prospects average

GENERAL REMARKS.

Rainfall.—Good rain has fallen in the cis-Sutlej districts as well as in parts of Amritsar, Siálkot and Ráwalpindi. A slight fall is also reported from parts of Lahore, Shahpur and Miánwáli Districts.

Prices.—The price of wheat is falling in all districts except Jullundur, Lahore, Amritsar, Shahpur and Mooltan. The prices of other food-grains generally are also falling.

Agricultural operations.—Sowings of certain spring crops continue in Amritsar, Siálkot and Shahpur Ploughings for other spring crops going on in Delhi, Jullundur, Amritsar. Siálkot, Shahpur, Miánwáli and Mooltan. Rain is badly wanted for the standing autumn crops as well as for the next spring in Shahpur, Ráwalpindi and Miánwáli. Picking of cotton going on in Siálkot. Reaping of canal-irrigated rice commenced in Amritsar.

Crops and outturn.—Condition of standing crops is generally good to average on irrigated and below average or poor on unirrigated lands. Where rain has fallen condition of the standing crops has benefited and improved. There is promise of a good harvest in Delhi. The crops are reported to be still withering in parts of Ferozepore and Siálkot for want of rain.

Agricultural stock.—Cattle are generally in good condition. The condition of cattle in Jullundur is also improving now.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Jullundur and Lahore.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 27TH SEPTEMBER 1904.

[Twelve out of 27 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·40 in Bhiwáni .. 0·11 in Fatahabad. 0·17 in Sirsa. 0·38 in Tohána	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 26 seers. Gram 27 seers.	...	Unirrigated crops are generally in fair condition. Irrigated crops flourishing.
2	Delhi ...	1·30 at Sadr ... 0·65 in Sonepat. 0·50 in Mahrauli. 0·10 in Ballabgarh.	1. Sufficient ... 2. Fair.	Wheat 16½ seers.. Barley 26 seers. Gram 24½ seers.	Ploughings in progress.	Recent rains give promise of a good crop.
3	Ambála ...	0·32 at Sadr ... 0·15 in Naráingarh. 0·05 in Kharar. 0·63 in Kasauli	1. Sufficient ... 2. Good.	Wheat 18 to 18½ seers. Gram 27 to 28 seers. Jowár 32 seers. Barley 20 seers. Maize 33 seers. Bájra 24 seers.	Mustard, rape and gram sowings in progress.	Crops in fair condition.
4	Jullundur ...	0·63 in Phillaur ...	1. Sufficient ... 2. Fair.	Wheat 18½ seers .. Gram 29 seers. Maize 33 seers. Barley 26 seers.	Ploughings continue.	Conditions of sugarcane, cotton and maize average; others less than average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·38 at Sadr ... 0·60 in City. 0·21 in Zíra. 0·30 in Muktsar. 0·11 in Jalálabad.	1. Sufficient ... 2. Good.	Wheat 18 seers ... Barley 29 seers. Gram 29 seers. Jowár 25 seers. Bájra 23 seers. Maize 34 seers.	Sarshaf and tára-míra were sown on irrigated lands in certain places. Lands are being prepared for further sowings.	Condition of irrigated crops good. (Baráni) crops have improved except in Fázilka where they have witnered.
6	Lahore ...	0·46 in Chunián ... 0·64 in Kasúr 0·22 in Sharakpur.	1. Sufficient, except in parts of Sharakpur 2. Getting lean in Sharakpur for scarcity of fodder.	Wheat 16 to 18 seers. Barley 28 to 29 seers. Gram 26 to 29 seers Rice 4 to 12 seers.	Crops are being cultivated on irrigated lands and in parts where rain has fallen Turnips and senji are being sown for fodder.	Crops are being irrigated. Condition of crops on irrigated lands average, and on baráni poor.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18½ seers Maize 29 seers. Bájra 27 seers. Gram 30 seers.	Sowings of toria, gram and sarshaf and ploughings for other crops in progress.	Harvesting of rice going on. Condition of standing crops on irrigated lands good and on unirrigated average. The outturn is expected to be an average one on the whole.
8	Siálkot ...	Slight rainfall in Siálkot and Daska.	1. Sufficient ... 2. Good.	Wheat 16 to 19 seers. Gram 24 seers. Barley 29 seers. Rice 10 seers.	Sowings of toria, gram, rape and turnips and ploughings for other rabi crops going on.	Standing crops average on irrigated and poor on unirrigated lands. Crops on baráni areas withering for want of rain. Picking of cotton in progress.
9	Shahpur ...	Slight showers in Khusháb and Bhera.	1. Sufficient ...	Wheat 18 to 19 seers. Barley 25 to 30 seers. Jowár 24 to 29 seers. Bájra 22 to 25 seers. Gram 27 to 30 seers. Maize 22 to 26 seers.	Ploughings in progress. Gram being sown; also wheat in Khusháb hills.	Crops suffering from drought.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Rávalpindi ...	0·41 at Sadr ... 1·58 in Gujar Khan 0·73 in Kahúta. 0·94 in Murree.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 21 seers. Maize 26 seers. Gram 24 seers. Barley 28 seers.	...	Rain insufficient in Ráwalpindi and Kahúta. Condition of crops average.
11	Miánwáli ...	..	1. Procurable except in parts. 2. Fair.	Wheat 18 seers ... Gram 28 seers. Barley 32 seers. Bájra 25 seers. Jowár 32 seers.	...	Condition of crops in insecure area is average, and in baráni area bad.
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat 15¾ seers... Gram 22¼ seers. Maize 24 seers.	Land is being prepared for rabi sowings.	Prospects of crops average.

GENERAL REMARKS.

Rainfall.—Rain has fallen in all districts except Amritsar, Miánwáli and Multán. The fall in parts of Siálkot and Shahpur was slight.

Prices.—Price of wheat is generally unchanged. It is rising only in Jullundur, Ferozepore and Amritsar. Prices of other food-grains are fluctuating.

Agricultural operations.—Sowings of certain crops continue in Amritsar, Siálkot and Shahpur, and have commenced in Ambála, Ferozepore and Lahore. Ploughings for spring crops commenced in Ferozepore, and is going on in Delhi, Jullundur, Amritsar, Siálkot, Shahpur and Multán. Picking of cotton in progress in Siálkot,. Harvesting of rice continues in Amritsar.

Crops and outturn.—The condition and prospects of standing crops on irrigated lands are generally good to average and on unirrigated below average or poor. The condition of unirrigated crops is said to be fair in Hissar, and has improved in Ferozepore (except in one tahsíl) by recent rain. There is promise of a good crop in Delhi. Crops on unirrigated areas are still withering for want of rain in Siálkot and parts of Ferozepore. The crops in Shahpur have suffered from drought. Outturn of autumn crops is expected to be an average one in Amritsar.

Agricultural stock.—Cattle are generally in good condition except in parts of Lahore where they are getting lean for want of fodder.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Lahore and Miánwáli.

L. A. FRASER, SUPDT.,
for *Director of Land Records and Agriculture, Punjab.*

R denotes slight rain.

L. A. FRASER, SUPDT.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of August 1904.

1.—HISSAR DISTRICT.

Unirrigated sowings have been completed. Five-sixths of the normal area is sown. Rain is wanted for crops which were sown late. Irrigated crops are flourishing. Fodder is sufficient. The condition of cattle is generally good.

2.—FEROZEPORE DISTRICT.

Jowár, bájra, moth and til were sown on irrigated and unirrigated lands and maize on sailáb lands during the month. Condition of standing crops on irrigated lands was good and on unirrigated lands below average. Yield depends upon future rains Public health was good throughout the district. The Sirhind Canal has been flowing, and a normal area was irrigated from it The District Inundation Canals have also been flowing, but slowly. Agriculturists were generally well off. They have been engaged in ploughing lands for rabi. Green fodder was available Stocks of food-grains and fodder were sufficient. Prices were rising The rain was not general, but it was beneficial to the standing crops.

3.—MONTGOMERY DISTRICT.

Chari, maize and másh sowings carried on during the month. The condition of standing crops was bad in Gugera and Dipálpur and average in Montgomery and Pákpattan. Yield is expected to be less than average The condition of cattle was fair; but owing to the scanty rainfall in July and August grass has not come up well in the Government waste and rakhs, and want of fodder will shortly be felt The state of public health was good. There was little water in the rivers and consequently in the canals The *band* irrigation in the Pákpattan Tahsíl has given relief in that neighbourhood Owing to scarcity of rains zamíndárs are going to the Chenab Colony in search of work.

4.—GURGAON DISTRICT.

In the Gurgaon Tahsíl jowár, bájra, moth and guár were being sown during the latter half of August. Ground was being ploughed for the rabi crop. The condition of standing crops was fair. Crops on low lands in the Rewári and Palwal Tahsíls have suffered slightly from rain. A good kharíf harvest is expected, though rain is still needed for the cotton crops sown on unirrigated land and in the Rewári Tahsíl for guár, mung, chaula and moth; indeed another heavy shower is required right through the district to bring the kharíf up to expectations Fodder was sufficient, and the condition of cattle was fair. Agra Canal water was being used. No river inundations or floods from hill torrents; but there were floods from the canal near Chhajunagar.

5.—ROHTAK DISTRICT.

Sowings finished in all tahsíls during July, except in Tahsíl Sámpla, where they were completed during the month under report. Condition of standing crops on irrigated land is good; while that of baráni crops, though still good, had commenced to wither on hard soil. Rain badly wanted. No estimate can at present be framed of the outturn of the crops sown, but the bájra crop sown is Jeth (June) in the Jhajjar Tahsíl will yield a good outturn. Canal water was given by turns, and there were no complaints.

6.—DELHI DISTRICT.

No sowings were in progress. Prospects of kharíf crops were favourable. No estimate can be framed yet of the expected yield. The condition of cattle was generally fair and the fodder was sufficient. No complaints regarding irrigation by canal. The river was high during the month. Rain during the month was good and general in the district.

7.—KARNAL DISTRICT.

Kharíf sowings are over; ploughings were being undertaken for rabi. Rain wanted, especially in Kaithal. If no rain falls within a week or so, standing crops will suffer seriously. With one more fall the crops will turn out well. The yield promises to be good, but it is likely to be affected in some parts if rain holds off longer. Cattle are in good condition. In Karnál Tahsil, in the village of Barsál a few cattle were destroyed by alligators which found their way into the village owing to the Jumna floods. Health of the people was on the whole good. There were floods in the Rivers Jumna and Markanda, and in Sársuti and Chautang Naddis.

8.—LAHORE DISTRICT.

In the irrigated tracts there have been sowings of maize, rice, chari and moth, though not so extensive as usual. In baráni tracts there have been no sowings whatever. The condition of crops was moderate in the irrigated tracts, but poor in sailab and very bad in baráni. Yield of kharíf crops is expected to be more than the average in the irrigated tracts, but below average in sailáb; there are no hopes for baráni crops. Though there has been a scarcity of green fodder, it has not been greatly felt owing to the abundance of bhúsa in the irrigated tracts, but the condition of cattle is poor in the barani tracts of the Sharakpur Tahsíl. Public health was on the whole good. The Bári Doáb and the Upper Sutlej Inundation Canals have been working well this month, and the river water having run into the Annhi Nullah, 5 villages were irrigated from it in the Sharakpur Tahsíl. The prices of food-grains are rising daily as the prospects of kharíf crops are not very good.

9.—AMBALA DISTRICT.

No sowings. Crops were withering in Ambála; fair in other tahsíls. Yield is expected to be fair. The condition of cattle and the state of public health were on the whole good.

10.—LUDHIANA DISTRICT.

Kharíf sowings completed owing to sufficient rainfall in the beginning of this month. The condition of irrigated crops was good, and that of unirrigated crops fair. No result of the yield can yet be framed with any degree of certainty. The condition of cattle was good. The state of public health was satisfactory. Irrigation from canals was ordinary. The river did not rise high owing to insufficient rain. Rain is urgently needed. Prices ordinary.

11.—JULLUNDUR DISTRICT.

Sowings of Indian corn, jowár, másh, mung, moth and tíl were continued up to 15th August, but the rains were insufficient and sowings of all but Indian corn, which were average, were 25 per cent. less than average. Cotton and sugarcane are generally below average. The jowár (fodder) crop is poor for want of rain. Yield depends upon the rain during September. If it comes seasonably and sufficiently, yield will be average; otherwise probably poor. Cattle have been overworked, and having insufficient green fodder, their condition was poor. Dry fodder sufficient. Public health good. Rain is urgently needed for standing crops and for preparing the land for rabi. Prices are rising.

12.—HOSHIARPUR DISTRICT.

Sowings were completed in July. The rainfall during the month was not well distributed, and more is urgently wanted. In many parts of the Una Tahsíl the standing crops are reported to be suffering for want of rain. Elsewhere the crops so far look healthy and promise well. Nothing can be said with certainty as to the yield at this stage as everything depends upon the rainfall. Cattle generally are in good condition. The health of the people has been good. The Shah Nahr has been running well, and a large area was irrigated during the month. Owing to the break in the rains prices are rising.

13.—GURDASPUR DISTRICT.

Rain was generally deficient during the month. Sowings completed. Crops at present are in satisfactory state, but rain is badly wanted. No crops harvested during the month. The condition of a cattle is good. Canals and rivers were flowing satisfactorily.

14.—AMRITSAR DISTRICT.

Owing to the want of rainfall sowings on unirrigated lands were not satisfactory. The condition of crops is below average. Yield will be bad if there be no rain. The condition of cattle is good; green fodder scanty. No complaint of deficiency of canal water.

15.—SIMLA DISTRICT.

In the Simla Tahsíl there were several falls of good rain, but in the Bharauli tract more rain is necessary. In Kot Khai the rainfall was sufficient, and oghla and dhanpari have been sown to the full extent. The standing crops are in good condition in both tahsíls. No estimate can be framed yet of the yield. The outturn of opium in Kot Khái was 11¾ seers per acre, and the seed 134¾ seers per acre. Cattle are in good condition. Fodder and grazing sufficient. Health of people generally good. Water-supply sufficient, and the usual rice crops were irrigated.

16.—KANGRA DISTRICT.

The sowings of the kharíf crops have been completed. The condition of the standing crops is good. Nothing can be said at present about the yield. Water was sufficient in the kuhls for irrigation purposes.

17.—GUJRANWALA DISTRICT.

Sowings of makki, jowár and rice in irrigated areas and moth and jowár in some baráni villages less than half of the expected sowings. Irrigated crops are better than average; unirrigated crops are poor. In Tahsíl Khángah Dográn sugarcane and jowár affected with insect. Yield cannot be estimated at present. Condition of cattle good. Green fodder insufficient. State of public health good. No complaint about supply of canal water, and there were no inundations. Prices rising owing to want of rain.

18.—SIALKOT DISTRICT.

Rainfall benefited the standing kharíf crops and sowings and also the ploughing for rabi throughout the district. Sowing of rice, maize, jowár and bájra finished. The condition of crops is good in Zafarwál, and average in other tahsíls. Crops on unirrigated lands withering for want of rain. Rain is badly wanted. Condition of cattle good. Fodder sufficient. State of public health generally is good. Water was sufficient in Bajwat Canals and rivers. The hill torrents Dek and Aik overflowed their banks.

19.—GUJRAT DISTRICT.

In a greater part of the Khárián Tahsíl the rainfall during the month under report was good, but in Gujrát Tahsíl it remained below average and was unequally distributed. In tracts where the rainfall was good sowings were in progress. In Phália Tahsíl, though recorded above average, distribution of rain was very unequal. The condition of cotton and sugarcane crops is generally good, but other crops have suffered for want of rain, having been sown in a comparatively dry season. The expectation of yield corresponds with the condition of each crop. The state of public health was good. High water in the hill torrents benefited the crops, and the land lying fallow for the spring crops. River Jhelum was in flood four times, but as the water did not overflow the banks, no special benefit is expected from these. Prices have on the whole remained stationary.

20.—JHELUM DISTRICT.

Sowings completed during the last month. A good and well distributed rain in the beginning of the month was very beneficial to the standing crops. There was very little or no rain after the 21st of the month under report, except at Jhelum, but on the whole the condition of crops is generally good. As yet the expected yield cannot be estimated. The state of the public health is generally good. There were no floods in the river. Prices were stationary.

21.—ATTOCK DISTRICT.

Copious rains during the month under report, especially in the Talágang Tahsíl, greatly helped the kharíf sowings. Owing however to want of rain during last two weeks the crops have suffered. Condition of crops is average. At present nothing can be said of the yield. The condition of cattle was good. The state of public health was also good.

22.—RAWALPINDI DISTRICT.

Rain has been generally good and has benefited the kharíf crops. Condition of crops is average. The expected yield cannot be estimated at present. The condition of cattle is good. People are in good health.

23.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Crops were in poor condition owing to want of sufficient rains. The condition of cattle was good. Fodder sufficient in Kacha, but insufficient in Thal. The flood season is over.

Bhakkar and Leiah Tahsíls.—Rainfall was beneficial to the standing kharíf crops. Sowings of kharíf crops finished Condition of crops is average. The outturn cannot be estimated as yet. Cattle in fair condition, and the public health good. There has been fair irrigation from river inundations. The river subsided in the last week of the month under report.

24.—SHAHPUR DISTRICT.

Kharíf sowings, such as bájra, maize, jowár, moth, mung and rice, were still being sown in irrigated areas. Sowings of kharíf crops on unirrigated areas were small. Condition of crops below average: in parts very poor. Expected yield below average. The cotton plants much damaged by rats in Tahsíl Bhera Condition of cattle is good. Green fodder being insufficient cattle were largely fed on bhúsa. Public health generally good. Inundation Canals have worked badly. They ran full for three or four days only. Gram and wheat are being purchased in bulk by foreign exporters, and prices are consequently rising.

25.—JHANG DISTRICT.

Lyallpur and Chiniot have had fair rain. Jhang, Samundri and Toba Tek Singh scanty; while Shorkot has had no rain. Standing crops average. Sowings of maize, jowár, bájra and sesamum were in progress. Cattle are in good condition. Fodder insufficient Health of people generally good. Canals were flowing; there was a sufficient quantity of water in the rivers.

26.—DERA GHAZI KHAN DISTRICT.

Dera Ghâzi Khan Tahsíl.—Ploughing begun for rabi. Crops were in good condition, but are likely to deteriorate through deficient supply in canals, except in Shoria. Yield below average, except in lands watered by Shoria The condition of cattle was good. People were in good health. Water has fallen very low in canals. No hill torrents have come down.

Sanghar Tahsíl.—Most of the autumn crops have been sown. Condition of crops good. Condition of cattle and the state of public health good. Fodder sufficient. River has fallen. Sanghar and Vehoa torrents have irrigated lands.

Jámpur Tahsíl.—Three-fourths of kharíf crops sown. Great need of rain. Sind crop average at present, but sudden failure of canals threatens to damage them seriously. Yield of indigo average; of other crops below average. Fodder was deficient everywhere. The state of public health was good. Karia, Gaman and Dhingana worked well till late in August, when they fell low. Moderate irrigation of head villages on hill torrents.

Rájanpur Tahsíl.—Kharíf sowings still in progress. The condition of crops was good, but endangered by fall of river. The expected yield below average owing to fall in the river. A large portion will not mature. Fodder was sufficient. The state of public health was good. Canals now deficient Gharkáb and Sailáb Circles have been well flooded by the river during the month under report.

27.—MUZAFFARGARH DISTRICT.

No sowings during this month. Condition of crops average in Alípur Tahsíl and bad in Muzaffargarh Tahsíl. Yield of indigo is average. The condition of cattle was good. The state of public health was good. Alípur and Sinánwán received sufficient water from canals, but there was insufficient water in canals running in Muzaffargarh Tahsíl. Some of them were dry. There were no floods. Fodder was sufficient in the whole of the district excepting in Muzaffargarh Tahsíl.

28.—MOOLTAN DISTRICT.

Kharíf cultivation completed. Prospects of standing crops and yield of indigo average. Condition of cattle is good. People are in a healthy state. Fodder sufficient. Sidhnái and Inundation Canals flowing.

L. A. FRASER, SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 27th September 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 17th September 1904, there were 1,262 births registered in the 42 large Municipal towns (669 males and 593 females), giving a birth-rate of 46 *per mille* of population, and 865 deaths were registered (432 males and 433 females), giving a death-rate of 31 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 51 against 46 in the corresponding week of the previous year, Lahore 24 against 34, Amritsar 30 against 43, and Mooltan 22 against 36. There were 9 deaths reported from plague in Delhi, 2 in Hoshiárpur, and 1 in Rawalpindi. There was 1 death each registered from small-pox in Ambala and Mooltan.

Deaths reported from plague during the week ending 24th September 1904 *in the districts, including all Municipal towns.*—Hoshiárpur 15, Gurgaon 13, Ambala and Hissar 11 each, Jullundur 10, Delhi 7, Gujránwála 6, Gurdáspur 4, Amritsar 3, Siálkot, Ráwalpindi, Karnál, Rohtak and Jhelum 1 each; Patiála State 28. Total for the Province 113.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

No. 40 of 1904.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 6, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 4th OCTOBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient .. 2. Good.	Wheat 17 seers ... Gram 27 seers. Bájra 25 seers.	...	Prospects of unirrigated crops fairly good. Irrigated crops flourishing.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat 16½ seers... Barley 26 seers. Gram 24½ seers.	Sowings commenced.	Crops in fair condition. Prospects favourable. Bájra being reaped in places.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 18¾ seers. Gram 27 to 28 seers. Jowár 40 seers. Barley 24 seers. Maize 35 seers. Bájra 24 seers.	Mustard, rape and gram sowings continue.	Crops being cut.
4	Jullundur ...	...	1. Sufficient ... 2. Fair.	Wheat 18½ seers... Gram 29½ seers. Maize 34 seers. Barley 26 seers.	Ploughings continue.	Sugarcane, cotton and maize average; others below average. Reaping of maize and picking of cotton commenced.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers Barley 30 seers. Gram 30 seers. Jowár 26 seers. Bájra 23 seers. Maize 35 seers.	Sarshaf, táráníra and gram were sown on lands depending on rain in parts of Fázilka where rain had fallen. Gram has also been sown in certain places on canal lands.	Maize on canal lands in Moga and Zíra harvested Irrigated crops good. Báráni average except in Tahsíl Fázilka.
6	Lahore ...	...	1. Sufficient, except in Sharakpur, which is dependent on rain exclusively. 2. Good.	Wheat 16 to 18 seers. Gram 26 to 29 seers. Barley 28 to 30 seers. Rice 4½ to 10 seers.	...	Crops are being watered. Condition of crops on irrigated lands average. Crops on báráni lands withering for want of rain. Rats have done some damage to the standing crops in parts of the Kasúr Tahsíl.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 16¼ seers Maize 29 seers. Bájra 27 seers. Gram 30 seers.	Ploughings and sowings going on	Harvesting of rice continues. Condition of standing crops on irrigated lands good and on unirrigated average. Average outturn expected on the whole.
8	Siálkot ...	Slight rainfall in Siálkot and Zafarwál.	1. Sufficient ... 2. Good.	Rice 10 seers ... Wheat 16 to 19 seers. Gram 24 seers. Barley 29 seers.	Ploughings and sowings continue Sowings of toria nearly finished.	Standing crops on irrigated average and on unirrigated poor. Crops on land dependent on rain are withering for want of rain. Picking of cotton continues. Reaping of rice commenced in places
9	Shahpur ...	...	1. Sufficient ...	Wheat 18 to 19 seers. Barley 26 to 30 seers. Gram 29 to 30 seers. Maize 22 to 26 seers. Bájra 22 to 26 seers.	Sowings in progress.	Yield of cotton below average. Standing crops suffering for want of rain.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·37 in Gujar Khan 0·46 in Kahúta. 1·30 in Murree.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 21 seers. Maize 26 seers. Gram 24 seers. Barley 28 seers.	...	Rain insufficient. Condition of crops average.
11	Miánwáli ...	...	1. Procurable in Kacha, but not sufficient in secure areas.	Wheat 18 seers ... Barley 32 seers. Gram 29 seers. Bájra 23 seers. Jowár 32 seers.	Sowings on low-lying lands commenced.	Condition of crops in tracts dependent on rain is bad. Másh crop is average on insecure areas.
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat 16¼ seers... Gram 23¼ seers. Maize 24 seers.	Ploughings continue.	Prospects of crops average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Siálkot and Ráwalpindi only.

Prices.—There is very little fluctuation in the prices of food-grains. The price of wheat is rising in Amritsar and falling slightly in Ambála and Multán.

Agricultural operations.—Reapings of maize in Jullundur and Ferozepore and of bulrush millet in Delhi and of rice in Amritsar and Siálkot going on. Picking of cotton continues in Jullundur and Siálkot. Sowings of certain spring crops such as mustard, gram and rape and ploughings for other crops in progress.

Crops and outturn.—Condition and prospects of standing irrigated crops are good to average and those of unirrigated below average or poor. Crops dependent on rain are mostly withering for want of it in Lahore, Siálkot and Shahpur. Outturn of autumn crops is expected to be an average one on the whole in Amritsar. The yield of cotton is also reported average from Shahpur.

Damage done to crops.—Rats are damaging certain crops in parts of Lahore.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in parts of Lahore and Miánwáli.

L. A. FRASER, Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-FIVE THOUSAND NINE HUNDRED AND SEVENTY-SEVEN births were registered in the Province during the month of August 1904, giving a birth-rate of 39 per *mille* of population. Of the total number of births, 34,317 were boys and 31,660 were girls.

The total number of deaths registered from all causes in the Province during the month of August 1904 was 37,270 against 37,314 in the previous month, and 47,498 in the corresponding month of the past year, giving an annual death-rate of 22, 22 and 28 per *mille* of population per annum, respectively.

There were 182 deaths registered under the head of cholera against 114 in the previous month and 2,300 in the corresponding month of the past year.

The total mortality from plague amounted to 231 against 556 in the previous month and 84 in the corresponding month of the past year. From small-pox 337 deaths were registered against 730 in the previous month and 868 in the corresponding month of the past year; fevers 21,755 against 22,896 and 26,682; dysentery and diarrhœa 873 against 899 and 1,264; respiratory diseases 3,264 against 3,365 and 3,994. During the month there were 31 deaths registered from suicide against 36 in the past month; wounding 50 against 40; accidents 649 against 561; snake-bite and killed by wild beasts 329 against 214; and from all other causes 9,569 against 7,903 in the previous month and 11,189 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd October 1904.

No. —The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd October 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 24th September 1904, there were 1,394 births registered in the 42 large Municipal towns (758 males and 636 females), giving a birth-rate of 51 *per mille* of population, and 809 deaths were registered (394 males and 415 females), giving a death-rate of 29 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 40 against 50 in the corresponding week of the previous year, Lahore 24 against 33, Amritsar 29 against 50, and Multán 22 against 29. There were 5 deaths reported from plague in Delhi, 3 in Amritsar, and 2 in Hoshiárpur. There was 1 death registered from small-pox in Siálkot.

Deaths reported from plague during the week ending 1st October 1904 in the districts, including all Municipal towns.—Hissar 38, Hoshiárpur 20, Ráwalpindi 16, Ambála, Gurgaon and Rohtak 14 each, Gujránwála 12, Jullundur 9, Karnál and Delhi 6 each, Gurdáspur and Lahore 4 each, Siálkot 3, Amritsar and Jhelum 2 each, Shahpur 1; Patiála State 98, and Kapurthala State 7. Total for the Province 270.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 11th OCTOBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Gram 27 seers. Bájra 25 seers.	...	Prospects of unirrigated crops fairly good. Irrigated crops flourishing. Cotton being picked.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat 16½ seers... Barley 26 seers. Gram 25 seers.	Sowings in progress.	Prospects favourable.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 18¾ seers. Gram 27 to 28 seers. Jowár 40 seers. Maize 35 seers. Barley 24 seers. Bájra 24 seers.	Mustard, rape and gram sowings in progress.	Crops being cut.
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers... Gram 29½ seers. Maize 36 seers. Barley 25 seers.	Ploughings and sowings continue.	Cotton being picked. Sugarcane, cotton and maize average; other crops below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Barley 29 seers. Gram 31 seers. Jowár 27 seers. Bájra 23 seers. Maize 35 seers.	Gram being sown in place of maize. Barley, gram, sarshaf and táramíra were sown on unirrigated lands where rain fell.	Harvesting of irrigated maize in progress. Condition of irrigated crops good and of unirrigated below average, except in Fázilka where they have withered entirely.
6	Lahore ...	0·03 in Kasúr ...	1. Sufficient, except in Tahsíl Sharakpur. 2. Good.	Wheat 16 to 18 seers. Gram 26 to 29 seers Barley 28 to 30 seers. Rice 4½ to 10 seers.	Land is being prepared for rabi crops. Gram, turnip aud sarshaf are being sown.	Crops are being watered. Cotton is being picked. Condition of crops average on irrigated. The crops on unirrigated lands are suffering for want of rain.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 18¼ seers Maize 29 seers. Bájra 27 seers. Gram 30¾ seers.	Ploughings for wheat and sowings of barley, gram, sarshaf, masar and fodder in progress.	Condition of standing crops on irrigated lands good and on unirrigated average. Outturn is expected to be an average one on the whole.
8	Siálkot ...	Slight rainfall in Zafarwál and Pasrúr.	1. Sufficient ... 2. Good.	Rice 10 seers ... Wheat 18 to 20 seers. Gram 25½ seers. Barley 30 seers.	Sowings of turnips, rape and masar and ploughings for other rabi crops going on. Sowings of gram nearly finished.	Standing crops on irrigated average and on unirrigated poor. Picking of cotton in progress. Reaping of rice and maize commenced.
9	Shahpur ...	...	1. Sufficient ... 2. Good.	Wheat 18½ to 19 seers. Barley 26 to 30 seers. Gram 24 to 30 seers. Jowár 24 to 30 seers. Maize 22 to 26 seers.	Turnips, wheat and gram being sown Moisture insufficient in areas irrigated from inundation canals.	Crops suffering from drought.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·11 at Sadr ... 0·18 in Murree.	1. Sufficient ... 2. Good.	Wheat 17¾ seers .. Bájra 21¼ seers. Maize 26½ seers. Gram 24 seers. Barley 28 seers.	...	Condition of crops average.
11	Miánwáli ...	...	1. Procurable, but stock exhausting. 2. Good.	Wheat 18 seers ... Barley 32 seers. Gram 29 seers. Bájra 23 seers. Jowár 32 seers.	Sowings in irrigated area in progress; but in báráni areas not started owing to drought.	Crops in báráni tracts totally spoilt, while those in lower tracts average.
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat 16¼ seers... Gram 23¼ seers. Maize 24 seers.	Sowings commenced.	Prospects average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Lahore, Siálkot and Ráwalpindi.

Prices.—The fluctuation in the prices of food-grains is very small. A fall in the price of wheat is reported from Amritsar, a little in Jullundur, Siálkot and Ráwalpindi.

Agricultural operations.—Harvesting of autumn crops continues in Ambála, Ferozepore and Siálkot as also picking of cotton in Hissar, Jullundur, Lahore and Siálkot. Ploughings and sowings of spring crops going on in most districts. The sowing of gram has been nearly finished in Siálkot.

Crops and outturn.—Condition and prospects of irrigated crops generally good to average. Unirrigated crops are said to be in poor condition in Siálkot and average to below average in other districts, except in Hissar, where it is reported to be fairly good owing to timely and sufficient rainfall. Crops on dry lands have been totally spoilt in Miánwáli and parts of Ferozepore, and are still suffering in Lahore and Shahpur from want of rain. Outturn of autumn crops is expected to be average in Amritsar.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient and procurable in all districts, except in parts of Lahore. The stock is said to be getting exhausted in Miánwáli.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND FRONTIER PROVINCE DURING AUGUST 1904.

Station.	Pressure.		Wind.		Temperature in shade.								
	Barometer at 8 A. M. reduced to 32°, to constant gravity at 45° Lat. and to sea-level.	Departure from normal.	Mean direction and force in August 1904.	Normal direction and force in August.	8 A.M.	Mean maximum.	Departure from normal.	Mean minimum.	Departure from normal.	Mean monthly departure from normal.	Humidity at 8 A. M.	Vapour tension at 8 A. M.	Amount of cloud 10 = overcast.

Except over the south-west of the Punjab and the North-West Frontier Province the weather was disturbed during the first half of the month of August. From the 1st to the 4th ordinary monsoon winds and showers were received, of which the heaviest were 2·45″ at Ludhiána on the 2nd; and over 1·00″ at Ludhiána, Ráwalpindi, Simla, Murree, and Delhi on the 3rd. On the 5th and 6th the monsoon current fell off and the weather was finer, though 1·00″ of rain fell locally at Simla and Lahore. On the 7th showery monsoon weather again set in and continued until the 15th. The day of most general rain was the 7th when Murree reported 3·23″; Ráwalpindi, 2·90″; and Siálkot and Cherát, about 1·00″. Heavy showers also fell on the 12th, when Ludhiána reported 2·06″; the 9th when Simla and Delhi roported over 1·00″; the 10th when Murree reported 1·06″; the 11th when Murree reported 1·18″ and Delhi 1·00″; the 13th when Murree reported 1·76″ and the 14th when Lahore reported 1·35″

About the middle of the month the weather cleared up and on the 16th, 17th and 18th there was no rain except 3·13″ reported at Simla on the 17th. From the 19th onward to the close of the month showers fell almost daily on and near the hills, but the remainder of the area was fine except on the 23rd, 24th and 25th, when a depression which had travelled from the Bay of Bengal up as far as Delhi occasioned showers at Delhi and Sirsa. The heaviest rainfalls on and near the hills were 1·05″ at Murree on the 19th; 2·06″ at Ráwalpindi, and 1·50″ at Murree on the 20th; 2·20″ at Cherát on the 23rd; and 2·61″ at Murree on the 30th.

Pressure and Winds.—On the mean of the month pressure was normal at all stations except Srinagar where it was in some defect. The winds were more northerly than usual on the hills and at the most western stations, but were more southerly than the average elsewhere.

Temperature.—The mean temperature of the month was in defect of the average at Delhi, Ludhiána, Ráwalpindi, Peshávar and at all the hill stations. The deficiency was about 2° at Delhi, Murree and Leh, but was small at the remaining stations. In other parts of the area the mean temperature was in excess, the departures equalling or exceeding 2° at Lahore, Montgomery, Siálkot and Mooltan. The mean maximum or day temperature was considerably lower than usual at Delhi, Ludhiána, Murree and Leh, and considerably higher at Montgomery and Mooltan. The mean night temperature was in considerable excess of the normal at Lahore, Siálkot and Mooltan.

The hottest place was Mooltan with a mean temperature of 94°.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	+ 2·4	105·4	Mooltan.				
" 17th ...	+ 4·2	108·8	Montgomery.				

The mean temperature of the whole area exceeded the average on the 1st, from the 5th to the 7th, on the 11th, 14th, from the 16th to the 20th and from the 25th to the end of the month and was lower than usual at other times. The departures were generally moderate and much smaller than in the two preceding months. The hottest day was the 18th, when the mean departure was + 4°.9 and Khusháb reported a maximum of 109°.3.

Humidity and Cloud.—Both the absolute and relative humidities were generally below the normal while the mean cloud amount was about the average.

Rain.—The total rainfall of the month considerably exceeded the average at Murree, Srinagar and Cherát and slightly at Ráwalpindi and Ludhiána. In all other places the month's rainfall was in defect and at some stations by considerable amounts.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for August 1904 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1.th October 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 1st October 1904, there were 1,455 births registered in the 42 large Municipal towns (780 males and 675 females), giving a birth-rate of 53 *per mille* of population, and 914 deaths were registered (467 males and 447 females), giving a death-rate of 33 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 44 against 69 in the corresponding week of the previous year, Lahore 29 against 34, Amritsar 35 against 66, and Multán 27 against 36. There were 6 deaths reported from plague in Delhi, 5 in Hoshiárpur, 4 in Jhajjar, 2 each in Bhiwáni and Amritsar, and 1 each in Lahore and Ráwalpindi. Of the 6 deaths from small-pox 2 each were registered in Bhiwáni and Multán and 1 each in Pánipat and Amritsar.

Deaths reported from plague during the week ending 8th October 1904, in the districts, including all Municipal towns.—Hoshiárpur 58, Gurgaon 36, Hissar 31, Ambála 30, Rohtak 26, Gurdáspur 18, Delhi 16, Amritsar 10, Jullundur 8, Gujránwála and Ráwalpindi 7 each, Karnál 6, Gujrát 3, Siálkot and Shahpur 2 each, Ludhiána and Jhelum 1 each; Patiála State 110, Kapurthala State 13, and Kalsia State 8. Total for the Province 393. The return received from the Kalsia State for the previous week shows 7 deaths from plague.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 18th OCTOBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·30 in Fatahabad 0·20 in Sirsa.	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 25 seers. Gram 27 seers.	Gram being sown	Prospects of unirrigated crops fairly good. Irrigated crops flourishing. Cotton being picked.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat 16½ seers... Barley 26 seers. Gram 25 seers.	Sowings in progress.	Reaping has begun in parts. Prospects of outturn favourable.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat 18 to 18½ seers. Gram 27 to 28 seers. Maize 35 seers. Jowár 40 seers. Barley 24 seers. Bájra 24 seers.	Gram, rape, mustard and masúr sowings in progress on báráni lands.	Cotton being picked.
4	Jullundur ...	Slight rainfall ...	1. Sufficient ... 2. Good.	Wheat 19 seers ... Gram 29 seers. Maize 38 seers. Barley 25 seers.	Ploughings and sowings continue.	Cotton being picked. Sugarcane, cotton and maize average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient. Green fodder available.	Wheat 18 seers ... Barley 29 seers. Gram 31 seers. Jowár 27 seers. Bájra 23 seers. Maize 25 seers.	Barley, gram, sarshaf, tárámíra and wheat were sown on irrigated and unirrigated lands.	Condition of irrigated crops good; of unirrigated below average, except in Fázilka, where they have withered entirely.
6	Lahore ...	0·08 at Sadr ...	1. Scarce in unirrigated parts of Tahsíl Sharakpur, where branches of trees are being used as fodder.	Wheat 17 to 18 seers. Barley 30 to 31 seers. Gram 26 to 27 seers. Rice 4½ to 11 seers.	Gram, turnips, sainji and sarshaf are being sown.	Picking of cotton continues: condition average on irrigated and bad on báráni lands.
7	Amritsar ...	0·26 average ...	1. Sufficient ... 2. Good.	Wheat 19¼ seers. Gram 31½ seers. Maize 29 seers. Bájra 27 seers.	Sowings commenced. For want of rain lands are mostly irrigated by wells and canals.	Rain has been beneficial to standing crops. Harvesting of rice and maize going on. Crops on irrigated lands in good condition and on unirrigated average.
8	Siálkot ...	Slight rainfall in Pasrur.	1. Sufficient ... 2. Good.	Rice 10 seers ... Wheat 17 to 20 seers. Gram 27 seers. Barley 32 seers.	Sowings of rape and masar continue and that of wheat commenced.	Standing crops on irrigated lands average and on unirrigated poor. Picking of cotton in progress. Harvesting of rice and maize commenced.
9	Shahpur ...	...	1. Getting scarce in Khusháb, whence people are emigrating to canal lands. 2. Good.	Wheat 18 to 19½ seers. Barley 26 to 30 seers. Gram 29 to 30 seers. Bájra 22 to 26 seers. Jowár 26 to 30 seers. Maize 22 to 26 seers.	Sowings in progress. Very little moisture in báráni areas and crops deteriorating.	Cotton being picked, but outturn small.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 21¼ seers. Maize 26½ seers Gram 24 seers. Barley 28 seers.	...	Crops being cut. Public health good.
11	Miánwáli ...	...	1. Procurable but stock exhausting. 2. Good.	Wheat 18 seers ... Barley 32 seers. Gram 29 seers. Bájra 23 seers. Jowár 32 seers.	Sowings in irrigated areas are in progress, but in báráni areas not started owing to drought. River falling.	Crops in báráni and insecure tracts totally spoilt, while those in lower tracts are average. Másh crop looks average.
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat 16¼ seers... Gram 23¼ seers. Maize 24 seers.	...	Prospects average.

GENERAL REMARKS.

Rainfall.—Slight rainfall reported from parts of Hissar, Jullundur, Lahore, Amritsar and Siálkot.

Prices.—Very little fluctuation in the prices of food-grains The price of wheat is slightly rising in Ambála; falling in Jullundur, Amritsar, Shahpur and Ráwalpindi; and unchanged elsewhere.

Agricultural operations.—Cotton pickings continue in Hissar, Ambála, Jullundur, Lahore and Shahpur Autumn crops such as rice, maize, &c., are being harvested in Delhi, Amritsar, Siálkot and Ráwalpindi. In most districts sowings of certain spring crops going on on unirrigated areas holding sufficient moisture. Owing to insufficiency and want of more rain lands are being irrigated by wells and canals, especially in Amritsar. Sowings on irrigated areas are also in progress.

Crops and outturn.—Condition and prospects of irrigated crops are good to average and those of unirrigated generally below average or bad except in Hissar, where they are fairly good. The outturn of cotton is said to be small in Shahpur. Crops on unirrigated tracts in Miánwáli have been totally spoilt owing to drought.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient except in parts of Lahore and Shahpur. The stock, however, is becoming exhausted in Miánwáli.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th October 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 8th October 1904, there were 1,455 births registered in the 42 large Municipal towns (744 males and 711 females), giving a birth-rate of 53 *per mille* of population, and 912 deaths were registered (441 males and 471 females), giving a death-rate of 33 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 49 against 81 in the corresponding week of the previous year, Lahore 21 against 33, Amritsar 33 against 56, and Multan 25 against 31. There were 16 deaths each reported from plague in Jhajjar and Delhi, 5 each in Bhiwáni and Amritsar, 3 each in Ambála, Hoshiárpur and Gujránwála, 2 in Jalálpur, and 1 each in Rohtak and Gujrát. There was 1 death each registered from small-pox in Jhajjar, Ferozepore, Siálkot and Maghiána.

Deaths reported from plague during the week ending 15th October 1904 in the districts, including all Municipal towns.—Gurgaon 66, Ambála 54, Gurdáspur 40, Hoshiárpur 35, Rohtak 32, Hissar 25, Amritsar 20, Jullundur 14, Karnál and Delhi 10 each, Ráwalpindi 8, Gujránwála 4, Ludhiána 3, Lahore 2, Siálkot, Shahpur and Jhelum 1 each; Patiála State 18, and Kalsia State 1. No return was received from the district of Gujrát. Total for the Province 345.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 25th OCTOBER 1904.

[**Twelve out of 28 districts are dealt with.**]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·06 in Tohána ...	1. Sufficient ... 2. Good.	Wheat 17 seers ... Bájra 25 seers. Gram 27 seers.	Sowings commenced.	Irrigated and unirrigated crops being reaped. Outturn of former good and of latter below average.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat 16½ seers... Barley 28 seers. Gram 25½ seers.	Sowings in progress.	Reapings going on. Prospects of outturn favourable.
3	Ambála ...	0·01 in Kharar ...	1. Sufficient ... 2. Good.	Wheat 18 to 18¾ seers. Gram 27 to 28 seers. Maize 35 seers. Barley 24 seers. Jowár 40 seers. Bájra 24 seers.	Gram, rape, mustard sowings in progress on báráni lands.	Chari being cut and cotton picked.
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat 18¾ seers Gram 30 seers. Maize 34 seers. Barley 25½ seers.	Ploughings and sowings continue.	Cotton picking and maize reaping in progress. Sugarcane, cotton and maize average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·22 in Moga ... 0·18 in Zíra. 0·34 at Sadr. 0·30 in City 0·13 in Muktsar.	1. Fodder sufficient. Green fodder available. 2. Good.	Wheat 19 seers ... Barley 29 seers. Gram 32½ seers. Jowár 18 seers. Bájra 23 seers. Maize 35 seers.	Sowings of rabi crops on irrigated and unirrigated lands continue.	Maize and rice are being harvested. Yield is good. Condition of standing irrigated crops good, and of unirrigated below average, except in Fázilka Tahsíl, where they have withered entirely.
6	Lahore ...	0·13 in Kasúr ...	1. Scarce in unirrigated parts of Tahsíl Lahore, as well as in Tahsíl Sharakpur, where branches of trees are being used as fodder.	Wheat 17 to 19 seers. Barley 26 to 34 seers. Gram 27 to 29 seers. Rice 4 to 12 seers.	Sowings in progress.	Reapings going on. The condition of standing crops and the outturn of cotton are average. Rats doing some damage to maize and rice crops in Kasûr.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat 20 seers ... Gram 32 seers. Maize 29 seers. Bájra 27 seers.	Sowings of gram, barley, wheat, &c., in progress.	Harvesting going on. Condition of standing crops on unirrigated lands average and on irrigated good. The outturn of unirrigated land not good owing to want of rain.
8	Siálkot ...	Slight rainfall in Pasrur and Raya.	1. Sufficient ... 2. Good.	Rice 9 to 10 seers. Wheat 17 to 20 seers. Gram 26 seers. Barley 30 seers.	Sowings of wheat, barley, &c., going on.	Standing crops average on irrigated and below average on unirrigated lands. Picking of cotton and reaping of rice and maize in progress. Outturn average off irrigated and poor off unirrigated lands.
9	Shahpur ...	...	1. Scarce in Tahsíl Khusháb and arid circle of Shahpur Tahsíl.	Wheat 18 to 20 seers. Jowár 24 to 30 seers. Bájra 22 to 26 seers. Maize 22 to 26 seers. Gram 30 to 31 seers.	Gram sowings finished; wheat still being sown.	Outturn is expected to be below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat 17½ seers... Bájra 21¼ seers. Maize 26½ seers. Gram 24 seers. Barley 28 seers.	Sowings commenced.	Crops being cut and harvested.
11	Miánwáli ...	...	1. Exhausting ... 2. Good.	Wheat 17½ seers Gram 29 seers. Barley 30 seers. Bájra 24 seers. Jowár 30 seers.	Barley, gram, &c., have been sown. Wheat is being sown. Number of rats increased considerably, resulting in great loss to cultivation.	Crops totally spoilt on account of drought.
12	Multán ...	...	1. Sufficient except in parts of Multán Tahsil. 2. Good.	Wheat 16¼ seers... Gram 23¼ seers. Maize 24 seers.	Ploughings for wheat and sowing of other crops in progress.	Prospects average. Cotton being picked.

GENERAL REMARKS.

Rainfall.—Slight rainfall is reported from parts of Hissar, Ambála, Ferozepore and Siálkot.

Prices.—Very little fluctuation in the prices of food-grains. The price of wheat is rising in Jullundur, Ráwalpindi and Miánwáli; falling in Ambála, Amritsar and Shahpur; unchanged elsewhere.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops in progress in most districts. Ploughings and sowings of spring crops going on throughout the Province.

Crops and outturn.—Condition of irrigated autumn crops is good in Amritsar; average in Siálkot, average to below average on unirrigated lands in these districts. Outturn of irrigated crops is reported good in Hissar and average in Siálkot and of unirrigated below average to poor. Both classes of crops in Delhi fair, but below average in Shahpur on the whole. Crops totally spoilt in Miánwáli owing to draught.

Damage done to crops.—The number of rats increased considerably in Miánwáli, resulting in great loss to cultivation. They are also damaging the rice and maize crops in parts of Lahore.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient except in parts of Lahore, Shahpur and Multán. The stock, however, is becoming exhausted in Miánwáli.

R denotes slight rain.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of September 1904.

1.—HISSAR DISTRICT.

Rainfall of the month benefited the standing crops a good deal. Prospects of unirrigated crops fairly good. Irrigated crops flourishing. Fodder sufficient. Cattle in good condition. Prices stationary. General health of the district good.

2.—ROHTAK DISTRICT.

Sowing of gram commenced in such villages as had good rain. Condition of standing crops on báráni and irrigated lands was good. Early crop of bájra was being or had been cut. The late crops have not yet matured ; no estimate can be framed yet. Early báráni crops will yield an average outturn. Canal water was given by turns, and there were no complaints.

3.—GURGAON DISTRICT.

Rain was sufficient and benefited the rabi and kharíf crops. Gram, tára and rapeseed were being sown. The condition of the standing crops was fair. Early sowings of bájra suffered slightly, as also the crops on low-lying tracts in several villages of the Palwal Tahsíl. Outturn good. Condition of cattle fair ; fodder sufficient. Public health fair. Agra Canal water was used. A breach in the Comanda Bund (Fírozpur Tahsíl) caused a rush of water as far as Sakras and Bhawána.

4.—DELHI DISTRICT.

Rabi ploughings and sowings were in progress. The condition of crops good. Prospects of outturn have become favourable owing to the rain which fell duirng the month. Condition of cattle was on the whole good. No complaints regarding insufficiency of canal water. The rain during the month was good and general in the district, and saved the crops from withering. Prices decreased owing to good prospects of outturn.

5.—KARNAL DISTRICT.

Ploughings were being made for rabi. The condition of crops fair. The expected yield average. Cattle were on the whole in fair condition.

6.—AMBALA DISTRICT.

Mustard, rape and gram were being sown. Kharíf crops being cut. Outturn is expected to be fair. Condition of cattle good.

7.—SIMLA DISTRICT.

The rainfall was slight in both tahsíls. In Simla Tahsíl half and in Kot Khai and Kotgarh three-fourths sowings of wheat have been finished. The condition of crops in both tahsíls not good. The outturn of Tahsíl Simla of different classes of land was as follows :—

Crop.	...	*Class of soil.*	*Seers per acre.*
Maize	...	Abi	427
Rice	...	"	427
Koda	...	"	213
Maize	...	Báráni	320
Rice	...	"	233
Koda	...	"	107

Cattle in good condition. Fodder and grazing sufficient. Water in hill torrents sufficient.

8.—KANGRA DISTRICT.

A small area was sown with wheat, barley and linseed. The condition of the kharíf crop was good. The yield is expected to be above average. Water in kuhls was sufficient for irrigation purposes

9.—HOSHIARPUR DISTRICT.

There was good rain at the end of the second week, which greatly benefited the standing crops. Tho sowings of sarshaf commenced here and there throughout the district; [illegible]b of gram in the hilly tracts of the district. Standing crops, especially maize, were damaged to some extent owing to very scanty rain in the second half of August and up till 11th September. Sufficient rain, however, fell on 12th, 13th and 14th September throughout the district which saved the withering crops from complete damage. Condition of crops in Una, Garhshankar and Hoshiárpur Tahsíls about average, and in Dasúya a little above average Crops were being cut, but grain has not yet been threshed. Yield is expected to be average or somewhat below. General condition of cattle good; fodder sufficient. There was sufficient water in the Shah Nahr and other zamíndári canals for irrigation purposes, but little in hill torrents; consequently a very small area was irrigated. There were sufficient stocks of grain with the zamíndárs and sáhúkárs in all four tahsíls of the district.

10.—JULLUNDUR DISTRICT.

Gram sown in parts. Ploughings for rabi sowings were in progress during the month The condition of Indian corn, cotton and sugarcane average; that of chari, moth and mung quarter average. Expected yield average. Condition of cattle poor through overwork, but improving Public health good.

11.—LUDHIANA DISTRICT.

Rabi sowings commenced. The condition of standing crops was fair. The yield expected to be average. The condition of cattle good. Irrigation from canals was ordinary. The river rose high once during the month. Prices stationary.

12.—FEROZEPORE DISTRICT.

There were no sowings during the month. Condition of crops on irrigated lands was good, and of those on unirrigated lands average, except in the Fázilka Tahsíl, where they withered for want of rain. Yield of crops on irrigated lands expected to be good; of those on unirrigated lands below average. Cattle were on the whole in good coddition Public health was good throughout the district. The Sirhind Canal was flowing during the month, and a normal area was irrigated from it. Agriculturists were generally well off They were engaged in preparing lands for rabi. Rain is still wanted throughout the district, especially in Tahsíl Fázilka. Green fodder was available. Stocks of food-grains and fodder were sufficient. Prices were falling slightly.

13.—MONTGOMERY DISTRICT.

Turnips were sown to a certain extent during the month. Crops irrigated by well water good, but the condition of crops usually irrigated by canal water poor, canals having ceased flowing, there being very little water in the Ravi and Sutlej Rivers. The expected yield was less than average. Public health good. As noted in previous month, many agriculturists are going to the Chenab Colony.

14.—LAHORE DISTRICT.

In this month some area was sown with maize, gram, toria and turnips and other fodder crops. The condition of crops on irrigated lands was good, but the crops on báráni lands suffered from drought, and the area sown was much less than normal. The expected yield of the crops on irrigated lands is good and above normal, but prospects of yield on báráni lands are gloomy. Public health and the condition of cattle were on the whole good. The canals worked very well, excepting the Annbi Canal which ran only for two days in the month and the Dek which dried up. There were no floods in the Rivers Ravi and Sutlej. Prices were stationary during the month, and there were no great exports for foreign countries. In Sharakpur Tahsíl there was hail in two villages, but no damage was done to the standing crops.

15.—AMRITSAR DISTRICT.

Average rainfall (2·24) was beneficial to the standing crops. Sowings of toria, gram, sarshaf and fodder were in progress. The condition of crops was good on irrigated and average on unirrigated lands. Expected yield is said to be average on the whole Condition of cattle good; fodder sufficient. Public health good. No complaint of deficiency in canal water.

16.—GURDASPUR DISTRICT.

The slight rain during this month was very beneficial to the kharíf crops. The crops were generally in fair condition. Hail did a little damage, and the crops in the bárání tract have suffered from insufficient rain. The yield will be fair. Condition of cattle good; fodder sufficient Canals worked well.

17.—SIALKOT DISTRICT.

Rainfall not well distributed throughout the district, and did not benefit the standing kharíf crops; sowing of toria, gram, turnip, rape and masar in progress. The condition of standing crops average on irrigated and poor on unirrigated lands. Crops on bárání tracts suffered for want of rain. As picking of cotton and cutting of rice had but recently commenced, on estimate of outturn can be given. Condition of cattle good; fodder sufficient. State of public health was on the whole good. Water was sufficient in Bajwát canals and river. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Sowing of sarshaf and turnip was in progress on irrigated areas. No sowing on bárání areas on account of drought. The condition of cháhi and nahri crops average, and of bárání, &c., bad. Yield is expected to be below average. Cattle in good condition; fodder scarce. No complaint about the working of the canal, and there was no river inundation during the month. Prices stationary.

19.—GUJRAT DISTRICT.

Sowing of carrots, turnips and oilseed on cháhi lands was in progress, and ploughings for rabi crops in hand With the exception of a few tracts recently favoured by a shower of rain, báráni crops were failing throughout the district. The condition of crops on cháhi lands was fair. Prospects of yield are not good owing to meagre rainfall. Condition of cattle was on the whole good. The state of public health was good. Owing to scarcity of rains no floods occurred during this month. Prices practically remained stationary.

20.—SHAHPUR DISTRICT.

District.—Rabi sowings, such as toria, gram and wheat, were commenced. Standing crops suffered much owing to want of rain. Expected yield of kharíf crops below average. Condition of cattle generally good. No water in inundation canals during the month, and there was general complaint of insufficiency from private canals. Prices stationary.

Colony.—No rain worth the name fell during the month. Condition of standing crops generally good. Large areas were sown with toria. Expected yield fair. Condition of cattle good. Health of people good. No complaint about the supply of water in canals.

21.—JHELUM DISTRICT.

There were no sowings in this month. The condition of the crops on irrigated lands was good; crops on unirrigated lands were drying up for want of rain. Crop of maize on irrigated lands in Pind Dádan Khan bore an average yield. No other crops reached maturity. There were no floods in the river during this month. Prices stationary.

22.—RAWALPINDI DISTRICT.

Rainfall was generally insufficient. It was very light in Tahsíls Ráwalpindi and Kahúta. Condition of kharíf crop poor to average. The condition of cattle good.

23.—ATTOCK DISTRICT.

Very little rain this month; more badly wanted for the present kharíf and coming rabi. Condition of crops below average in Fatahjang and Talagang, but average in Attock and Pindigheb. The condition of cattle good. Public health good.

24.—MIANWALI DISTRICT.

Miánwáli and Isa Khel Tahsíls.—Owing to scarcity of rain, kharif crops were in bad condition. Ploughings commenced for rabi crops, but owing to scarcity of rain moisture was insufficient everywhere. Public health good. The condition of cattle good. Fodder sufficient in Katcha, but insufficient in Thal.

Bhakkar and Leiah Tahsíls.—Rain very badly wanted for standing crops. Lands were being prepared for rabi sowings. Sowings of turnips and *ussun* commenced. Condition of crops below average. Condition of cattle on the whole below average.

25.—JHANG DISTRICT.

Slight rainfall during the month apparently did not benefit the crops except in Shorkot Tahsíl where it rained somewhat heavier. Gram, turnips and toria sowings were in progress. State of the standing crops, cháhi and nahri, was average; while that of báráni and sailáb was below average on account of want of rain. Fodder and grazing not available sufficiently for want of rain. Public health good. Canals flowing. No flood. It hailed in the neighbourhood of Kotla Afghánán village in the Shorkot Tahsíl, but did only a little or no damage to a few crops.

26.—MULTAN DISTRICT.

Rabi sowings commenced. Condition of kharíf crops average. Yield average. Condition of cattle good. Public health good. Inundation canals ran in turns.

27.—MUZAFFARGARH DISTRICT.

Alípur Tahsíl.—No sowing except turnips. The condition of crops average. Jowár and indigo have been cut, and the expected yield is of an ordinary average. Condition of cattle and public health good. Canals were dry; no river inundations. Fodder sufficient.

Muzaffargarh and Sinánwán Tahsíls.—No sowing except turnips. The condition of crops not good for want of water. The expected yield below average. Condition of cattle and public health good. Most of the canals stopped. No river inundations. Fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sanghar Tahsíl.—Kharíf sowings finished. Condition of crops good. Expected yield above average. Condition of cotton good.

Dera Ghází Khan Tahsíl.—Sowings of turnips, barley and gram and ploughings for wheat and rape in progress. There is little hope of any rabi in the Pachád owing to want of rain. The condition of crops was bad for want of water except on the Shoria. Indigo and rice were being reaped. Water was deficient during the month; hence produce below average.

Jámpur Tahsíl.—Sowings in progress in riverain tract. No rain for sowings in Pachád. Except the crops watered by the Sohu and Sáhibán, the rest have dried up. Much dam age has resulted in the south of the tahsíl owing to bursting of a dam. Expected yield much below average.

Rájanpur Tahsíl.—Kharíf sowing completed. Rabi ploughings in progress. Barley and gram being sown. Condition of kharíf crops good just at present, but there has been deficient water at the tail of the Kádra and Dhundi, owing to which jowár about to dry up and rice did not mature properly. Cutting of rice in progress. Produce average.

All Tahsíls.—Cattle in good condition. Fodder sufficient except in Dera Tahsíl. Public health good. Canals now dry, except Shoria in Dera Ghází Khan Tahsíl and Kutb in Rájanpur. River fell rapidly at end of August, and beyond a slight temporary rise in middle of September the fall steadily continued. No hill torrents came down except once in Sanghar Tahsíl.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th October 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 15th October 1904, there were 1,435 births registered in the 42 large Municipal towns (738 males and 697 females), giving a birth-rate of 52 *per mille* of population, and 960 deaths were registered (462 males and 498 females), giving a death-rate of 35 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 51 against 70 in the corresponding week of the previous year, Lahore 30 against 42, Amritsar 36 against 73, and Multán 26 against 29. There were 18 deaths reported from plague in Bhiwáni, 10 in Delhi, 8 in Jhajjar, 6 in Amritsar, 5 in Palwal, 4 each in Hoshiárpur and Gujrát, 3 in Gujránwála, and 1 each in Rohtak, Shahabad and Ambála.

Deaths reported from plague during the week ending 22nd October 1904 *in the districts, including all Municipal towns.*—Jullundur 16, Hoshiárpur 37, Gurdáspur 47, Siálkot 22, Ludhiána 6, Lahore 7, Ambála 70, Amritsar 28, Gujrát 28, Gujránwála 15, Ráwalpindi 10, Shahpur 1, Karnál 7, Gurgaon 53, Hissar 35, Rohtak 28, and Delhi 6; Patiála State 129, Kapurthala State 8, and Kalsia State 1. Total for the Province 554. The return received from the district of Gujrát for the previous week shows 18 deaths from plague.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

LAHORE, THURSDAY, NOVEMBER 3, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 1st NOVEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·06 at Sadr ... 0·10 in Fatahabad 0·05 in Tohána.	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 27 seers.	Sowings in progress	Irrigated and unirrigated crops being reaped.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat, 16½ seers... Barley, 28 seers. Gram, 25¼ seers.	Sowings in progress	Reaping going on. Prospects of outturn favourable.
3	Ambála ...	0·13 in Jagádhri .. 0·08 in Naráingarh. 0·06 in Kharar. 0·17 in Rúpar. 0·18 in Kasauli.	1. Sufficient ... 2. Good.	Wheat, 18 to 18¾ seers. Gram, 27 to 28 seers. Maize, 35 seers. Barley, 24 seers. Jowár, 40 seers. Bájra, 24 to 24½ seers.	Gram sowing finished. Sowing of other crops in progress.	...
4	Jullundur ...	Slight rainfall ...	1. Sufficient ... 2. Good.	Wheat, 18½ seers Gram, 30 seers. Maize, 38 seers. Barley, 26 seers.	Ploughing and sowing continue.	Cotton-picking and maize reaping in progress. Sugarcane, cotton and maize average: others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·09 at Sadr ... 0·10 in City. 0·06 in Moga. 0·10 in Zíra.	1. Sufficient ... 2. Good.	Wheat, 19 seers ... Gram, 32½ seers. Barley, 29 seers. Jowár, 28 seers. Bájra, 23 seers. Maize, 35 seers.	Sowing of irrigated and unirrigated crops continue.	Maize, rice and jowár are being harvested. Yield is good. Condition of irrigated crops good and of unirrigated below average. Crops have entirely withered in Tahsíl Fázilka. Canal-irrigated jowár has been damaged by insects in certain villages of Fázilka Tahsíl.
6	Lahore ...	...	1. Sufficient except in parts of Tahsíl Sharakpur, where branches of trees are being used as fodder. 2. Good.	Wheat, 17 to 18 seers. Barley, 32 to 34 seers. Gram, 28 to 29 seers. Rice, 5 to 11 seers.	Ploughing and sowing in progress.	Reaping going on. Outturn average on irrigated and very bad on unirrigated lands.
7	Amritsar ...	0·20 average ...	1. Sufficient ... 2. Good.	Wheat, 20 seers ... Gram, 32 seers. Bájra, 27 seers.	Sowing continues	Rain beneficial to the standing crops. More rain is wanted. Harvesting going on. Condition of standing crops on irrigated lands good and on unirrigated average.
8	Siálkot ...	Slight rainfall in the Pasrúr, Daska and Siálkot Tahsíls.	1. Sufficient ... 2. Good.	Rice, 10 to 11 seers. Wheat, 16 to 19 seers. Gram, 26 seers. Barley, 31 seers.	Sowing continues.	Standing crops average on irrigated and bad on unirrigated lands. Picking of cotton and cutting of some autumn crops in progress. Outturn average in cháhi and very poor in baráni lands.
9	Shahpur ...	Slight rainfall at Sadr. 0·02 in Sargodha.	1. Scanty in Thal and Mohar tracts of the Khusháb Tahsíl.	Wheat, 18 to 20 seers. Gram, 30 to 31 seers. Bájra, 20 to 26 seers. Jowár, 24 to 30 seers. Maize, 22 to 26 seers. Barley, 26 to 30 seers.	Wheat and barley being largely sown; turnips and gram a little, owing to scanty moisture. Prospects below average.	Rice, bájra and cotton being harvested.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat, 17½ seers Bájra, 21 seers. Maize, 23½ seers Gram, 26 seers. Barley, 30 seers.	Sowing completed.	Crops being cut and harvested. Outturn average.
11	Miánwáli ...	...	1. Procurable ... 2. Good.	Wheat, 17½ seers Barley, 30 seers. Gram, 29 seers. Bájra, 24 seers. Jowár, 30 seers.	Crops being sown. Rats are damaging the crops.	Crops spoilt.
12	Multán ...	...	1. Sufficient except in parts of the Multán and Shujabad Tahsíls. 2. Good.	Wheat, 16¼ seers Gram, 23¼ seers. Maize, 24 seers.	Ploughing and sowing in progress.	Prospects average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Hissar, Ambála, Jullundur, Ferozepore, Amritsar, Siálkot and Shahpur Districts.

Prices.—Very slight fluctuation in the prices of food-grains. A slight rise in the price of wheat is reported from Jullundur and Siálkot only.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops in progress. Ploughing and sowing for spring crops going on except in Ráwalpindi, where it has been completed. Very little sowing of turnips and gram has taken place owing to scanty rainfall in Shahpur.

Crops and Outturn.—Condition and prospects of standing crops are good to fair on irrigated and average to poor on unirrigated lands. Outturn of autumn crops is said to be fair in Delhi, good in Ferozepore and average in Siálkot and Ráwalpindi. The outturn of unirrigated crops is very poor in Siálkot. Autumn crops have been totally spoilt in Miánwáli, as also in the unirrigated area of Fázilka Tahsíl of Ferozepore District owing to drought.

Damage done to crops.—Crops are being damaged by rats in Miánwáli. Canal-irrigated great millet has also been damaged by insects in Fázilka.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient except in parts of Lahore, Shahpur and Multán Districts.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

KASHI RAM, Supdt.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-ONE THOUSAND TWO HUNDRED AND NINTY-EIGHT births were registered in the Province during the month of September 1904, giving a birth-rate of 49 per *mille* of population. Of the total number of births, 43,039 were boys and 38,259 were girls.

The total number of deaths registered from all causes in the Province during the month of September 1904 was 45,693 against 37,270 in the previous month, and 62,300 in the corresponding month of the past year, giving an annual death-rate of 28, 22 and 38 per *mille* of population per annum, respectively.

There were 28 deaths registered under the head of cholera against 182 in the previous month, and 1,512 in the corresponding month of the past year. The total mortality from plague amounted to 491 against 231 in the previous month and 577 in the corresponding month of the past year. From small-pox 211 deaths were registered against 337 in the previous month and 559 in the corresponding month of the past year; fevers 27,918 against 21,755 and 37,825; dysentery and diarrhœa 1,141 against 873 and 1,938; respiratory diseases 3,490 against 3,264 and 4,982. During the month there were 37 deaths registered from suicide against 31 in the past month; wounding 33 against 50; accidents 384 against 649; snake-bite and killed by wild beasts 227 against 329; and from all other causes 11,733 against 9,569 in the previous month and 14,124 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 27th October 1904.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
Lahore:
The 31st October 1904.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 22nd October 1904, there were 1,553 births registered in the 42 large Municipal towns (806 males and 747 females), giving a birth-rate of 56 *per mille* of population, and 1,041 deaths were registered (507 males and 534 females), giving a death-rate of 38 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 55 against 56 in the corresponding week of the previous year, Lahore 25 against 46, Amritsar 36 against 92, and Multan 34 against 39. There were 25 deaths reported from plague in Bhiwáni, 13 in Amritsar, 6 in Delhi, 4 each in Jhajjar and Gujrát, 3 in Lahore, 2 each in Ambála, Hoshiárpur and Gujránwála, and 1 each in Rohtak and Palwal. Of the 9 deaths from small-pox, 4 were registered in Siálkot, 2 in Jhajjar, and 1 each in Bhiwáni, Ferozepore and Amritsar.

Deaths reported from plague during the week ending 29th October 1904 in the districts, including all Municipal towns.—Jullundur 15, Hoshiárpur 80, Gurdáspur 46, Siálkot 8, Ludhiána 10, Lahore 3, Ambála 75, Amritsar 52, Gujrát 36, Gujránwála 13, Ráwalpindi 8, Karnál 25, Gurgaon 161, Hissar 41, Rohtak 27, and Delhi 13 ; Patiála State 102, Kapúrthala State 27, Jínd State 4, and Kalsia State 2. No return was received from the district of Jhelum. Total for the Province 748.

KASHI RAM, SUPDT.,

for Sanitary Commissioner, Punjab.

LAHORE, THURSDAY, NOVEMBER 10, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8th NOVEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Crops being sown on wet lands.	Irrigated and unirrigated crops being harvested. Outturn of former good and of latter below average.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat, 16 seers ... Barley, 28 seers. Gram, 26 seers.	Sowings in progress.	Harvesting continues. Prospects of outturn favourable.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 28 to 30 seers. Maize, 32 to 35 seers. Barley, 25 seers. Jowár, 40 seers. Bájra, 24 seers.	Wheat sowings in progress.	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat, 18¼ seers Gram, 30½ seers. Maize, 26 seers. Barley, 26 seers.	Ploughing and sowing continue.	Cotton-picking and maize reaping in progress. Sugarcane, cotton and maize average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient ... 2. Good.	Wheat, 19 seers ... Barley, 29 seers. Gram, 31 seers. Jowár, 31 seers. Bájra, 23 seers. Maize, 26 seers.	Irrigated and unirrigated crops sown, but in Fázilka to a small extent only for want of rain. Their condition is average.	Crops being harvested. Yield of irrigated crops good and of unirrigated below average. Condition of standing irrigated crops good and unirrigated average, except in Fázilka, where they withered entirely. Irrigated jowár in Tahsíl Fázilka damaged by insects.
6	Lahore ...	...	1. Scarce in parts of Tahsíl Sharakpur, where branches and leaves of trees are being used as fodder.	Wheat, 17 to 18 seers. Barley, 30 to 31 seers. Gram, 26 to 32½ seers. Rice, 4½ to 12 seers.	Sowings continue on irrigated lands; condition average.	Reaping in progress. Outturn of irrigated crops is average. The báráni crops have nearly all been ruined.
7	Amritsar ...	...	2. Good.	Wheat, 19¼ seers. Gram, 32½ seers. Maize, 28 seers. Bájra, 26 seers.	Rain is badly wanted. Sowings continue.	Picking of cotton and chillies in progress. Harvesting of other crops going on. Condition of standing crops on irrigated land good and on unirrigated average.
8	Siálkot ...	...	1. Sufficient ... 2. Good.	Rice, 10 to 11 seers. Wheat, 16 to 19 seers. Gram, 26 seers. Barley, 30 seers.	Sowings continue. Germination of crops good on irrigated lands.	Standing crops average on irrigated and bad on unirrigated lands. Picking of cotton and harvesting of other crops in progress. Outturn average in cháhi land and very poor in báráni lands. Pressing of sugarcane commenced in Tahsíl Raya.
9	Shahpur ...	...	1. Scarce in Khusháb 2. Good.	Wheat, 18 to 20 seers. Barley, 26 to 30 seers. Gram, 28 to 32 seers. Bájra, 23 to 26 seers. Maize, 22 to 26 seers.	Sowings in progress, but prospects not good for want of rain.	Crops being harvested, but yield below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat, 17½ seers. Bájra, 21 seers. Maize, 23½ seers. Gram, 26 seers. Barley, 30 seers.	Sowings in progress	Harvesting going on. Cotton outturn average.
11	Miánwáli ...	...	1. Procurable to some extent. 2. Good.	Wheat, 17½ seers. Barley, 22 seers. Gram, 32 seers. Bájra, 25 seers. Jowár, 32 seers.	Wheat is being sown. There is insufficient moisture in báráni lands for rabi sowings.	Harvesting of irrigated crops going on. Unirrigated crops spoilt.
12	Multán ...	...	1. Sufficient except in Tahsíls Multán and Shujabad. 2. Good.	Wheat, 16¼ seers. Gram, 24¾ seers. Maize, 26 seers.	Sowings in progress.	Prospects average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Very little fluctuation in the prices of food-grains. The price of wheat is rising in Delhi and Amritsar; falling in Ambála and Jullundur only.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops in progress. Chillies are also being picked in Amritsar. Sowings of spring crops going on throughout the Province, especially on the irrigated areas, but in Tahsíl Fázilka of Ferozepore District only to a small extent for want of rain. Germination has been good on irrigated lands in Amritsar. No crops on land dependent on rain have been sown in Miánwáli. Rain is badly wanted in some districts.

Crops and Outturn.—Condition and prospects of standing irrigated crops good and of unirrigated average to below average. Pressing of sugarcane commenced in parts of Siálkot. The unirrigated crops in Lahore, Miánwáli and parts of Ferozepore have for the most part been spoilt owing to drought.

Damage done to crops.—Canal-irrigated millet has been damaged by insects in Fázilka (Ferozepore District).

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient, except in parts of Lahore, Shahpur and Multán Districts.

L. A. FRASER, Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

The feebly unsettled weather which prevailed over the Punjab, &c., during August continued during the first seven days of September when the weather, though generally fine, was showery in Kashmir and at Cherát, Murree, Ráwalpindi and Siálkot, while slight dust or thunder storms gave light rain to Delhi, Sirsa and Khusháb. Between the 8th and 11th there was no rain except a few drops in Kashmir and at Simla.

On the 12th the weather became cloudy and unsettled, probably at first indirectly and subsequently directly, due to a very important storm which developed over the Bay and thence passed along a curved course which brought it close to the south-east of the Punjab. Unsettled weather lasted from the 12th to the 19th, and during this period the north and east of the area under review received rain generally during thunderstorms. The principal amounts were 1·04″ at Siálkot, 1·02″ at Simla and 1·15″ at Sirsa reported on the 12th; 1·80″ at Ambála, 1·06″ at Pesháwar and 1·81″ at Sirsa on the 13th; 1·00″ at Ludhiána on the 14th; 6·95″ at Delhi on the 16th; 1·38″ at Delhi on the 17th; and 1·30″ at Delhi on the 18th. At Delhi the rainfall for the three days, 16th to 18th, totalled 9·63″.

When the storm filled up, which it did during the 18th, the weather cleared, and except for some local rain in Kashmir and at Cherát, Murree, Ráwalpindi, Siálkot, Khusháb and Sirsa generally on the 22nd and 23rd the weather remained fine until the close of the month.

Pressure and Winds.—The mean pressure of the month was normal at Leh and above the normal at all other stations. The excess was generally slight and uniform, and was not greater on the hills than on the plains. The winds on the mean of the month were more northerly than the average over the North-West Frontier Province and the west of the Punjab and more southerly than usual in the east.

Temperature.—The mean temperature of the month exceeded the normal at Lahore, Montgomery, Siálkot, Ráwalpindi and Multán, but was lower than usual at the remaining stations both on the hills and plains. The excess was greatest (1°·4) at Siálkot and Multán, while the deficiency amounted to 2°·9 at Murree, to 2°·8 at Leh, and to 1°·5 at Delhi and Srínagar. Both the mean maximum or day temperature and the mean minimum or night temperature were lower than usual except at Lahore, Siálkot, Ráwalpindi and Multán where both were in excess and at Ambála and Dera Ismail Khan where the mean day temperature was in excess.

The warmest place was Multán with a mean temperature of 90°·4.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 15th ...	− 1·0	99·4	Do.	" 30th ...	+ 2·6	102·2	Do.

The mean temperature of the whole area exceeded the normal between the 1st and the 3rd, the 5th and the 12th, and the 28th and the 30th, the warmest days relatively to the normal having been the 11th (+ 3°·8) and the 12th (+ 3°·2). At all other times the mean temperature was lower than usual, and on the 13th (– 4°·0), the 14th (– 4°·1), the 23rd (– 3°·8), and the 24th (– 3°·7) was very low.

The highest maximum recorded was 109°·4 at Multán on the 12th.

Humidity and Cloud.—The humidity on the mean of the month was less than usual everywhere except at Delhi and Sirsa. The cloud amount varied irregularly from the normal.

Rain.—There was actually or practically no rain during the month at Multán, Dera Ismail Khan, Montgomery and in parts of Kashmir, but elsewhere rain was received, the totals ranging from 0·49″ at Lahore to 10·15″ at Delhi. The month's rainfall was normal at Khusháb, in excess at Pesháwar, Delhi and Sirsa, and more or less in defect at all the remaining stations.

The following table gives the rainfall data for the Punjab, Kashmir and the Frontier Province stations for September 1904:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th November 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 29th October 1904, there were 1,435 births registered in the 41 large Municipal towns (744 males and 691 females), giving a birth-rate of 54 *per mille* of population, and 1,047 deaths were registered (491 males and 556 females), giving a death-rate of 39 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 59 against 54 in the corresponding week of the previous year, Lahore 29 against 47, Amritsar 40 against 105, and Multán 36 against 36. There were 13 deaths reported from plague in Delhi, 11 in Amritsar, 8 in Palwal, 7 in Ambála, 5 each in Hoshiárpur and Gujrát, 4 in Jhajjar, 3 each in Kartárpur and Gujránwála, and 2 each in Rohtak and Lahore.

Deaths reported from plague during the week ending 5th November 1904 in the districts, including all Municipal towns.—Jullundur 32, Hoshiárpur 120, Gurdáspur 32, Siálkot 11, Ludhiána 12, Lahore 6, Ambála 71, Ferozepore 5, Amritsar 77, Gujránwála 16, Ráwalpindi 31, Sháhpur 1, Karnál 20, Gurgaon 308, Hissar 67, Rohtak 90 and Delhi 7; Patiála State 111, Kapurthala State 48 and Kalsia State 2. Total for the Province 1,067.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 15th NOVEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·02 at Sadr ... 0·11 in Hánsi. 0·36 in Fatahabad.	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Sowings on wet land in progress.	Cotton being picked.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat, 16 seers ... Barley, 28 seers. Gram, 26 seers.	Sowings in progress.	Harvesting going on. Prospects of outturn favourable.
3	Ambála ...	0·05 in Kharar ...	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 28 to 30 seers. Maize, 32 to 35 seers. Barley, 25 seers. Jowár, 40 seers. Bájra, 24 seers.	Sowings in progress.	...
4	Jullundur ...	0·15 at Sadr ... 0·24 in Nakodar. 0·40 in Phillaur. 0·71 in Nawashahr.	1. Sufficient ... 2. Good.	Wheat, 19 seers ... Gram, 29¼ seers. Maize, 38 seers. Barley, 26 seers.	Ploughings and sowings continue.	Cotton-picking and maize and charri harvesting going on. Sugarcane, cotton and maize average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·32 at Sadr ... 0·70 in City. 0·77 in Zíra. 0·25 in Fázilka.	1. Sufficient ... 2. Good.	Wheat, 18 seers ... Barley, 29 seers. Gram, 33 seers. Jowár, 30 seers. Bájra, 23 seers. Maize, 36 seers.	Sowings in progress. Crops sown to small extent in unirrigated lands in Fázilka Tahsíl for want of rain. Growth of crops oo	Rainfall beneficial to standing crops. Picking of cotton and harvesting of other crops continue. Yield good.
6	Lahore ...	0·13 in Chúnián ...	1. Sufficient on irrigated areas, but scarce on bárání lands. Branches of trees are used as fodder in some villages of Tahsíl Sharakpur. 2. Good.	Wheat, 16 to 19 seers. Barley, 27 to 40 seers. Gram, 27 to 32 seers Rice, 4½ to 10 seers.	Wheat, barley, gram, turnip and sarshaf are being sown on irrigated lands.	Kharíf crops are being harvested. The condition of crops on irrigated land is average and that of crops on unirrigated lands bad.
7	Amritsar ...	0·01 average ...	1. Sufficient ... 2. Good.	Wheat, 19⅓ seers Gram. 32 seers. Maize, 28 seers. Bájra, 27 seers.	Sowings going on.	Picking of cotton and chillies and harvesting of other crops continue. Crops being matured. Condition of crops on irrigated areas good, on sailáb average, and on unirrigated below average.
8	Siálkot ...	0·27 at Sadr ...	1. Sufficient ... 2. Good.	Rice, 10 to 11 seers Wheat, 16 to 19 seers. Gram, 25 seers. Barley, 33 seers.	Sowings of wheat and barley going on Germination of crops good on irrigated and poor on unirrigated areas.	Condition of cotton and sugarcane average on irrigated and bad on unirrigated lands. Picking of cotton continues. Outturn average on cháhi and bad on bárání lands. Pressing of sugarcane in progress in places.
9	Shahpur ...	0·31	1. Scarce in parts ... 2. Suffering from scarcity of fodder in Mohr and Thal tracts.	Wheat, 18 to 19½ seers. Barley, 25 to 30 seers. Gram, 30 to 31 seers. Bájra, 23 to 26 seers. Maize, 22 to 26 seers. Jowár, 26 to 30 seers.	Wheat and barley being sown in well and canal irrigated lands and to some extent in sailáb lands. More rain needed to improve crops.	Crops being harvested. Outturn on irrigated lands average and on unirrigated below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·27 at Sadr ... 0·49 in Murree.	1. Sufficient ... 2. Good.	Wheat, 17¾ seers. Bájra, 21½ seers. Maize, 24 seers. Gram, 26 seers. Barley, 30 seers.	...	Picking of cotton and harvesting of other crops continue. Outturn average.
11	Miánwáli ...	0·02 in Leiah ...	1. Not easily procurable.	Wheat, 17½ seers. Barley, 32 seers. Gram, 32 seers. Jowár, 32 seers. Bájra, 25 seers.	Crops mostly sown in irrigated areas. Further sowings probable if it rains.	Crops being harvested. Crops on báráni lands are in bad condition.
12	Multán ...	...	1. Sufficient except in Shujabad. 2. Good.	Wheat, 16¼ seers. Gram, 24¾ seers. Maize, 26 seers.	Sowings in progress.	Prospects average.

GENERAL REMARKS.

Rainfall.—Rain has fallen in parts of Hissar, Jullundur, Ferozepore, Lahore, Siálkot, Shahpur and Ráwalpindi. A slight fall is also reported from Ambála, Amritsar and Miánwáli.

Prices.—There is not much fluctuation in the prices of food-grains. The price of wheat is rising in Ferozepore and Shahpur, and falling in Jullundur and Ráwalpindi only.

Agricultural operations.—Harvesting of autumn and sowings of spring crops continue. Cotton picking going on throughout the Province. Chillies are also being picked in Amritsar. Sowings of spring crops are practically ended on irrigated areas owing to the absence of rain. If it rains further sowing is probable. Germination has been good on irrigated lands in Ferozepore and Amritsar and bad in the unirrigated areas of the latter. Sugarcane is being pressed in parts of Siálkot.

Crops and Outturn.—Condition and prospects of irrigated autumn crops good, as also the yield. The crops on unirrigated areas are average to poor.

Agricultural stock.—Cattle are generally in good condition except in parts of Shahpur, where they are suffering from scarcity of fodder.

Pasturage.—Fodder is reported scarce in parts of Lahore, Shahpur and Multán, and is not easily procurable in Miánwáli. It is sufficient in other Districts.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th November 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 5th November 1904 there were 1,495 births registered in the 42 large Municipal towns (800 males and 695 females), giving a birth-rate of 54 *per mille* of population, and 1,101 deaths were registered (535 males and 566 females), giving a death-rate of 40 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 57 against 60 in the corresponding week of the previous year, Lahore 28 against 48, Amritsar 41 against 110, and Multán 28 against 41. There were 48 deaths reported from plague in Bhiwáni, 23 in Rohtak, 14 in Jhajjar, 10 in Amritsar, 9 in Ráwalpindi, 7 each in Delhi and Ambála, 6 in Gujránwála, 4 in Shahabad, 3 each in Lahore and Gujrát, 2 in Palwal, and 1 each in Hoshiárpur, Jullundur, Batála and Khusháb.

Deaths reported from plague during the week ending 12th November 1904 in the districts, including all Municipal towns.—Jullundur 41, Hoshiárpur 127, Gurdáspur 127, Siálkot 11, Ludhiána 24, Lahore 6, Ambála 74, Ferozepore 14, Amritsar 130, Gujrát 36, Gujránwála 46, Ráwalpindi 20, Karnál 17, Gurgaon 224, Hissar 64, Rohtak 113, Delhi 14, Montgomery 1 and Simla 3; Patiála State 192, Kapurthala State 69 and Jínd State 2. Total for the Province 1,355. Total for the corresponding week of the previous year 1,021.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 22nd NOVEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Sowings on wet land going on.	Cotton being picked.
2	Delhi ...	0·94 in Ballabgarh 0·78 in Mahrauli 0·55 at Sadr 0·41 in Sonepat.	1. Sufficient ... 2. Fair.	Wheat, 16 seers ... Barley, 28 seers. Gram, 26 seers.	Rain was beneficial. Sowings in progress.	Sugarcane ploughing has begun. Reaping of crops in progress. Prospects favourable.
3	Ambála ...	0·95 at Sadr ... 0·68 in Jagádhri. 0·50 in Naráingarh. 0·16 in Kharar. 0·40 in Rúpar.	1. Sufficient ... 2. Good.	Wheat, 18 to 19½ seers. Gram, 28 to 30 seers. Maize, 32 to 35 seers. Barley, 25 seers. Jowár, 40 seers. Bájra, 24 seers.	Wheat sowings in progress. That sown early is above ground.	...
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat, 19¼ seers. Gram, 31 seers. Maize, 38 seers. Barley, 26½ seers.	Ploughings and sowings continue.	Cotton picking and sugarcane pressing in progress. Maize average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·37 in Moga ... 0·16 in Zíra. 0·12 at Sadr. 0·42 in Muktsar. 0·19 in Fázilka.	1. Sufficient ... 2. Good.	Wheat, 18 seers. Barley, 28 seers. Gram, 33 seers. Jowár, 27 seers. Bájra, 24 seers. Maize, 34 seers.	Crops were sown on irrigated lands. Growth good.	Rainfall not general, but beneficial to standing crops. Picking of cotton and harvesting of other crops in progress. Yield on irrigated lands good, on baráni average. Hail slightly damaged crops in Tahsíl Zíra.
6	Lahore ...	0·26 in Chúnián ... 0·12 in Sharakpur.	1. Scarce. In parts of Sharakpur branches of trees are used as fodder. 2. Cattle are getting weaker.	Wheat, 16½ to 18½ seers. Barley, 27 to 30 seers. Gram, 28 to 32 seers Rice, 4½ to 12 seers.	Wheat, barley, sarshaf and sainji are being sown.	Cotton is being picked. The condition of the standing crops is average.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat, 19¼ seers. Gram, 32¼ seers. Maize, 33 seers. Bájra, 26 seers.	Sowings going on.	Picking of cotton and chillies and harvesting of other crops in progress. Condition of crops on irrigated areas good, on sailáb average, and on unirrigated below average.
8	Siálkot ...	Slight rainfall in Pasrúr and Daska.	1. Sufficient ... 2. Generally good.	Rice, 11 to 12 seers. Wheat, 16 to 19 seers. Gram, 25 seers. Barley, 33 seers.	Sowings of wheat and barley going on. Germination of crops good on irrigated and poor on unirrigated areas.	Condition of cotton and sugarcane average on irrigated and bad on unirrigated lands. Picking of cotton and pressing of sugarcane continue. Outturn average on cháhi and bad on baráni lands.
9	Shahpur ...	0·25 at Sadr ... 0·55 in Khusháb. Rainfall general all over the district.	1. Sufficient except in Thal and Mohr circles. 2. Good.	Wheat, 18 to 20 seers. Barley, 25 to 30 seers. Bájra, 22 to 27 seers. Gram, 30 to 32 seers. Maize, 22 to 24 seers. Jowár, 26 to 30 seers.	Wheat and barley sowings in progress on well and sailáb lands, and vigorously commenced in hill circle of Khusháb Tahsíl. More rain wanted.	Crops being harvested. Outturn average on irrigated and below average on unirrigated areas.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·48 in Gujar Khan 0·73 in Kahúta. 1·41 in Murree.	1. Sufficient ... 2. Good.	Wheat, 17¾ seers. Bájra, 21½ seers. Maize, 23½ seers. Gram, 26 seers. Barley, 30 seers.	Condition average	Harvesting completed. Outturn average.
11	Miánwáli ...	1·20 in Miánwáli... 0·58 in Isa Khel.	1. Not easily procurable.	Wheat, 17 seers. Barley, 30 seers. Gram, 32 seers. Jowár, 32 seers. Bájra, 23 seers.	Sowings on unirrigated lands have been taken in hand owing to fall of rain, which has also proved beneficial to crops on irrigated lands in Miánwáli.	...
12	Multán ...	0·04 in Mailsi ... 0·17 in Shujabad 0·58 in Multán. 2·34 in Kabírwála.	1. Sufficient ... 2. Generally good.	Wheat, 16¼ seers. Gram, 24¾ seers. Maize, 26 seers.	Sowings in progress.	Cotton being picked in some parts. Cotton and til crops have been partly damaged by an insect called "Mula."

GENERAL REMARKS.

Rainfall.—Rain has fallen in Delhi, Ambála, Ferozepore, Shahpur, Ráwalpindi, Miánwáli and Multán: which Lahore and Siálkót, received slight showers.

Prices.—Except a slight fall at Jullundur and Shahpur, and a slight rise at Ferozepore and Miánwáli, prices of food-grains were unchanged in the other districts.

Agricultural operations.—Harvesting of autumn and sowings of spring crops continue. Cotton picking in progress. Chillies also being picked in Amritsar. Germination has been good on irrigated lands in Ferozepore and Siálkot and bad in the unirrigated areas of the latter. Sugarcane is being pressed in most districts.

Crops and Outturn.—Condition and prospects of irrigated autumn crops good, as also the yield. The crops on unirrigated areas are average to poor. Rain has benefited the crops in Delhi and Miánwáli.

Damage done to crops.—Hail damaged the crops in Zíra Tahsíl of Ferozepore slightly. Cotton and til (sesamum indicum) crops in Multán are reported to have been damaged by an insect called "Mula".

Agricultural stock.—Cattle are generally in good condition except in Lahore.

Pasturage.—Fodder is reported scarce in parts of Lahore and Shahpur, and is not easily procurable in Miánwáli. It is sufficient in other districts.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

L. A. FRASER, Supdt.,

Office of Director of Land Records and Agriculture, Pun

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of October 1904.

1.—HISSAR DISTRICT.

There was only a slight rainfall during the month. Irrigated and unirrigated crops were being reaped. The outturn of the former was good and that of the latter below average. Rabi sowings on wet land were commenced. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Sowing of gram finished, and of wheat, sarshaf and barley commenced on nahri and cháhi lands. Wheat was also being sown on báráni lands which were not too dry. Condition of standing crops on nahri and cháhi lands good. Bájra crop was harvested; jowár was being cut and cotton picked. The outturn of jowár and pulses was very small; that of bájra average and of cotton good. Good outturn of sugarcane expected. Cattle generally in good condition. Canal water was given by turns, and there were no complaints.

3.—GURGAON DISTRICT.

There was no rainfall during the month. The first sowings of bájra have been, and the second sowings of bájra, jowár, chaula, mung and guar were being, cut. Barley, wheat and grain were sown. Carrots were watered. In the tahsíl of Rewári and Nuh the standing crops were cleared of weeds. The standing crops in Ferozepore were average and in Gurgaon, Palwal and Nuh fair. In Rewári the first sowings of bájra and cotton were fair. The *hálat fasal* of the second sowings is estimated at a 14-anna crop, while that of chaula, mung, guar and moth are bad. In tahsíl Palwal the cotton crop was good. Jowár was damaged by mist. The outturn of Gurgaon and Rewári was as follows:—In Gurgaon corn is 2½ maunds per acre on all kinds of land, and in Rewari—

	Corn.	*Fodder.*
Dhari	5 maunds per acre.	7 maunds per acre.
Báráni	3½ " "	5 " "

Condition of cattle fair. Fodder sufficient. Agra Canal not used. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

About ¾ths of the sowing (rabi 1905) completed. Condition of rabi crops good. Reaping of kharíf crops was in progress. The kharíf yield is expected to be average. The condition of cattle generally fair. There were complaints of insufficiency of supply of canal water. Stocks of food-grains and fodder were sufficient. Prices had a tendency to fall owing to anticipated favourable outturn of kharíf crops.

5.—KARNAL DISTRICT.

Wheat, barley, sarshaf and gram were being sown. Kharíf was being harvested. The expected yield is average. Crops were being irrigated both from canals and wells.

6.—AMBALA DISTRICT.

Rabi sowings in progress. Condition of crops fair. Yield of kharíf crops is expected to be fair. The condition of cattle good.

7.—SIMLA DISTRICT.

The rainfall in the Simla Tahsíl was a little below, and in the Kot Khái Tahsíl up to the average. In the Simla Tahsíl $\frac{8}{10}$ths of the expected sowings of wheat and barley have been made: in Kot Khái Tahsíl the full quantity of sowings of wheat, barley, poppy and masúr have been made. The condition of the standing crops in the Kot Khái Tahsíl was good, but in the Simla Tahsíl they were only up to the average owing to the absence of rain. The yield in the Kot Khái Tahsíl was as follows:—

Crop.	*Class of soil.*	*Maunds per acre.*
Rice.	Abi.	10
Koda.	Do.	7
Do.	Báráni.	6
Bathu.	Do.	5
Rice.	Do.	6

Cattle in good condition. Fodder and grass sufficient. Public health good. Water from hill torrents sufficient.

8.—KANGRA DISTRICT.

A small area was sown with wheat, gram and barley, &c. The condition of crops was good. The public heatth was good. There was sufficient water in the kuhls for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Rabi sowings were in p-ogress, and about ⅔rds of the expected sowings have been completed. Dofasli sowing will be less than usual owing to the aridity of the lands cropped in kharíf. Such lands received preliminary waterings where wells are available. Condition of the standing crops, *viz.*, sugarcane, cotton, &c., was average. Maize was cut and harvested. The yield on the whole was below average. Rice was being cut and harvested. The yield of sugarcane and cotton was expected to be above average. Báráni sugarcane was inferior in places. The general condition of cattle was good. Fodder sufficient. There was a sufficiency of water in the Shah Nahar and other zamíndári canals and the hill torrents, and the expected area was irrigated. There were sufficient stocks of grain with the zamíndárs and sáhúkárs in all the four tahsíls of the district.

10.—JULLUNDUR DISTRICT.

Wheat and gram sowings in progress. Crops average except chari and moth on báráni lands, which were below average. Indian corn was being reaped and cotton picked. The expected yield average. Condition of cattle good. Public health good.

11.—LUDHIANA DISTRICT.

Rabi sowings nearly completed. The condition of standing kharíf irrigated crops was good and that of unirrigated fair, except in the Jungle Circle where the báráni crops were below average. The outturn of kharíf crops expected to be average. The condition of cattle was good. Irrigation from canals satisfactory. Prices stationary.

12.—FEROZEPORE DISTRICT.

Rabi crops were sown on irrigated and unirrigated lands during the month. In Fázilka Tahsíl irrigated crops were sown to a very small extent only as rain in that tahsíl was scanty. Condition of irrigated kharíf crops was good and that of unirrigated below average, except in the Fázilka Tahsíl, where they have withered entirely for want of rain. Yield of maize, rice and jowár on being harvested was good. Cattle were generally in good condition. The Sirhind Canal was flowing during the month, and a normal area was irrigated from it. Agriculturists were generally well off. Green fodder was available. Stocks of food-grains and fodder were sufficient. Prices were stationary.

13.—MONTGOMERY.

Turnip sowings completed. Wheat and barley sowings carried on to a certain extent in well-irrigated areas. Condition of crops average. Expected yield nearly average. The condition of cattle generally good. Fodder sufficient. Public health good. Canal water dry. There is but little water in the rivers. The agriculturists are more inclined to emigrate towards the Chenab Canal where they go for work and labour.

14.—LAHORE DISTRICT.

Wheat, sarson gram, sinji and turnips were sown on irrigated lands. A small area only was sown on báráni or sailáb lands near the rivers. The condition of crops on irrigated lands was on the whole average, except where water was not sufficient at the tail of canals. The báráni kharíf crops were nearly all lost. The yield of cotton, maize and rice was about the average on irrigated lands, but such rice and other crops as had matured on unirrigated lands were much below the average. The condition of cattle near the Rávi and in the Sharakpur Tahsíl was poor. Most of the cattle at a distance from the Chenab Canal irrigated area were for a space fed on branches of kikar trees. The supply, however, being exhausted, great hardship was felt later on in those tracts. The people of the Deg Nullah have began to migrate to Kanuwál Chhamb and other places where fodder is obtainable. In the other parts fodder and bhúsa were reported to be sufficient. The distributaries ran by rotation on the Bári Doáb Canal. The Deg Nullah was dried. The inundation canals were all closed, and there having been no rain great anxiety was felt throughout the district. The prices of food grains were stationary influenced by the export trade to Europe.

15.—AMRITSAR DISTRICT.

The recent rain was beneficial to the standing kharíf crops and also for the sowing of rabi crops. Rain was badly wanted. Sowings of rabi crops in progress. The condition of crops on irrigated lands was on the whole good; that on sailáb average, and on unirrigated below normal. Outturn of kharíf crops average. Condition of cattle good. Fodder sufficient, except in Tahsíl Ajnála, where some scarcity of fodder was being felt.

16.—GURDASPUR DISTRICT.

Rabi sowings continued. Condition of crops average. The expected yield average. Condition of cattle good and fodder sufficient. Canals and rivers were flowing well.

17.—SIALKOT DISTRICT.

Rainfall insufficient and did not benefit the sowings of rabi crops. Sowing of wheat, barley, gram, turnips, rape and masar and sinji in progress. Though moistureless, sowings on báráni lands were effected in the hope of rain. The condition of standing kharíf crops, *viz.*, cotton and sugarcane, average on irrigated and bad on unirrigated lands. Germination of rabi crops good on cháhi lands. Picking of cotton and cutting of rice, maize, jowár, bájra, másh, moth and sesamum in progress. Outturn average on cháhi and very poor in báráni lands. Cattle in good condition. Fodder sufficient. Water was sufficient in Bajwát canals. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Sowings of wheat, sarshaf, gram, peas, barley and massar on irrigated and sailáb lands in progress. There were no sowings on báráni areas on account of insufficient rainfall, save in a small area in the Gujránwála Tahsíl. Crops on báráni bad, on cháhi and nahri average. Insects damaged the sugarcane in the Khángah Dográn Tahsíl. Yield of makki 6 maunds per acre, rice 20 maunds, cotton 4 maunds; the other crops were average. Fodder insufficient, and cattle suffered in consequence. No complaints about water-supply.

19.—GUJRAT DISTRICT.

Sowings of rabi crops on well-irrigated lands and to some extent on sailáb lands were in progress. There was little or no moisture in báráni lands to admit of sowings Rain was badly needed. Germination of rabi crops and the condition of standing crops on irrigated and sailáb lands was fair, but generally bad on báráni lands. Cotton was being picked and other kharíf crops were being harvested and threshed. The outturn of crops on irrigated and sailáb lands was fair, but that on báráni lands generally bad. Cattle in good condition. Fodder is, however, decreasing. Public health generally good. No floods. Prices slightly falling.

20.—SHAHPUR DISTRICT.

Area of rabi crop was small owing to want of sufficient rain. Wheat and barley sowings have been $\frac{1}{4}$th and of grain $\frac{1}{10}$th in Ara and $\frac{1}{20}$th in Thal of the average. Land was being broken up for the wheat crop in the colony area. The condition of kharif crop was very bad except in the colony area in Tahsíls Shahpur and Bhera, where it was good. In the Thal Circle of Khusháb Tahsíl bájra, moth and water-melons withered completely. Toria crop fair. Cotton was being picked: outturn being better by 25 per cent. Outturn of moth was only $\frac{1}{16}$th, but china and kangni gave a full yield. Fodder was scarce in Thal of the Khusháb Tahsíl, and people emigrated to the canal colony. Want of fodder is being felt in the canal colony also. Public health good. Canals did not run during the month, and irrigation was not available; crops suffered in consequence. The zamíndárs appear to have neglected to take sufficient advantage of the water when the canals were running. Prices generally have remained stationary. Prices of gram fell, while that of cotton rose.

21.—JHELUM DISTRICT.

Rabi crops sown on irrigated and unirrigated lands, and generally on báráni lands in expectation of rain, which is badly needed. Condition of kharíf crops was good on irrigated lands and above average generally on báráni lands. Kharif crops were reaped and threshed. The yield of múng, moth, másh and cotton was good, but that of other cereals was below average. Fodder was sufficient. Prices rising.

22.—RAWALPINDI DISTRICT.

Kharíf crops were reaped during the month, and rabi crops such as wheat, barley, gram and sarshaf sown. Condition of rabi crops average. Expected yield average. Cattle are in good condition.

23.—ATTOCK DISTRICT.

The kharíf crops have practically been harvested. Rabi sowings, though in progress, were somewhat retarded by lack of rain. The kharíf harvest was up to the average all over the district except in Talagang, where it was a little below. The expected yield is average. The cattle were in good condition. Public health good.

24.—MIANWALI DISTRICT.

Mianwali aud Isa Khel Tahsils—Sowings were in progress for the rabi crops. The condition of kharif crops was bad owing to want of rain and appearance of rats. The yield will be below normal except on cháhi lands. Fodder sufficient at present, but scarcity is expected. Public health good. No flood in the river. A very considerable portion of the kharíf crop has dried up for want of rain.

Bhakkar and Leiah Tahsils.—Rabi crops, barley, gram and pea were cultivated. Wheat is being sown. Kharif crops bad owing to drought. In irrigated tracts average yield expected; in unirrigated tracts the yield depending on rain is uncertain. Public health was good. In Leiah Tahsíl irrigation carried on from natural streams. Nothing untoward to record. Prices steady.

25.—JHANG DISTRICT.

Gram, turnips, barley and wheat sowings in progress. Cháhi and canal crops fair; báráni poor. Jowár, bájra, maize and cotton crops being gathered; yield average. The condition of cattle generally good. The state of public health good. Canals flowing; no inundation.

26.—MULTAN DISTRICT.

Rabi sowings in progress. The condition of crops, except til and jowár, below average. Til being cut, and cotton crop being picked. The expected yield below average. The condition of cattle good. Canals dry except Sardárwah and Muhammadwah of the Lower Sutlej Series.

27.—MUZAFFARGARH DISTRICT.

Alípur.—No sowing except wheat. The condition of crops average. The expected yield average. The canals were dried up. Food and fodder sufficient.

Muzaffargarh.—No sowings except gram and peas. The condition of crops below average. The expected yield below average. Canals stopped except Dingah and Suk which were flowing nominally. Food and fodder not sufficient; only bhúsa can be had.

Sanáwan.—No sowings except wheat, turnips and peas. The condition of crops average. The expected yield below average. The canals were dried up. Food and fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sanghar.—Two-thirds of the sowing over. Kharíf generally scanty, and crops below average. Probably the worst kharíf in most villages for many years. Expected yield is perhaps 8 annas over whole tahsíl; crops good in a few saraba villages on Sanghar torrent; bad everywhere else. Canals and torrents dry except Kálápáni. Scarcity of fodder beginning to be felt.

Dera Ghási Khan.—Wheat being sown; gram sowing over. No sowings in Pachádh for want of rain. Good on Shoria and Sohan. Cotton average to good. The Pachádh had practically no crops, and crops suffered on most canals from deficient supply at end of the season. Total yield can hardly exceed 8 annas. Cotton pods forming well. Indigo has done well. Canals dry all, except Sohan. Fodder scarce in Pachádh.

Jámpur.—Sowings nearly done. Condition of jowár and bájra (the little there is) in Pachádh up to date good. Rice a 4-anna crop; jowár and bajra 8-anna; cotton 14-anna. A little water in Sohan. Fodder deficient in Pachádh.

Rájanpur.—Half sowing completed. Sowings on sailáb lands will be large, as sailáb has been good this year. Kutab Canal has also been flowing, and the people are sowing an extensive rabi. All Rodkohi villages are uncultivated for want of rain. Rice reduced below average for want of water. Jowár 8 annas, rice 8 annas. Such crops as there were in good condition, except where rice had suffered for want of water, but there are no Pachádh crops. Kutab Canal was working. Til crop injured by adverse wind and by rats.

L. A FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

* Under inquiry.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd November 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 12th November 1904 there were 1,518 births registered in the 42 large Municipal towns (790 males and 728 females), giving a birth-rate of 55 *per mille* of population, and 1,143 deaths were registered (565 males and 578 females), giving a death-rate of 42 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 51 against 59 in the corresponding week of the previous year, Lahore 28 against 63, Amritsar 41 against 102, and Multán 26 against 40. There were 55 deaths reported from plague in Bhiwáni, 52 in Rohtak, 15 in Jh[illegible]r, 14 in Delhi, 11 in Amritsar, 5 each in Palwal and Shahabad, 3 each in Ambála, Hoshiárpur, Gujránwála and Gujrát, 2 each in Lahore and Ráwalpindi, and 1 each in Pánipat, Tánda Urmar and Batála. Of the 17 deaths from small-pox, 10 were registered in Siálkot, 3 in Amritsar and 1 each in Bhiwáni, Delhi, Lahore and Multán.

Deaths reported from plague during the week ending 19th November 1904 in the districts, including all Municipal towns.—Jullundur 57, Hoshiárpur 124, Gurdáspur 91, Siálkot 9, Ludhiána 21, Ambála 131, Ferozepore 36, Amritsar 177, Gujrát 51, Gujránwála 29, Ráwalpindi 27, Karnál 35, Gurgaon 247, Hissar 99, Rohtak 130, Delhi 9, Montgomery 1 and Kángra 3; Patiála State 76, Kapurthala State 128, Jínd State 2 and Nábha State 16. No return was received from the district of Lahore. Total for the Province 1,489. Total for the corresponding week of the previous year 1,154. The return received from the Nábha State for the previous week shows 16 deaths from plague.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, DECEMBER 1, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 29TH NOVEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0.04 at Sadr ... 0.05 in Fatahabad. 0.22 in Tohána.	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Sowings on wet land going on.	Cotton being picked.
2	Delhi ...	...	1. Sufficient ... 2. Fair.	Wheat, 16 seers ... Barley, 27 seers. Gram, 24½ seers.	Sowings almost finished. Crops in good condition. Prospects favourable.	Reaping over. Cotton-picking and sugarcane-pressing going on.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 28 to 30 seers. Barley, 25 seers. Maize, 32 to 35 seers. Jowár, 40 seers. Bájra, 24 seers.	Sowings in progress.	Outturn good. Cotton being picked.
4	Jullundur ...	...	1. Sufficient ... 2. Good.	Wheat, 18¾ seers. Barley, 27 seers. Gram, 32 seers. Maize, 38 seers.	Sowings continue...	Cotton-picking, maize-threshing and sugarcane-pressing in progress. Outturn of maize and cotton average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·25 in Muktsar ... 0·11 in Fázilka. 0·47 in Jalálabad.	1. Sufficient, but green fodder not available. 2. Good.	Wheat, 19 seers. Barley, 28 seers. Gram, 33 seers. Jowár, 27 seers. Bájra, 24 seers. Maize, 34 seers.	Crops sown on irrigated lands. Growth of rabi crops good.	Picking of cotton and harvesting of other crops nearly finished. Yield on irrigated area good; on baráni below average.
6	Lahore ...	0·06 at Sadr ... 0·05 in Chúnián. 0·20 in Sharakpur.	1. Scarce throughout the district. In parts branches of trees are used as fodder. 2. Good.	Wheat, 16½ to 17½ seers. Barley, 32 to 34 seers. Gram, 28 to 29 seers. Rice, 4 to 11 seers.	Sowings continue. Seven stacks of bhúsa were destroyed by fire in Tahsíl Kasúr.	Cotton is being picked. Condition average.
7	Amritsar ...	0·07 average ...	1. Sufficient ... 2. Good.	Wheat, 18¾ seers. Gram, 32 seers. Maize, 33 seers. Bájra, 26 seers.	Sowings in progress Crops not sown on baráni lands for want of rain.	Picking of chillies and cotton continue. Harvesting of other crops going on. Outturn average.
8	Siálkot ...	Slight rainfall in Siálkot, Pasrúr and Daska.	1. Insufficient ... 2. Good.	Rice, 11 to 12 seers. Wheat 16 to 19 seers. Gram, 26 seers. Barley, 31 seers.	Sowings of wheat and barley going on.	Condition of cotton and sugarcane average on irrigated, and poor on unirrigated, areas. Picking of cotton and pressing of sugarcane continue. Outturn average on cháhi and bad on baráni lands.
9	Shahpur ...	0·18 all over the district.	1. Scarce in Thal and Mohr Circles of Khusháb. 2. Good.	Wheat, 18 to 20 seers. Barley, 26 to 30 seers. Bájra, 24 to 26 seers. Gram, 30 to 32 seers. Maize, 22 to 26 seers. Jowár, 26 to 30 seers.	Wheat and barley sowings continue on irrigated areas and where moisture exists. More rain wanted.	Crops being gathered. Outturn average on irrigated and below average on unirrigated lands.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	0·34 at Sadr ...	1. Sufficient ... 2. Good.	Wheat, 17¾ seers... Bájra, 21½ seers. Maize, 23 seers. Gram, 26½ seers. Barley, 30 seers.	Condition average	...
11	Miánwáli ...	0·02 in Bhakkar ...	1. Scarce in Thal tracts. 2. Good.	Wheat, 17 seers ... Barley, 20 seers. Gram, 32 seers. Bájra, 23 seers. Jowár, 32 seers.	Owing to rainfall the condition of crops on irrigated lands has improved, and sowings on sandy tracts of Miánwáli Tahsíl have been taken in hand.	Hailstones fell in northern parts of Leiah Tahsíl and caused some damage to standing crops.
12	Multán ...	...	1. Sufficient, except in Shujabad. 2. Good.	Wheat, 16¼ seers Gram, 24¾ seers. Maize, 26 seers.	Sowings in progress.	Cotton being picked in parts. Sesamum crops have been partly damaged by insects called "Mula."

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in Shahpur and parts of Hissar, Ferozepore, Lahore, Amritsar, Siálkot, Ráwalpindi and Miánwáli Districts.

Prices.—Except for a slight rise in the price of wheat in Jullundur, Lahore and Amritsar and a slight fall in Ferozepore there has been very little fluctuation in the prices of other food-grains in the Punjab.

Agricultural operations.—Harvesting of autumn crops continue in most districts. Cotton-picking and sugarcane-pressing still in progress. Chillies are also being picked in Amritsar. Sowings of spring crops continue, especially on irrigated areas. Growth of crops has been good in Ferozepore. Rain wanted.

Crops and outturn.—Outturn of irrigated autumn crops is on the whole about average, except in Ferozepore, where it is said to be good, while that of unirrigated is below average or poor. Recent rain has benefited the irrigated spring crops to a slight extent.

Damage done to crops.—Standing crops have been damaged by hail in parts of Miánwáli District, and the sesamum crop in parts of the Multán District by an insect called "Mula".

Agricultural stock.—Cattle are on the whole in good condition.

Pasturage.—Fodder sufficient except in Lahore, Siálkot and parts of Shahpur, Miánwáli and Multán. Green fodder is not available in Ferozepore, and in certain villages of Lahore branches of trees are used as fodder.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

NINETY-ONE THOUSAND THREE HUNDRED AND SEVENTY-FOUR births were registered in the Province during the month of October 1904, giving a birth-rate of 54 per *mille* of population. Of the total number of births, 47,763 were boys and 43,611 were girls.

The total number of deaths registered from all causes in the Province during the month of October 1904 was 56,773 against 45,693 in the previous month and 87,177 in the corresponding month of the past year, giving an annual death-rate of 33, 28 and 51 per *mille* of population per annum, respectively.

There was not a single death registered under the head of cholera. The total mortality from plague amounted to 2,117 against 491 in the previous month, and 2,016 in the corresponding month of the past year. From small-pox 171 deaths were registered against 211 in the previous month and 376 in the corresponding month of the past year; fevers 34,894 against 27,918 and 59,768; dysentery and diarrhœa 1,323 against 1,141 and 2,116; respiratory diseases 4,039 against 3,490 and 5,991. During the month there were 29 deaths registered from suicide against 37 in the past month; wounding 37 against 33; accidents 274 against 384; snake-bite and killed by wild beasts 122 against 227; and from all other causes 13,767 against 11,733 in the previous month and 15,971 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th November 1904.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th November 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 19th November 1904, there were 1,552 births registered in the 42 large Municipal towns (801 males and 751 females), giving a birth-rate of 56 *per mille* of population, and 1,241 deaths were registered (629 males and 612 females), giving a death-rate of 45 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 56 against 61 in the corresponding week of the previous year, Lahore 39 against 49, Amritsar 38 against 100, and Multán 38 against 36. There were 98 deaths reported from plague in Bhiwáni, 58 in Rohtak, 27 in Jhajjar, 14 in Shahabad, 11 in Amritsar, 10 in Rewári, 9 in Delhi, 8 in Palwal, 5 in Gujránwála, 3 each in Ambála and Hoshiárpur, 2 each in Karnál, Ferozepore, Lahore, Gujrát and Ráwalpindi, 1 each in Hissar, Tánda Urmar and Batála. Of the 9 deaths from small-pox, 7 were registered in Siálkot, and 2 in Amritsar.

Deaths reported from plague during the week ending 26th November 1904 in the districts, including all Municipal towns.—Jullundur 110, Hoshiárpur 112, Gurdáspur 94, Siálkot 19, Ludhiána 31, Ambála 164, Ferozepore 38, Amritsar 208, Gujrát 44, Jhang 4, Gujránwála 96, Ráwalpindi 14, Shahpur 2, Karnál 39, Gurgaon 361, Hissar 126, Rohtak 119, Delhi 7, and Montgomery 11; Patiála State 323, Kapurthala State 125, Jínd State 3 and Nábha State 31. No return was received from the district of Lahore. Total for the Province 2,081. Total for the corresponding week of the previous year 1,223. The return received from the district of Lahore for the previous week shows 11 deaths from plague.

KASHI RAM, SUPDT.,

LAHORE, THURSDAY, DECEMBER 8, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 6TH DECEMBER 1904.

[Twelve out of 28 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Sowings in progress on irrigated land.	Cotton being picked.
2	Delhi ...	...	1. Sufficient ... 2. Good.	Wheat, 16 seers .. Barley, 26 seers. Gram, 25½ seers.	Sowings completed Crops in good condition. Prospects favourable.	Cotton picking and sugarcane pressing in progress.
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 28 to 29 seers. Maize, 32 seers. Barley, 21 seers. Jowár, 40 seers. Bájra, 20 seers.	Sowings finished Poppy sowings in progress.	Cotton being picked.
4	Jullundur ...	...	1. Dry fodder sufficient. 2. Good.	Wheat, 18¾ seers. Barley, 27 seers. Gram, 32 seers. Maize, 38 seers.	Sowings in progress.	Cotton picking, maize threshing and sugarcane pressing continue. Maize, cotton, and sugarcane average; others below average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient. Green not available. 2. Good.	Wheat, 18 seers. Barley, 28 seers. Gram, 33 seers. Jowár, 2 seers. Bájra, 24 seers. Maize, 35 seers.	Sowings nearly finished. Condition of crops good.	Harvesting over. Yield on irrigated land good; on báráni below average.
6	Lahore ...	0·02 in Chúnián.	1. Sufficient on irrigated lands and scarce elsewhere. 2. Good.	Wheat, 17½ to 19 seers. Barley, 30 to 34 seers. Gram, 28½ to 29½ seers.	Wheat, barley and senji are being sown.	Crops are being removed from threshing floor. Condition of standing crops average.
7	Amritsar ...	...	1. Sufficient ... 2. Good.	Wheat, 18¼ seers. Gram, 32 seers. Maize, 32 seers. Bájra, 26 seers.	Rain badly wanted. Sowings of senji (fodder) going on	Cotton and chillies picking continue. Harvesting of toria in progress in parts. Outturn of crops average.
8	Siálkot ...	Slight rainfall in Pasrúr and Daska.	1. Insufficient ... 2. Good.	Rice, 11 to 12 seers. Wheat 17 to 19 seers. Gram, 26 seers. Barley, 31 seers. Maize, 26 seers.	Sowings of wheat and barley going on.	Condition of standing crops average on irrigated and poor on unirrigated areas. Picking of cotton and pressing of sugarcane continue. Outturn average in cháhi and bad in báráni lands.
9	Shahpur ...	...	1. Scarce in Thal, Mohar and hill circles of Khusháb Tahsil. 2. Good.	Wheat, 18 to 20 seers. Barley, 25 to 30 seers. Gram, 30 to 32 seers. Bájra, 25 to 26 seers. Jowár, 26 seers. Maize, 23 to 24 seers.	Wheat and barley sowings continue on irrigated lands. More rain wanted.	Cotton being picked. Outturn above average on irrigated areas and below average on unirrigated lands.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat 18 seers ... Bájra 22 seers Maize, 22½ seers Gram, 26¼ seers. Barley, 32 seers.	Condition of crops average.	...
11	Miánwáli ...	...	1. Scarce in parts ... 2. Good.	Wheat, 18 seers Barley, 31 seers Gram 34 seers Bájra, 24 seers. Jowár, 35 seers.	Sowings over. Condition of crops average.	Harvesting finished.
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat, 16¼ seers Gram, 25 seers. Maize, 30 seers.	Sowings in progress.	Prospects average.

GENERAL REMARKS.

Rainfall.—A slight rainfall is reported from parts of Lahore and Siálkot Districts only.

Prices.—There has been a slight rise in the price of wheat in Ferozepore and a fall in Ráwalpindi and Miánwáli only, otherwise there is very little fluctuation in the prices of food-grains.

Agricultural operations.—Cotton picking, sugarcane pressing and spring crops sowings continue in most districts. Harvesting of other autumn crops is nearly over. Poppy sowing is going on in Ambála. Chillies are also being picked in Amritsar. More rain is badly wanted in most districts, especially for spring crops.

Crops and outturn.—Condition of standing crops is good to average. Outturn of irrigated autumn crops is average on the whole, but that of unirrigated is below average or poor.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder is said to be sufficient in all districts except in Siálkot and parts of Lahore, Shahpur and Miánwáli. Green fodder is not available in Ferozepore.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

At the commencement of the month of October the weather was disturbed over the North-West Himalayas, and showers were reported on the 1st and 2nd from Kashmír, Murree, Ráwalpindi, Cherát and Siálkot. At Murree and at some Kashmír stations the rainfall exceeded 1·00″ in 24 hours. By the morning of the 3rd the weather had cleared and remained fine until the 6th, when slight cloud appeared. The cloud amount increased during the next two days, and on the 9th showers were reported from Cherát, Ráwalpindi, Murree and some Kashmír stations. On the 10th the weather became fine and so continued till the 13th. On the 14th slight cloud again appeared, and between the 15th and 17th the weather was cloudy and showery, rain falling in Kashmír and at Pesháwar, Murree, Simla, Ludhiána, Lahore and Sirsa. Fine weather re-appeared on the 18th and continued till the 22nd. On the 23rd clouds were reported from the Kashmír Himalayas, and showers fell in Kashmír on the 24th, 25th and 26th, though the weather remained fine over the Punjab. On the 27th cloud extended to the plains, showers continuing in Kashmír during the 27th and 28th, and on the 29th and 30th rain extended to Simla, Ambála, Siálkot, Cherát and Pesháwar. On the 31st the weather cleared again over the Punjab plains.

Pressure and Winds.—The barometric pressure on the mean of the month was approximately normal at most stations. The wind varied irregularly from the average. It was more westerly than usual at Delhi, more southerly than usual at Sirsa, Ambála, Ludhiána and Lahore, and more northerly and easterly than usual at the more western stations.

Temperature.—The mean temperature of the month exceeded the normal at all the plains stations, except Delhi, but was generally below the normal on the hills. The largest departures from the average were + 3°·0 at Siálkot and − 3°·4 at Murree. The mean maximum or day temperature was below, and the mean minimum or night temperature above, the normal at the majority of stations.

The warmest place was Multán with a mean temperature of 81°·8. At Sonemarg (elevation 8,764 feet) and Drás (10,059 feet) the mean minimum temperature of the month was below freezing point.

The following table shows the departures from the normal of the mean temperature of the Province on each day of the month and the highest maximum temperature registered with the name of the station recording it :—

Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

				" 31st ...	− 0·4	90·3	Sirsa.

The mean temperature of the whole area was below the normal on the 3rd (− 1°·4) and 4th (− 0°·2), following the disturbed showery weather of the commencement of the month; from the 17th to the 23rd, following the disturbed weather of the middle of the month; and on the 31st. On all other days the mean temperature of the whole area was higher than usual, the excess having been most marked on the 7th (+ 4°·4), the 8th (+ 4°·5); the 27th (+ 3°·2), and the 28th (+ 3°·6).

The highest temperature registered during the month was 105°·4 at Multán on the 8th.

Humidity and Cloud.—The mean humidity was in some excess at Delhi, Sirsa, Lahore, Khusháb, Pesháwar and Murree. The cloud amount was normal or in trifling excess.

Rain.—There was no rain during the month of October at Multán, Dera Ismail Khan, Khusháb, Leh, Montgomery and Delhi, and less than 0·10″ at Lahore and Ambála. From these areas of light rainfall the amount increased and exceeded 1·00″ at Murree, Drás and Cherát and 3·00″ at Srinagar and Sonemarg. The actual rainfall exceeded the normal at Pesháwar, Cherát, Murree, Siálkot, Ludhiána, Simla and Sirsa, and at the Kashmír stations. Elsewhere it was lighter than usual.

The following table gives the rainfall data for the Punjab, Kashmír and the Frontier Province stations for October 1904:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 6th December 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 26th November 1904, there were 1,426 births registered in the 42 large Municipal towns (672 males and 754 females), giving a birth-rate of 52 *per mille* of population, and 1,239 deaths were registered (624 males and 615 females), giving a death-rate of 45 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 60 against 53 in the corresponding week of the previous year, Lahore 36 against 54, Amritsar 34 against 105, and Multán 27 against 50. There were 114 deaths reported from plague in Bhiwáni, 49 in Rohtak, 27 in Jhajjar, 14 in Ambála, 11 each in Palwal and Lahore, 10 each in Amritsar and Gujránwála, 6 each in Rewári and Delhi, 5 each in Shahabad and Hoshiárpur, and 1 each in Karnál, Tánda Urmar, Khusháb and Chiníot. Of the 14 deaths from small-pox, 5 were registered in Siálkot, 4 in Amritsar, 3 in Bhiwáni, and 1 each in Ferozepore and Lahore.

Deaths reported from plague during the week ending 3rd December 1904 in the districts, including all Municipal towns.—Jullundur 155, Hoshiárpur 132, Gurdáspur 67, Siálkot 15, Ludhiána 58, Lahore 17, Ambála 178, Ferozepore 33, Amritsar 224, Gujrát 37, Gujránwála 95, Ráwalpindi 9, Karnál 75, Gurgaon 596, Hissar 186, Rohtak 135, and Delhi 8; Patiála State 200, Kapurthala State 165, Jínd State 6, and Nábha State 36. Total for the Province 2,427. Total for the corresponding week of the previous year 1,674. The return received from the district of Lahore for the previous week shows 19 deaths from plague.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, DECEMBER 15, 1904.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 13TH DECEMBER 1904.

[Twelve out of 29 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Rain urgently wanted for sowing on dry land. Sowings on irrigated and nearly completed.	...
2	Delhi ...	...	1. Sufficient ... 2. Good.	Wheat, 16 seers .. Barley, 27 seers. Gram, 25 seers.	Crops in good condition. Prospects favourable so far.	...
3	Ambála ...	...	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 28 to 29 seers. Barley, 21 seers. Maize, 32 seers. Jowár, 40 seers. Bájra, 20 seers.	Poppy sowings in progress. Standing crops fair.	Sugarcane pressing commenced.
4	Jullundur ...	Slight rainfall ...	1. Sufficient ... 2. Good.	Wheat, 19 seers ... Gram, 30½ seers. Barley, 26 seers. Maize, 32 seers.	Sowings finished...	Cotton picking and sugarcane pressing in progress. Outturn of sugarcane good, that of cotton average.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	...	1. Sufficient. Green fodder not available. 2. Good.	Wheat, 18 seers. Barley, 28 seers. Gram, 33 seers. Jowár, 28 seers. Bájra, 24 seers. Maize, 35 seers.	Sowings nearly finished. Condition of standing crops good.	...
6	Lahore ...	...	1. Sufficient on irrigated lands and scarce elsewhere. 2. Good.	Wheat, 16½ to 18½ seers. Barley, 32 to 34 seers. Gram, 28 to 29 seers.	Wheat, barley, &c., are being sown. The condition of standing crops is average.	...
7	Amritsar ...	0·03 average ...	1. Sufficient ... 2. Good.	Wheat, 18⅓ seers. Gram, 32 seers. Maize, 29 seers. Bájra, 25 seers.	Sowings of senji fodder in progress.	Picking of cotton and chillies, pressing of sugarcane and harvesting of toria in progress. Outturn of crops average.
8	Siálkot ...	...	1. Insufficient ... 2. Good.	Rice, 10½ to 11½ seers. Wheat 16½ to 19 seers. Gram, 25½ seers. Barley, 32 seers. Maize, 26 seers.	Rain badly wanted. Sowings of wheat continue in irrigated lands. Condition of standing crops average on irrigated, and poor on unirrigated areas.	Picking of cotton and pressing of sugarcane continue. Outturn average in cháhi and bad in baráni lands.
9	Shahpur ...	...	1. Available except in Mohar, Thal and hill circles of Khusháb Tahsíl. 2. Good.	Wheat, 18 to 19½ seers. Barley, 30 seers. Bájra, 25 to 26 seers. Gram, 30 to 32 seers. Maize, 22 to 23 seers. Jowár, 26 seers.	Sowings continue on well irrigated lands. Rain wanted.	Cotton being picked. Outturn ab[illegible] average on irrigate[illegible] and below average on unirrigated lands.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
20	Ráwalpindi ...	0·16 at Ráwalpindi	1. Sufficient ... 2. Good.	Wheat, 18 seers ... Bájra 22 seers Maize, 22¾ seers Gram, 26¼ seers. Barley, 32 seers.	Condition of crops average.	...
21	Miánwáli ...	...	1. Scarce in Thal ... 2. Good.	Wheat, 18 seers ... Barley, 30 seers. Gram, 34 seers. Bájra, 24 seers. Jowár, 35 seers.	Condition of standing crops average in irrigated and below average in unirrigated areas.	...
22	Multán ...	...	1. Sufficient ... 2. Good.	Wheat, 16¼ seers ... Gram, 25 seers. Maize, 30 seers.	Sowings in progress.	Prospects average. Turnips are being damaged by tela in some parts of Multán Tahsíl.

GENERAL REMARKS.

Rainfall.—Slight rainfall in parts of Jullundur, Amritsar and Ráwalpindi.

Prices.—Except a slight fall in Jullundur, Lahore and Amritsar the price of wheat is unchanged. The prices of other food grains show very little fluctuation.

Agricultural operations.—Cotton picking and sugarcane pressing continue, as also picking of chillies and harvesting of toria (brassica campestris) in Amritsar. Sowing of wheat nearly finished except in Lahore, Siálkot and Multán. Poppy sowings in progress in Ambála. Rain is badly wanted for further sowings, especially on dry lands.

Crops and outturn.—Condition and prospect of standing crops are on the whole good. Outturn of autumn crops is average on irrigated and below average to poor on unirrigated areas.

Damage done to crops.—Turnips are being damaged by tela (insect) in parts of Multán.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts except Siálkot and parts of Lahore, Shahpur and Miánwáli. Green fodder is not available in Ferozepore.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 13th December 1904.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 3rd December 1904 there were 1,317 births registered in the 42 large Municipal towns (685 males and 632 females), giving a birth-rate of 48 *per mille* of population, and 1,274 deaths were registered (625 males and 649 females), giving a death-rate of 46 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 47 against 55 in the corresponding week of the previous year, Lahore 33 against 41, Amritsar 43 against 99, and Multán 27 against 33. There were 130 deaths reported from plague in Bhiwáni, 73 in Rohtak, 26 in Jhajjar, 17 in Rewári, 13 in Gujránwála, 11 each in Sirsa and Amritsar, 9 in Shahabad, 7 each in Ambála and Lahore, 6 in Palwal, 5 each in Delhi and Hoshiárpur, 3 in Tánda Urmar, 2 each in Karnál, Jagádhri, Jullundur and Gujrát, and 1 in Khusháb. Of the 26 deaths from small-pox, 18 were registered in Siálkot, 5 in Amritsar, 2 in Ambála, and 1 in Jhajjar.

Deaths reported from plague during the week ending 10th December 1904 in the districts, including all Municipal towns.—Jullundur 162, Hoshiárpur 166, Gurdáspur 212, Lahore 27, Ambála 216, Ferozepore 49, Amritsar 245, Gujrát 26, Jhang 1, Gujránwála 97, Ráwalpindi 11, Shahpur 3, Karnál 52, Gurgaon 729, Hissar 177, Rohtak 149, Jhelum 5, Delhi 18 and Montgomery 1; Patiála State 196, Kapurthala State 151, Jínd State 9, and Nábha State 23. Total for the Province 2,725. Total for the corresponding week of the previous year 1,541.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

[Twelve out of 29 districts are dealt with.]

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·87 at Sadr ... 1·4 in Hánsi. 1·55 in Bhiwáni. 0·14 in Budhláda. 0·12 in Fatahabad. 0·07 in Tohána. 0·5 in Sirsa.	1. Sufficient ... 2. Good.	Wheat, 17 seers ... Bájra, 25 seers. Gram, 28 seers.	Rainfall proved beneficial to standing crops. Sowings on wet and dry land completed.	...
2	Delhi ...	1·01 at Sadr ... 0·70 in Ballabgarh. 1·06 in Mahrauli. 0·91 in Sonepat.	1. Sufficient ... 2. Good.	Wheat, 16 seers .. Barley, 28 seers. Gram, 25 seers.	Recent rain beneficial to standing crops. Prospects of outturn are favourable.	...
3	Ambála ...	1·31 at Sadr ... 1·34 in Naráingarh. 1·48 in Kharar. 1·00 in Rúpar. 1·47 in Kasauli.	1. Sufficient ... 2. Good.	Wheat, 18½ to 19½ seers. Gram, 29 to 30 seers. Maize, 32 seers. Barley, 23 seers. Jowár, 24 seers. Bájra, 20 seers.	Standing crops in good condition. Recent rain, which was well distributed was beneficial to crops. Barley and masúr being sown in parts.	Sugarcane being pressed.
4	Jullundur ...	2·37 at Sadr ... 1·45 in Nakodar. 1·50 in Phillaur. 0·88 in Nawashahr.	1. Sufficient ... 2. Good.	Wheat, 19 seers ... Gram, 31 seers. Barley, 26½ seers. Maize, 32 seers.	Prospects good ...	Cotton picking and sugarcane pressing in progress.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ferozepore ...	0·05 at Sadr ... 0·12 in City. 1·16 in Moga. 0·60 in Zíra 0·07 in Muktsar. 0·14 in Fázilka. 0·99 in Natháńa. 0·12 in Jalálabad.	1. Sufficient. Green fodder not available.	Wheat, 18 seers ... Barley, 29 seers. Gram, 33½ seers. Jowár, 30 seers. Bájra, 22 seers. Maize, 35 seers.	Sowings nearly finished. Condition of standing crops good. Rats slightly damaged crops in Fázilka Tahsíl.	...
6	Lahore ...	0·09 in Chunián ... 0·19 in Kasúr.	1. Sufficient on irrigated land, but scarce elsewhere.	Wheat, 16 to 19 seers. Barley, 32 to 34 seers. Gram, 28 to 29 seers.	Sowings continue. Condition of standing crops average.	...
7	Amritsar ...	0·69 average ...	1. Sufficient ... 2. Good.	Wheat, 18½ seers. Gram, 32½ seers. Maize, 29 seers. Bájra, 24½ seers.	Senji (fodder) is being sown. Crops good on irrigated and average on unirrigated lands.	Picking of cotton and chillies, in progress. Pressing of sugarcane and harvesting of toria going on. Outturn average.
8	Siálkot ...	0·14 at Sadr ... 0·75 in Zafarwál. 0·03 in Pasrúr. 0·15 in Raya. 0·41 in Daska.	1. Insufficient. Sugar-cane being grazed instead. 2. Good.	Rice, 10½ to 11½ seers. Wheat 16½ to 19 seers. Gram, 25½ seers. Barley, 32 seers. Maize, 26 seers.	Sowings nearly finished. Condition of crops average on irrigated, and poor on unirrigated areas.	Picking of cotton and pressing of sugarcane continue. Outturn average in cháhi' and bad in baráni lands.
9	Shahpur ...	0·12 all over the district. 0·62 in Midh in Chenab Circle.	1. Available except in Mohar, Thal and hill circles of Khusháb Tahsíl.	Wheat, 18 to 20 seers. Barley, 26 to 30 seers. Bájra, 24 to 26 seers. Gram, 30 to 32 seers. Maize, 22 to 23 seers. Jowár, 24 to 27 seers.	Slight sowings of wheat on well-irrigated land. More rain needed	Cotton being picked. Outturn above average on irrigated and below average on unirrigated lands.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
10	Ráwalpindi ...	1·39 at Sadr ... 2·15 in Gujar Khan 4·01 in Kahúta. 3·53 in Murree.	1. Sufficient ... 2. Good.	Wheat, 18 seers ... Bájra, 22 seers. Maize, 23½ seers. Gram, 26¼ seers. Barley, 32 seers.	Condition of crops average.	...
11	Miánwáli ...	0·07 at Sadr ... 0·07 in Isa Khel. 0·04 in Bhakkar.	1. Procurable in parts. 2. Good.	Wheat, 18 seers ... Barley, 32 seers. Gram, 32 seers. Bájra, 25 seers. Jowár, 35 seers.	Condition of crops average in irrigated areas and below average in Thal. The Kurram Nala is irrigating lands in Isa Khel.	...
12	Multán ...	0·46 at Sadr ... 0·31 in Mailsi. 0·30 in Lodhrán. 0·22 in Shujábad. 0·17 in Kabírwála.	1. Sufficient ... 2. Good.	Wheat, 16¼ seers ... Gram, 25 seers. Maize, 30 seers.	Sowings in progress.	Prospects of crops average. Turnips are being damaged by tela in parts of Multán.

GENERAL REMARKS.

Rainfall.—Rain has fallen all over the Province. The fall was, however, slight in Lahore and Miánwáli.

Prices.—Except for a slight fall in Lahore and Shahpur, the price of wheat is unchanged. Prices of other food-grains show very little fluctuation.

Agricultural operations.—Cotton picking and sugarcane pressing continue in Ambála, Jullundur, Amritsar, Siálkot and Shahpur. Chillies are also being picked in Amritsar. Sowings of spring crops continue in Lahore and Multán and to a slight extent in some other districts.

Crops and outturn.—Recent rain has proved very beneficial to the standing crops. The condition and prospects of these crops is on the whole good on irrigated lands and below average to poor on unirrigated lands. Outturn of autumn crops is reported to be average on irrigated and below average or poor on unirrigated lands in general.

Damage done to crops.—Turnips are still being damaged by tela (insect) in parts of Multán.

Agricultural stock.—Cattle are generally in good condition.

Pasturage.—Fodder sufficient in all districts except in Siálkot (where cattle are being allowed to graze on sugarcane) and in parts of Lahore, Shahpur and Miánwáli Districts.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

R denotes slight rain.

L. A. FRASER, Supdt.,

Office of Director of Land Records and Agriculture, Punjab.

Notes on the Condition and Prospects of Crops, &c., in each District of the Punjab during the month of November 1904.

1.—HISSAR DISTRICT.

Rainfall during the month was very scanty. Sowings on irrigated land going on. Cotton being picked. Rain wanted for rabi sowings on dry land. Cattle in good condition. Fodder sufficient.

2.—ROHTAK DISTRICT.

Sowings of wheat, sarshaf and gochni (wheat and gram mixed) continued on nahri and cháhi lands : gram and sarshaf also being sown to some extent on báráni lands in a few villages of Tahsíl Sámpla, where there had been recent showers of rain. Condition of standing crops on nahri and cháhi lands good. Pressing of sugarcane has commenced in most of the villages. Outturn of cotton has been good : that of sugarcane is also expected to be good. Fodder and water sufficient. Canal water was given by turns and there were no complaints.

3.—GURGAON DISTRICT.

Wheat, gram, tára, barley and rapeseed were sown. Carrots, vegetables and barley were watered in the Rewári Tahsíl. Condition of irrigated standing crops good and that of Báráni fair. Fires broke out in certain villages, but no damage reported. Outturn in Palwal, Nuh and Fírozpur Tahsíls is estimated as follows :—

	PALWAL.			NUH.			FIROZPUR.		
	Cháhi	Dahri.	Báráni.	Cháhi.	Dahri.	Báráni.	Cháhi.	Dahri.	Báráni.

Cotton ...	2	1½	1½	8	6	6	6	...	3

Cattle in good condition.

Fodder sufficient. Agra Canal was closed. No river inundations or floods from hill torrents.

4.—DELHI DISTRICT.

Rabi sowings completed. Kharíf reaping over, except of cotton and sugarcane. The condition of crops was good. Rabi yield is expected to be good. Condition of cattle generally fair. There were complaints of insufficiency of supply of canal water. Stocks of food-grains and fodder sufficient. Prices have increased to some extent in the month. Sugarcane pressing has begun.

5.—KARNAL DISTRICT.

Wheat, barley and poppy were being sown in Tahsíl Thánesar. Crops in fair condition. Hail fell in a few places, but caused no damage. Yield is expected to be average. Condition of cattle good. Crops were being irrigated from wells and canals.

6.—AMBALA DISTRICT.

Rabi sowings finished. Condition of crops ordinary. Expected yield uncertain at present. The condition of cattle generally good.

7.—SIMLA DISTRICT.

Rain sufficient in both tahsíls. In Simla Tahsíl wheat sowings completed: in Kot Khái poppy and wheat being sown. Condition of crops in both tahsíls good. The expected yield cannot yet be stated as the crops have barely sprouted. Condition of cattle good in both tahsíls. Fodder and grain sufficient. Public health good. Water-supply sufficient.

8.—KANGRA DISTRICT.

Some area was sown with wheat, barley, gram, rapeseed and poppy. The condition of kharíf crops was good. Nothing can be said at present about the rabi crops. There was sufficient water in kuhls for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

The rabi sowings were completed during the month. The area brought under wheat is about 4 per cent. larger than that of last year. The condition of the sugarcane and cotton which are being harvested is good. The young rabi also promises well. The yield of sugarcane and cotton is expected to be about the average or 100 per cent. The condition of cattle was generally good. Fodder sufficient The supply of water in the Shah Nahr and other zamíndári canals and hill torrents were sufficient, and the usual area was irrigated during the month.

10.—JULLUNDUR DISTRICT.

Rabi ploughings and sowings were continued throughout the month. Maize and cotton average; others below average. Rabi prospects good. Cattle in good condition. Public health good.

11.—LUDHIANA DISTRICT.

Rabi sowings completed. Sugarcane and cotton crops in good condition. The outturn of kharíf crops was good, but fodder crops suffered slightly from rain. Cattle in good condition. Irrigation from canals fairly satisfactory. Prices nearly stationary.

12.—FEROZEPORE DISTRICT.

Rabi crops were sown on irrigated lands. Unirrigated area sown during the month was very small. Condition of standing crops was good. Yield depends on future rains. Cattle were generally in good condition. The Sirhind Canal was in flow during the month and a normal area was irrigated. Agriculturists were generally well off. Stocks of food-grains and fodder sufficient. Green fodder not available. Prices stationary.

13.—MONTGOMERY DISTRICT.

Wheat and barley sowings were in progress. Condition of crops average. Expected yield nearly average. Condition of cattle generally good. Fodder not sufficient. Public health good. Canals all dry. Very little water in the rivers. Many people of the Ravi Tahsíls owing to scarcity are going to the Chenab Colony.

14.—LAHORE DISTRICT.

Wheat, gram, barley and senji were sown on irrigated lands, but as there was no appreciable rain during the month nothing was sown on unirrigated lands. The state of the rabi crops already sown was average and so was that of sugarcane and cotton. The expected yield of the kharíf crops on irrigated lands is only average, but that of the unirrigated crops is far from good, being much below the average. The condition of cattle was good except in the Sharakpur Tahsíl, where scarcity of fodder was felt and the proprietors had to migrate with their cattle to other districts. The distributaries ran by rotation on the Bári Doáb Canal, and the inundation canals were all dried up during the month. The prices of food-grains were stationary and there were no exports to Europe.

15.—AMRITSAR DISTRICT.

More rain badly wanted. Picking of cotton and pressing of sugarcane in progress. Standing crops, kharíf and rabi on irrigated area good, sailáb average, báráni below average. Outturn of kharíf crops average. Condition of cattle good. Fodder and food sufficient. No complaints of deficiency of canal water.

Bhakkar and Leiah Tahsíls.—Owing to recent rain sowings have been in progress for the rabi crops. Condition of crops fair. The outturn of last kharif was less than average. Fodder scarce in Thal. In katcha tracts fodder procurable. Condition of cattle fair. Public health good. River was low. Prices stationary. There was a hailstorm over the northern part of Leiah Tahsíl causing slight damage to crops.

25.—JHANG DISTRICT.

Rain was general and very beneficial to the crops. Wheat and barley still being sown. Cháhi and canal crops average. Sáilab and báráni below average. Jowár and cotton gathered: cotton yield 5 maunds per acre; jowár 6 maunds per acre. Fodder sufficient. Canals flowing. Water sufficient in rivers.

26.—MULTAN DISTRICT.

Sowings of wheat and turnips in progress. Condition of crops average. Til being cut and cotton crop being picked in Mailsi and Lodhrán. Expected yield below average. Condition of cattle good. Canals dry except Sardárwah and Muhammadwah of the Lower Sutlej Series.

27.—MUZAFFARGARH DISTRICT.

A little over $\frac{3}{4}$ths of the wheat sowing has been completed. The sowings being of recent date nothing can be stated under this head at present. Expected yield of the rabi harvest cannot be stated at present; the yield of cotton and sugarcane is average. Public health good. The canals were dried up and there have been no floods. Fodder sufficient.

28.—DERA GHAZI KHAN DISTRICT.

Sowing practically complete. No sowings in Pachádh. Kharíf has been poor on the whole. It is now cut except for some cotton. Jowár and bájra in Pachádh Circles still standing. Perhaps 6-anna crop on the whole for jowár and bájra. Cotton has fruited well and has produced a crop above average on the area matured, but for want of moisture it was very little grown on Pachádh soils. A 16-anna crop may be estimated. Condition of cattle good, but fodder is scarce except in Rájanpur and a few lucky Pachádh villages which received hill torrent water. Public health good. All canals and torrents dry except the Kutab Canal, which is working and which will be most beneficial to the rabi near Rájanpur.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 20th December 1904.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 10th December 1904 there were 1,390 births registered in the 42 large Municipal towns (721 males and 669 females), giving a birth-rate of 51 *per mille* of population, and 1,365 deaths were registered (691 males and 674 females), giving a death-rate of 50 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 63 against 42 in the corresponding week of the previous year, Lahore 25 against 44, Amritsar 35 against 92, and Multán 27 against 40 There were 133 deaths reported from plague in Bhiwáni, 81 in Rohtak, 35 in Jhajjar, 24 in Rewári, 18 in Ambála, 17 each in Shahabad and Gujránwála, 14 in Tánda Urmar, 13 in Delhi, 8 in Amritsar, 3 each in Jagádhri, Lahore, Batála and Khusháb, and 2 each in Palwal, Hoshiárpur, Ráwalpindi and Chiniot. Of the 6 deaths from small-pox, 3 were registered in Amritsar, and 1 each in Jhajjar, Lahore and Siálkot.

Deaths reported from plague during the week ending 17*th December* 1904 *in the districts, including all Municipal towns.*—Jullundur 172, Hoshiárpur 267, Gurdáspur 203, Siálkot 11, Ludhiána 39, Lahore 31, Ambála 220, Ferozepore 98, Amritsar 241, Gujrát 30, Jhang 1, Gujránwála 131, Ráwalpindi 8, Shahpur 6, Karnál 50, Gurgaon 771, Hissar 170, Rohtak 151, Jhelum 8, Delhi 28, and Montgomery 5; Patiála State 244, Jínd State 7, and Nábha State 30. Total for the Province 2,9[illegible]2. Total for the corresponding week of the previous year 1,168. The returns received from the districts of Siálkot and Ludhiána for the previous week show 20 and 47 deaths from plague.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ferozepore ...	...	1. Sufficient. Green fodder not available. 2. Generally good.	Wheat, 17½ seers Barley, 29 seers. Gram, 34 seers. Jowár, 30 seers. Bájra, 22 seers. Maize, 38 seers.	Sowings practically finished. Condition of standing crops good. Crops in Fázilka Tahsíl slightly damaged by rats.	...
6	Lahore ...	...	1. Sufficient on irrigated lands, but scarce elsewhere.	Wheat, 16 to 19 seers. Barley, 32 to 34 seers. Gram, 28 to 29 seers Rice, 4 to 11 seers.	Crops are being irrigated by wells and canals. Condition of standing crops average.	...
7	Amritsar ...	...	1. Sufficient, except in baráni tracts. 2. Good in irrigated areas; deteriorating in unirrigated.	Wheat, 18½ seers Gram, 32½ seers. Maize, 30 seers. Bájra, 25 seers.	Rain badly wanted Sowings in progress.	Picking of cotton and chillies nearly finished. Pressing of sugarcane and harvesting of toria in progress Outturn on unirrigated areas below average; on irrigated average.
8	Siálkot ...	...	1. Insufficient. Sugarcane being grazed instead 2. Generally good.	Rice, 11 to 12 seers. Wheat, 16½ to 19 seers. Gram, 25 seers. Barley, 31 seers. Maize, 26 seers.	Rain badly wanted. Sowings finished. Condition of standing crops average on irrigated and poor on unirrigated areas.	Picking of cotton and pressing of sugarcane continue: outturn average in cháhi and bad in baráni lands. Cutting and threshing of toria going on: outturn average.
9	Shahpur ...	...	1. Turnips and dry fodder available, except in Mohar, Thal and hill circles of Khusháb Tahsíl.	Wheat, 18 to 20 seers. Barley, 26 to 30 seers. Gram, 30 to 32 seers. Bájra, 23 to 26 seers. Jowár, 26 to 27 seers. Maize, 23 seers.	Wheat being sown on irrigated lands. Rain wanted.	Sugarcane and cotton being gathered. Outturn above average on irrigated and below average on unirrigated lands.

No.	Reporting Station.	Rain.	1. Supply of fodder. 2. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
10	Ráwalpindi ...	...	1. Sufficient ... 2. Good.	Wheat, 18 seers ... Bájra, 22 seers Maize, 23½ seers. Gram, 26¼ seers. Barley, 32 seers.	Condition of crops average.	...
11	Miánwáli ...	...	1. Not easily procurable in Thal. 2. Good.	Wheat, 18 seers ... Barley, 32 seers. Gram, 32 seers. Bájra, 25 seers. Jowár, 35 seers.	Condition of crops average. The Kurram Nala in Isa Khel and Wahil Nala in Musa Khel are irrigating lands.	...
12	Multán ...	...	1. Sufficient ... 2. Good.	Wheat, 16¼ seers ... Gram, 25 seers. Maize, 30 seers.	Sowings completed	Prospects of standing crops average. Turnips are being damaged by "*tela*" (an insect) in parts of Multán Tahsíl.

GENERAL REMARKS.

Rainfall.—Nil.

Prices.—Except for a slight rise in the price of wheat in Delhi and Ferozepore and a fall of 16 seers in the price of jowár (great millet) in Ambála, the prices of all food-grains have remained unchanged.

Agricultural operations.—Sowings of spring crops practically completed in Hissar, Ferozepore, Siálkot and Multán; in progress still in Amritsar and Shahpur. Cotton-picking and sugarcane-pressing continue in Ambála, Jullundur, Amritsar, Siálkot and Shahpur. Picking of chillies nearly finished in Amritsar.

Crops and outturn.—The condition and prospects of standing crops are reported to be good in Delhi, Ambála, Jullundur and Ferozepore, and average in Lahore, Ráwalpindi, Miánwáli and Multán. The condition in Siálkot is average on irrigated and poor on unirrigated lands. Outturn of autumn crops is reported to be average on irrigated and below average or poor on unirrigated lands in Amritsar, Siálkot and Shahpur, where rain is badly wanted.

Damage done to crops.—Turnips are still being damaged by "tela" (an insect) in parts of Multán. Crops have been slightly damaged by rats in Fázilka Tahsíl of Ferozepore.

Agricultural stock.—Cattle are generally in good condition except in unirrigated areas of Amritsar where their condition is deteriorating.

Pasturage.—Fodder sufficient in all districts except in parts of Lahore, Amritsar, Siálkot (where cattle are being allowed to graze on sugarcane), Shahpur and Miánwáli Districts.

L. A. FRASER, SUPDT.,

Office of Director of Land Records and Agriculture, Punjab.

H. M. HARRISON, Head Assistant,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

NINETY-ONE THOUSAND S VEN HUNDRED AND SIX births were registered in the Province during the month of November 1904, giving a birth-rate of 56 per *mille* of population. Of the total number of births, 48,110 were boys and 43,596 were girls.

The total number of deaths registered from all causes in the Province during the month of November 1904 was 61,8 2 against 56,773 in the previous month, and 105,114 in the corresponding month of the past year, giving an annual death-rate of 37, 33 and 64 per *mille* of population per annum, respectively.

There was not a single death registered under the head of cholera. The total mortality from plague amounted to 6,744 against 2,117 in the previous month, and 4,228 in the corresponding month of the past year. From small-pox 240 deaths were registered against 171 in the previous month and 667 in the corresponding month of the past year; fevers 35,434 against 34,894 and 75,562; dysentery and diarrhœa 1,211 against 1,323 and 2,013; respiratory diseases 4,(90 against 4,039 and 6,403. During the month there were 17 deaths registered from suicide against 29 in the p st month; wounding 24 against 37; accidents 258 against 274: snake-bite and killed by wild beasts 44 against 122; and from all other causes 13,150 against 13,767 in the previous month, and 15,891 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 27th December 1904.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901

SANITARY COMMISSIONER'S OFFICE,
LAHORE :
The 27th December 1904.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 17th December 1904 there were 1,236 births registered in the 41 large Municipal towns (618 males and 618 females), giving a birth-rate of 51 *per mille* of population, and 1,327 deaths were registered (650 males and 677 females), giving a death-rate of 54 *per mille* of population. The death-rates registered in the three largest towns were as follows :—Delhi 60 against 55 in the corresponding week of the previous year, Lahore 29 against 39 and Multán 38 against 29. There were 123 deaths reported from plague in Bhiwáni, 68 in Rohtak, 38 in Jhajjar, 25 in Delhi, 24 in Tánda Urmar, 19 each in Rewári and Gujránwála, 13 each in Palwal and Ambála, 9 in Shahabad, 7 in Lahore, 6 in Hoshiárpur, 5 each in Jagádhri and Khusháb, 4 in Hissar, 3 in Ráwalpindi, 2 in Batála, and 1 each in Karnál, Ludhiána, Gujrát and Chiniot. Of the 10 deaths from small-pox, 7 were registered in Siálkot, and 1 each in Bhiwáni, Jagraon and Ferozepore.

Deaths reported from plague during the week ending 24th December 1904 *in the districts, including all Municipal towns.*—Jullundur 178, Hoshiárpur 272, Gurdáspur 288, Siálkot 41, Ludhiána 28, Lahore 51, Ambála 342, Ferozepore 78, Amritsar 280, Gujrát 49, Lyallpur 25, Gujránwála 179, Ráwalpindi 8, Shahpur 8, Karnál 97, Gurgaon 873, Hissar 204, Rohtak 201, Delhi 98, Montgomery 6; Dera Gházi Khan 24 and Miánwáli 2; Patiála State 412, Kapurthala State 171, Jínd State 10 and Nábha State 15. Total for the Province 3,940. Total for the corresponding week of the previous year 1,344.

H. M. HARRISON, HD. ASST.,
for *Sanitary Commissioner, Punjab.*
